

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

(1). The Senate may from time to time resolve itself into a Committee of the Whole. Whenever any matter shall be referred to such Committee, upon the adoption of a motion to that effect, the President shall call some member to take the chair, (unless the Senate shall nominate a chairman), which being done, the Senate shall then be in Committee.

(2). The Clerk of the Senate shall act as Clerk of the Committee of the Whole without extra compensation, and shall make a careful record of the proceedings of the Committee in a rough memorandum book, which book shall be kept as one of the records of the Senate.

(3). The Committee may, on motion, rise and ask leave to sit at any future time.

RULES IN COMMITTEE OF THE WHOLE.

In Committee of the Whole, the rules of procedure in the Senate shall be observed excepting that any member may speak more than once on the same subject, but no person shall speak a second or further time until others desiring to speak shall have had an opportunity, nor shall the motion for the previous question be allowed. A time limit for debate may be fixed by vote.

COMMITTEE REPORTS.

(1). The Standing Committees shall report from time to time upon all matters referred to them.

(2). Select Committees shall report within five days upon matters referred to them, unless further time is given by vote of the Senate.

(1). Whenever any matter shall be referred to a Committee, it shall be the duty of that committee to make diligent inquiry into all of the facts and circumstances connected with the matter. If necessary, witnesses shall be summoned and examined; documents and records shall be searched, and everything shall be done to bring all facts pertaining to said matter before the Senate.

(2). The report shall state findings of fact and conclusions based, thereon, together with a distinct recommendation as to the disposal of that matter.

Whenever a Committee shall be ordered to perform a particular service, or one shall be appointed therefor, the service shall be performed exactly according to the requirements.

Whenever a Committee fails to agree, the majority shall report and it shall be the report of Committee. The minority may report or simply write upon the report of the majority the words "I" or "We do not concur," signing the same.

VOTING.

There shall be four methods of ascertaining the decision of the Senate upon any matter.

(1). First, by raising of hands; Second, by ballot; Third, by rising; and Fourth, by call of the roll of the members and a record by the Clerk of the vote of each.

(2). The first shall be the usual and ordinary method. Whenever the Senate shall be ready to vote on any question, the President shall rise; and, after stating the question, shall request all those in favor of the affirmative of the question to raise the hand. After the Clerk shall have counted the number voting in the affirmative, which he shall report to the President, the President shall then call upon all voting in the negative of the question to raise their hands. The Clerk shall count them as before, and state the number to the President, who shall then announce the result to the Senate. If there be a tie vote, the President shall decide. If not—and in all cases—he shall declare the result of the vote.

(3). If any member shall doubt the result, as announced, the President shall again state the question and call upon the members to vote by rising in their places, and they shall remain standing until counted, and the result shall be again announced.

(4). The method of voting by ballot shall be as customary. The President shall appoint one or more tellers, or direct the Messenger to collect the ballots, which shall be counted by the Clerk, and the result announced as before. All officers of the Senate shall be elected by ballot. The Senate may, on motion, vote upon any other question by ballot.

(5). Whenever one-fifth of the members present shall request, the Clerk shall call the roll of the members of the Senate. Each member, when called shall vote in a clear, loud voice, "Aye" if voting in the affirmative, or "No" if voting in the

negative. The Clerk shall record each vote, and such record shall become a part of the Journal of the Senate. The President shall announce the result as above set forth.

39

(1). No member shall, on any account, refrain from voting unless excused by the Senate.

(2). No one shall be permitted to vote upon any question where he shall have any pecuniary interest in the result, or which will affect his right or title to a seat in the Senate, or wherein his official conduct shall be involved.

(3). Whenever the Ayes and Noes are called, no one, without unanimous consent, shall be permitted to explain his vote.

(4). After the announcement by the President of the result no one shall be allowed to vote or to change his vote.

40

PETITIONS, MEMORIALS AND ADDRESSES

(1). All persons may petition the Senate. Petitions and other memorials shall be in writing, signed by the petitioners.

(2). All petitions, memorials and other papers addressed to the Senate shall be presented by the President, or by a member in his place, and shall be endorsed with the name of the person presenting, and the subject matter of the same.

(3). A brief statement of the contents of such petitions, memorials or other papers shall be made verbally by the introducer, before the same shall be received and read at the table.

(4). Every such petition, memorial or other paper shall be referred, as of course, by the President, without putting a question for that purpose, unless the reference is objected to by a member at the time such petition, memorial or other paper is presented.

(5.) No such petition, memorial or other paper shall be debated on the day it is presented, unless by the consent of the Senate.

41

OF RESOLUTIONS AND MOTIONS.

All resolutions shall be written in ink or typewritten upon

letter cap paper, dated and signed by the introducer, otherwise they shall not be considered. Motions and Amendments, except as below provided, may be verbal but shall be reduced to writing if requested by the President, and shall be read from the desk if so desired.

42

No motions shall be received and considered by the Senate until the same shall be seconded.

43

After a motion is stated or read by the President, it shall be deemed in the possession of the Senate, and shall be disposed of by vote of the Senate. However, it may be withdrawn by the mover at any time before a decision or amendment.

44

Whenever any question whatsoever shall be under discussion, the only motions relative thereto shall be:

- (1). To lay on the table.
- (2). To postpone to a certain time.
- (3). To postpone indefinitely.
- (4). To commit, and
- (5). To amend.

which motions shall have precedence in the order above named.

(1). The first two motions shall be decided without debate and shall be put as soon as made.

(2). When any of said motions shall be decided in the negative neither shall be revived the same day relative to the main question under discussion. If all are negative as aforesaid the only remaining question shall be as to the adoption of the bill, resolution or other main question.

45

When a question is postponed indefinitely, the same shall not be acted upon again during the session in which it was introduced.

46

When a bill, resolution or other matter has been laid upon the table, it shall not thereafter be taken therefrom and be considered or restored to a place upon the calendar of the Senate, without the consent of a majority.

47

No member shall speak more than twice, unless he be the mover of the matter pending; in which case he shall be permitted to speak in reply, but not until every member choosing to speak shall have spoken.

48

The object of the motion for the Previous Question is to cut off debate. It shall always be in order. It shall require a two-thirds vote to carry it.

Whenever the motion shall be carried, the author of the resolution or introducer of the bill being the main subject under discussion, shall be permitted to close the debate, after which the main question, subject to order named in Rule 46 shall be put; provided, that said author may delegate to another such right to close.

49

RECONSIDERATION

(1). When a motion has been once made and carried in the affirmative or negative, it shall not be in order for any member who voted in the minority to move for a reconsideration thereof; but any member who voted with the majority may move to reconsider it on the same or the succeeding day of session; and such motion shall take precedence of all other questions, except a motion to adjourn.

(2). When a motion for re-consideration has been decided, that vote shall not be reconsidered.

(3). When a bill, resolution or other matter upon which a vote has been taken shall have gone out of the possession of the Senate, and be communicated to the House of Representatives, a motion to reconsider shall be accompanied by a motion to re-

quest the House to return the same, which last motion shall be acted upon at once without debate and, if determined in the negative, it shall be a final disposition of the motion to reconsider.

(4). If a like motion shall be passed in the House and such request be made of the Senate, the bill or other matter desired shall be immediately returned to the House.

50

A motion to adjourn other than a motion to adjourn generally may be debated, but no one shall speak more than once on such motion.

A motion to adjourn is always in order, and shall be decided without debate; one motion to adjourn shall not follow another without intervening business.

A motion to adjourn without naming any time shall always be held as an adjournment to the regular hour of meeting of the next business day.

51

OF BILLS

Any bill may be introduced on the report of a Committee, or by any member after giving a notice of intention to introduce a bill.

52

One day's notice at least, shall be given of an intention to introduce a bill by its title; and the motion shall be made and the bill introduced, when resolutions are called for. A bill introduced by a Committee upon a report shall not require a prior notice.

53

Every bill shall receive three several reading previous to its being passed; and the President shall give notice at each whether it be first, second or third reading—which readings shall be on different days.

54

(1). The first reading of a bill shall be for information; and, if opposition be made to it, the question shall be: "Shall this bill be rejected?" which question may be debated. But no one shall speak more than once upon such debate, except the introducer of the bill, who may close the discussion.

(2). If the question to reject be negatived, the bill shall go to its second reading without question, provided, however, that a motion to order a bill printed shall be in order upon its first reading.

55

(1). A bill upon its second reading shall be read throughout, unless it be printed and in the hands of members, when, on motion, it may be read by its title only. It shall then be subject to either of two motions, viz: to commit or be typewritten. If it is not referred to a Select or Standing Committee, but is ordered to be considered in Committee of the Whole a day for such consideration shall be fixed. When the bill shall be reported from Committee, if not then ordered to be typewritten, it shall take its place in the order of business for future consideration.

(2). If a bill is not committed, the same may be, on motion, ordered to be typewritten; upon this motion the bill may be discussed upon its merits, and amendments may be made.

56

A bill upon its third reading shall be read throughout, and the President shall then ask the Senate: "Shall this bill pass its third reading?" But such bill may be re-committed or amended on its third reading. Upon the final passage of any bill, the Ayes and Noes shall be called and such passage shall require the affirmative vote of a majority of all the members of the Senate, and the Ayes and Neos shall be entered on the Journal.

57

All bills shall be deemed the property of the Senate, and under its control until they shall become law, subject to the right of the House of Representatives to amend or refuse to agree with the same.

58

All amendments proposed to any bill shall be in writing, unless otherwise ordered by the Senate, and shall be sent to the Clerk's desk to be filed with the bill.

59

When a bill is passed it shall be certified by the Clerk, noting the day of its passage at the foot thereof.

60

When a bill shall be referred to Committee of the Whole, the bill shall be first read throughout by the Clerk, and then again read and debated by sections, leaving the preamble to be the last considered. The body of the bill shall not be defaced or interlined; but all amendments, noting the page and line, shall be duly entered by the Clerk on a separate paper, as the same shall be agreed to by the Committee and so reported. When a bill is ordered into Committee of the Whole, such order may dispense with the reading of the whole bill before considering it section by section.

61

Whenever a bill which has finally passed the House of Representatives shall be certified to the Senate for its action, such bill shall be read three times before final passage, in accordance with the provisions of the rules for the passage of bills introduced in the Senate.

62

When a bill originating in the Senate shall have passed its third reading, or when a bill which has been sent in from the House shall have been amended, such bill, or such amended bill, shall immediately be certified by the President and Clerk and sent to House of Representatives for its consideration.

63

Upon motion by Senator Chillingworth, seconded by Senator J. T. Brown, consideration of the foregoing Message from the Governor was deferred until 2 o'clock tomorrow afternoon and the Clerk was instructed to furnish the Members of the Senate with copies of the same.

Senator C. Brown presented Concurrent Resolution (No. 3) which was read by the Clerk, as follows:

CONCURRENT RESOLUTION.

WHEREAS, Henry Smith, as Trustee under the Will of Richard Meek, deceased, for Mrs. Maud Stein, Richard Reuter, Eli Meek Crabbe and Richard Meek, is the owner of a part or portion of the land set forth and described in deed of His Majesty Kamehameha III to John Meek, dated September 3, 1839, recorded in the Office of the Registrar of Conveyances in Liber 3 at page 192, and the Dowsett Company, Limited, an Hawaiian Corporation, is the claimant of the remainder thereof, and

WHEREAS, the predecessors in title and estate to the parties named have been peaceably and openly in possession of said property since long prior to September 3, 1839, paying taxes thereon and all government charges assessed against said premises, and

WHEREAS, the said John Meek, after the execution of said deed by Kamehameha III to him as aforesaid did within the time prescribed by law present his claim for a Land Commission Award thereon to the then Board of Land Commissioners, and

WHEREAS, it appears by the records in the Department of Public Lands and in the decisions of the Supreme Court of Hawaii that upon the presentation of the claim of said Meek based upon said deed as aforesaid, said Commission caused said deed to be acknowledged by His Majesty Kamehameha III

and said deed so acknowledged as aforesaid was filed with said Commissioners, together with a survey of said land in said deed described, and

WHEREAS, it appears that a Land Commission Award was not granted upon said claim of said Meek for the reason that he was advised by said Land Commission that an award thereon was unnecessary; that "they could give no better title than he already had", and

WHEREAS, the said Meek did act upon the advice of said Board so given as aforesaid and did withdraw his claim for an award to the land in said deed described, and

GOVERNOR'S MESSAGE.

Territory of Hawaii,
Executive Chamber,
Honolulu, February 15, 1911.

TO THE LEGISLATURE:

The last two years have been the most prosperous of the ten since the establishment of Territorial Government.

Crops and prices have been good; industries have grown in number and extent. During the ten years the population of the Territory has increased nearly 25 per cent and of Honolulu nearly 33 per cent. Territorial receipts exceeded expenditures during the last fiscal year by \$416,582.87; the net general cash balance at the close of the year, after deducting all outstanding warrants, was \$698,970.96, as compared with a deficit of nearly as much five years previously; the total receipts were \$3,641,245.35, as compared with \$2,140,297.36 ten years ago. Imports and exports for the year aggregated \$71,624,659, as compared with \$30,880,478 ten years ago, the increase being \$9,678,175 for the last year alone. The assessed value of property was \$150,268,467, an increase of \$11,357,647 for the year, or \$29,095,539 for the ten years of Territorial Government, and of \$94,014,025 for the twelve years since annexation. Bank deposits were \$13,324,305.54, as compared with \$4,662,131.17 ten years ago, the increase being \$3,666,486.33 for the last year alone.

All this is most gratifying and encouraging, and yet, strange as it may seem, the status of the public finances is such as to require most careful thought in order to avoid another period of financial deficiency at an early date.

FINANCES.

The Situation. The government cannot, any more than a private enterprise, be successfully financed on mere wishes, good intentions or optimism. The businesslike or scientific method is absolutely essential to safety and progress. Action must be based on ascertainment of the naked facts and logical deductions from them. The assumption on the part of some that because there was a net balance of \$753,097.72 on December 31, 1910, there is plenty of money for all purposes and that the only question is how to spend it, illustrates the proverbial danger of a surplus, because it inspires extravagance and blinds to facts.

In the first place, the real surplus for purpose of increasing appropriations is the cash balance immediately before the bulk of the revenues come in and not shortly afterwards, for the

government has to be maintained until the next revenue season, or, speaking with reference to present conditions, for a third of a year from the 31st of last December until the next semiannual payment of taxes. In the second place, not only should allowances be made for maintaining the government from one tax-paying period to the next, but there should, if possible, be maintained a surplus as a margin for emergency expenditures and temporary reductions in revenues. In the third place, the real meaning of the apparent surplus and the possibilities of what may safely be done with it, must be ascertained by an analysis of its causes and an investigation as to the probability of a continuation of such causes.

There were special reasons for a large increase in revenue during the last two years which will not hold for the coming two years, and other reasons which will make necessary an increase in running expenses which should use up the greater part of the real surplus. For instance, owing to the high price of sugar, the general income taxes amounted to \$437,033.92 during the last fiscal year, or \$158,917.22 more than average for the nine years during which those taxes have been collected, or \$43,093.43 more than they had ever been before. While they will fall off little, if any, during the present year, because this year's taxes are based on last year's income, they will fall off heavily next year because of the low price of sugar this year. Again, owing to an unusually large number of deaths of wealthy people, the inheritance taxes yielded during the last fiscal year \$150,153.11, as compared with an average of only \$21,827.87 for the ten years during which those taxes have been collected, which average itself is, because it includes the large receipts of last year, larger than the entire amount received in any preceding year. Again, during the last fiscal year the revenues from both sales and rents of public lands were unusually large; and, owing to the recent amendments of the Organic Act, the sales must necessarily be smaller hereafter, the rents may be considerably reduced by the withdrawal of cane lands for homestead purposes, and a considerable portion of the revenues must be used for surveying and opening lands for homestead purposes, as provided in those amendments. Again, during the last two years a special effort was made to collect back rents, taxes and other government claims, which has resulted in an increase of revenue to the extent of perhaps \$100,000, which cannot be counted on for the coming period because such claims have now been collected pretty well up to date. Again, in view of the stringency two years ago the whole financial situation was gone over most carefully with a view not only to the discovery of new sources of revenue and permanent

methods of economy, but with a view to cutting down appropriations as much as possible until financial conditions should improve, with the result that many appropriations were reduced below the point of permanent safety, so that now they should be restored or increased in order merely to "catch up" as well as to meet growing needs which cannot be avoided.

It will readily be seen that with the absolutely necessary increase in expenditures for the coming biennial period and the absolutely certain large falling-off in the revenues, there will be comparatively little surplus available for permanent improvements out of general revenues.

Estimates of Expenditures for next biennial period. These, for both current and loan funds, will be submitted in a separate message.

Permanent Improvements. It is evident from the foregoing that permanent improvements during the coming period must be provided for mainly out of loan funds. So little has been done in this direction for several years past that there is

pressing need that much shall be done during the next few years. Only \$494,000 of bonds have been issued during the last five years as compared with \$3,350,000 during the previous two and a quarter years. The total amount of bonds now outstanding is \$4,029,000 or only 2.68 per cent of the assessed value of property. Redemptions to the amount of \$130,000 have been made during the first eighteen months of this biennial period. The permanent improvements required will be considered more particularly elsewhere in this message, under the appropriate headings, and perhaps also in a special message, but in general it may be stated here that the principal needs are for wharves, the Honolulu water and sewer works, buildings for territorial institutions, such as Oahu Prison, the Insane Asylum, the Kapiolani Girls' Home, and the Boys' and Girls' Industrial Schools, buildings for the public schools, whether constructed by the Territory or by the Counties, and belt roads.

Any bonds that may be issued for the Honolulu water and sewer works can be paid, principal and interest, from the revenues of those works, as is the case with the bonds now outstanding which represent those works. The same is true in a sense as to bonds that may be issued for wharves, to the extent that the wharves are revenue-producing, for although their revenues are not applied directly to the payment of the bonds, they add to the general funds and thus furnish the means of paying them. As to buildings required for territorial institutions, which are not revenue-producing, assuming that they cannot be provided for entirely out of the general revenues, the amount of bonds that will be required will be comparatively small. As to public school buildings, if their maintenance is to remain with the counties, their construction also, whether by the counties directly or through the Territory, as in the case of the Kula Pipe Line, should be financed by the counties. The same is true also of roads.

Road Finances. It is generally supposed that \$400,000 should be appropriated from the surplus for belt roads. There will not be \$400,000 of surplus available for this purpose, unless needs that are both more pressing and morally better entitled to the surplus are neglected, or are provided for otherwise. The first claims upon the surplus are those of the long-neglected and growing needs of the Territorial Government and especially the needs of such territorial institutions and buildings as the Industrial schools, the insane asylum, the prison and the Judiciary Building. Not only is it a territorial surplus, the counties having practically no surplus although they have shared in the increase in revenues, but it has been accumulated largely at the expense and through the neglect of

these territorial needs, and these needs are more urgent than those of belt roads. Why take from these superior needs what naturally belongs to them and devote it to other needs, only to make necessary a continued neglect of the former or an increase in taxes or an issuance of bonds to provide for them? Why not issue bonds for belt roads directly? Moreover, the need of belt roads is so extensive that \$400,000 would make scarcely an impression. The County of Hawaii alone out of its comparative property expended nearly half that amount on roads last year alone, and how much is there to show for it as compared with the needs? The City and County of Honolulu spend nearly three-fourths of that amount on roads. All the counties spent at the rate of nearly four times that amount for a biennial period for roads. If this need is to be met at all adequately it must be by the issuance of bonds on a larger scale, in which case it would be simpler and more logical to provide for the entire amount in that way, rather than to split it up by borrowing part of it and appropriating part of it from the general funds, and then borrowing more to provide for other needs that should be met out of the general funds.

Whether the counties should issue the bonds, or, as in the case of the Kula Pipe Line, the Territory should do so for the counties, is a question that should be carefully considered. It would doubtless be more economical if the Territory should do it because it could probably do so at lower rates of interest. But in either case the bonds should not be issued unless definite provision is also made for meeting sinking fund and interest. What provision would be best for that purpose will be discussed under the heading "Taxation" in this message. Nor should such bonds be issued unless the proceeds are to be expended, as in the case of the Kula Pipe Line, by the Territory or unless adequate provision is made for insuring a wise and economic expenditure of the proceeds by the counties, and unless also definite provision is made for the proper upkeep of the roads, for it would be foolish in the extreme and unjust to the future which must pay the bonds, to permit the incurrence of so great an obligation without making sure that the intended benefits would be realized. Following the growing sentiment on the mainlands, already embodied in legislation in a number of states, there should be enacted a comprehensive, carefully safeguarded law insuring proper methods of construction and maintenance of public highways.

Appropriation Bills. Two years ago a great advance was made in the form of the general appropriation bill in many respects. I suggest that the policy be adopted of providing only for current expenses in the general appropriation bill, and

providing for all permanent improvements in a separate bill. This will not only be a matter of convenience, but it will draw a sharp line between the two classes of expenditure, with consequent good moral results such as a better sense of financial responsibility and a fuller realization of the relation between revenue and expenditure.

Regulation of Expenditures. The law relating to expenditures of public money should be amended in several respects. The limitation of the amount to which expenditures may be made without contracting after advertising for tenders may well be raised from \$500 to \$1,000; the provision would still cover practically all cases where contracting after advertising should be required; other cases should be discretionary to be governed by the circumstances.

Another exception to the limitations should be added so as to permit expenditures to be made, with the approval of the Governor in the case of the Territory and the Board of Supervisors in the case of a county or city and county, in excess of such sum without contracting, when the work is of such a nature that its extent or character cannot be known or specified beforehand with reasonable certainty, or when no tender is received in response to the advertisement.

There should be some limitation upon the counties and city and county, as there is upon the Territory, with reference to the construction as distinguished from the repair of roads, even if it is only a requirement that when the amount involved is more than \$1,000 the county or city and county, even though it performs the work itself, shall first advertise for tenders and, if it rejects them, shall keep a full account of the cost and upon completion of the work publish the cost and the amounts of the rejected tenders.

There should also be a strict provision to prevent any county officer who has anything to do with the letting of a contract or the performance of work for the county from being financially interested in it, directly or indirectly.

There should also be a provision against the anticipation of revenues by counties, that is, the incurrence of obligations in excess of revenues for a given period.

Authority should be given to certain territorial officers to make rules, not inconsistent with law, further controlling and regulating the expenditure of territorial moneys, corresponding to the regulations made by the departments of the Federal Government in regard to traveling and other expenses.

The time within which warrants may be presented for payment, should be limited, as, for instance, to the next biennial period after that in which the warrants are issued. There are now outstanding warrants amounting to several thousand

dollars, covering a period of about thirteen years. Somewhat similar provisions are found in the County and Municipal Acts, and claims against the Territory are barred in two years.

TAXATION.

The receipts for the last fiscal year exceeded those for the first year of Territorial Government by more than one and a half million dollars, or 70 per cent, and those of the first year of annexation by more than a million dollars, or 42 per cent, notwithstanding that the customs receipts had not then been transferred to the Federal Government. Since annexation the general property taxes alone have increased by more than the entire amount of customs receipts at that time. There have been large increases in revenues from other sources also, as for instance, from the public lands and from the general and special income and inheritance taxes, which began after annexation. There should, therefore, be ample funds both for current expenses and permanent improvements. And yet even during the last few years of unusually large revenues, very little of the general funds have been used for permanent improvements; and ordinary expenses have had to be cut down to the quick, in order to avoid a deficit. Why?

During the first five years of Territorial Government, owing to large expenditures and the loss of customs receipts, a surplus of about \$700,000 was expunged and a deficit of about equal amount was accumulated. That deficit was then expunged, not, as commonly supposed, by the severe cuts made in expenditures at that time, for that did little more than bring expenditures within revenues, but by changing the times of collection of taxes so as to obtain an extra half year's taxes in one fiscal year: in other words, by increasing the rate of property taxes for that year by 50 per cent, not to mention the imposition of the general income tax a few years previously. How about the last five years?

It is true, the needs of the Territory have increased, because this is a growing country, and yet for some of these needs appropriations have been reduced absolutely and for others relatively to the needs and to the increases in revenue; for instance, the school population has increased two-thirds faster than the expenditures for public schools. The prime cause of the difficulty has been the establishment of local governments. This has necessarily involved additional governmental machinery; for instance, the salaries and incidental expenses of the mayor, supervisors and clerks alone, who are entirely new officers, amount to about \$85,000 in a biennial period. Local government has also necessarily in-

volved much duplication of governmental machinery; as, for instance, by requiring five treasurers', auditors' and attorneys' offices instead of one. The additional four offices of these three classes cost an additional \$110,000 in a biennial period. But this is not all. The Legislature limits the amounts that can be expended for Territorial needs of an elastic nature, but places no limitations upon the amounts that may be expended by local governments in such cases; the only limitation is the amount of money available, and that has not always proved a limitation, for in some cases obligations have been incurred beyond the available funds; for instances, during the last year the counties expended \$721,380.66 on roads and bridges, or nearly two and a third times as much as the Territory expended for similar purposes out of general funds during the last year before the establishment of county government. Much hope has been set upon a proposed appropriation of \$400,000 by the Territory for roads in the several counties, while, as a matter of fact at the rate just indicated, the Legislature practically appropriates for a biennial period nearly four times that amount by turning over to the counties for road purposes revenue to that extent, although it does not specify that it is for that object. In other words, under present conditions local government is a sieve for territorial funds; there is no limit to the amount that can be used or that will be desired.

This is not necessarily an indictment of county government. Much of the increased expenditure is inherently necessary; much, as, for instance, that which is expended on roads is expended for excellent purposes and may be expended wisely; even if much is expended unwisely, the increased expenditure may be sufficiently compensated for in the educational value and the possible greater degree of satisfaction which come from local government. The fact remains, however, that all these expenditures require vast sums of money and that, if they are allowed to continue to be increased as they have been increasing during the five years of local government, there must be an increase in taxation, just as there was during the previous five years, although for different reasons. County revenues, although liberal at the start, have increased by almost one-half, or from about nine hundred and fifty thousand dollars to about one million four hundred thousand dollars a year during the last three years. Assuming that the establishment of local government is justified, it does not follow that we should be satisfied with its results, if they can be improved. What is the remedy?

The result has been precisely what might have been expected under the system of a common money bag, with no

fixed responsibility and merely a question of how large a share of the common fund each could obtain. Human nature and the methods of elections are such, as shown by experience the world over as well as here, that members of the Legislature, however high minded they may be, tend to regard themselves too largely as representatives of their respective constituencies for the purpose of getting what they can for them, and too little as members of a central legislative body whose first duty it is to legislate for the welfare of the country as a whole. The natural result here has been a constantly increasing demand for funds for the counties and a constant granting of such a demand by turning over large sums, and that, too, in greater part with no limitations upon their expenditure. What incentive can there be, except a high sense of public duty, on the part of territorial officials to economize, when there is every reason to expect that their savings will be turned over to the counties; or what encouragement if, however painstaking they may be, they are thereby deprived of the means of doing advance work or even good routine work; and what further incentive is there on the part of county officers to economize, when the accumulation of a surplus would be prejudicial to, and the want of a surplus an additional argument for, a larger share of the common funds, and when there is no apparent and practically no real connection between economy on the part of any one county and the cost to the people of that county? The inevitable tendency under this system is to urge the counties and starve the Territory; to turn over to the counties biennially nearly a million and a half dollars for roads and nearly twice that amount for all purposes, and allow such Territorial institutions as the Boys' and Girls' Industrial Schools and the Insane Asylum to get into their present disgraceful condition and the public schools and the public health to go begging. The Territorial executive cannot do something with nothing. It cannot, however economical and efficient it may be, maintain such institutions and perform its proper functions successfully upon half rations. The responsibility is on the Legislature to make adequate provision for these needs, but under the grab-bag system this has thus far been found impossible. Sooner or latter the rate of taxation must be increased unless there is a change in the system. There can be no escape from this through an attempt to satisfy the demands of the counties by constantly increasing their allotments from Territorial funds. The system is loose, illogical and unbusinesslike. There is lacking the one essential to safety and soundness—definite responsibility and independence. That cannot be brought about without a separation of the sources of revenue. It may

be contended that these conditions can be remedied without disturbing the system, but that is to disregard history and human nature. We cannot expect to operate successfully here by methods which have been found unsatisfactory elsewhere under equally favorable conditions. The Territory and each county should stand on its own foundation with its own sources of revenue, to be increased or decreased independently according to needs and with the relation between the pockets of the people and the expenditures of their representatives direct and conspicuous.

The principal sources of revenue are the property, income, personal, inheritance and insurance taxes, and public land rentals and license fees. The land rentals would naturally go to the Territory as they do now, for they are peculiarly territorial in nature. Liquor license fees also would naturally go to the Territory so long as the liquor question is handled as a territorial problem, and most other license fees would naturally go to the counties. As to taxes, the property and personal taxes would naturally go to the counties because they are local in nature, excepting that taxes on property which is not confined to one county should go to the Territory, as, for instance, the property of steamship, cable and wireless companies. The income, inheritance and insurance taxes would naturally go to the Territory because their subjects are not local in nature.

Similar conclusions have been reached on the mainland, although there the conditions have been reversed. Here, the property taxes are assessed and collected by the central government, there by the local governments, and yet, although the share of the central government there has usually been a definite percentage independent of the percentage collected for the local governments, no device has been discovered, notwithstanding investigations by numerous commissions, for overcoming the inherent objections to the system, except the device just mentioned of completely separating the sources of state and local government revenues upon some such line of division as that above indicated. On the mainland of course the property taxable by the state is far large in proportion than would be the case here because there are railroads there that pass through more than one county, while here the counties are separated by water.

The separation of revenues does not necessarily involve the assessment and collection of taxes by the counties. It may be made without disturbing the present method of assessment and collection, but it is a serious question how far the expected benefits would be realized if only a half-way measure were adopted. There should be independence and self-re-

hance to the fullest extent possible; an entire divorce, if possible, from the idea that there is somewhere outside a money bag that can be drawn on. The separation of classes of revenue within a common bag on logical lines would go far, but a separation of bags would go much farther. The counties, moreover, ought to be able to collect the large amounts as well as the Territory, and the personal taxes and smaller amounts of property taxes better. Figures are not yet available for the entire Territory, but those for the County of Kauai, which ought to be as favorable as any, show that of the males of tax-paying age more than twenty per cent do not pay personal taxes. To digress for a moment from the main question, this suggests whether it would not be advisable, in view of the difficulties and expense of collecting personal taxes and the annoyance and dissatisfaction caused by their collection, to abolish them and provide for an equal amount of revenue from other sources.

Nor does this plan necessarily involve the fixing of the rate of taxation by the local governments, and yet it would seem to be desirable that they should do so within certain limits. The maximum rate could be fixed by law as well for such governments as for the Territorial Government. Their discretionary power in this respect would be for the purpose of reducing and not of increasing the rate. This also would bring home to the voters the direct connection between their pockets and county expenditures and offer an additional inducement for the election of officers who would economize and keep the taxes down; and if one county government should reduce its rate of taxation the voters in other counties would want to know why their counties should not do likewise.

It would probably be advisable also to require that one rate should be fixed for running expenses and another for permanent improvements, the two together not to exceed a certain rate, say, two-thirds of one per cent. This would still further fix responsibility and tend to increase the interest of the voters in elections, for it would be obvious that if running expenses were kept down there would be more for permanent improvements.

In addition to the rate thus fixed for running expenses and permanent improvements, there should be an additional rate, without limitations as to amount, for obligations that are absolute and that must be met in any event and that are determined by law, such as for interest and sinking fund on bonds issued by or for the counties and payments to the Territory for the public schools, if the proposed school fund law should be enacted.

If it be argued that the local governments might increase

the assessment values of property in order to circumvent the requirement of a fixed tax rate, it might be replied on the one hand that the tax appeal courts should still be left appointable by the Governor with the consent of the Senate, as a part of the territorial judicial machinery for the protection of people generally in the Territory, and that appeals lie from such courts to the Supreme Court; and on the other hand that one of the chief advantages of this system would be that it would bring home forcibly to the electorate the direct connection between the amount which they have to pay in taxes and the persons whom they elect as supervisors and lead them to act accordingly. If it should be argued that the rate might be unduly increased indirectly by issuing large amounts of bonds and thereby necessitating large expenditures for interest and sinking fund, it may be replied that the rate for such purposes also would be fixed by law indirectly because no bonds could be issued except by legislative and presidential authority; or, if that should be deemed insufficient, these payments might be included in the fixed rate and made a first charge on it.

Some such arrangement as this would seem to be an essential to successful local government and must come sooner or later in any event. It would seem to be better that it should come before the counties have become accustomed to such excessive amounts of revenues as will make it difficult to avoid permanent higher rates of taxation.

This separation of revenues would; in some respects, be more advantageous to the counties than to the Territory, for it would give to the counties the general property taxes, which are steady and constantly increasing in amount, while it would give to the Territory sources, such as the income and inheritance taxes, which are extremely variable, but notwithstanding this it would seem to be a wise move from the Territorial standpoint.

In order to effect this separation, a number of acts would be required but all of them comparatively short and simple.

LOCAL GOVERNMENT.

The establishment of local government was one of the most far-reaching and important governmental changes ever made in Hawaii. Hitherto the main question with some has been how to extend it and with others how to check it. The question now with all should be how to perfect it, for it is here to remain. The County and Municipal Acts are superior to many of the older corresponding acts on the mainland and have been administered on the whole better than many anticipated, but they fall short of what they should be and of

the best that has been developed in recent years elsewhere. The proper development of local government is a question of the people who are parties in interest, as distinguished from the officers and particularly those who may happen to be in office for the time being. The question is not between the Territorial and the local governments, but between the local governments and those whose servants they are. The people should in their own interests insist on the best for their respective county and city and county governments.

Selection of Officers. The old notion that the larger the number of elective officers the greater the extent to which the people govern themselves, has been exploded. A government is not truly a government by the people except in so far as it is responsive and responsible to the people. The way to secure that in the largest measure in a local government is to elect those who determine policies, namely, the supervisors or directors, and let them appoint the officers who are to carry out their policies, just as is done in business corporations, to which local governments are usually likened. Otherwise, there must be friction, lack of coordination, and absence of complete responsibility on the part of any one.

This is also in the direction of the short ballot, which is now advocated by the best thinkers on this subject. The fewer the names on the ballot, the more can the voters concentrate their attention upon them and form correct judgments in regard to them, the better and more capable must nominees be in order to get elected; and the greater the inducement for such men to become candidates. Multiplicity of elective offices is the delight and opportunity of the ward politician.

I suggest that the supervisors and auditors alone be elected, and that the supervisors be given authority to appoint all other officers, except the auditor, who should be independent of the supervisors.

Election at large. One of the features most relied on for good local government elsewhere is that of the election of supervisors at large. The larger the constituency, the higher in general must be the ability and character of a candidate in order to get elected, and an officer so elected is apt to regard himself more as the representative of the entire county or city and county and less as the representative of his particular district. This is one of the best remedies for "ward" and "pork-barrel" politics. The Supervisors are now so elected in the City and County of Honolulu. They should be so elected in the other counties, except perhaps in the County of Hawaii, where four might be elected from one side and three from the other side of the island, or three from each

side and one at large, or all might be elected at large but three be required to be residents on one side and three or four on the other side, although this would probably be the case as a matter of practical operation in any event.

Status of Mayor. Following the analogy of business corporations, the old dual system of executive and legislative bodies in local governments is being rapidly displaced by that of a single business body. The Mayor of the City and County of Honolulu should be a member of the Board of Supervisors with a vote and no veto power. Business ought not to be clogged by red tape or by having a mayor of one political party and a board of a different party. A local government ought to not to be made top-heavy with the machinery of a state. The majority should shoulder full responsibility, control policies and be able to proceed in a businesslike way. This would not detract from the power or dignity of the office of Mayor, who could still be elected as such, by the presiding officer of the Board and have a general superintendence over work of the City and County. His dignity and power might even be increased by this change.

The three changes above recommended, if made, would probably better not be made operative until the expiration of the terms of the officers already elected.

Financial Operations. Recommendations have been made under the heading "Finances" to prevent officers of local governments from anticipating revenues and from becoming interested in county or city and county contracts, and to guard against waste in expenditures for the repair and construction of roads.

Financial Reports. There should be more frequent, more complete and more uniform financial reports on the part of the counties and city and county. The provisions of law upon this subject at present are far from satisfactory. Reports should be published at least quarterly and annually and these should be in a form approved by the Territorial Auditor, in order that they may be uniform and admit of comparisons and compilations. By requiring them to be published quarterly, the people can be kept acquainted with what is being done, and compilations can be made, not, merely for comparisons between the different counties and city and county, but also for use in connection with the Territorial finances, the fiscal year of which does not correspond with the fiscal year of the counties and city and county.

Readjustment and Division of Functions. The division of functions between the Territorial and local governments has not been systematic or altogether logical. It has been made in part with reference to the relation between revenue and

expenditure in the case of a particular function or on the hit-or miss plan. Some functions have been transferred which perhaps should not have been transferred to the local governments and many others have not been transferred which should be. Not only that, but there has been followed to a considerable extent the easy and loose method of transferring to the local governments powers and duties wholesale, without reference to the effect upon existing statutes, and, in consequences, it is often a question what the respective powers and duties of the Territorial and local governments are.

An effort should be made to "clean up" and "straighten out," as it were; first, by transferring to the counties exclusively many of the powers and duties in regard to roads, sidewalks, parks, buildings and other subjects, over which the Territorial Government may still have considerable to do under the language of the statutes; secondly, by repealing many statutes, such as those in regard to road supervisors, road boards, cantoneers, and so forth, which are now obsolete or inoperative by reason of the local government acts; and, thirdly, by amending statutes so that they will show precisely who are to execute them. In the future, care should be taken in adding to the functions of local governments to do so, not by plastering one statute upon another but by enacting or amending the statutes intended to relate to a particular subject; in other words, there should not be two statutes, one relating to the Territorial and one to the local governments on the same subject, but one statute dealing with the entire subject. The classification of laws should be according to subject matter and not according to those who may happen to operate under them.

An additional reason for following these suggestions is that the statutes as a whole may be in proper shape when a new revision of the laws is made, which probably should be soon.

General Laws versus Ordinances. In respect of many subjects there is no reason why there should be different ordinances with different provisions in the several counties. Ordinances, as a rule, are not apt to be so well known as general laws, are not so accessible, and are confusing where they differ in different counties. It would be conducive to certainty and convenience if the Legislature should enact necessary legislation, to the extent to which there is no need of local variation, for the entire Territory, leaving it to the officers of the several local governments to execute such laws. There are a number of subjects, as, for instance, those of automobiles, moving picture exhibitions and bill boards, upon which legislation is desirable both for purposes of uniformity of law and

in order to secure adequate provisions throughout the Territory.

With reference to automobiles the tendency on the mainland is to place these under the central rather than the local governments, with one series of numbers for the entire state or territory. At any rate, a license issued in one county should be required to be recognized in other counties, and, in line with interstate and also international movements now under way, licenses issued in other counties should by comity be recognized here when similar recognition is given there to licenses issued here.

Record Offices. Whether offices for recording instruments should be established in the several counties, or the present central office should be continued exclusively, is a matter upon both sides of which much can be said. The present system is simpler and even more convenient for people in certain parts of other counties than offices in their own county seats would be, and yet such local offices would undoubtedly be a great convenience to a large proportion of the people in the other counties. It may be possible to devise some method by which such offices can be established in the several counties without too seriously detracting from the advantages of the present system.

ELECTIONS.

Direct Primaries. The Australian ballot system has long since been adopted nearly everywhere, in spite of strenuous opposition by factional interests, the object being to secure a true expression of the popular mind at elections. Experience has shown, however, that secrecy and freedom at the polls alone is insufficient to effectuate the choice of the people when that choice is limited to candidates whose selection is determined mainly by factional interests through the existing convention machinery for nominations, and consequently the direct primary is now being rapidly adopted by one state after another for the purpose of securing in nominations the same safeguards and freedom of expression that the Australian ballot system is intended to secure in elections. Even this reform has been found inadequate in many places and now a third reform, that of the initiative, the referendum and the recall, is sweeping over the civilized world, designed to make real the ideal of popular government. Fortunately, conditions in Hawaii have not reached a stage calling for the third reform, and the need even of the second reform, that of the direct primary, is less here than in many other places, but it would seem to be a step in the right direction that may well be taken, at least by way of experiment for county and city and

county elections or for city and county elections alone. I suggest that in considering this question the new so-called Berkeley system be given careful consideration as one which may have the advantages and at the same time be free from some of the disadvantages of the ordinary direct primary system.

Permanent Register. For purposes of economy and still more for the convenience of voters, I strongly recommend that provision be made for a permanent register of voters, in which only necessary additions and changes need be made from time to time.

Official Count. Recent experiences in close elections and the unsatisfactoriness of the present modes of contesting elections suggest the desirability of providing, as is done in some other places, for an official recount of the ballots cast for county and city and county officers.

City and County Inspectors of Election. The provision for the appointment of inspectors of election by the Mayor of the City and County of Honolulu should be repealed in order to avoid unnecessary confusion, inconvenience, expense and duplication of machinery. Where the same machinery will do for both territorial and local elections there should be no duplication. There is no more reason for extra expense in the duplication of election machinery in the case of the city and county than in the case of the several counties, or for separate inspectors than for a separate board of registration. Thus far the Governor and the Mayor have cooperated by appointing the same persons and using the same booths for both territorial and city and county elections, and have thus avoided the objectionable consequences which would follow if the principle of the statute were carried out, namely, that of having separate inspectors, which would involve the additional expense of paying them as well as of providing separate booths and the inconvenience to voters of being obliged to vote at two places on the same day. But such cooperation may not always be possible.

Tenure, Boards of Registration and Inspectors. Certain changes should be made in the terms of office of the members of boards of registration and inspectors of elections. These offices are very numerous and now have to be appointed within a very short time and therefore without sufficient care as to their selection, and, although they are supposed to represent different political parties, this naturally becomes impossible to some extent owing to changes in party affiliations; the inspectors usually serve for only a day or two once in two years. I therefore recommend that the tenure of inspectors be shortened to not more than two years, and that the term of office of members of the boards of registration be changed so that the terms of different members may expire in successive

years, thus making more frequent changes possible and at the same time making the boards continuing bodies.

PUBLIC SCHOOLS.

General. The change from a Board of Commissioners of Public Instruction appointed from Honolulu, which made possible frequent meetings, to one composed of members from the different islands, which practically limits the number of meetings to two a year, while it has its serious disadvantages, has perhaps, all things considered, operated well. The Department is working out various important problems; among others the development of the supervising principal system, with marked beneficial results; the Department has had the effective cooperation of the Board of Health in the increasingly-serious matter of medical inspection of school children; industrial training has been extended; a summer school was held last year with the aid of private contributions. These and other matters deserve lengthier consideration, but the problem of funds in general for the public schools is so transcendently important that attention will be concentrated on that.

Funds. Each Legislature is apt to be remembered, to its credit or discredit, but generally to its credit, for one or more important acts or omissions of unusual consequence. This Legislature ought to earn a lasting name as the friend of public schools. Hawaii may justly be proud of its public school history, but of late it has been in danger of losing some of its good reputation in this respect. This had been not so much from indifference as because of financial stringency. The financial status, however, has not greatly improved and it is high time that this too-long neglected public service should have its own day in court, as it were.

During the ten years of Territorial Government the number of pupils in the public schools has increased more than 75 per cent, while the cost of maintenance, exclusive of new buildings, has increased less than 45 per cent. In other words, the number of pupils has increase about $66 \frac{2}{3}$ per cent faster than the expenditure for maintenance, notwithstanding that pupils to the number of about 30 per cent of those in the public schools are accommodated in private schools. There has lately been a falling off also in the construction of new school buildings. There is deficiency all along the line—in school room accommodation, in number of teachers, and in pay of teachers and consequently in the qualifications of many teachers. Many teachers have twice as many pupils as they should have. Many children of school age are unable to attend school for lack of room and teachers. In order to meet

this serious situation the last Legislature provided for a "School Fund Commission" to make a thorough study of the subject and report its conclusions. This commission has devoted much time to the work and has presented a lengthy report with its recommendations, which I commend to your most careful consideration.

The commission recommends that the Department of Public Instruction prepare a salary schedule for teachers, principals, and supervisors, subject to revision from time to time and to the limitation that the total number of teachers, principals and supervisors in any one year shall not exceed one for every twenty-five pupils enrolled during the preceding year; also that the Department shall each biennial period prepare a budget in two parts, one, a general fund covering expenses of maintenance, other than of buildings and grounds, and the other a special fund covering new buildings and grounds, maintenance of buildings and grounds, furniture and janitor service, this budget to be subject to revision first by a Committee of Estimates composed of representatives of the territorial, county and city and county governments and later by the Legislature; and that, to meet the requirements of this schedule and of this budget, all the school taxes shall be set aside, as was the case until 1898, and that enough additional moneys be set aside for the same purpose, out of the general property taxes. This may involve an increase in such taxes, whether those taxes continue to be divided between the Territory and the counties or are turned over to the counties exclusively and whether or not their assessment and collection are transferred from the Territory to the counties, as suggested elsewhere in this message. The scheme is equally feasible in either case and is so important to the highest permanent interests of the Territory that the increased burden, if any, should be cheerfully borne.

School Buildings. The last Legislature transferred to the counties the maintenance and repair of public school buildings, except those of the Normal, the Lahainaluna, and the Boys' and Girls' Industrial Schools. This has operated well in some counties but disastrously in others. In principle it is wrong to place the body, namely, the Territorial Department of Public Instruction, which has charge of the schools, at the mercy of other bodies, namely, the counties, in respect to the condition of the buildings in which that body must conduct its schools. Such a division of authority is theoretically unsound unless provision is also made to prevent the otherwise natural results. Some governmental functions are of such a nature that they ought to be performed better by the local governments than by the central government, and in such cases the functions should be vested in the local governments as

exclusively as practicable. In the matter of public school buildings the circumstances are such that the local governments can do little, if any, better than the central government, but if it is deemed best to permit the maintenance and repair of school buildings to remain in the local governments it should be only upon condition that the local governments expend sufficient money for the purpose and perhaps also make repairs to a certain extent upon the request of the Department. The importance to the pupils directly and to the community indirectly of properly maintained school houses and the large value of property at stake necessitate either the restoration of this responsibility to the Territory and the making of adequate appropriations for meeting it, or compulsory performance of the duty on the part of the local governments. The construction of new school buildings has been so much neglected of late that a large number should now be constructed in order to recover lost ground.

Special Schools. The Normal and the Lahainaluna Schools need additional building accommodations, and the Boys' and Girls' Industrial Schools have been so neglected in this respect for years past as to be a disgrace to the Territory, although they have been conducted with such superior efficiency and economy in spite of these drawbacks as to be in other respects a great credit to the Territory. Adequate provision for new buildings should be made for all these schools, and the Girls' School should be moved from its present undesirable location to a better location, preferably in the suburbs of Honolulu or in the country, thereby at the same time giving to the adjoining Kaiulani School a desirable addition to its grounds.

Lahainaluna Judgment. A judgment has been rendered against the Territory for \$15,000 upon a contract made in 1849 under which the Lahaina School was transferred to the Territory on certain conditions as to instruction in religious and other subjects. An appropriation should be made for this sum, with interest and costs.

PUBLIC HEALTH.

General. Perhaps no branch of the government has a wider range of activities or exercises more important functions or comes into closer touch with the people than the Department of Public Health. It is next to the most expensive department and its needs are growing with changing conditions. It is becoming more and more evident with the increase of population, the introduction of new nationalities and the increasing commerce with Mexican, Central American and Oriental ports, that the Territory cannot afford to take unnecessary

risks in this matter. During the present period no department has received a more thorough overhauling, with a view to more businesslike and scientific methods and increased efficiency generally. The Department has received in many lines of its work valuable financial and other assistance and cooperation from the Federal Government, some of the county governments and many private organizations and individuals. Some of this financial assistance cannot be counted upon in the future. The Territory should provide amply for present and future requirements.

Sanitation. Special attention has been given to the organization and extension of this work on several islands, much of which has been made possible through the cooperation of the sugar plantations. Provisions should be made for a capable chief sanitary inspector and the necessary assistants on each of the large islands.

The appropriation for the suppression of contagious and infectious diseases and similar purposes, has been exhausted in consequence of epidemics on several islands. An appropriation of at least \$20,000 should be made immediately for meeting these needs during the remainder of the period.

The law requiring notice of cases of contagious and infectious diseases to be given to the Department should be amended so as to enlarge the classes of diseases of which notice must be given and so as to expedite the giving of such notices.

There should also be legislation covering the subject of tuberculosis and mosquitoes, especially in order to secure adequate action on the part of the public in the prevention and suppression of these evils.

Leprosy. The carrying out of the new policy adopted two years ago in regard to the segregation and treatment of persons afflicted with this disease is now well under way, with most satisfactory results. The necessary additional grounds have been obtained and many of the buildings constructed for the new hospital at Kalihi and these are in use. The success of the new method is shown by the large number of persons who have presented themselves for examination and have willingly submitted to segregation and treatment. The result, although many patients have been discharged as cured, will probably be a large increase in the number to be cared for in the immediate future, followed by a gradual but rapid decrease.

The officers of the United States Public Health and Marine-Hospital Service are cooperating with the Department at this hospital and have, among other things, succeeded in accomplishing, what had long been considered the next important step towards a cure of the disease—the cultivation of its ba-

cillus, which gives much hope for an early discovery of a definite means of cure.

Tuberculosis. Public sentiment appears at last to have become aroused to the necessity of a strenuous campaign against this most devastating of all diseases, and during the present period much organized work has been initiated with that end in view. A good beginning was made with the aid of an appropriation of two years ago, which should now be increased, and a vast amount of work has been performed by cooperating bodies, public and private. Naturally the work has been carried furthest in Honolulu, where the need is greatest and where many organizations and individuals have combined to conduct the campaign through the "Palama Settlement." A day camp, pure-milk depots and other institutions are maintained and district nurses employed. The County of Maui has established a sanatorium in a suitable locality and erected several buildings. The Department, besides assisting other bodies engaged in this work, maintains a system of inspection for the discovery and treatment of cases and disinfection, and keeps full records of patients and the places where they have lived.

Sanitary Commission for Honolulu. The special conditions existing in Honolulu, such as the size and character of its population and large areas of marshy or otherwise wet lands, and the fact that it is the main port of call for trans-Pacific steamers, have for many years suggested the need of a comprehensive investigation by experts for the purpose of securing permanent immunity from certain diseases, especially yellow fever and malaria. The approaching completion of the Panama Canal emphasizes the need of early action in this direction. It is difficult to conceive of any problem which may prove to be fraught with greater consequences to the future welfare of the Territory. In view of the large military and naval plans of the Federal Government for Honolulu and its surroundings, the position of Hawaii as a health outpost as well as a military and naval outpost for the protection of the mainland, and the possible magnitude of the work, the United States Government would seem to be equally concerned with the Hawaiian Government in this matter, and it would therefore seem advisable that the investigation and planning for the required work should be done by a commission consisting of a United States army engineer, an officer of the United States Public Health and Marine-Hospital Service and a local resident familiar with Hawaiian health laws and land tenures. I suggest an expression of opinion on the part of the Legislature in the form of a resolution in regard to this matter.

Subdivision of City Blocks. Many of the blocks in Honolulu, especially in the Fifth District, are of objectionable size, not

only from the standpoint of economic value and civic requirements, but especially for sanitary reasons. It is extremely important that action should be taken by which such conditions may be remedied.

Insanity. The powers of the Commissioners of Insanity should be enlarged by authorizing them to subpoena witnesses and administer oaths in conducting cases on appeal, and to permit of the asylum inmates to leave the institution upon parole under proper conditions.

The Insane Asylum has long been overcrowded and especially inadequately provided with rooms for single patients and with hospital accommodations. There is most urgent need of appropriation for these purposes. Part of the work for the new buildings may be done by the inmates.

PUBLIC WORKS.

Coordination of Departments. Two years ago this Department and the Departments of Public Lands and Survey were coordinated by providing for the appointment of the same person over each of them. This has resulted in the anticipated advantages of unity, economy and efficiency, but it has not been entirely without disadvantages. There has been too much for one man to attend to without more adequate provision for superintending assistants. There should be a man at the head of the important Department of Public Lands, corresponding to that at the head of the Survey Department; that is, regarding these three departments as practically in the nature of bureaus of one department, each bureau should have a superintending head in addition to the office force, excepting that the head of all three may well act as superintendent of one of them. This is needed especially in view of the large amount of detail work involved in the Department of Public Lands, and the increased activities of that department under the recent amendments of the Organic Act.

Transfers to Counties. The Legislature also transferred two years ago to the local governments a number of minor powers and duties of the Superintendent of Public Works. There are others that should be similarly transferred as recommended under the heading "Local Government" in this message.

School Buildings. The main functions of the Department of Public Works have to do with harbors and wharves, water and sewer works and the construction of school and other public buildings and homestead roads. During the present period little has been done in the construction of new school buildings for want of appropriations for that purpose, but, as shown under the heading "Public Schools," much should be done during the coming period.

Homestead Roads. This subject is covered under the heading "Public Lands."

Wharves. With the \$100,000 appropriated from loan funds for Honolulu harbor and wharves, the slips on both sides of the Hackfeld wharf have been dredged, the wharf has been widened at its inner end, and its shed has been extended, thereby adding much to available wharf accommodations; the Sorenson wharf has been widened; the building on the Alakea wharf has been lengthened, and a contract has been let for the construction of the Richards Street wharf. Out of previous appropriations the main building on the Hackfeld wharf has been erected and the Honuapo wharf constructed.

Licenses have been granted for the construction of a large wharf at Hilo and two wharves at Kahului and one of the wharves has been constructed at the latter place. The negotiations in connection with Kahului involved also a transfer of the harbor frontage and land for streets by private owners to the Territory. These arrangements were a prerequisite to obtaining Congressional action for the extension of the breakwater and dredging the harbor.

Provision should be made by the issuance of bonds for much wharf construction during the coming period. This is especially necessary because of the approaching opening of the Panama Canal, for which event preparations must be begun early in order to have the necessary wharf facilities when that event occurs. The principal immediate need at Honolulu is the construction of another wharf and building somewhat similar to the Alakea wharf and building and next to it on the westerly side. It is a question deserving of careful consideration whether the Territory should construct the wharf at Hilo, as it may do under the terms of the license, or permit the licensee to do so; and also whether the Territory should purchase the wharf already constructed at Kahului under the license recently granted, as it may do under the terms of that license. Similar wharves are required particularly at Napoopoo, Mahukona, and Hanalei, and provision should be made for a larger wharf for ocean steamers at Kaawaloa on condition that the present railroad running in a northerly direction shall be extended to the wharf and the contemplated railroad to the south shall be constructed and both of them utilize the wharf as their terminus. That apparently is the only suitable place on the west coast of the island of Hawaii for a wharf for large ocean steamers.

Larger appropriations are needed for wharf maintenance.

The Wharf Commission has presented a very complete and valuable report in regard to private wharves and landings, which should have your careful consideration.

Honolulu Water and Sewer Works. The action of the last

Legislature in putting the Honolulu water and sewer works on self-sustaining basis has been justified by the results. With these works there was taken over the obligation to meet the interest and sinking fund on an amount of bonds, \$947,656.27, the proceeds of which went toward the construction of these works. During the first eighteen months of the biennial period the receipts amounted to \$269,293.39—an amount larger than was anticipated because of the vigorous and successful effort made for the collection of back sewer rates. The expenditures were \$268,688.22, namely \$18,427.70 for redemption of bonds; \$56,619.82 for interest on bonds; \$55,437.18 for permanent improvements; and \$148,203.52 for operating expenses.

The most pressing immediate needs have been met, such as the construction of the Kaimuki reservoir, the addition of 5.12 miles of pipe line, the supplying of Manoa and Alewa Heights with sufficient and pure water, and the boring of two artesian wells and installation of the high lift pump, thereby providing for emergencies and affording relief for the Bere-tania Street pump for much needed repairs. All this has been done without increasing the water rates, although these rates are lower than in almost any other city in the world and only a small fraction of the rates in many cities on the mainland, and although, owing to the spaciousness of residence lots, there is an unusually large consumption per capita and an unusually small number of consumers in comparison with the length of pipe line. The consumption has been reduced by the discovery and prevention of waste.

Out of former appropriations from the loan fund the Nuuanu dam and reservoir have been completed and are already paying a fair rate of interest upon their cost.

The water works naturally have been of long and gradual growth, its different parts having been constructed from time to time according to the needs for the time being; hence, much of the system is unsuited to present conditions. The city is now growing in population and expanding in area more rapidly than ever before; hence, there is need of considerable development in the system. Much of the pipe line is too old to bear much pressure, and in some cases the same line varies greatly in diameter in different sections, thus producing undue friction for the pumps. New lines are needed for growing suburbs and the new Nuuanu reservoir should be utilized to greater extent by using its water to generate electricity with which to operate the pumps which lift from artesian wells. For purposes of economy, protection from fire, reduction of insurance rates, and to meet the needs of a growing city, a large sum, to be obtained by the issuance of bonds, should be provided by the present Legislature, such bonds to be added to those to be paid, principal and interest, out of the revenues

of the works. This can be done without increasing the rates and may result in a reduction of rates, besides the advantage of a more dependable water supply for direct use and for protection from fire.

Kula Pipe Line. This line has been completed at a cost of about \$100,000, the amount appropriated out of loan funds. Owing to a fall in price, a pipe was laid of several times the capacity originally planned.

Artesian Wells. The Department of Public Works, besides conducting a topographic and hydrographic survey, referred to more fully under the heading "Conservation," has had extensive data prepared and a careful investigation made of artesian wells, especially on the island of Oahu. It is evident from the information obtained that all possible precaution should be taken to prevent waste of artesian water in order to avoid serious diminution in the supply. The present law upon this subject should be amended so as to make it more effective and particularly by defining what is waste.

PUBLIC LANDS.

Changes in Land Laws. The enactment last May of amendments to the Organic Act mark the beginning of a new era in public land matters in this Territory. Those amendments provide for greater simplicity in the administration of the land laws and greater certainty as to their meaning; they provide for settling numerous titles to church sites, and for granting preferential rights for the purchase of residence lots by those who have lived on them and improved them; they impose further restrictions on the leasing, exchanging and selling of public lands for other than homestead purposes; most important of all, however, they facilitate the homesteading of public lands with bona fide homesteaders. A drawing, covering 1,026 lots, has already taken place and preparations are being made for another, which will cover numerous new lots as well as old ones. Provision was made in the amendments for meeting, out of the proceeds of the public lands, the expenses of the large amount of surveying that will be required.

Homestead Roads. The act providing for the construction of homestead roads out of the proceeds of sales for homestead purposes, should be amended so as to obviate the necessity and inconvenience of setting aside such proceeds as special funds; also so as to increase the amount available for such purposes by including interest on deferred payments and rents under right of purchase leases; in other words, so as to permit the use of all money properly arising from homestead agreements for the construction of homestead roads, for, at best, the amount will probably be small enough; and also so as to pro-

vide somewhat similarly for roads for tracts of land opened for residence or business purposes as distinguished from homestead purposes, as, for instance, by permitting so much of the proceeds as may be necessary from the sales of lots on the slopes of Punchbowl to be used for the construction of roads made necessary by laying out that tract into lots and blocks. Needs of this kind arise at almost any time and cannot be long foreseen for the purpose of making appropriations for them; it is often practically useless to open tracts for homestead or residence or business purposes without constructing the necessary roads; and it is appropriate that tracts so opened should, in a sense, pay their own expense.

Purchases of Land for Public Purposes. Formerly private property required for public purposes was usually acquired by exchange. The method was changed two years ago by providing that such property, instead of being so acquired, could be acquired by selling property that might otherwise be given in exchange and using the proceeds in purchasing the property required. This provision is now inadequate because of the limited cases in which exchanges can now be made under the amendments to the Organic Act. The act should therefore be amended so that the proceeds may be available for this purpose whether the land could have been exchanged or not. Even this will yield too little because of the further limitations placed by the amendments upon the cases in which such sales can be made.

Aid to Homesteaders. The Commission on advances to homesteaders has prepared a report which will be submitted to you. Owing to constitutional obstacles to the loaning of public money to homesteaders, the Commission recommends that the same object be accomplished in part by improving homesteads by the construction of buildings, fences and water pipes and tanks before the land is sold, charging for the improvements by increasing the price of the land. The compulsory expenditure of public money in this way under present conditions would seem to be open to serious objections. There can be no assurance that the lots will be taken after the improvements are made; nor can it be known who will take them or, therefore, what kind of a house will be desired or in what location; even if the lots should be taken, and that, too, by persons to whom the houses were satisfactory in kind and location, there would be no certainty as to what might become of them afterwards, and, if, as often has been the case, the lots should be abandoned, there would be no assurance that they would be taken again. If any provision of this kind is deemed desirable, its execution should be most carefully guarded or should be left optional with the executive officers. Any such project would require a large amount of money and there is

little, if any, available for such purpose. Moreover, it is a question whether aid of that kind would not be of demoralizing nature by cultivating the idea of getting something for nothing and encouraging dependence upon the government rather than self-reliance. Homesteaders should be helped to help themselves. The government may well assist in ways beyond individual effort, as, by the construction of roads, the reclamation of lands by extensive irrigation or drainage works, the acquisition and imparting of scientific knowledge and in other ways, but the financing of private individuals on uncertain or perishable security or in ways involving personal relations and tastes, should, as a rule, be left to private agencies.

Reclamation of Arid lands. The prosperity of Hawaii depends chiefly upon the sugar lands; half of these, producing two-thirds of the crop, are arid lands reclaimed by private enterprise under fee-simple titles or long leases. There is perhaps an equal additional area of arid land that can be reclaimed by available water, but the greater portion of it, being public land, cannot now be sold in large areas or leased for long terms. Consequently either the Territory must reclaim them or else provision must be made by Congress for selling them or leasing them for long terms, and, of course, leases would be preferable to sales, for the latter would prevent homesteading. Lands thus leased would have to be subject to homesteading, whether reclaimed by the Territory or by private interests. It would be both necessary and just that the homesteaders should be obliged to pay for their proportion of the water, whether used or not, as is the case with reclaimed lands on the mainland; for they would obtain correspondingly increased values, and otherwise the necessarily large expenditures for reclamation would not be justified. I suggest the advisability of an expression of opinion by the Legislature in the form of a resolution upon this subject. Such Congressional action could be in the form of a general law applicable to all cases or a special law for each project.

IMMIGRATION.

Special Income Tax. One of the most important economic steps ever taken for the permanent welfare of these islands was that of two years ago for the present increase of their labor supply and ultimate increase of their citizen population and the conservation and development of their natural resources, by means of a special income tax, three-fourths of the proceeds of which are devoted to immigration and one-fourth to conservation and development purposes.

With the funds thus furnished the Board of Immigration has introduced 868 Portuguese and 1,790 Russians, and is now ar-

ranging for the introduction of more Portuguese and Spaniards. The location of these islands is such that it is both difficult and expensive to obtain persons eligible to citizenship in sufficient numbers, but the necessity of it can scarcely be overestimated. Unless earnest efforts are continued in this direction, either the Territory must remain underpopulated and consequently be retarded in its progress, or else it must have its population increased mainly by less desirable immigrants, to its social and moral detriment. The law providing for the special income tax expires by its own terms at the end of the present calendar year. It should without question be extended.

Department of Immigration, Labor and Statistics. At the same time the law creating the Board of Immigration and defining its powers and duties, should be amended to meet new conditions. Past experience has shown the necessity of new methods of conducting immigration and securing its desired results, and the Board has already made important moves in these directions. Greater care must be exercised in the selection of immigrants in their home countries with a view to obtaining only those who are sound, physically and morally, and for the most part those who are agriculturists. Methods should be found, if possible, for bringing them here in smaller and steadier streams, and so that they may come upon their own resources as far as possible. What is of even greater importance, more attention should be paid to them after their arrival, with a view to keeping them here by making the conditions of their residence and employment satisfactory to them. The powers of the Board may well be added to, not alone for these purposes directly but for ancillary purposes, such as assisting in the homesteading of lands, both public and private, with immigrants and residents, investigating labor conditions and devising methods of improving them, gathering and disseminating information and generally promoting the interests of laborers and producers on a small scale. In brief, the Board of Immigration may well be made a "Department of Immigration, Labor and Statistics" and thus serve many needs. Its work is not for the main industry alone but for all industries and for the general welfare of the Territory.

Marketing Facilities. Much consideration has been given, not only by the Truck-farm Commission, the report of which I commend to your attention, but also by the Board of Immigration, the Department of Public Lands and the Federal Experiment Station, to the problems of marketing difficulties, which covers a wide range of matters, such as the establishing of a central and branch agencies, the bringing of producer and distributor or consumer into touch with each other, arranging for suitable transportation facilities and rates, instruction in

market requirements as to kind and quantity of products and in methods of standardizing, packing and shipping, and so forth. The time seems to have come when work in that direction should be undertaken. It is suggested that this might be initiated under the direction of the Board of Immigration as one of the appropriate methods by which that Board can carry out the larger powers and duties outlined above, and provision might be made for that in the proposed act above referred to.

CONSERVATION.

General. The one-fourth of the special income tax, which has been devoted to the conservation and development of natural resources, has been utilized by providing for all the expenditures of the Board of Agriculture and Forestry, with its three divisions of forestry, entomology, and animal industry, aiding the Federal Experiment Station, the hydrographic and topographic surveys, the establishment of a dairy, poultry and swine experiment station (for which, see heading "College of Hawaii"), and the planting and fencing of the Pupukea-Paumalu Forest and Water Reserves. Work in these directions is of such a fundamental and wide-reaching nature that it should be not only continued but extended as much as possible. This is the kind of work that tells most for the growth and prosperity of the country. For the sake of this, as well as of immigration, the special income tax law should be continued in operation.

Agriculture and Forestry. Owing to the shortage of general funds and the large amount expected to be realized from the special income tax two years ago, it was provided that the entire expense of the Board of Agriculture and Forestry should be paid out of the proceeds of that tax. Now, the general funds are much larger and the special income tax will in the near future yield a much smaller amount, owing to the fall in the price of sugar. The work of the Board at present is largely plant and animal police work and much of it, however necessary, is merely governmental machinery; and, while it has been possible with the available funds to do considerable work that might be considered more in the nature of advance work as distinguished from that of the mere machinery of government, it will probably be impossible to do much in this direction during the coming biennial period unless the expenses of the routine work are transferred back to the general funds. I recommend that this be done. There is much real conservation and development work that ought to be done.

It is a serious question whether the President and Executive Officer of the Board should not be made a salaried official.

In prosecuting its various lines of work the Board has received considerable financial aid and other assistance from the Federal Government and private individuals. Among other things, arrangements have been made for private contributions to the extent of nearly \$30,000 for acquiring title to land to complete the Kohala Forest Reserve and to re-forest a part of it upon condition that the Territory shall contribute \$20,000 for these purposes. That is one of the most important water sources in the Territory.

Hydrographic and Topographic Surveys. A Topographic survey is immediately expensive but when completed is done for all time, while a hydrographic survey is less expensive but must be extended over a period of years in order to yield required results. The topographic survey of the island of Kauai has already been completed and the maps will be soon finished. That survey has now been begun on the island of Hawaii. The hydrographic survey has been begun on the islands of Kauai, Maui and Hawaii. Under the recent amendments of the Organic Act, which made Federal funds available for these purposes, arrangements have been made for allotments to this Territory out of Federal funds of \$5,000 for each of these surveys during this year and doubtless similar arrangements can be made for each succeeding year for some time to come. These arrangements include also the use of Federal experts to carry on these surveys. These surveys are of a basic nature and are preliminary to the development of the water and land resources of the Territory. They have been begun none too soon and should be prosecuted energetically until they are completed. Their expense, while considerable, is small in comparison with the large developments which they make possible and facilitate. Looking at the matter from a purely governmental financial standpoint, the best way to increase the public revenues is to increase taxable values through the development of the Territory. It is better to increase property values than the rate of taxation.

Federal Experiment Station. This station is doing much valuable work, especially for the minor industries, some of which bid fair to become major industries in time, and has now undertaken, with the aid it receives from the conservation fund to establish experimental and demonstration farms in various homestead centers on the different islands, with a view to meeting a number of the greatest difficulties with which settlers have to contend and bringing scientific results home to the people in practical ways. This is a most important move because of the great variety of soils and climates in these islands, and the methods, comparatively strange to most people, that must be employed to insure success.

ATTORNEY GENERAL'S DEPARTMENT.

General. The function of the Department is largely that of assistance to other departments. Its work is mostly advisory and the drafting of documents, and yet it has conducted much court work during the biennial period, notwithstanding the transfer of most of the criminal work to the county attorneys. It has appeared in 32 cases in the Supreme Court, 275 in the Circuit Courts, 450 in the District Courts, and 16 in the United States District Court. Of these cases 111 were for inheritance taxes, resulting in the collection of \$165,689.35. During this period a special effort has been made to "Clean up," and much of the brunt of this work has naturally fallen on the Attorney General's Department. It has included the recovery of lands, the settling of land titles, and the collection of back rents, taxes, water and sewer rates and other governmental claims. As a result of numerous suits, such claims have been collected to the extent of \$72,626.62. This has been accomplished and probably can be kept up by the present office force, although it was reduced at the beginning of the period by one deputy. The importance of this Department indirectly as a revenue producer and directly as a balance-wheel to the other Departments is not always fully appreciated.

Appeals in Criminal Cases. It is highly important, both for uniformity of decisions in criminal law in the several circuits and for the protection of the public, that appeals be allowed to be taken to the Supreme Court on points of law by the prosecution as well as by defendants at certain preliminary stages in criminal cases, and, accordingly I recommend that a law be enacted for this purpose similar to that enacted by Congress several years ago for criminal cases in the Federal Courts.

Indeterminate imprisonment. A decided step in advance in methods of punishment was made by the last Legislature when it provided for indeterminate sentences. This law, however, entails a large amount of work upon the officer or board which has to pass upon questions of paroles and discharges—more work, indeed, than can be expected of an unpaid Board of Prison Inspectors, upon which such work now devolves. Accordingly, I suggest that the law be amended so as to cast this burden on the Warden of the prison, acting with the concurrence of the Attorney General. In matters of this kind any officer of the board must necessarily act largely upon the report of the Warden, and the Governor ordinarily refers such matters to the Attorney General before acting on recommendations for parole or discharge.

Incidentally, the law should be amended so as to remove an ambiguity as to the cases in which indeterminate sentences shall be pronounced, by excepting cases in which sentences

shall be suspended instead of cases in which they may be suspended.

The provision that trial judges and prosecuting officers shall furnish certain information to the boards of prison inspectors may as well be repealed, as it is impracticable and has been inoperative.

Territorial Prison. All jails were transferred to the counties two years ago, leaving to the Territory only the Territorial penitentiary known as Oahu Prison. The appropriation for the maintenance of this prison has been exhausted, owing to an underestimate of the amount that would be required for this purpose when the Honolulu jail was separated from this prison. A careful analysis shows that the cost per day per prisoner has increased only a few cents in spite of advancing prices and the fact that the number of prisoners was reduced by the separation of the jail. The cost of maintaining the prison and the jail separately must necessarily be greater than that of maintaining them together, and the increase in cost per prisoner is naturally greater for the jail than for the prison because of the smaller number of prisoners. The cost per prisoner per day at the prison is less than 50 cents, or about half what it is in some of the prisons on the mainland containing about the same number of prisoners. The average number of prisoners has been 219 per day during the last two years. The receipts for support of Federal prisoners were \$14,328.00. Special attention has been given to sanitation and the prisoners have been kept employed as far as possible, largely out of doors on roads, parks, sewer works and forestry work, as well as in the manufacture of hats, clothes and shoes and the performance of other services at the prison.

The main building was constructed in 1857 and not only is not fire-proof, but the arrangement is such that each cell must be locked separately, thus making the danger of fire very great. Accommodations also are so inadequate that often two or three prisoners have to be put in one cell. There is urgent need of an adequate appropriation for new buildings. These might well be constructed in large part by the prisoners themselves. It is also a serious question whether advantage should not be taken of the opportunity when new buildings are constructed to change the location.

THE COURTS.

General. The Territorial courts are practically up to date in their work. Civil cases have decreased and criminal cases increased in number. Congress has provided for an additional Federal Judge, increased the salaries of the Federal and Supreme and Circuit Court Judges, added to the disqualifications

of judges that of having been of counsel, authorized the Legislature to add other causes of disqualification, and ratified the numerous naturalizations made by Circuit Courts when their jurisdiction was doubtful.

Judiciary Building. This was constructed nearly forty years ago and has not since been thoroughly overhauled. It is a good building architecturally and its walls are of superior construction, but its interior and roof should be entirely reconstructed for better economy of space, protection from fire and rain and presentable appearance. Appropriations have twice been made for this purpose but not expended owing to insufficiency of funds. There are now sufficient funds. An adequate appropriation for this object is absolutely necessary. To the reasons that have existed previously there is now the additional reason that the building has become positively unsafe, and that, unless it is made over inside, its second floor will have to be abandoned and offices rented for the accommodation of the courts. I strongly urge that an appropriation be made for this at once, so that the plans and specifications may be completed and tenders called for without delay, and the work of construction begun early in the summer, when the courts will be least inconvenienced. The appropriation is so urgent that it should be made immediately and should not be allowed to wait for the enactment of a more general appropriation bill. The building is a large one; it is one of the most important of the Territorial public buildings; it should be both worthy of its place and purposes in appearance and thoroughly fire-proof and well constructed for the safety of its valuable records and for endurance and economy of maintenance; this will require a large appropriation. Appropriations should be made at the same time for furnishing the new building and for providing quarters for the courts and executive occupants during the reconstruction work.

Clerk's Office. The clerks' offices of the Supreme and First Circuit Courts should be separated for purposes of economy, simplicity of organization and businesslike methods. This will require changes in the law relating to court clerks and in the appropriation bill.

Juvenile Courts. Most gratifying advances have been made in the law relating to delinquent and dependent children by the last three Legislatures. Further advances may yet be made. Parental responsibilities should be increased and the juvenile courts given jurisdiction to enforce the laws upon this subject.

The work of the juvenile court in the First Circuit has developed to such an extent that at least one of the probation officers should be a paid officer who should give all of his time to the work.

It has thus far been found possible by the judges of the juvenile courts to arrange for the care of dependent children in private homes and private institutions. It is both more economical and better for the children that they should be cared for in this way than in public institutions. As the work has grown, however, there has been found an increasing need of a small fund to pay for the support of such children in certain cases, and it may be well to make small appropriations for that purpose for the First, Second, and Fourth Circuits. The advisability of that, however, is not altogether clear, for it might tend to make ease and profit too influential in the matter of taking or placing children.

Terms of Circuit Courts. The term of the Second Circuit Court at Lahaina is an unnecessary expense and inconvenience to the court, to parties, to jurors and to witnesses. All terms should be held at the county seat, where there is now a splendid new court house, with clerks' offices, the library and other conveniences, and where there is ampler accommodation for persons attending court and where most persons attending court either live or must necessarily pass in order to attend at Lahaina.

I recommend that the terms in the Fourth Circuit be placed on the same basis as those in the First Circuit; that is instead of there being several terms a year, each extending by law until the next term begins unless sooner adjourned, there should be one term each year extending until the next term begins, that term to be held, of course, at the county seat. This incidentally involves the abolition of the term at Honokaa, which ought to be abolished in any event for much the same reasons as that at Lahaina.

Juries and Jurors' Fees. The present law for the selection of jurors is cumbersome, expensive, inconvenient to all persons concerned, and unsatisfactory in its results. It should be replaced by a simpler and less expensive law.

Jurors' fees, except in certain cases, should be taxed to the parties, as is done in most other jurisdictions.

Court Forms. It has been customary for the Supreme Court to print forms for use in all courts and distribute them free of charge. I suggest that the Supreme Court be authorized to prescribe forms which may be used in the various courts and that the printing and sale of the forms be left to private enterprises, as is done in most other jurisdictions, or else that, if the forms are printed at public expense, they be sold for enough to cover their cost.

Circuit Court Receipts and Expenses. The last Legislature transferred to the counties the fines, costs and forfeited bail moneys of the District Courts, and likewise the payment of salaries of such courts, except the District Court of Kalawao.

I recommend that similar action be taken in regard to the Circuit Courts, which are practically county courts, and that payment of the expenses as well as the salaries of the Circuit and District Courts be likewise transferred to the counties.

LIQUOR LAWS.

The voters declared against prohibition at a special election last July. The present high-license law is generally conceded to be the best ever enacted anywhere. It may be improved in several respects but it may not be best to attempt this now. What is most needed now is sufficient means for its vigorous enforcement. The appropriation for this purpose was reduced two years ago far below the danger point. The appropriation for the coming period should be very materially increased.

COLLEGE OF HAWAII.

The total area as originally planned for the permanent site of this college, comprising 86.38 acres, valued at over \$100,000 has been secured, in one block favorably located in the suburbs of Honolulu and bounded on one side by a stream, which will be valuable for various purposes. The engineering laboratory has been completed and equipped. An observatory has been constructed and a telescope mounted. A department of dairy, poultry and swine husbandry has been established for scientific experimentation and demonstration in these industrial lines, which hitherto have not been included among the numerous activities of the scientific branches of the Territorial and Federal Governments in these islands. The college has made gratifying progress also in the growth of its faculty, in the number of its students and in the extension of its educational work, especially in view of the short period of its existence and in comparison with the growth of similar institutions elsewhere.

It is time that a beginning be made, on a moderate scale, in its construction of its permanent buildings on its permanent site. The appropriation for its maintenance should be increased. The act creating it should be amended in several minor respects: first, so as to avoid the confusion of names, it now having two names, the "College of Hawaii" and the "College of Agriculture and Mechanic Arts;" secondly, so as to make effective the intent, now insufficiently expressed, in regard to the appointment and tenure of its regents; and, thirdly, so as to put its finances on a more satisfactory and businesslike basis, by requiring, what is done now though not contemplated by the statute, that appropriation shall be expended, as in other cases, upon warrants issued by the Au-

ditor on specific vouchers, instead of in lump sums to the regents; by providing that moneys other than Federal received by the college be paid into the Territorial treasury and thus accounted for, although to be paid out for the use of the college; and by requiring fuller statements of receipts and expenditures.

LIBRARY OF HAWAII.

A site for this library, namely, the present site of the Puhukaina School, in the civic center of Honolulu, has been selected, and another and more suitably located site obtained for the school. Mr. Andrew Carnegie has undertaken to give \$100,000 for the building. Agreements have been made by which the library of the Honolulu Library and Reading Rooms Association, containing about 17,000 volumes, and the valuable library of the Hawaiian Historical Society, containing about 1,700 volumes and 2,700 pamphlets, will be incorporated in the territorial library, and which, also, the income of the Honolulu Library and Reading Rooms Association, which will probably amount to \$5,000 or more a year, will be applied towards its maintenance. The plans of the building are well under way and it is hoped that construction can be begun at an early date. Inasmuch as the building will not be completed until well along in the next fiscal year, it will be sufficient to appropriate for not more than one year and a half's maintenance, under the legal requirement, at the rate of \$10,000 a year.

PARKS.

Kapiolani and Kaiulani Parks. Kapiolani Park is in the nature partly of a territorial and partly of a city and county park. It is under the management of the Honolulu Park Commission, a territorial body, and perhaps must remain so, and work upon it is done largely by territorial prisoners, but its financial maintenance rests mainly on the City and County of Honolulu. Such financial aid is not sufficient for permanent improvements. It would perhaps be a fair division for the Territory to provide for permanent improvements and the City and County for maintenance, and accordingly I recommend that provision be made by the Legislature for such improvements.

Mr. W. G. Irwin has generously conveyed to the Park Commission an area of about twelve and a half acres to widen the narrow end of the park, upon condition that it be added to the park.

The late Governor A. S. Cleghorn fittingly closed his more than half century of active interest in such matters in these islands by devising to trustees in trust to convey to the Ter-

ritory his premises known as Ainalahau, containing about twenty-three acres, famed as a tropical garden and the home of the Princess Kalulani, on condition that it be kept as a public tropical park to be known as "Kalulani Park," and not be open to visitors between sunset and sunrise.

Both of these gifts are subject to legislative acceptance. I suggest that if the Kalulani Park is accepted it be placed under the control of the Honolulu Park Commission.

Partly in anticipation of Governor Cleghorn's contemplated gift, the Territory instituted legal proceedings against private claimants which resulted in the opening of an extension of the road from Ainalahau on the opposite side of Kalakaua Avenue to the beach.

As a result of other legal proceedings the Territory has recovered a piece of land between Kapiolani Park and the proposed Kalulani Park in the rear. It is suggested that a portion of this and additional land if it can be acquired be included in these parks so as to connect them.

Kilauea National Park. The proposed creation of this park to include the world's two greatest active volcanoes, Kilauea and Mokuaweoweo, a strip between the two for a connecting road, and sufficient adjoining areas to include numerous other natural wonders, such as pit crater, sulphur banks, lava trees, lava tree-moulds, tree-fern forests, forests of large and rare trees and haunts of rare Hawaiian birds, has been under public discussion for several years. The time seems ripe for pushing this project. Surveys have been made defining the boundaries and a bill has been prepared for presentation to Congress for this purpose. The matter of boundaries has been given careful consideration from the standpoint of both public and private interests. It would seem to be a serious mistake to reduce the area so as to exclude many objects of great interest. The land included is of little value for other purposes and first consideration should be given to the public interests. The creation of the park is a matter not merely of local but of national and worldwide importance. Among the advantages of creating it are the presentation of these objects of interest, the construction of roads which will make them accessible to the public, and the wide attention that will be called to them. I suggest an expression of opinion by the Legislature in the form of a resolution upon the desirability of creating such a park.

NATIONAL GUARD.

General. The strength and efficiency of this has been increased by the enlargement and instruction, the latter having been given in part by officers detailed by the War Department. The office of Adjutant-General has been made a salaried

one, and increased provision has been made for the maintenance of the Guard. The local team has made good records in the national shooting matches on the mainland. A military hospital was maintained for a month last year to guard and care for a large number of immigrants who were in quarantine for diphtheria. With the aid of the United States Census Officers, a military census of the Territory has been taken, which will be valuable for other as well as for military purposes.

Armories. The prime need of this organization is a regimental armory at Honolulu for safeguarding its valuable equipment as well as for accommodations for the Guard. The requisite interest and enthusiasm for the highest efficiency cannot be expected with the present deficient housing. The only available site at present seems to be the "Barracks Lot," but there is no immediate prospect that that will be restored to the Territory by the Federal Government. I recommend an appropriation for an armory to be constructed in case a suitable site shall become available.

A company armory is needed at Lahaina, and a concrete room for storage of equipment at that place and at Wailuku and Hilo.

PANAMA EXPOSITION.

The Territory is to be felicitated upon the selection of San Francisco as the site of this exposition. Although the exposition is four years off, it is not too soon to begin to plan for it. There never has been, and perhaps never will be, an exposition of greater importance to Hawaii. This Territory made a splendid showing at the recent Alaska-Yukon-Pacific Exposition under appropriations made by the last Legislature and by Congress, and should make a far better showing at the Panama Exposition. It is hoped that Congress will contribute a building for Hawaii's purposes for this exposition, as it did for the other, and the next Territorial Legislature may be expected to provide adequate funds for the exhibits. The present Legislature, however, should provide for a commission and its expenses to make the preliminary plans.

VISIT OF CONGRESSMEN.

The two visits already made at the invitation and expense of the Territory by many members of Congress have proved so advantageous as to call for another such visit in the near future. The numerous changes about to occur in the membership of Congress furnish an additional reason for providing for such a visit at this time. The frankest and most effective way to secure appropriate action by Congress for local

interests is to have members of Congress come and see for themselves. An appropriation of the same amount as the last one is recommended, to include other distinguished persons as well as members of Congress. This should be made at once if a visit is desired this year, so that the necessary arrangements may be well under way before the close of this, the short, session of Congress.

COMMISSION ON UNIFORMITY OF LEGISLATION.

The increasing need of uniformity in state and territorial legislation upon certain subjects is receiving more and more attention on the mainland. There is a National conference of Commissioners on Uniform State Laws which meets each year. The American Bar Association at its annual meetings considers the recommendations of such Conference and the various state and territorial commissions act similarly for their states and territories. At the request of the officers of the National Conference such a commission has been appointed here by the Governor, but it would be better if this should be done under the legislative authority so as to give the commission a legal status. The Commissioners serve without pay.

REAPPORTIONMENT.

I call your attention to the provision in Section 55 of the Organic Act that, "the Legislature, at its first regular session after the census enumeration shall be ascertained, and from time to time thereafter, shall reapportion the membership in the Senate and House of Representatives among the senatorial and representative districts on the basis of the population in each of said districts who are citizens of the Territory." The census was taken last year, but the tabulation showing the number of citizens in each senatorial and representative districts have not been completed. They may be completed before the expiration of the session.

CONCLUSION.

It is impossible to review in a message of this character the work accomplished during the biennial period or to refer to all the subjects upon which there should be legislation. I commend to your attention the reports of the several department heads and suggest that the Legislature, its committees or members visit the various territorial institutions in order to become acquainted at first hand with their work and their needs.

Legislative sessions have been held regularly in Hawaii for

more than three score years and ten. The record is one in which the people of these islands may well take pride. As a rule, the legislation has been conservatively progressive. A disposition has been manifested to act in a businesslike way upon ascertained conditions and needs. There has been little tendency towards speculation or fads, but at the same time there has been enlightened courage to adopt the latest if it was manifestly the best, and not merely because it was the latest. In general it has been realized that the record of a legislature is judged by the quality and not by the quantity of its work.

The last few legislatures have made exceptionally good records, each perhaps improving on its predecessors, as ought to be the case. Seldom have the legislatures been confronted with so many important problems as now, but seldom have they met under more auspicious conditions or with brighter prospects of proving equal to the situation. May these prospects be realized.

WALTER F. FREAR,
Governor of Hawaii.

which this day passed Third Reading in the House of Repre-
sentatives of the Territory of Hawaii.

Very respectfully yours,

EDWARD WOODWARD,
Clerk, House of Representatives.

At this juncture the President announced the following com-

gration.

Senators Judd, Makekau, Pali, Fairchild and Kaleiopu.

Consideration of Governor's Message No. 3:

The Clerk read the Message throughout as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.

Honolulu, February 17, 1911.

To the Legislature:

I submit herewith, in the form of an Appropriation Bill,
estimates for appropriations for the next biennial period.

These do not cover permanent improvements, estimates for which will be submitted in a separate message.

It will be noted that while the aggregate considerably exceeds that of the last general appropriation bill, it is still considerably below the estimated available funds. The two largest increases are for public instruction and public health—two services for which, owing to lack of funds, appropriations have for some years been deplorably inadequate and which are of such surpassing importance that they should be adequately provided for now that there are funds. The next largest increase arises from the transfer of certain classes of expenditures for agriculture and forestry from the conservation fund to the general funds, these being for what might be deemed ordinary operating expenses as distinguished from advance work, or work of a more strictly conservation and development nature. These matters are referred to more fully in my first message. Additional increases of importance although much smaller, are for the enforcement of the liquor laws and the maintenance of prisoners. The remaining increases are small and largely off-set by various decreases.

If the changes recommended in my first message in regard to the collection and division of taxes as between the Territory and the Counties should be made, with its natural consequences that the school funds would be provided by the Counties, corresponding changes would be required in the appropriation bill. This would be the case also, if, as similarly recommended, the receipts and expenses of the circuit courts should be transferred to the counties. The proposed changes in the tax and school matters should result in a net increase in county revenues of about a quarter of a million dollars in a biennial period. This would go far towards meeting the necessary increases in expenditures for the public schools.

Notwithstanding the naturally increasing needs of both the Territorial and County Governments, there ought to be, unless some unforeseen misfortune should occur, sufficient funds to meet all purposes without increasing the taxes. Although the rate of the property tax is low, taxes are in reality high, because not only are there income and personal taxes and other sources of revenue, but property is assessed at high valuations. It is far better to increase the revenues by increasing, through the development of the Territory, the amount of property subject to taxation, than to raise the rate of taxation; and, on the other hand, great care should be taken in order that the available money may not be expended unwisely or wastefully. If the recommendations of the first message are carried out, the counties should have revenues which would be larger imme-

diately and that would constantly increase, and expenditures that would be relatively smaller.

WALTER F. FREAR,
Governor of Hawaii

Sir:—

Senate Resolution No. 65, Session Laws 1909, appointed a "Hold Over Committee" to "prepare and submit to the Senate of the Session of 1911 such data, information and bills as may be necessary regarding the financial condition of the Territory as will properly and intelligently guide the members of the Senate of said Session of 1911 in their deliberations affecting the financial condition of the Territory, the revenues of the Territory, the divisions of revenue between the Territory and the Counties, and the expenditures of appropriations for the use and maintenance of the Territory and of the Counties." In conformity with that resolution we herewith submit the following financial data in four exhibits as follows:

EXHIBIT A.

Detail lists of Acts 142 and 150, Session 1909, being the so-called General Appropriation Bills, wherein the total amount of the appropriation is shown, the amount of such appropria-

tion expended during the fiscal year ending June 30, 1910, also the first half of the second fiscal year ending the 31st of December, and the balance available for the last half of the biennial period; the amount required for the period ending June 30, 1911, with the estimated surplus and deficit under each appropriation; the estimates of the various departments for the next biennial period ending June 30, 1913, together with the Governor's recommendations according to the budget to be submitted with his message.

EXHIBIT B.

A detailed classified statement of all expenditures under the general appropriation bill up to December 31, 1910, which appear in the statement referred to under Exhibit A.

EXHIBIT C.

A detailed statement of various acts of last session which appropriated moneys showing their present status.

EXHIBIT D.

A statement showing the Receipts and Disbursements of the Territory of Hawaii, eliminating all purely local items, as based on the Receipts and Disbursements of the fiscal year ending June 30, 1910.

Should the revenues of the Territory be apportioned to the Territory and Counties as outlined in the above statements, under Exhibit No. 4 will be found those which will be available for the Territory and those which will go over to the Counties.

At 10:40 o'clock A. M. the following Message (No. 4) was received from the Governor, which was read throughout by the Clerk:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.

Honolulu, February 20th, 1911.

To the Legislature:

I have the honor to submit herewith, as required by law, a statement of the expenditures made from the general or con-

tingent fund during the first eighteen months of the present biennial period.

The wisdom of providing such a fund has been demonstrated by the experience of this, the first, fiscal period for which such a fund has been provided as well as by that of past fiscal periods. Somewhat similar provision was made here under the Monarchy and under the Republic and is now made in some of the States on the Mainland. Indeed, the greater part of the county revenues, amounting to nearly \$3,000,000 in a biennial period, is nothing less than a general or contingent fund subject to allotment by small bodies of men from time to time as occasion may require; and that is one of the advantages of local government. In the Territorial Government, in which the Legislative Sessions are biennial, it is impossible to foresee or provide specifically for all needs for two years to come. Without such a provision the Executive and Judicial Departments would be obliged either to incur obligations without authority of law, trusting to the next legislature to make the necessary ratifications and appropriations, as has been customary in the past, or else to permit absolutely necessary governmental functions to cease, with most calamitous results, as for instance, to close Oahu Prison, the Boys' Industrial School and the Circuit Courts, and permit epidemics or dangerous diseases to run their course unhindered.

Great responsibility is involved in the expenditure of such a fund and in exercising it I have steadily leaned against demands upon it. Indeed, the most notable feature in connection with its expenditure is one that does not appear on the face of the statement, namely, the large number and urgency of the applications, both by officials and by others, for allotments from this fund, which have been refused—some of them for very commendable objects.

It will be noticed from the statement that one group of expenditures was expressly authorized by a concurrent resolution of the Legislature, namely, for the relief of persons released from the Leper Settlement.

Another group of expenditures was made for needs created by various laws or joint resolutions, but for which no appropriations were made. Most of these were for the Insanity, Dairy, Truck-farm, Homestead and Wharf Commissions, created by joint resolutions of the Legislature, and the Land Board, created by Act of Congress, and the Normal School, an appropriation for which was overlooked by the last Legislature when public school buildings, with certain exceptions, were transferred to the Counties. One item was for the construction of side-walk along government property in Honolulu; not only were these required by law to be made under the

circumstances, but the Territory could not fairly have refrained from constructing them when the United States and private owners were constructing similar sidewalks on adjoining premises in compliance with the Territorial laws. Another item was for assistance in food inspection, necessitated by pressure of that work under special conditions.

A third group of expenditures was for needs for which appropriations proved insufficient. These were mostly cases of general appropriations which were not prorated and which became exhausted; namely, for the maintenance of the Boys' Industrial School and Oahu Prison, expenses of the Third Circuit Court, expenses of the Tax Bureau, the Harbor Master at Honolulu, Landings and Wharves on Maui, and Quarantine, Fumigation, Etc. The expenditure for Landings and Wharves on Maui was chiefly to repair damages caused by a storm to the warf at McGregor's Landing. The expenditures for Quarantine, Fumigation, Etc., were mainly to check various epidemics, especially the recent ones on the Island of Maui. There are two cases in which allotments were made although there were prorated appropriations, namely, for the increases in the salaries of the Attorney General and First Deputy Attorney General. These were made with great reluctance because on their face they seemed unjustifiable, although within the language of the statute. They were made because the facts were believed to bring them also within the spirit of the statute. They were not made because my opinion differed from that of the Legislature in regard to what these salaries should be; indeed, the Legislature appropriated the amounts which I recommended at that time. They were made because actual experience disclosed their necessity. About that time law practice in Honolulu seemed to grow more profitable and it became increasingly difficult to induce attorneys to accept public office. There were a number of resignations from the Supreme Court and Circuit Courts solely for financial reasons, and resignations from the Attorney General's Department and the quest for new men for that department showed the increase to be necessary in the public interests. It must be borne in mind, incidentally, that the Attorney General and his deputies devote their entire time to their public duties and do not supplement their salaries by private practice, as the County Attorneys do and the Attorney General and his deputies did formerly.

The expenditures amounted to \$5,196.47 for the first fiscal year and \$6,515.88 for the first half of the second or present fiscal year, a total of \$11,712.35 leaving a balance of \$38,287.65 for the second half of the present fiscal year. The requirements naturally increase as the end of the biennial period approaches, in consequence of the exhaustion of one ap-

propriation after another. Notwithstanding that the appropriations were cut down to an unusual extent two years ago and that the contingent fund amounted to only \$50,000.00 as compared with appropriations which were required to be made by the last Legislature to the extent of about \$85,000.00 to make up deficiencies for the previous biennial period, it was believed, until the recent epidemics on Maui, that the fund would be sufficient. But the large expenses of those epidemics will require an additional appropriation, and I accordingly recommend an appropriation of \$20,000.00 for "Quarantine, Fumigation, Disinfection, Medical Services, Medical Supplies, Prevention and cure of Tuberculosis and suppression of Contagious Diseases," that being the title of the appropriation that has been exhausted.

The principal expenditures that will be required from this fund for other purposes until the end of this biennial period will be for the First, Second, Fourth Circuit Courts, say \$12,000.00 or \$14,000.00; for the Oahu Prison, say \$13,500.00; and for the Boys' Industrial School, say \$5,000.0. Smaller amounts will be required for other purposes.

Unusual care has been taken to keep the expenses of the Prison and the Industrial School to the lowest possible amounts, and with remarkable success. The cost per boy per day (less than 33 cents) at the Industrial School has remained practically the same, although the standard of living has been improved and prices have risen. That school is largely self-supporting and contributes some of its products also to the Girls' Industrial School. The cost of prisoner per day (less than 50 cents) at the prison has increased very little, although prices have risen and the aggregate number of prisoners has been reduced by transferring the adjoining Honolulu Jail to the City and County of Honolulu, the cost per prisoner per day in which jail has increased far more, probably chiefly for the same reason, namely, the reduction, greater in the case of the jail than in the case of the prison, in the number of prisoners to be cared for together.

The Report of the Committee was adopted.

Senator Fairchild presented a Concurrent Resolution (No. 4), asking for the appointment of a Joint Committee of five from each House to investigate and report on the revenues of the Territory.

CONCURRENT RESOLUTION.

WHEREAS, with each Session of the Legislature there is an ever increasing demand, out of proportion to the increase in revenue, for appropriations for a greater advance in the practical and more efficient education of our youth, for the relief and prevention of sickness, poverty and disease among the inhabitants of the Territory, for constructing much needed school houses, hospitals for the sick, asylums for the unfortunate, and providing increased comfort and relief to the afflicted on Molokai, and for a systematic and effective campaign against tuberculosis and mosquitoes, etc., etc.; and

WHEREAS, the present bonded debt of the Territory is already so large that during the present biennial period of the total appropriations of \$2,828,031, the sum of \$332,500 or nearly twelve per cent., was required for interest alone, and the sum of \$51,203.16 for sinking fund charges; and

WHEREAS, the tax on real and personal property is already high due to the extreme valuations placed on such property which when coupled with an income tax of 4% makes the burden of taxation such that those upon whom it chiefly falls seriously object to any increase at this time; and

WHEREAS, it is necessary in the interest of health and education to devise adequate ways and means to meet the pressing needs of the Territory now confronting the Legislature, as outlined in the Governor's Message and budget, and the bills and resolution introduced by members of this Legislature; and

WHEREAS, large sums have been spent and are being spent to bring into the Territory settlers who will become citizens, and such a worthy object cannot be permitted to result in disappointment on account of a failure to adequately provide for the health and practical education of such immigrants;

NOW, THEREFORE, BE IT RESOLVED: That it is the sense of this Legislature that, before any increase in taxation is considered, every available source of revenue possessed by the Territory or any subdivision thereof, be carefully scrutinized with a view to determining whether or not it is yielding the highest amount of revenue possible, in order that our youth may be educated along such practical lines that they may become useful citizens, and that our afflicted on Molokai, and in the hospitals and asylums may be given every comfort and means of regaining their health; and that the health of those now well may be safeguarded and that substantial financial provision may be made for reclamation, and for the tuberculosis and mosquito campaigns in order not only to eradicate these great plagues, but also to protect this Territory against the threatened danger of even worse enemies to health;

AND BE IT FURTHER RESOLVED, That a Joint Committee of five be appointed from each House to examine into all sources of revenue possessed by the Government in order to ascertain and recommend what may be done to carry out the spirit and intent of this Resolution, before taking any steps to increase taxation, said Committee to report not later than the 15th of March, 1911.

GEO. H. FAIRCHILD,
Senator 4th District.

Honolulu, February 21st, 1911.

Upon motion by Senator Baker, seconded by Senator Judd, the Clerk was instructed to prepare typewritten copies of the

Concurrent Resolution referred to, for the use of the members of the Senate.

Senator Fairchild presented a Report (No. 7) from the Ways and Means Committee, which was read by the Clerk, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 4, being an Act to amend Section 19 of Act 102 of the Session Laws of 1905 relating to the collection of Taxes on the estates of deceased persons, otherwise known as the Inheritance Tax beg leave to report thereon as follows:

The object of the Bill is to take away from the Treasury the use of all the money received under the provision of the so-called Inheritance Tax which now goes into the General Fund of Government realizations, and is used for general purposes by the government, and to convert same into a special or sinking fund to be applied as such for the purpose of helping to redeem the bonded indebtedness of the Territory.

As the receipts from this Act are included in the Governor's estimates of receipts for the coming fiscal period, we recommend that the further consideration of the Bill be deferred until such time as the several appropriation Bills and the Governor's message are under consideration by the Senate.

Dated, February 20, 1911.

GEO. H. FAIRCHILD,
Chairman.

CECIL BROWN,
JOHN T. BROWN,
WM. T. ROBINSON,
E. W. QUINN.

The Report of the Committee was adopted.

Senator Fairchild presented a Report (No. 8) from the Committee on Ways and Means, which was read by the Clerk, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 5, being an Act to amend Sections 5 and 6 of

Act 33 of the Session Laws of 1909, commonly known as the Conservation Act, have had same under consideration and report as follows:

The Bill seeks to make a new division of the money collected under this Act. The Act now provides, $\frac{3}{4}$ goes for the purposes of encouraging immigration to the Territory, and the remaining quarter for the development, conservation, improvement and utilization of the natural resources of the Territory. This Act seeks to make an equal division of the receipts. It also seeks to continue the Act in force until Dec. 31st, 1921.

As the Act expires by limitation on the 31st day of December of this year, and as the matter covered by the Bill is of importance, we would recommend that the present consideration of the Bill be deferred until such time as other legislation on the same matter is introduced and is considered by this Body.

Upon motion by Senator Chillingworth, seconded by Senator Baker, the President appointed a Committee of two consisting of the President of the Senate and the Chairman of the Committee on Accounts to look into the matter of having proper furnishings for the Senate Chamber.

Upon motion by Senator Fairchild, seconded by Senator Chillingworth, the Committee on Military was instructed and authorized to make fitting arrangements to visit the Leilehua Cavalry Post on Saturday morning, February 25th, 1911.

Senator Kaleiopu presented a petition (No. 1) from the Maka Estate which was read by the Clerk, as follows:

To the Honorable,

The Legislature of the Territory of Hawaii:

The petition of William R. Castle as Trustee and on behalf of the Estate of the Rev. R. Maka, late of Honolulu, deceased, and of the Board of the Hawaiian Evangelical Association of the Territory of Hawaii, respectfully represents to your Honorable Body as follows, to wit:

That the said R. Maka during his lifetime was entitled to the income, rents and profits of certain buildings and of a house lot situate on the West corner of Beretania and Smith Streets, in Honolulu, said property having belonged to Mrs. Kalau Maka, wife of the said Rev. R. Maka; that after the death of his said wife, and up to the 20th day of January, 1900, he was in receipt of an income from said property averaging about \$60 per month.

That on the 20th day of January, 1900, by reason of a fire started by the sanitary authorities of the Territory in the suppression of the bubonic plague then existing, all the buildings on said premises were destroyed, the rents derivable therefrom immediately ceasing; that the Government of the Republic of Hawaii decided to widen Beretania Street at that time and to straighten the lines of Smith Street, and that in the proceeding to make such widening and straightening a large slice was cut from the front or Beretania Street side

of said lot and a small fraction from the other side; that said Maka, believing in the improvement to be made in the streets, acquiesced in widening, and also agreed that the Government immediately take possession of the premises taken for the widening of said streets, upon the promise that he should be paid immediately thereafter for the value of the premises so taken.

Petitioner further shows that, no account of the delay caused by the constant procrastination of the Government in arriving at any settlement whatsoever, and because of the changed circumstances caused by the said fire (most of the Chinese having gone over to the Northwest side of the Nuuanu Stream), said Maka was unable to rent the remaining portion of said premises, and no revenue whatsoever was produced for a number of years, although he continued to pay taxes on the high valuation placed thereon by the Government; that the amount of land taken for said street-widenings also so decreased the size of the remainder of said lot that it was hardly large enough to put up good buildings, and, for that reason, it was difficult to make any arrangement with regard to leasing the same.

But your petitioner shows that after several years, to wit, on the 1st day of October, 1903, a lease of the ground was made to one Ching Ah Young, who was to erect a brick building, which, at the termination of the 25-year term of said lease, reverts to the property, and that since said period said rent has been paid to your petitioner on behalf of the owners of the property, and that therefrom has been deducted and paid regularly the taxes and assessments placed upon the property by the Government.

Your petitioner further shows that he was unable for a long time to come to any agreement with regard to the value of the premises taken, or the amount of loss sustained by the said Maka and the owners of said lot on account of the fire above mentioned; that it was agreed at one time that \$3000 would be a fair compensation, but there were no funds from which to pay the same, until finally your petitioner, with said Maka, feeling that no relief could be had from the Government—which was in the possession and enjoyment of said property—an appeal was made in the Legislature of 1907 asking for compensation, and that \$2,500 was promptly awarded and placed in the Appropriation Bill, but that said item was vetoed by George R. Carter, Esq., the Governor of the Territory at that time, apparently on the ground that said Maka probably owed money to W. R. Castle and it would therefore merely be paying his debt, without any reference whatsoever to the justice of the claim made by said Maka for compensation, and

that the Legislature failed to overcome the said veto and re-insert the said item.

And your petitioner further shows that from the said period to the present time he has been unable to arrive at any settlement with the Government, and that those entitled to the value of the premises, with interest, have been wrongfully deprived of their rights up to the present time.

Petitioner further shows that said Maka died about three years ago; that upon his death his life-estate was ended and the entire premises, under the Will of his said wife, Kalau Maka, reverts to the Hawaiian Board, to be used wholly for the benefit of missionary work; that therefore the said Hawaiian Board is today the owner of said property, but that the said Board, recognizing the wrong and injury done to said R. Maka, and in view of the poverty of his widow now surviving him, it has agreed that from the sum of \$2,500 there may be retained for the benefit of said widow \$1,000.

WHEREFORE, your petitioner, in trust as aforesaid, respectfully asks your Honorable Body to provide, through the Appropriation Bill, for the payment of not less than \$2,500.

Dated, Honolulu, February 20, 1911.

Respectfully submitted,

W. R. CASTLE,

Trustee, Maka Estate and for Hawaiian Board.

Upon motion by Senator Kaleiupu, seconded by Senator Makekau, the petition was referred to the Committee on Public Lands and Internal Improvements.

Senator Judd presented a Petition (No. 2) which was read by the Clerk, as follows:

Honolulu, T. H., February 18, 1911.

Honorable A. F. Judd,
Chairman, Senate Judiciary Committee,
Honolulu, T. H.

Dear Sir:—

I take the liberty of asking for an increase of compensation during the ensuing biennial period for services to be rendered by me in my dual capacity as Clerk of the First Circuit Court and Registrar of the Court of Land Registration. At the last session of the Legislature there was appropriated for each of the Clerks of the First Circuit Court, to be appointed by each of the Judges of said Court, the monthly

salary of \$125.00, and at the same session the Land Registration Act was so amended that the duties of Judge of that Court were transferred to a Judge of the First Circuit Court to be appointed by the Chief Justice, and the duties of Registrar were transferred to the Clerk of the Judge so appointed, and although the salaries of the independent officers created under the Land Registration Act prior to amendment were discontinued, no additional compensation was provided for the officials upon whom the discharge of those duties devolved.

The amendment referred to took effect upon the 1st day of April, A. D. 1909, and the Third Judge of the First Circuit Court was appointed by the Chief Justice as Judge of the Court of Land Registration, and I was appointed by said Third Judge as Registrar of said Court. During the period of almost two years that has since elapsed I have discharged all of the duties of Registrar of said Land Registration Court, which the Registrar of said Court prior to the amendment referred to received a monthly salary of \$100.00. In the light of this experience I can truthfully say that the duties which I have been called upon to perform have more than doubled the work devolving upon me as Clerk of the First Circuit Court, in addition to which the work necessarily involved in the discharge of the duties of Registrar of the Land Registration Court is of an expert and technical character, which, in my judgment, entitles the official discharging those duties to compensation commensurate with the character and value of those services.

Very respectfully,

M. T. SIMONTON,
Registrar Court of Land Registration.

The Petition was referred to the Committee on Ways and Means.

A Communication (No. 8) from the Civic Federation was read by the Clerk, as follows:

Honolulu, Hawaii, February 21, 1911.

Hon. E. A. Knudsen,
President of the Senate,
Honolulu.

Dear Sir:—

At the last meeting of the Executive Committee of the Civic Federation, an earnest desire was expressed that the

members of this Committee, be enabled to keep in close touch with all measures coming up for consideration in the Legislature, a resolution was, therefore, adopted requesting the Secretary of the Federation to ask that copies of all bills might be given to the Chairman of the Legislative Subcommittee, Mr. C. H. Dickey. Will you kindly permit Mr. Dickey to receive a copy of all bills entered upon the calendar of the Senate?

Very respectfully,

P. M. POND,
Secretary, Civic Federation.

No objection having been interposed, the request was granted and the Communication was placed on file.

A Communication (No. 9) from Wm. F. Kaae, Clerk of the County of Maui, submitting Reports from the heads of Departments of the County of Maui for the biennial period, ending December 31st, 1910, was read by the Clerk, and ordered placed on file; the Reports and data accompanying were referred to the Printing Committee.

Wailuku, Maui, February 21, 1911.

To the Honorable President and
Members of the Senate
of the Territory of Hawaii.

Gentlemen:—

I have the honor to hand you herewith copies of reports of the heads of departments of the County of Maui and that of the County Engineer for the biennial term ending December 31, 1910.

During the same period the Board of Supervisors of the County of Maui held meetings on eighty-five days; received and considered 779 communications, received and adopted 983 reports from the committees of the Board of Supervisors and the heads of departments of the County; presented and adopted 1720 resolutions for the allowance of claims against the County and other matters of public nature; received 62 bids under 27 lettings and entered into 30 contracts for public improvements and material and supplies for the various departments of the County; approved 55 bonds for County officials, County appointees and for contracts awarded for public works and supplies; caused the passage of 5 ordinances regulating sanitation and the sale of fish and other foods, etc.; established a County farm and sanitarium for the segregation of tubercular patients.

In closing, it is only proper to remark that the work of this

biennial period has been very satisfactory and efficient in all departments. This has been brought about in large measure by careful planning and systematic organization of the various departments at the beginning of the term. Each department was given definite and rigid powers and duties, was required to make careful estimates of its needs at the beginning of each semi-annual period, upon the basis of which appropriations were made. Further, the best of harmony has prevailed between the members of the Board of Supervisors and the several elective and appointive officers, which made possible the efficient execution of the work as planned.

Respectfully submitted,

WM. F. KAAE,
County Clerk, County of Maui.

Honolulu, February 23, 1911.

Hon. Eric A. Knudsen,
President of the Senate,
Honolulu.

Dear Sir:—

I see by the newspapers that a concurrent resolution has been passed by the House, requesting the Secretary of the Navy to select and designate the name "Hawaii" for the next battleship to be added to the Navy of the United States.

I deem it advisable to point out that it is not within the legal power of the Secretary to do this as under R. S., Sec. 1531, as amended by the Act of May 4, 1898, Ch. 234, (30 Stat. L. 390) and by Stat. L. 159, all first-class battleships must be named for the States until the names of the States shall have been exhausted. There are, however, only four States remaining on the list, Nevada, Oklahoma, Arizona and New Mexico, assuming the two latter will be soon admitted. The battleships authorized this year and next year will then ex-

haust the names of the States, after which Hawaii's claim may be properly presented.

Yours very truly,

SIDNEY M. BALLOU,
Chairman, Honolulu Section Navy League.

REPORT ON CONCURRENT RESOLUTION NO. 3.

To the President of the Senate:

Your Judiciary Committee, to whom was referred Concurrent Resolution No. 3, begs leave to report as follows:

FINDINGS.

The premises in question are located on the makai side of King Street, opposite Smith Street, in the City of Honolulu, the total area being 22,231 square feet, with a frontage on King Street of 160.5 feet. A part of the premises, with a frontage of 99.5 feet, has upon it a two-story brick building erected at a

cost of \$15,000.00, the balance of the premises is an open lot without improvements.

Henry Smith, as Trustee under the Will of Richard Meek, deceased, for Mrs. Maud Stein, Richard Reuter, Eli Meek Crabbe, and Richard Meek, and The Dowsett Company, Limited, an Hawaiian Corporation, are the claimants to the land, relying on a deed of His Majesty Kamehameha III to John Meek, dated September 3, 1839. and recorded in the Office of the Registrar of Conveyances in Honolulu, in Liber 3, at page 192.

The predecessors in title and estate to the parties above named have been peaceably and openly in possession of said property since long prior to September 3, 1839, paying taxes thereon and all government charges assessed against said premises. The Kingdom of Hawaii for years occupied part of these premises for a Police Station, and paid rent for such use. The Government has also claimed a lien on these premises for sidewalks.

The said John Meek, after the execution of said deed by Kamehameha III to him, as aforesaid, did, on or about May 22, 1847, within the time prescribed by law, present his claim for a Land Commission Award thereon to the then Board of Land Commissioners.

The original application of John Meek, covering this land, and which was presented to the Land Commission, has been exhibited to this Committee.

It appears by the records in the Department of Public Lands that upon the presentation of the claim of said Meek based upon said deed as aforesaid, said Commission caused said deed to be acknowledged by His Majesty Kamehameha III, on or about November 24, 1847, and said deed so acknowledged as aforesaid was filed with said Commissioners, together with a survey of said land in said deed described.

It appears inferentially from the case of Jones vs. Meek, 2 Hawaiian Reports, 9, that a Land Commission Award was not granted upon said claim of said Meek for the reason that he was advised by said Land Commission that an award thereon was unnecessary; that "they could give him no better title than he already had."

Apparently Meek acted upon the advice of the Board, the presiding officer of which was then Chief Justice Lee, and withdrew his claim for an award to the land in said deed described.

In order to prevent future possible litigation, the parties hereinbefore named, being the successors in title and estate to the said John Meek, are desirous of obtaining from the Territory, through the Governor and Superintendent of Public Works thereof, a quit-claim deed of any title the said Terri-

tory may have in said land by reason of the failure of the said John Meek to obtain a Land Commission Award therefor, in pursuance of the provision of Revised Laws, Sections 254 and 276.

CONCLUSIONS.

While the Committee feels that the Senate should not presume to advise or attempt to influence the Governor in this matter, which is a matter wholly within his discretion whether he issues such a quit-claim or not, still after a careful investigation of the facts, it is felt that all of the equities in this case lie with Henry Smith, Trustee, and The Dowsett Company, Limited.

If the existing law permitted the Legislature to legislate in matters of this kind, this Committee would recommend remedial legislation.

The Committee recommends for adoption the Resolution herewith submitted, which modifies the original Resolution in conformity with this report, in place of and as a substitute for Concurrent Resolution No. 3 as it now stands.

Three copies of claimants' briefs are filed with this Report.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

Dated, Honolulu, Hawaii,

CONCURRENT RESOLUTION NO. 3.

WHEREAS, Henry Smith, as Trustee under the Will of Richard Meek, deceased, for Mrs. Maud Stein, Richard Reuter, Eli Meek Crabbe and Richard Meek, is the owner of a part or portion of the land set forth and described in deed of His Majesty Kamehameha III to John Meek, dated September 3, 1839, recorded in the Office of the Registrar of Conveyances in Liber 3, at page 192, and The Dowsett Company, Limited, an Hawaiian Corporation, is the claimant of the remainder thereof; and

WHEREAS, the predecessors in title and estate of the parties above named have been peaceably and openly in possession of said property since long prior to September 3, 1839,

paying taxes thereon and all government charges assessed against said premises; and

WHEREAS, the said John Meek, after the execution of said deed by Kamehameha III to him as aforesaid did within the time prescribed by law present his claim for a Land Commission Award thereon to the then Board of Land Commissioners; and

WHEREAS, it appears by the records in the Department of Public Lands that upon the presentation of the claim of said Meek based upon said deed as aforesaid, said Commission caused said deed to be acknowledged by His Majesty Kamehameha III and said deed so acknowledged as aforesaid was filed with said commissioners, together with a survey of said land in said deed described; and

WHEREAS, it appears inferentially from the case of Jones vs. Meek, 2 Hawaiian Reports, 9, that a Land Commission Award was not granted upon said claim of said Meek for the reason that he was advised by said Land Commission that an award thereon was unnecessary; that "they could give him no better title than he already had;" and

WHEREAS, the said Meek did act upon the advice of said Board so given as aforesaid and did withdraw his claim for an award to the land in said deed described; and

WHEREAS, in order to prevent future possible litigation, the parties hereinbefore named, being the successors in title and estate to the said John Meek are desirous of obtaining from the Territory, through the Governor and Superintendent of Public Works thereof, a quit-claim deed of any title the said Territory may have in said land by reason of the failure of the said John Meek to obtain a Land Commission Award therefor, in pursuance of the provisions of Revised Laws, Sections 254 and 276:

NOW, THEREFORE, BE IT RESOLVED by the Senate of the Legislature of the Territory of Hawaii, the House of Representatives concurring, That it is the sense of the Senate and House of Representatives, after a careful investigation of the facts, that all the equities in this case lie with Henry Smith, Trustee, and The Dowsett Company, Limited; but it is also the sense of the Senate and House of Representatives that the Legislature should not presume to advise or attempt to influence the action of the Governor of Hawaii in the matter of this quit-claim deed, it being a matter which, under the law, lies wholly in his discretion.

EXHIBIT "A."

Brief Statement of Facts and Argument in Re Claim of Henry Smith, Trustee for Mrs. Maud Stein, Richard Reuter, Eli

Meek Crabbe and Richard Meek, and the Dowsett Company, Limited, to Have Their Title Perfected in Premises Conveyed by His Majesty Kamehameha III to John Meek, by Deed Dated September 3, 1839.

The premises in question are located on the makai side of King Street, opposite Smith Street, and contain a total area of 22,231 square feet, there being a frontage on King Street of 160.5 feet. That portion of the property claimed by Henry Smith, as Trustee, has now and for many years last past has had substantial and costly brick buildings thereon erected, rented by the said Henry Smith, as Trustee, to various tenants, the cost of such improvements being approximately \$15,000.00. The remainder of the premises, to-wit, a frontage on said King Street of 61 feet, is claimed by The Dowsett Company, Limited. This latter piece of land is at present unoccupied, The Dowsett Company, Limited, being unable to lease the same for any extended period because of the claims made thereto by the Territorial Government. The whole of the land in question was conveyed by His Majesty Kamehameha III to John Meek by deed dated September 3, 1839, attested by His Majesty's then Minister, Kakauluohi, and acknowledged on the 24th day of November, 1847. The claim of John Meek, based upon this deed, was duly filed with the Land Commission on or about May 22, 1847, together with a survey of the property claimed. The original records of the Land Office show that the claim was filed, the same being No. 591, Part 1, and that at the time of such filing no direct action was taken thereon by the Commissioners, the record showing that it was "reserved to be taken to the King for his acknowledgement." The record further shows that on the 24th day of November, 1847, the deed in question was taken to the King, who acknowledged the same and directed that the Commissioners take the necessary steps to perfect the title of John Meek to the land in said deed described. Thus we find John Meek complying in all respects with the law which required a presentation of claims to land within the Kingdom of Hawaii to be presented to the Board of Land Commissioners. The record of the Land Department discloses no objection filed to the claim of John Meek or any action by the Commissioners thereon, except the word "withdrawn" is written in an unknown hand in the margin of the record against said claim. An explanation of this action by John Meek is found in the decision of the Supreme Court of Hawaii in the case of Jones vs. Meek, 2nd Hawaiian, page 12, where Judge Robertson, in delivering the opinion of the court, says as follows:

"The defendant HAS PROVED that in May, 1847, he presented his deed dated the 3rd day of September, 1839, to the Land

Commission, together with a survey of his lot which he had procured to be made by Mr. Metcalf, on which survey defendant had a memorandum made to the effect that his lot had the privilege of a road twenty-five feet wide over plaintiff's land, and that some time afterwards the Commissioners gave him leave to withdraw his papers, the President, Judge Lee, having told him that any action of the Board upon his claim was unnecessary, as they could give him no better title than he already possessed under his grant from the King and Premier."

In the case above referred to it was sought to obtain a deposition from Judge Lee, President of the Board of Land Commissioners, upon this very matter, he being then out of the country. To obviate taking such deposition, counsel for the parties plaintiff and defendant filed in the Supreme Court, March 18, 1857, the following stipulation:

"SUPREME COURT.

"JONES vs. MEEK.

It is admitted on the part of the plaintiff that Judge Lee would swear if present and he is taken to have sworn that the defendant on or about the 2nd day of May, 1847, filed his claim before the Board of Land Commissioners accompanied by the deed and survey hereunto annexed with the view of obtaining a confirmation of his claim to the land embraced in said deed and survey, including the road in the said survey marked. That upon examination of the document so submitted, the Commissioners gave him leave to withdraw said claim on the ground that they could give him no better title than his documents conferred and that no action of the Board was necessary thereon and that he had better have his papers recorded, whereupon the defendant withdrew his said claim."

It is respectfully contended that the claimants' predecessor in title did all that the law required in so far as presenting his claim is concerned. He could not have compelled action by the Commissioners except by mandamus. He was advised by the Board that they could give him no better title than he had and further advised by said Board to record his deed, which he did. This is not the case of a claimant who has wilfully neglected to present his claim to the Board of Land Commissioners, or who, through inadvertence, has failed to make such presentation, but it is the case of a man who did everything that was possible for him to do in order to perfect his title and owing to official action by persons in authority has been prevented from having a title which would be perfect under the law. The claimants contend that the Governor and Superintendent of Public Works have in them vested the

power to quit-claim the Territory's interest in the land in question for the purpose of perfecting the title of the claimants and this is a case where the discretion vested in said officials should be used.

We further show, without fear of contradiction, that the claimants and their predecessors in title and estate have until within the last year paid all taxes and assessments levied against said property and that for a period of approximately seventy years no government of these islands has made any claim to any portion of said property. It seems inequitable and unjust after the lapse of this period of time, after the land has been conveyed and reconveyed by the alleged owners thereof to innocent parties who have paid valuable considerations therefor on the strength of the Meek title, and after the claimants have improved the property and built thereon buildings and structures costing large sums of money, that the Territorial Government should refuse to quit-claim its interests in said premises under the circumstances hereinbefore set forth, the officers of the Territory apparently taking the position that because John Meek, in the year 1847, complied with the suggestion of the Commissioners and recorded his deed instead of insisting upon an award, that neither he nor his successors in interest or estate have any interest in the said premises claimed. We contend that the discretionary power vested in the Governor and Superintendent of Public Works by Sections 254 and 276 of the Revised Laws was given to such officers for the express purpose of meeting just such a state of affairs as is here presented where according to the strict letter of the law the claimants have a questionable title, but where in equity and common fairness they have rights that should be respected and acknowledged to a sufficient extent to warrant the proper officers of the Territory quit-claiming to such claimants the interest of the Territory in such property. This disceptationary power to perfect titles given to the Governor and Superintendent of Public Works, as hereinbefore stated, has been often exercised in the past, as the following cases will show:

"Honolulu, T. H., Oct. 12th, 1910.

Dear Sir:—

I have made for your consideration, memorandum of sundry cases in which the Government has heretofore perfected the titles to land held under imperfect titles, and where the legal title was in the Government:

1. Quit-claim deed to J. H. Wood

Dated Area 96 acres, Nuuanu.

Consideration \$1.00.

2. Grant 3235 to Theo. H. Davies.
Date 1879. Residence lot, Nuuanu.
Area 4 58/100 acres. Consideration \$1.00.
3. Grant 3249, H. McIntyre.
Date 1880. Lot, Nuuanu.
515/1000 acres. Consideration \$1.00.
4. Grant 3250, C. Brenig.
Date 1880. Lot, Nuuanu.
63/100 acres. Consideration \$1.00.
5. Grant 4005, M. Kekuanaoa.
Date 1897. Lot, Nuuanu St.
41/100 acres. Consideration \$260.00.
6. Grant 4336, M. Kekuanaoa.
July, 1899. Lot on Queen St.
2020 sq. ft. Consideration \$57.00.
7. Quit-claim deed, Territory of Hawaii to F. Leslie.
October 16th, 1900.
341 sq. ft. Consideration \$425.00.
8. Quit-claim deed, Territory of Hawaii to M. Kekuanaoa.
Oct. 6th, 1902. Lot, King St.
Consideration \$1.00.

I would note as to above that Numbers 1, 5, 6 and 7 were sold by Kekuanaoa to sundry parties in early days without, so far as I have ever been able to find, any show or color of title. No. 8 was sold by Kekuanaoa from land which evidence before Land Commission showed to be his, but which by mistake or oversight was not awarded to him. I am not familiar with the full history of Nos. 2, 3 and 4, but know that they were unawarded lands occupied by private parties.

Yours very truly,

(S) J. F. BROWN."

In addition to the foregoing, it is claimed by Henry Smith, as Trustee for the parties hereinbefore named, that as a part or portion of the premises in question was occupied by the Government of Hawaii as and for a Police Station, and that the then Government of Hawaii recognized the title in the persons claiming under the Meek deed by paying rent to such claimants, and that at one time the Government claimed a lien upon a portion of the property in question because of sidewalks which were constructed in front of said premises, in this way also acknowledging the title of the claimants in said property.

The claimants stand ready to present the necessary proofs of all the matters and things set forth in the foregoing statement and would be glad of an opportunity to substantiate their

claims before such Committee of the Senate or House as may be appointed to investigate the same.

Dated, Honolulu, February 16th, 1911.

Respectfully submitted,

HENRY SMITH,
Trustee for Maud Stein, Richard Reuter,
Eli Meek Crabbe and Richard Meek.

By its Treasurer, L. ABRAMS.

Senator Chillingworth moved that the Report of the Committee be adopted. Seconded by Senator C. Brown, and carried.

Senator Fairchild presented a Report (No. 15) of the Ways and Means Committee on Senate Resolution No. 11, which was read by the Clerk as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means beg leave to report on Resolution No. 11, introduced by the Senior Senator from the Third Senatorial District as follows:

The intent of the Resolution is to obtain the sum of Twenty Thousand Dollars for the purpose of purchasing from the Kapiolani Estate, Limited, a surrender of the existing lease which expires August 15th, 1912, in order to facilitate and expedite the project of the Territorial Government whereby it is intended that fee simple title may be obtained by the subtenants of the Kapiolani Estate as provided by the recent amendment to the Organic Act.

A list of rentals to be collected between the present time and that upon which the lease expires was submitted, and from such statement it appears that the rentals to accrue will be nearly \$12,000.00, all of which the government may reimburse itself should any delay be occasioned by reason of being unable to grant titles by reason of surveys and laying out of streets. It was also made to appear that certain tenants paid their rentals by doing work for the owners of the lease, otherwise known as Konohiki labor, a relic of ancient days. There were other equities claimed, such as the surrender and placing in the immediate possession of the government of certain tracts of unleased and unoccupied portions of the Ahupuaa of Auwailimu, (the name by which the whole of this land is known), as well as the release and quit-claim of any interest or

equity in the fee of the lands as well as the surrender of the lease.

Your committee recommends that a sum not to exceed Fifteen Thousand Dollars (\$15,000.00) be inserted instead of the sum of \$20,000.00.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

CECIL BROWN,

Committee on Ways and Means of the
Senate of 1911.

Gentlemen:—

Enclosed find a list that has been prepared from our Rent Roll Ledger showing the number of leases, names of lessees and amounts that are due and will be payable by our respective tenants of the land of Auwalolimu from this date to August 15, 1912.

The figures show a total of \$11,736.91, add thereto the amount of \$852.00, the value of the Extension of the certain Leases marked x and adding again the value of the Konohiki Labor \$5070.00, will bring the grand total to \$17,658.91. This, however, does not include tenants who have already paid rent for their leases in full to August 15, 1912.

Yours very truly,

KAPIOLANI ESTATE, LIMITED,
JOHN F. COLBURN,
Treasurer.

The Petition was referred to the Committee on Public Lands and Internal Improvements.

Senator Judd presented a Report from the Judiciary Committee (No. 16) on Senate Bill No. 6, recommending the passage of the Bill with one amendment.

To the President of the Senate:

Your Judiciary Committee, to whom was referred Senate Bill No. 6, "To Prohibit any Government Officer from Being Interested in any Contract or Agreement to which the Government is a Party," begs leave to report as follows:

After a full consideration of this Bill, and thorough discussion of the subject matter thereof, your Committee considers this a wise measure for the future, and desires to call attention to the fact that this Bill is not the result of any known malfeasance on the part of any Territorial or County Officer. There is an error in Line 2 of Section 2 of this Bill, the word "be" should be stricken out. With this change the Bill is in proper form, and your Committee recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU.

Dated, Honolulu, Hawaii,

Senator Judd presented a Report (No. 17) from the Judiciary Committee on House Bill No. 13, recommending the passage of the Bill.

To the President of the Senate:

Your Judiciary Committee, to whom was referred House Bill No. 13, begs leave to report as follows:

FINDINGS.

The Bill has been in substance recommended by the Governor (page 38) in his first message to the Legislature. It is calculated by it to perfect the statute of 1909, regarding intermediate imprisonment, by removing one ambiguity, and by deleting one clause found to be impracticable, and by placing on the Warden, a paid official, the burden of a large amount of detail work which is now upon the Board of Prison Inspectors who serve without pay.

CONCLUSIONS.

After a full consideration of this Bill, and a thorough discussion of the subject matter your Committee urges the passage of this Act.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,

To the President of the Senate:

Your Judiciary Committee, to whom was referred House Bill No. 16, "Relating to Tenure of Public Officers," beg leave to report as follows:

FINDINGS.

Section 1 of this Bill is simply declaratory of the law,
Section 2 of the Bill is a highly desirable provision.

It has happened in the past that certain Boards and Departments of the Government have been unable to transact necessary business because of the absence of members and officers thereof for long periods of time. This section will facilitate public business, and prevent and avoid the delays which have been experienced in the past.

CONCLUSIONS.

After a full consideration of this Bill by the Committee and a thorough discussion of the subject matter thereof, your Committee recommends the passage of House Bill No. 16.

Respectfully submitted,

FINDINGS.

This Bill is calculated to enforce uniformity in Court Forms in all the Courts of the Territory. Heretofore these forms have been distributed free of charge. This Bill provides that such forms, may be sold, if printed at public expenses, at enough to cover their cost.

SENATE JOURNAL.

To the President of the Senate:

Your Judiciary Committee, to whom was referred House Bill No. 20, begs leave to report as follows:

FINDINGS.

This Bill seeks to repeal that part of the Municipal Act of the City and County of Honolulu, which provides for a set of election officers different from those appointed by the Governor for Legislative elections. The repeal of this section will avoid unnecessary confusion, in convenience, expense and duplication of election machinery.

CONCLUSIONS.

Chief Clerk.

The Communication was received and placed on file.

Upon request of Senator Fairchild, the Committee on Ways and Means was given further time in which to report on Senate Bill No. 17 and House Bill No. 55.

Senator Judd presented a Report (No. 24) from the Judiciary Committee to which was referred House Concurrent Resolution No. 4, recommending the adoption of the Resolution with stated amendments:

REPORT ON HOUSE OF REPRESENTATIVES CONCURRENT RESOLUTION NO. 4.

To the Honorable E. A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Concurrent Resolution No. 4, of the House of Representatives, Requesting the Secretary of the Navy to select and designate the name "Hawaii" for the next Battleship to be added to the United States Navy, begs leave to report as follows:

It is not within the power of the Secretary of the Navy to grant the request set forth in the resolution, as under the Revised Statutes of the United States, Section 1531, as amended by Act of May 4, 1898, Chapter 234, (30 Statutes at Large 390) and by 35 Statutes at Large 159, all first class battleships must be named for the States until the names of the States shall have been exhausted. There are, however, only four States remaining on the list, Nevada, Oklahoma, Arizona and New Mexico, assuming that the two latter will soon be admitted. The battleships authorized this year and next year will then exhaust the names of the States, after which Hawaii's claim may properly receive consideration.

In view of this state of affairs your Committee recommends the following amendments to the resolution, to-wit:

1. Delete the last four words in the first preamble,

"now being constructed, and"

and insert in lieu thereof the words

"of the United States Navy, and."

2. Insert in the first resolve after the words

"United States"

the phrase

"after the provisions of Sections 1531 of the Revised Statutes of the United States, as amended, shall have been complied with."

With the foregoing amendments your Committee recommends that this Resolution be adopted.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

Dated, Honolulu, Hawaii, March 1, 1911.

The Report of the Committee was adopted.

Senator Judd presented a Report (No. 25) from the Judiciary Committee, to which was referred House Bill No. 16, recommending the passage of the Bill with stated amendments:

REPORT ON HOUSE BILL NO. 16.

To the Honorable E. A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom House Bill No. 16, Relating to Tenure of Public Officers, was referred with the suggestion that Section 2 thereof might be in conflict with Section 80 of the Organic Act, which prescribes that certain officers and members of boards of a public character that may be created by law may be removed by the Governor by and with the advice and consent of the Senate, begs leave to report as follows:

Your Committee finds in the Bill no such conflict with the Organic Act. The last sentence of the first paragraph of Section 80 of the Organic Act is as follows:

"All such officers shall hold office for four years and until their successors are appointed and qualified, unless sooner removed, except the commissioners of public instruction and the members of said boards, whose term of office shall be as provided by the laws of the Territory of Hawaii."

It will thus be seen that while the term of office of the officers enumerated in the first part of Section 80 is four years and therefore a matter which the Legislature of Hawaii cannot change, the term of office of "the commissioners of public instruction and the members of the said boards" is a matter which lies with the Legislature of Hawaii to change or amend from time to time as it sees fit. Section 2 of the bill under discussion is an attempt to shorten the term of office of certain appointive officers of the Territory. A failure to perform the duties of his office for a period of three months is to cause the term of office for which he was appointed to expire. This is in no way a removal of the officer appointed, but is an extinguishment of his term of office. In the judgment of your Committee such a law would not transcend any prerogative of the Senate under the Organic Act.

In order, however, that there may be no misunderstanding your Committee suggests that Section 2 of this Bill be amended by substituting for the phrase

"Who is not removable at the pleasure of the appointing officer or body"

the phrase

"whose term of office is not prescribed in Section 80 of the Organic Act."

The Organic Act specifically leaves it with the Territory of Hawaii to define the tenure of office. This bill defines the term of office in Section 1 thereof, and in Section 2 prescribes that the term of office shall cease upon the happening of certain events.

With the amendments above suggested this Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

REPORT ON HOUSE BILL NO. 14.

To the Honorable Eric A. Knudsen,
President of the Senate:

Your Judiciary Committee, to whom was referred House Bill No. 14, to provide for the payment of a certain judgment for the sum of \$15,000 together with interest thereon, rendered by the Supreme Court of the Territory in favor of Frederick J. Lowey, George P. Castle and William O. Smith, Trustees, against the Territory of Hawaii, begs leave to report as follows:

FINDINGS.

The American Board of Commissioners for Foreign Missions for many years prior to 1850 had conducted and maintained in the Hawaiian Islands a Protestant Mission, and, as an essential part of its missionary work, carried on many schools. Its most notable educational work was centered in a school established in 1831 at Lahainaluna, on the island of Maui. This school and the premises occupied by it were set off by the chiefs to the Protestant Mission in 1835. On the buildings and other improvements many thousands of dollars were expended, and the school had in 1850 become a most important factor in the life and progress of the Hawaiian people, and was recognized as the leading educational institution in the kingdom.

The course of instruction comprised not only the usual topics belonging to secular learning, but included also direct religious teaching and training in the doctrines represented by the mission.

The claim of the American Board of Commissioners for Foreign Missions to Lahainaluna, as an established part of its system was duly presented to the board of commissioners to quiet land titles, but the claim was withdrawn. The record being in part as follows:

"Lahainaluna, part 5, section 2, claim relinquished before the land commission in consequence of an after-arrangement having been entered into with the Hawaiian Government by the Mission,—"

In April, 1849, the American Board of Commissioners for Foreign Missions transferred to the Hawaiian Government the seminary at Lahainaluna upon the understanding that it should be maintained by the Government along the same lines as it had been maintained by the mission. A breach of the conditions upon which this transfer was made it was agreed would give to the American Board of Commissioners for Foreign Missions the right either to a conveyance of the school properties or, at the option of the Hawaiian Government, to the payment of \$15,000.00.

On July 25, 1903, the American Board of Commissioners for Foreign Missions conveyed to F. J. Lowrey, Henry Waterhouse and William O. Smith, as trustees for the Hawaiian Evangelical Association, all the lands and real estate in the Territory of Hawaii in possession of or belonging to the American Board, or in which they had any right, title, interest, claim or demand whatsoever, by deed properly executed George P. Castle was later duly substituted as a trustee in the place and stead of Henry Waterhouse.

On May 24, 1905, Messrs. Lowrey, Castle and Smith, as trustees under the above deed, brought an action against the Territory under Section 2000 of the Revised Laws to recover the sum of \$15,000.00, alleging a breach by the Territory of the agreement made in 1849 between the Kingdom of Hawaii and the American Board of Commissioners for Foreign Missions.

The case was argued on motion of the Territory to strike out certain portions of the plaintiff's petition, and the motion denied, December 11, 1905. On December 18, 1905, the case was argued on demurrer before the Supreme Court, and on January 3, 1906, the Supreme Court of the Territory of Hawaii decided in favor of the Territory. Messrs. Lowrey, Castle and Smith took the case to the Supreme Court of the United States and it was there argued and submitted March 20, 1907, and decided 13th of May, 1907, the decision being in favor of Messrs. Lowrey, Castle and Smith. The Supreme Court of the United States remanded the case to the Supreme Court of the Territory of Hawaii with instructions to proceed to try the case on its merits. The case was tried in the Supreme Court of the Territory on its merits February 17 to 21, 1908, and decided July 1, 1908, in favor of the Territory. The case was again taken to the Supreme Court of the United States and there argued on December 6 and 7, 1909, and decided January 24, 1910, the decision being in favor of Messrs. Lowrey, Castle and Smith, the Supreme Court of the United States remanding the cause with instructions to the Supreme Court of the Territory to enter judgment in favor of the plaintiffs, Messrs. Lowrey, Castle and Smith. The mandate of the Supreme Court of the United States was filed in the Supreme

Court of the Territory on March 19, 1910, and on March 30, 1910, judgment was entered in the Supreme Court of the Territory in favor of Frederick J. Lowrey, George P. Castle, and William O. Smith, Trustees, and against the Territory of Hawaii for the sum of \$15,000.00, together with costs taxed at \$111.20.

CONCLUSIONS.

Your Committee recommends the passage of this Bill.

Respectfully submitted,

The Bill passed First Reading by title and was referred to the Committee on Public Lands and Internal Improvements.

Senator Kalama presented a Report (No. 28) from the Committee on Public Lands and Internal Improvements, to which had been referred Senate Petition No. 4, recommending that the Petition be laid on the table to be taken up for consideration with the Appropriation Bill.

The Report of the Committee was read by the Clerk as follows:

SENATE CHAMBER.

Honolulu, T. H., March 3, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred Senate Petition No. 4, praying "for sufficient funds to lay a four-inch water main in Houghtailing Road, Honolulu" presented by the Hon. A. F. Judd, Senator 3rd District, beg leave to report as follows:

Your Committee has had the said petition under due and careful consideration, and upon further investigation, we find that the very water main prayed for is included in the recommendations of the Superintendent of Public Works, in whose department the control and improvements of the Honolulu Water Works system is placed; and we further find, that in the said recommendation a larger water main will be laid for a distance of 1500 feet along said Houghtailing Road to be 6-inch instead of 4-inch size,—a very much better proposition than the petitioners suggested.

Your Committee therefore recommends the petition be laid on the table, to be taken up for consideration with Senate Bill No. 22.

Very respectfully submitted,

S. E. KALAMA,
Chairman.

A. S. KALEIOPU,
Member.

GEO. C. HEWITT,
Member.

The Report of the Committee was adopted.

Senator Kalama presented a Report (No. 29) from the Committee on Public Lands and Internal Improvements, to which was referred Senate Bill No. 7, recommending that the Bill be laid on the table to be taken up for consideration with the Appropriation Bill.

The Report of the Committee was read by the Clerk as follows:

SENATE CHAMBER.

Honolulu, T. H., March 3, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred Senate Bill No. 7, introduced by Hon. D. K. Baker, entitled "An Act to Provide for the Construction of a Wharf at Napoopoo, South Kona, Island of Hawaii, and Making a Special Appropriation Therefor", has had the same under due and careful consideration and beg leave to report as follows:

The Committee finds the expenditure of the appropriation prayed for will provide a needed public improvement; and from consultations had with the officials of the Public Works Department who have such matters in hand, the Committee learns that the amount proposed to be appropriated is sufficient for the purpose.

Your Committee therefore recommends the Bill be laid on the table to be taken up with the regular appropriation bill, to-wit: Senate Bill No. 22.

Very respectfully submitted,

S. E. KALAMA,
Chairman.
A. S. KALEIOPU,
Member.
GEO. C. HEWITT,
Member.

The Report of the Committee was adopted.

Senator Kalama presented a Report (No. 30) from the Committee on Public Lands and Internal Improvements, to which had been referred Senate Petition No. 1, recommending that the Petition be granted.

The Report of the Committee was read by the Clerk as follows:

SENATE CHAMBER.

Honolulu, T. H., March 3, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred Senate Petition No. 1 presented by the Hon. A. S. Kaleiupu, Senator from the 3rd District, beg leave to report as follows:

Your Committee has had the same under due and careful consideration and find: That the petition prays for the appropriation of the sum of \$2,500.00 for the relief of the Hawaiian Board and the widow of R. Maka, deceased, as recited in said petition.

In view of the conditions which caused the injury to the interests of the estate of R. Maka aforesaid, your Committee believe that it is right and just that the claim be allowed as prayed for.

Therefore your Committee recommends that the amount claimed in the said petition be inserted in the appropriation bill itemized as follows:

“Relief of Hawaiian Board,
Beneficiary, under the Will of Kalau Maka, deceased \$1,500.00

“Relief of Kaneahoa,
Surviving widow of R. Maka, deceased 1,000.00

The above items to be inserted in lines 156 and 156a of Senate Bill No. 22, now pending before the Senate.

Very respectfully submitted,

S. E. KALAMA,
Chairman.
A. S. KALEIOPU,
Member.
GEO. C. HEWITT,
Member.

The Report of the Committee was adopted.
Senator Kalama presented a Report (No. 31) from the Com-

mittee on Public Lands and Internal Improvements, to which had been referred Miscellaneous Communication No. 4 with Resolution attached, from the Clerk of the City and County of Honolulu, recommending that the same be tabled.

SENATE CHAMBER.

Honolulu, T. H., March 3, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred Miscellaneous Communication No. 4 with resolution attached, from the Clerk of the City and County of Honolulu, has had the same under careful consideration, and beg leave to report as follows:

The Resolution on its face is virtually a petition to the Governor and the Commissioner of Public Lands to ask the Legislature for some appropriation which the Board of Supervisors required for certain local improvements, and is not a direct petition to this Legislature.

Your Committee is of the opinion that it is improper for this Legislature to initiate in the action suggested without the recommendation of the authorities mentioned in said Resolution, and therefore recommend that the said Communication be tabled.

Very respectfully submitted,

S. E. KALAMA,
Chairman.
A. S. KALEIOPU,
Member.
GEO. C. HEWITT,
Member.

The Report of the Committee was adopted.

Senator Fairchild presented a Report (No. 32) from the Committee on Ways and Means to whom had been referred Senate Bill No. 30, recommending the passage of the Bill with certain amendments.

The Report of the Committee was read by the Clerk as follows:

Honolulu, March 3, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bill No. 30 has had same under consideration and begs to report as follows:

The intent of the Bill is to transfer the granting of second hand dealers' licenses and the collection fees etc., from the Territorial Treasurer to the City and County of Honolulu and other counties of the Territory.

It was evidently an oversight on the part of the last Legislature that the matter was not adjusted at the time other matters of like nature were transferred from the Territory to the Counties.

Your Committee, therefore, recommends the passage of the Bill with the following amendment under Section 1:

After the second word "the" of the first line insert "City and County of Honolulu and of the."

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman, Ways and Means Committee.

CECIL BROWN,
E. W. QUINN,
J. T. BROWN,
WM. T. ROBINSON.

The Report of the Committee was adopted, the Bill passed Second Reading as amended, and was placed on the order of the day for tomorrow for Third Reading.

Senator Chillingworth presented a Report (No. 33) from the Committee on Public Health, to whom was referred Senate Bill No. 28, recommending the passage of the Bill.

The Report of the Committee was read by the Clerk as follows:

Honolulu, March 3, 1911.

Hon. E. A. Knudsen,
President of the Senate,

Dear Sir:—

Your Committee of Health have had under consideration Senate Bill No. 28 and begs leave to report as follows:

The last Legislature appropriated \$15,000 for buildings and

furnishings for this Home. Plans and specifications were made for the buildings, after consultation with the President of the Board of Health and Sisters in charge of the Home, and tenders were advertised for. Five tenders were received as follows: \$18,167; \$20,683; \$23,200; \$28,000; \$30,039.

These being all above the amount appropriated, a study was made to cut down the plans sufficiently to come within the appropriation, but it was found impossible to do this without falling short of the requirements of the Home. It was then concluded, in the interests of the Home and the most judicious expenditure of the money, to leave it to the Legislature whether an additional appropriation should be made or the buildings and furnishings be cut down so as to come within the present appropriation, and thereby leave the Home inadequately provided for. It is believed that \$5,000 additional will be sufficient for both the buildings and the furnishings.

Your Committee visited the Kapiolani Girls' Home and found same in a condition which calls for immediate action and, therefore, recommends the passage of the Bill.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.

PHILIP PALI,
ALBERT F. JUDD.

The Report of the Committee was adopted; Senate Bill No. 28 passed Second Reading and was placed on the order of the day for tomorrow for Second Reading.

Honolulu, March 3, 1911.

At this juncture a message from the Governor (No. 5) was received and read by the Clerk as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.

Honolulu, March 3, 1911.

To the Legislature:

I submit herewith, in the form of an appropriation bill, estimates for public improvements.

In my first message I suggested the desirability of separate bills for current expenses and permanent improvements.

The amount available for public improvements from loan funds now in the Treasury after meeting outstanding obligations will be practically nothing; but there is a substantial surplus in general funds, though small as compared with the needs.

The amount of bonds that may yet be issued under the existing loan act (Revised Laws, page 1302) is \$1,756,000. If public improvements are to be provided for out of loan funds in excess of that amount, either the existing loan act must be amended so as to extend the limit to which bonds may be issued, or else a new enabling act must be enacted.

The limit prescribed by the Organic Act to which bonds may be issued is one per cent of the assessed value of property, or, say, \$1,500,000, in any one year, and seven per cent

in the aggregate, but it will probably be advisable in any event to issue the bonds, not all at once, but in instalments, so as to avoid keeping an unnecessarily large sum in idleness and so as not to affect labor conditions too seriously. The total amount of bonds now outstanding is \$4,029,000, or 2.68 per cent of the assessed value of property. An additional \$25,000 is about to be paid.

The recent amendments of the Organic Act extended the term for which bonds may be issued from 15 years to 30 years. This should facilitate the sale of bonds at a lower rate of interest or a higher price than would otherwise be possible. On the other hand, the bond market at the present time is such that a higher rate of interest may have to be paid or the bonds sold at a greater discount than was the case with the last three issues. It may be that bonds cannot be sold at par unless they bear interest at a rate as high as four per cent per annum, although the market may improve before the bonds are issued, so as to make it possible to sell them on better terms. The last sale was of $3\frac{1}{2}$ per cent 15 year bonds at 98.25. If the rate of interest is four per cent, there will have to be set aside annually for sinking fund, in addition to interest, 4.99 per cent, if the term of the bonds is 15 years; 3.36 per cent, if the term is 20 years; 2.40 per cent, if the term is 25 years; and 1.78 per cent, if the term is 30 years.

In order to justify the issuance of bonds adequate provision should be made also for the expenditure of the proceeds to the best advantage and without waste and for the upkeep of the improvements thereafter, so that the improvements will not require to be replaced before the bonds are paid.

Most of the improvements covered by the proposed bill have been explained sufficiently in my first message, to which your attention is invited. They are divided into two classes, namely, those which are territorial and those which are county and city and county in nature.

The territorial improvements are classified into water and sewer works, wharf and harbor improvements, and public buildings.

As to water and sewer works, all the bonds that may be issued for these may be met, principal and interest, out of the revenues of those works, as provided by Act 105 of the Laws of 1909 and Section 6 of the bill submitted herewith.

As to wharf and harbor improvements, the bonds that may be issued for these may be met, in part at least, out of the revenues of the improvements to be made with the proceeds of such bonds. It is a question calling for careful consideration whether such wharves as are intended to be used largely as terminals of railroads should be owned and operated by the Territory or by the railroad or other companies under licenses

from the Territory. In the case of Hilo, a license has been granted to the Hilo Railroad Company, but the wharf has not yet been constructed. In the case of Kaawaloa, the question of the issuance of a license has been the subject of discussion between the government and certain railroad companies, but no license has yet been issued. In each of these cases, the wharves are proposed for localities in which there is now little or no business and to which the railroads do not extend, and it is suggested that if appropriations are made for the construction of these wharves, they should be made only on some such conditions as those set forth in the bill, in order to assure the use of the wharves. At Kahului the wharf has already been constructed under a license from the Territory and it is a question whether that should now be purchased by the Territory, as may be done under the terms of the license, at an appraised value not to exceed the cost. Again, it is a question whether McGregor's wharf should be extended, as it ought to be if it is to remain the principal landing on that side of Maui for Wailuku, or whether the principal landing should be changed to Kihel.

As to territorial buildings, most of these are pressingly needed. They are, however, non-revenue producing improvements and should be provided for, as far as possible, out of general revenues. As pointed out in my first message, they have first claim upon the territorial surplus. Accordingly, it is provided in Section 2 of the bill that these may be paid for out of the general revenues in so far as there may be such revenues available for the purpose. When the Territory is so fortunate as to have a surplus, it should be used for neglected objects of this nature in order to keep down the bonded indebtedness, or to pay off such indebtedness, for which sufficient provision has not yet been made. It is impossible to estimate accurately what the revenues for a future biennial period will be, because they depend so much upon the varying price of sugar and other varying causes. So far as can be estimated, it is probable that a large portion of these buildings and perhaps all of them may be provided for out of the general revenues, provided belt roads are provided for out of loan funds. The potent reasons why belt roads should be provided for out of loan funds, and the general revenues used for such territorial buildings as these, are set forth in my first message. In order to reduce the cost of these buildings as much as possible, it is provided in Section 3 of the bill that those for certain institutions may be constructed as far as practicable by the inmates of those institutions. In the case of the prison, it is a question whether the site of that should be changed; if so, a far larger amount than that stated in the bill will be required, and in any event a larger amount should

be provided, if possible. Accordingly, in order to provide the necessary revenues for these purposes and keep the bond issue as low as possible, a method is suggested in Section 4 of the bill, which may easily be modified to meet the views of the Legislature. There is need of a public building at Hilo for the use of the Circuit Court and other purposes, but the need is not of such immediate urgency as the need of the other buildings referred to, and it is a question also whether that should be provided for as a territorial building or as a county building. No estimate is included for such a building, but your attention is called to it, in order that it may not be overlooked.

As a fourth class of desired territorial improvements, the Kaplolani Park may be mentioned as one requiring a small appropriation of, say, \$12,000, for various improvements, in case it should be regarded, as suggested in my first message, as in the nature partly of a territorial park and partly of a city and county park, the Territory providing for the permanent improvements and the city and county for the upkeep under the direction of a territorial board. That also is a non-revenue producing improvement, and for that reason and because of the nature of the object, the appropriation, if any should be made, should perhaps be included in the appropriation bill for current expenditures, so as to have it payable out of the general revenues exclusively.

As to county and city and county improvements, it is a question whether the bonds should be issued by the Territory, following the precedent set by the last Legislature in the case of the Kula Pipe Line, or by the several counties and city and county. The Territory could doubtless issue the bonds at lower rates of interest, and if the reimbursement of the Territory by the counties and city and county for interest and sinking fund should be provided for in the manner set forth in Section 7 of the bill, the counties and city and county would have the additional advantage of being able to pay the bonds and discharge their obligations at any time, instead of being obliged to wait a long period until the bonds should become redeemable, and would also avoid the necessity of accumulating the sinking fund, which is objectionable from the standpoint of a sound fiscal policy, because the Territory can make use of amounts set aside for sinking fund purposes from time to time by applying them to the payment of its earlier issues of bonds, while the counties have no such earlier issues to which they could apply their sinking fund.

The county and city and county improvements are divided into two classes, namely, belt roads and school buildings. No estimates are made for the former, as some of the counties may not wish to have bonds issued for that purpose and other counties will wish to determine the amounts desired by them.

Blanks are left for the insertion of the desired amounts, if any of the counties prefer to avail themselves of this method and the Legislature approves.

The construction of school buildings, however, is a necessity, and the only question should be whether they should be constructed as territorial or as county buildings. If the maintenance of school buildings is to remain in the counties, the construction of school buildings likewise should be placed there, both as a matter of logical distribution of functions and in order to insure proper maintenance. If the Territory is to construct the buildings, there is no incentive, except one of the public welfare, which is not always effective, for the counties to maintain them properly. During the last year, for instance, the county in which there is the largest number of school buildings expended almost nothing for their maintenance. If the buildings should be constructed as county buildings, to be renewed by the counties and not by the Territory when they decay, the counties would have an additional inducement for properly maintaining them. If the Territory is to construct them, either it should be provided with the means of maintaining them, or else their maintenance should in some way be made obligatory on the counties. In case any of the counties should prefer to construct its school buildings without the issuance of bonds, provision is made for that in the proviso of Section 5 of the bill.

If the Territory is thus to lend its credit to the counties for the construction of belt roads and school buildings, it must see to the proper application of the proceeds of the bonds, for which it is primarily liable, and, on the other hand, if the counties are to be ultimately responsible for the payment of the bonds, they also should have a voice in the application of the funds. Accordingly, provision is made for this in Section 5 of the bill.

The bill does not include estimates for all needs, nor are all the estimates that are included as large as might be desired. The aim has been to keep down the bonded indebtedness, to insure its payment and the economical expenditure of loan funds, and to meet the varying needs and resources of the Territory and the several counties and city and county. So little has been done for some years past in the matter of public improvements either out of loan funds or out of general revenues, that much is required now in order to meet the urgent needs of a growing country.

WALTER F. FREAR,
Governor of Hawaii.

Honorable Body that the Governor has this day signed the following bill:

House Bill No. 14, Act 6, entitled "An Act to Provide for the Payment of a Certain Judgment for the Sum of Fifteen Thousand Dollars (\$15,000.00), Together with Interest Thereon, Rendered by the Supreme Court of said Territory in Favor of Frederick J. Lowrey, George P. Castle, and William O. Smith, Trustees, Against the Territory of Hawaii."

Very respectfully yours,

H. P. O'SULLIVAN,
Chief Clerk.

The Communication was received and placed on file.

A Communication (No. 12) from Alfred D. Cooper, Chairman, Territorial Central Committee of the Republican Party of Hawaii, enclosing a Communication from Carl S. Smith, Executive Committeeman, First Representative District, was read by the Clerk as follows:

REPUBLICAN TERRITORIAL CENTRAL COMMITTEE.

Honolulu, T. H., March 3, 1911.

Hon. Eric A. Knudsen,
President of the Senate,
City.

Dear Sir:—

I beg to transmit herewith copy of letter received from Mr. Carl S. Smith of Hilo, Hawaii, relative to the Bill provided for County Record Office (H. B. No. 60) at present pending before the House.

Yours very respectfully,

ALFRED D. COOPER,
Chairman.

ADC/ASA

Alfred D. Cooper, Chairman,
Territorial Central Committee,
Honolulu, T. H.

Dear Sir:—

At the request of several of the Republicans who were interested in having inserted in the Territorial Platform, Section 15, which provides for the Recording of Instruments of Conveyances in the counties where the property conveyed is situated, I have spent a considerable amount of time in the preparation of such a Bill. Inasmuch as I have drafted three separate Acts for each Session of the Legislature for 1905,

1907 and 1909, I am fairly familiar with the necessities of this Bill.

When it was finally completed, I submitted it to Governor Frear, who gave it more than ready study and at his suggestion have made numerous amendments.

The Bill thus to be presented is therefore the careful work of several years and has had the mature consideration of the Governor. I will submit the Bill to the Speaker of the House of Representatives with the request, that he see to it that it is properly introduced and pushed through at as early a date as possible.

Very much to my surprise, a number of gentlemen in the House and in the Senate elected upon the Republican ticket find that this Legislation does not meet with their practical views and so are to be relied upon as unfavorable to this, or any other measure, which will carry out the pledge contained in the Party Platform. From the standpoint of common honesty and decency it is going to be necessary for this Legislature to pass a Bill which looks to the recording of instruments in the various counties.

I am sorry to say that some of our Republicans do not look at the matter from this standpoint. It will be necessary to urge upon them with some considerable insistence, that the next Campaign is going to be difficult for the Republican Party, just in so far as the Republican pledges of last year are disregarded.

Aside from the fact that the Republican Party has pledged itself to this particular piece of reform, I would like to call your attention, and through you, to the attention of the Executive Committee and the Republican members of the Legislature some facts, which seem to be overlooked in a discussion of this measure. Nowhere else in the United States is there any such condition of affairs relative to the recording of instruments, such as exists here. In this Territory, however, there are much stronger reasons for legal record of conveyances than elsewhere, for the reason that we have such infrequent communications between the outside Islands and the Capitol. I can give you several instances of cases where persons attempting to purchase land on the Island of Hawaii have made an examination of the Honolulu records and finding them satisfactory, have taken a conveyance, only to find that when their conveyance is recorded a prior conveyance has been recorded, between the taking of their instrument and the recording of it.

It is objected by the Honolulu business men that all of the business is done in Honolulu and the records should be kept here. This is a serious mistake, but it is to be explained by reason of the fact that such condition of affairs existed in former years.

At present we have on the Island of Hawaii 4 Banks and 1 Trust Company, all of whom make considerable loans upon real estate on the Island of Hawaii. Practically none of the Honolulu banks make any such loans. I am informed that a similar condition exists on Maul and Kauai.

It is also objected that the cost of transcribing records now in Honolulu will be considerable. There is no wish or attempt on the part of any person to keep any of Honolulu records to be sent to the outside counties. The Bill merely provides that after July 1, 1911, all conveyances of property shall be recorded in the office of the County Recorder of the County where the property conveyed is situated. I doubt if it will ever be thought wise or expedient to make copies of Honolulu records for outside Islands. After the Bill has been in operation for ten years, a purchaser of land upon the Island of Hawaii will be practically secure by examining his legal records and assuring himself that his grantor has been in possession for the period of ten years, which is the Statutory period of Limitation.

Trusting that you may be able to present the foregoing views to the members of the Executive Committee and to the members of the House and Senate, I am,

Very truly yours,

(Sgn.)

CARL S. SMITH,
Executive Committeeman,
1st Representative District.

Upon motion by Senator Judd, seconded by Senator C. Brown, the Communications were laid on the table to be taken up for consideration with the Bill.

A Communication (No. 13) from John K. Kai, Clerk of the County of Hawaii, transmitting a certified copy of a Resolution passed by the Board of Supervisors of the County of Hawaii, relative to construction and maintenance of public school buildings, was read by the Clerk as follows:

OFFICE OF COUNTY CLERK.
County of Hawaii.

Hilo, Hawaii, March 2, 1911.

Sir:—

I have the honor to hand you herewith a certified copy of Resolution which was adopted by the Honorable Board of Supervisors of the County of Hawaii, at its regular meeting

held the 1st day of March, A. D. 1911, relating to the control and maintenance of the public school buildings of the County of Hawaii.

Respectfully yours,

JNO. K. KAI,
Clerk, County of Hawaii.

To the Honorable E. A. Knudsen,
President, Senate,
Territory of Hawaii.

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE
COUNTY OF HAWAII, TERRITORY OF HAWAII.

RESOLVED, That the Board of Supervisors of the County of Hawaii herewith petition the Legislature of this Territory to take back under its own control the maintenance of public school buildings or that a larger apportionment of the taxes be paid to the Counties.

RESOLVED FURTHER, That the Board of Supervisors of the County of Hawaii set before the Legislature of the Territory the following considerations which prompt its action.

Under the present apportionment of taxes, it is impossible to maintain the school buildings of this island in efficient repair, much less to construct new buildings which are urgently demanded. While deeply appreciating the claims of the public schools, the Board is powerless, with the means at its disposal, adequately to meet these demands. The school buildings of this island, unlike those of other islands, were in bad condition two years ago when the present system was inaugurated. The cost of upkeep of the schools on this island, where distances are great, population sparse, and rainfall heavy, is much greater per capita than elsewhere. The Board is frank to say that it feels that education is a matter of the most vital Territorial concern, and that uniformity in method and equipment of schools is most desirable to the Territory at large. This being the case, it seems unfair to subject one locality to a disproportionately greater expense in maintaining that uniformity.

The Board of Supervisors of the County of Hawaii feels that under present conditions, it is asked to attempt the impossible, and that the only remedy lies with the Legislature of the Territory.

RESOLVED FURTHER, That copies of these Resolutions be sent to the Governor of the Territory, the President of the

Senate, the Speaker of the House of Representatives, and the Superintendent of Public Instruction.

(Signed)

E. H. AUSTIN,
Supervisor, North and South Hilo.

Dated, Hilo, Hawaii, March 1st, 1911.

I HEREBY CERTIFY that the above is a true and correct copy of the original, now on file in my office.

JNO. K. KAI,
County Clerk.

The Communication was received and placed on file, and upon motion by Senator Kalama, seconded by Senator Makekau, the Resolution was referred to the Committee on Education.

A Communication (No. 14) from John K. Kai, Clerk of the County of Hawaii, transmitting a certified copy of a Resolution re belt roads, was read by the Clerk as follows:

OFFICE OF COUNTY CLERK.
County of Hawaii.

Hilo, Hawaii, March 2, 1911.

Sir:—

I have the honor to hand you herewith a certified copy of Resolution (No. 42), which was adopted by the Honorable Board of Supervisors of the County of Hawaii, at its regular meeting held the 2nd day of March, A. D. 1911, providing for the expenditure of \$600,000.00 upon the Belt Road of the County of Hawaii, the said resolution speaks for itself.

I am,

Respectfully yours,

JNO. K. KAI,
Clerk, County of Hawaii.

To the Honorable E. A. Knudsen,
President, Senate,
Territory of Hawaii.

RESOLUTION.

BE IT RESOLVED by the Supervisors of the County of Hawaii that said Supervisors do hereby express themselves in favor of those two bills known as House Bills numbered 61

and 62 recently introduced by Hon. G. F. Affonso into the House of Representatives for the Legislature of 1911, providing for the expenditure of \$600,000 upon the Belt Road of the County of Hawaii, and to protect the expenditure thereof; and,

BE IT FURTHER RESOLVED that the Board of Supervisors request the Senate and House of Representatives now in session at Honolulu to enact the said bills into laws, and that a certified copy of this Resolution be immediately sent to the President of the Senate and the Speaker of the House of Representatives.

(Signed)

N. K. LYMAN,
Supervisor, District of Puna.

Dated, Hilo, Hawaii, March 2nd, 1911.

I HEREBY CERTIFY that the above is a true and correct copy of the original, now on file in my office.

JNO. K. KAI,
County Clerk.

The Communication was received and placed on file, and upon motion by Senator C. Brown, seconded by Senator Makekau, the Resolution was referred to the Committee on Ways and Means.

Senator Judd presented a Report (No. 38) from the Judiciary Committee, to whom had been referred Senate Bill No. 16, reporting adversely on the Bill:

REPORT ON SENATE BILL NO. 16.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 16, to amend Section 93 of Chapter 21, Act 39 of the Session Laws of 1905, etc., relating to county attorneys, begs leave to report as follows:

The purpose of this Bill is primarily to prevent any County Attorney from engaging in the practice of law except in behalf of the County or of the Territory. The bill also gives the County Supervisors some discretion over the action of the County Attorney in the matter of claims against the County, where the Supervisors shall consider the claims "unjust or illegal." Your Committee believes that this bill in its present form is an unwise measure at the present time. It would not allow any county attorney to draft a will, or lease, or to give

advice for compensation outside of his official functions. The result of such a law might prevent the counties from obtaining the services, as county attorney, of men whom the voters might earnestly wish to fill such positions.

Your Committee further believes it wrong in principle that the Supervisors should have the power to compel the county attorney to contest claims which in their judgment are "unjust or illegal," believing that the Supervisors from their training cannot be supposed to have any correct idea of the legality of claims against the County.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

Dated, Honolulu, Hawaii, March 4, 1911.

The Report of the Committee was adopted.

Second Reading of Senate Bill No. 16, entitled "An Act to Amend Section 93 of Chapter 21, Act 93 of the Session Laws of 1905, Entitled 'An Act Creating Counties Within the Territory of Hawaii and Providing for the Government Thereof.'"

Upon motion by Senator C. Brown, seconded by Senator Makekau, the Bill was tabled.

Senator Judd presented a Report (No. 39) from the Judiciary Committee, to whom had been referred House Bill No. 15, recommending the passage of the Bill:

REPORT ON HOUSE BILL NO. 15.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 15, Relating to Road Supervisors and Road Boards, begs leave to report as follows:

This chapter has become a dead letter, and since the formation of the counties has been unnecessary. The subject covered by the chapter is a matter entirely within the province of county administration, and should be taken care of and is

taken care of by the local governments. It is a step in the right direction.

Your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

Chairman.

Senator Judd presented a Report (No. 40) from the Judiciary Committee, to whom had been referred House Bill No. 23, recommending the passage of the Bill with certain amendments:

REPORT ON HOUSE BILL NO. 23.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 23, To amend Chapter 53 of the Revised Laws of Hawaii, relating to sidewalks, begs leave to report as follows:

The matter of sidewalks is a matter which is peculiarly within the province of the County and City and County governments. They are matters of purely local administration, and are something with which the Territory should have nothing to do, leaving the matter entirely to the local administration. This bill seeks to put the matter of sidewalks entirely in the hands of the local authorities, and is a step in the right direction.

Your Committee suggest the following verbal changes in the bill, to wit:

After the phrase

"Superintendent of Public Works" strike out all the remainder of Section 1, and substitute therefor the following words:

"wherever they occur in said chapter, and inserting in lieu thereof the words 'Supervisors of the County or City and

County in which the sidewalks are located,' and by striking therefrom the word 'Superintendent' wherever it occurs in said chapter and inserting in lieu thereof the word 'Supervisors,' and by striking out the word 'his' in line 9 of Section 731 of said chapter and inserting in lieu thereof the word 'their.'"

With the above suggested verbal changes your Committee believes that the bill is in proper form, and recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

Committee.

Upon motion by Senator C. Brown, seconded by Senator Makekau, the Report of the Committee was adopted; House Bill No. 23 passed Second Reading as amended, and was placed on the calendar for the Order of the Day for Monday, March 6, 1911, for Third Reading.

Senator Judd presented a Report (No. 41) from the Judiciary Committee, to whom had been referred Senate Bill No. 9, recommending that the Bill be laid on the table:

REPORT ON SENATE BILL NO. 9.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 9, To amend sections 1856 and 1857 of the Revised Laws of Hawaii, relating to wills, providing that wills and testamentary papers should be kept in the files of the Courts where probated, begs leave to report as follows:

The object to be attained by this bill is to have the custody of wills changed from that by the Supreme Court to that by the Circuit Court in which the will is filed for probate, and to have certified copies sent to the Supreme Court for filing.

Your Committee believes that this bill is premature. Some of the Circuit Courts are not yet provided with suitable places for the keeping of records, and until each court has a proper

courthouse, your Committee believes that the law should remain as it is.

Your Committee recommends that this bill be laid on the table.

Respectfully submitted,

JUDICIARY COMMITTEE,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

Dated, Honolulu, Hawaii, March 4, 1911.

Upon motion by Senator C. Brown, seconded by Senator Hewitt, the Report of the Committee was adopted, and Senate Bill No. 9 was tabled.

Senator Judd presented a Report (No. 42) from the Judiciary Committee, to whom had been referred House Bill No. 47, recommending the passage of the Bill with certain amendments:

REPORT ON HOUSE BILL NO. 47.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 47, To Provide for Service of Process upon Counties, begs leave to report as follows:

There is at the present time no provision in our statutes for the service of process upon the City and County of Honolulu, or upon the several Counties of the Territory. This condition of affairs, if not remedied, is liable to result in confusion, and perhaps in expensive litigation. This defect should be corrected, and it is believed by your Committee that this bill, with one or two minor changes, will do so.

Your Committee suggests that after the word "upon" in the title of the act, there be inserted the words:

"The City and County of Honolulu," and "the several."

That at the end of Section 1 of the Bill there be added these words:

The word County as herein used shall include "the City and County of Honolulu."

With these suggested changes your Committee recommends the passage of this Bill.

Respectfully submitted,

Chairman.

Upon motion by Senator Kaleiopu, seconded by Senator Robinson, the Report of the Committee was adopted; House Bill No. 47 passed Second Reading and was placed on the Calendar for the Order of the Day for Monday, March 6, 1911, for Third Reading.

Senator Judd presented a Report (No. 43) from the Judiciary Committee, to whom had been submitted Senate Bill No. 12, recommending the passage of the Bill with certain amendments:

REPORT ON SENATE BILL NO. 12.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 12, to provide for the giving notice to subsequent purchasers or incumbrancers of the pendency of any action, such or proceeding affecting or concerning the title or the right of possession of real property, begs leave to report as follows:

This bill will introduce into the Hawaiian statute books for the first time the idea of giving constructive notice of litigation concerning the title to real property. Your Committee feels that any means that can be taken to give greater publicity to such an important matter as litigation dealing with land titles is a desirable step forward and a wise provision for the future. It may be observed that the filing of the notice of the pendency of the action is not compulsory.

Your Committee suggests the following verbal changes:

That the word "affected" in line 9 of Section 1 be stricken out, and the word "effected" substituted in lieu thereof.

That all of Section 3 be stricken out after the word "eect" and that in lieu thereof there be substituted the following:

"From and after the date of its approval."

With these verbal changes your Committee recommends the passage of this bill.

Senator Judd presented a Report (No. 44) from the Judiciary Committee, to whom had been referred House Bill No. 21, recommending the passage of the Bill:

REPORT ON HOUSE BILL NO. 21.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 21, to Amend Chapter 51 of the Revised Laws of Hawaii, Relating to Cantoniers, begs leave to report as follows:

This Chapter has become a dead letter, and was so even before the formation of counties in the Territory, due to the failure of the Legislature to make the necessary appropriation to carry out the provisions of the Chapter. Formerly under this Chapter there were certain cantoniers on the Pali road up Nuuaun Valley. The matter covered by this Chapter is a matter which belongs to county administration, and is something which should be taken from the hands of the Territorial authorities. This Committee believes in the policy of repealing laws which have become dead letters, and therefore recommends the passage of this bill.

Upon motion by Senator Chillingworth, seconded by Senator Kaleiupu, the Report of the Committee was adopted; House Bill No. 21 passed Second Reading and was placed on the calendar of the Order of the Day for Monday, March 6, 1911, for Third Reading.

Senator Judd presented a Report (No. 45) from the Judiciary Committee, to whom had been referred House Bill No. 42, recommending the passage of the Bill with certain amendments:

REPORT ON HOUSE BILL NO. 42.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 42, to Provide for Financial Reports of the City and County of Honolulu, and the several counties, begs leave to report as follows:

The laws as it now stands provides that financial reports shall be made by the Auditor of each County to the Board of Supervisors once a year (Section 84, Act 39 Session Laws of 1905), and the same provision exists in the Municipal Act of the City and County of Honolulu (Section 93 of Act 118, of the Session Laws of 1907), and to these provisions there was added in 1909, a statute (Act 24 of the Session Laws of 1909) directing that reports should be made biennially to the Legislature by the Board of Supervisors of each County.

The objects sought to be attained by the bill now before this Committee are two, first, to have financial statements of each county published quarterly, instead of yearly; and, second, to secure uniformity in these reports by providing that these reports should be made on one form to be prescribed by the Auditor of the Territory. The Committee believes both of these changes to be desirable.

This bill will secure publicity in county matters, and Your Committee are convinced that no influence can be greater or more effective than publicity, in the effort to secure efficiency and economy in county administration. It is thought that the securing of uniformity in these reports will greatly facilitate the work of the Legislature, or of any one else who may have occasion to compare the cost of government in the several counties.

In view of certain verbal changes thought desirable by the Committee, the Committee recommends that all of Section 1 of the Bill be stricken out after the words "Section 1." and that the following be substituted:

"It shall be the duty of the Auditor of the City and County of Honolulu, and of the Auditor of each of the Counties and of the Territory, to prepare and submit to the Board of Supervisors of the City and County of Honolulu, and to the Board of Supervisors of each of the Counties, in the months of January, April, July, and October, respectively in each year, a statistical report showing in compendious form all financial transactions of the City and County, or of the County, as the case may be, for the preceding three calendar months, exhibiting separately the receipts and expenditures by or on account of each office, board, commission, institution and service or work, and classifying the items of income and expenditure according to a plan to be approved by the Auditor of the Territory. The Board of Supervisors of the City and County of Honolulu, and the Board of Supervisors of each of the Counties, shall forthwith transmit such statistical report to the Auditor of the Territory, and cause such report to be published in a newspaper of general circulation within the City and County, or the County, as the case may be.

It shall also be the duty of each Auditor respectively to prepare and submit to the Board of Supervisors, in the month of January in each year a similar report for the preceding calendar year, and each such Board of Supervisors shall transmit the same to the Governor for transmission to the Legislature."

With the above suggested verbal changes, your Committee recommends the passage of this bill.

Honolulu, March 4, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Accounts Committee to whom was referred House Concurrent Resolution No. 5 relating to the apportionment of the Federal Appropriation, that the House receive \$20,000.00 and the Senate \$10,000.00, after due and careful consideration begs leave to report as follows:

The sum of \$10,000.00 apportioned by the House we feel inadequate for the expenses of the Senate knowing that we have gone into further expenses for the furnishings of the Senate Chamber, we would, therefore, recommend that the House Concurrent Resolution be amended so that the Senate receive \$12,000.00 instead of \$10,000.00 and the House \$18,000.00 instead of \$20,000.00, out of the Federal Appropriation of \$30,000.

President of the Senate.

Sir:—

The Judiciary Committee to whom was referred House Bill No. 40, being "An Act to Accept the Gift of W. G. Irwin to the Honolulu Park Commission" of certain land situated within the boundaries of Kapiolani Park, report as follows:

The preamble of the Act states substantially the cause of its introduction, and its enactment will carry into effect the condition contained in the deed conveying the property which is as follows: "Provided, however, that if the Legislature of the Territory of Hawaii shall not within four years from the date hereof (July 8th, 1910), provide for adding the said tract of land and premises hereby remised, released and quit-claimed or intended so to be, to the Kapiolani Park so that the said tract of land and premises shall become or be deemed to be a part or parcel of the said Kapiolani Park to all intents and purposes as if the same had formed part of the said Kapiolani Park was first made a permanent park and re-

creation ground, then the said Honolulu Park Commission, and its successors in trust, shall hold the said tract of land and premises hereby demised, released and quit-claimed in trust for the said William G. Irwin, his heirs and assigns forever."

The property deeded is within the boundaries of the Park and is in its possession, and unless this conveyance had been made and the property conveyed in fee, it would have left a strip of land between the mauka roadway and other property that would have been a serious loss.

We recommend that the Act pass.

Chairman.

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., March 4, 1911.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

Territory of Hawaii.

EXECUTIVE BUILDING.
Secretary of Hawaii.

Honolulu, T. H., March 6, 1911.

Honorable Eric A. Knudsen,
President of the Senate,
Legislature of the Territory of Hawaii,
Honolulu, Hawaii.

Sir:—

By direction of the Secretary, I beg leave to inform your Honorable Body that the Governor on March 4, 1911, signed the following bill:

Senate Bill No. 25, as Act 7, entitled "An Act to Provide for the Publication of the Decisions of the United States District Court for Hawaii."

Chief Clerk.

The Communication was received and placed on file.

SENATE CHAMBER.

Honolulu, T. H., March 6, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 4, entitled "An Act Making Appropriations for the Repair, Partial Remodeling and Reconstruction, and Furnishing of the Judiciary Building and Moving and Temporary Accomodations Incidental Thereto" has had the same under due and careful consideration, and beg leave to report as follows:

The objects for which the appropriation is required the Committee finds, are as stated in the title of the bill. The present condition of the Judiciary Building demands that immediate adequate repairs be made before serious damage results. It is called to the attention of the Committee, that several times during the past year, large portions of the ceiling plaster fell and only by mere chance that persons then within the Court Chambers on the second floor were not seriously injured or killed.

Furthermore, the large increase in the amount of business done by the several Judges of the First Judicial Circuit, headed by the Supreme Court, brought about a condition which requires more spacious quarters for the filing of records, the transaction of business, and for the preservation of the valuable library maintained for the use of the courts and members of the bar.

In view of these facts, the Committee therefore recommends the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

The Report of the Committee was adopted, and consideration of House Bill No. 4 on Second Reading was deferred until Tuesday, March 7, 1911.

Senator Fairchild presented a Report (No. 51) from the Committee on Ways and Means, to whom had been referred Senate Bill No. 20, recommending that the Bill be laid on the table.

The Report of the Committee was read by the Clerk as follows:

SENATE CHAMBER.

Honolulu, March 6, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bill No. 20, entitled "An Act to Amend Section 1 of Act 98 of the Session Laws of 1907, Relating to the Pay of Laborers Engaged at Public Works," introduced by the Hon. D. K. Baker, has had the same under due and careful consideration, and beg leave to report as follows:

The bill seeks to raise the minimum wages of laborers upon all public works, territorial or otherwise, from \$1.25 as in Act 98 aforesaid, to \$2.00 per diem. The inequality in the ability of laborers to perform like service, demands that personal sympathies be not enacted into law. The present law gives the several Boards of Supervisors or any supervising territorial official the right to engage labor at any rate of wages not less than \$1.25. The bill, however, seeks to make it compulsory that any and all laborers be paid the \$2.00 per day minimum, and upwards.

Your Committee has received protests from the Board of Supervisors of each County, including the City and County of Honolulu. All agree on the point mentioned above, to wit: that the present law gives them the right to pay any wages to which a laborer is entitled according to his ability to labor not less than \$1.25. They recommend that the law be not amended.

Your Committee therefore, recommends that Senate Bill No. 20 be laid on the table.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

Upon motion by Senator Fairchild, seconded by Senator C. Brown, the Report of the Committee was received and placed on file, to be taken up for consideration with the Bill on Second Reading on Friday, March 10, 1911.

Senator Fairchild presented a Report (No. 52) from the Committee on Ways and Means, to whom had been referred House Bill No. 28, recommending the passage of the Bill with certain amendments, which was read by the Clerk as follows:

SENATE CHAMBER.

Honolulu, March 6, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 28, entitled "An Act to Amend Section 1418G of the Revised Laws of Hawaii Relating to Licenses as Amended by Act 96 of the Session Laws of 1907" has had the same under due and careful consideration and beg leave to report as follows:

The bill seeks to graduate the license fees relating to the sale of goods, wares and merchandise, whereby, the merchant will pay in accordance with the amount of business transacted, which, in the opinion of the Committee, is a very just and proper apportionment of fees.

The present and existing law relating thereto is deemed unfair. It places a burden on the small dealer who can hardly meet his obligations, and lets off very lightly the wealthy dealer who does a greater amount of business.

Your Committee therefore recommends the passage of the Bill with the following amendments:

1. Amend the title by inserting the words "of Hawaii" after the word "Laws" in line 2 of the original Bill; and also,
2. Amend the first line of Section one thereof by inserting the words "of Hawaii" after the word "Laws."

These amendments are made in order to comply with the provisions of Section 1, Act 3, of the Session Laws of 1905.

Respectfully submitted.

Chairman.

Hon. Eric A. Knudsen,

Sir:—

Your Committee on Health have had under consideration House Bill No. 12, and would recommend the passage of the Bill with the following amendment, i. e.

In Section 1, line 11, strike out the words "put up in hermetically sealed tubes" as your Committee is of the opinion that scarifiers and points do not come put up in hermetically sealed tubes, and believes the phrase "which have been rendered aseptic" in line 12 of said Bill a sufficient safeguard against infection.

Honolulu, March 6, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Herewith your Committee on Health begs leave to return to the Senate, Senate Bill No. 21, with the recommendation that it be referred to a Special Committee composed of the members from Hawaii.

Your Committee, however, is of the opinion that the matter of Hospitals as asked for in this Bill should be left to the Board of Supervisors of the County of Hawaii as the County

Supervisors are in possession of all the facts and has full authority to erect and maintain hospitals wherever they so deem proper.

The Legislature would be imposing upon the County of Hawaii the responsibility of meeting the expenses of the proposed Hospitals without giving them an opportunity to express their wishes in the premises as the Bill is mandatory in its form. The Bill would be a distinct step backward in the establishment of responsible local self-government in this Territory.

Respectfully submitted,

Chairman.

EXECUTIVE CHAMBER,
Honolulu, Hawaii.

March 6, 1911.

Mr. John Wise,
Clerk of the Senate.

Dear Sir:—

I am directed by the Governor to transmit herewith a copy of the report of the Commission on Stamp Duties and Licenses, which has been filed this day, and to state that the same will be printed in pamphlet form for distribution as soon as possible.

Respectfully yours,

C. H. MEDCALF,
Secretary of the Governor.

Honolulu, T. H., March 6, 1911.

To the Honorable Walter F. Frear,
Governor of Hawaii,
Honolulu.

Sir:—

The Commission appointed in pursuance of Joint Resolution No. 7 of the Legislature of the Territory of Hawaii, approved the 28th day of April, 1909, beg leave to report as follows:

By the terms of this Joint Resolution the Commission, which was to be known as the Commission on Stamp Duties and Licenses, was required "to examine and investigate the present schedule of stamp duties and the license system of the Territory; consider their operation, effect and equitableness, and general adaptability with respect to existing conditions, and

consider ways and means for the revision and improvement of said schedule and system as they shall deem necessary or advisable."

It appearing by the opening or recital clause of said Resolution that the present schedule of stamp duties and license system is "in various respects unsatisfactory and unfair in operation and effect," we have carefully examined the laws of the Territory bearing on these subjects.

1. STAMP DUTIES.

We find that the general sentiment of the community is averse to the present system requiring the payment of stamp duties on transfers of property. The condemnation of the existing stamp duty is practically unanimous. While the general feeling or opinion is that the duties should be abrogated entirely, yet a small minority of the persons interviewed by us recommend that, owing to the financial needs of the Territory, the duties should not be removed but in certain cases should be greatly reduced.

The removal or reduction of these duties may require that some other method be devised to make good the consequent loss in revenue to the Territory, but, while it is not within the scope of duty of the Commission to consider in what manner this deficit may be supplied, we believe that the recommendation made by us, if adopted, will result in no great, if any, loss to the Territory.

So far as we have been able to learn, in no state of the Union and in no territory of the United States, other than this, are stamp duties imposed. They have been imposed by the Federal Government from time to time as a temporary means of raising revenue in periods of national stress. The absence of legislation imposing such duties in other parts of the Union is entitled to great weight in so far as it may be considered as showing the existence of strong public sentiment against it.

The stamp duty imposed by the Federal Government extended to almost every commercial transaction, and the contribution to the national treasury was thus generally distributed over the community.

Such duties are imposed in Great Britain, but in that country they are imposed on transfers of land, of shares of stock in corporations, and of other personal property of all descriptions, and in many other cases, such as inland bills of exchange, promissory notes, bills of lading, receipts for money paid, and generally on all business transactions requiring documentary or written evidence, so that the burden is borne

in some measure by all engaged in business throughout the country.

The principal recommendations for such a duty are that it is a very simple and effective means of raising revenue, and that, as Professor Cooley in his work on taxation says, the cost of collection is but a small percentage of the sum realized and few evasions of payment are practicable; the latter argument holds good, however, only where the penalty for non-compliance with the law is sufficiently high to deter evasion. In Great Britain the minimum penalty is equal to Fifty Dollars and some instruments cannot be stamped even after payment of the penalty, and, being unstamped, are accorded no validity in the courts.

The Legislature of 1909 placed itself of record in the Joint Resolution under which this Commission was organized as being of the opinion that the present system is in various respects "unsatisfactory and unfair."

We find that the law of Hawaii, inasmuch as it imposes a burden of a stamp duty on transfers of certain species of property and not on all, is arbitrary and indefensible on any logical or rational ground. Transfers of shares of stock in Hawaiian corporations, not being required to be made by deed or other instrument, are exempt from stamp duties. Transfers of land, which are required to be in writing, are subject to the duties. We can conceive no logical reason for levying a duty on the transfer of property by deed and for levying none on transfers of stock. Shares of stock are made personal property by statute, and another statute provides for their transfer in a very simple and convenient manner, viz.: by endorsement and delivery of the certificate representing the shares. But by such endorsement and delivery an interest in real and personal property is transferred, for the share confers on the holder thereof an interest in all of the assets of the corporation issuing the same. Thus interests in real and personal property are practically transferred free from liability for stamp duty. Transfers of other personal property, either absolute or by way of security, and transfers of land, which as they involve questions of title are cumbersome and expensive, are subject to the duty.

But it is mainly upon transfers of land and interests therein that the burden of these stamp duties falls, for transfers of personal property other than leasehold interests in land and other than transfers made by way of security, are generally made by delivery, seldom reduced to writing, and therefore are exempt. It is to be borne in mind also that as the number of corporations multiplies the amount of property transferred in the form of shares of corporations will increase, and with

such increase the number of exemptions from stamp duty will grow in equal degree.

No explanation for the difference of treatment between real and personal property has been suggested to this Commission, nor can the members thereof conceive of anything to justify the differentiation. Under the general taxation law of the Territory all real and personal property is taxed a certain percentage of its full cash value and, this taxation being uniform, the burden of the support of the Government is borne proportionately by all enjoying its protection; but the stamp duty now existing has no such justification and those who bear its burden receive no special benefit in return therefor.

It is generally conceded that the amount of the duty is excessive. It could not probably be said that any person ever refrained from buying or leasing land because of the stamp duty required on the instrument that would become necessary in case the transaction were consummated, but it cannot be doubted that in many cases the duty has been quite a burden. The removal or reduction of the duty would be in accord with the tendency of the times to encourage the free alienation of land, to create as many land owners as possible and, in some countries to insist upon the subdivision of large estates into smaller holdings.

We find that the existing stamp duties are not only excessive but, bearing mainly as they do upon transfers of land and interests therein, are also inequitable and indefensible in principle. To justify any stamp duties the transfers of property of every description should be equally subject thereto. The inequitable features could not be removed merely by a reduction in the amount of the stamp duties. If these inequitable features could not be largely, if not altogether, removed, we would be driven to the recommendation of a repeal of all stamp duties insofar as they are imposed on transfers of property, but, believing that they can be to a large extent removed, we recommend that the ad valorem duties be removed; that a uniform stamp duty of one dollar be imposed upon all transfers of property, and that the laws of Hawaii respecting stamp duties be further amended so as to embrace specifically transfers of stock. This could be effected by legislation providing that new certificate of stock shall be issued and no transfer of any certificate be recorded on the books of any corporation unless the necessary stamp be affixed to the old certificate and cancelled by the transferrer.

The penalty under the present system for the evasion of the stamp duty is one hundred per cent of the value of the duty. Evasion is practiced not in the larger but in the smaller transactions and we believe that many documents, such as bills of sale and leases which the parties thereto do not consider ne-

cessary to record, are left unstamped. Thus a considerable loss in revenue results to the Territory. We recommend that the penalty for evasion of the stamp duty be substantially increased with a view to deter such evasion.

2. LICENSES.

In the year 1896 a careful and thorough revision was made of the license laws theretofore existing in Hawaii and we find that the license law then enacted, as amended by subsequent statutes, is in the main satisfactory to the business community and fair in its operation.

Act 40 of the Laws of 1905—a statute regulating the practice of veterinary medicine and requiring veterinaries to be licensed—was declared unconstitutional by the Supreme Court of the Territory on June 19, 1908, on the ground that it was by its terms applicable only to a town and suburbs with a population of over five thousand inhabitants. This statute should be repealed, and if it is considered desirable that the practice of veterinary medicine should be regulated, further legislation will be necessary.

The Supreme Court has also had to consider the question of the validity of the statute fixing the amount of auctioneers' licenses. (See *Territory v. Toyota*, 19 Haw. 651). The Court upheld the statute on the ground that it could not interfere with the judgment of the Legislature exercised in classifying the amount of the fee, even though the Court should be of the opinion that the judgment exercised was unwise or perhaps oppressive. It will be noticed that the fee required in Honolulu is forty times that required in any other district. When dealing with banking licenses the Legislature of 1907 placed the annual fee for a license in Honolulu at Seven Hundred and Fifty Dollars; in Hilo at Five Hundred Dollars, and in all other places at Two Hundred and Fifty Dollars. The Act then passed was attacked in the Supreme Court on the ground that it discriminated arbitrarily between different portions of the Territory; the Court however, having before it evidence that the population of Honolulu was about Forty Thousand, that of Hilo Twenty Thousand, and of all other places in the Territory less than that of Hilo, held that the Act was not in any way oppressive, arbitrary or unequal. We believe that in respect to auctioneers' licenses some kind of classification should be made by the Legislature; that the fee for the license to engage in the business in Honolulu is excessive and out of all proportion to that required for other business, and that license fees should be fixed at such amounts as to encourage business and not to prevent people from embarking therein. We recommend therefore, as Sections 1344-1346 Revised Laws of Hawaii

would seem fully to protect the public against the danger of irresponsible persons engaging in the business, that the license fee for Honolulu be substantially reduced, and that in place of the, as appears to us, arbitrary fixing of the fees for other places, they be fixed either in proportion to the amount of business done or the population of the place in which the business is conducted.

Respectfully submitted,

W. L. STANLEY,
RICHARD H. TRENT,
G. F. BUSH.

REPORT ON SENATE BILL NO. 33.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 33, Amending Act 118 of the Session Laws of 1907 and Repealing Chapter XI Thereof, beg leave to report as follows:

Your Committee suggest the following verbal changes in the bill, to wit:

That all of paragraph A and paragraph (A) to be stricken out and in place thereof the following substituted:

"(A). Within ten days after any election held under this Act one of the Circuit Judges shall recount all of the ballots cast at such election and shall immediately tabulate the same and ascertain the result of the election. Such recount and tabulation shall be made in the presence of any candidate at said election or his agent who desires to be present. The Candidate for each office who received the highest number of votes shall be declared elected, and the Circuit Judge shall immediately deliver to the persons elected certificates of election. The Chief Justice shall at least ten days before any election designate the Circuit Judge to recount the ballots as herein provided.

"Provided whenever on account of disqualification, inability to attend, vacancy in office, or any other cause or causes the Circuit Judge so designated cannot preside at the proceedings contemplated by this Act, some other Circuit Judge shall be designated by the Chief Justice to preside at such proceedings."

That in the last line of paragraph (C) after the word "such" there be inserted the following words:

"Candidate or."

That the word "herein" in the last line of paragraph (D) be stricken out, and that there be substituted in lieu thereof the word "therein."

This bill having entirely to do with the City and County of Honolulu, your Committee recommends that this bill be referred to a select Committee of the Oahu members.

Respectfully submitted,

Senator Judd presented a Report (No. 58) from the Judiciary Committee, to whom had been referred Senate Bill No. 45, recommending the passage of the Bill with certain amendments:

REPORT ON SENATE BILL NO. 45.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee to whom was referred Senate Bill No. 45, to Amend Subdivision 4a of Section 9, Act 39 of the Session Laws of 1905, Relating to the General Powers, Liabilities and Limitations of Counties as Amended by Act 100 of the Session Laws of 1909, begs leave to report as follows:

The owners of premises in Wailuku, Maui, which have water rights appurtenant to them have been compelled to pay for the cost of installation of water meters, and rent for the same, as well as for paying for the water received by them. This bill provides that the owners of premises having vested water rights appurtenant thereto shall not be compelled to pay for the installation of meters, nor for rent for the use of the same.

Your Committee suggests the following verbal changes: That in line 6 of paragraphs "4A" there be inserted after the word "laws" the following words: "appurtenant to such premises."

That in line 7 of said paragraph the words "operation" and "there" be stricken out, and in place thereof the word "use" and "Such" respectively be substituted. That in line 15, after the word "existing" there be inserted the word "public."

With these suggested changes, your Committee recommends the passage of this bill.

Respectfully submitted,

Senator Judd presented a Report (No. 59) from the Judiciary Committee, to whom had been referred House Bill No. 27, recommending the passage of the Bill with certain amendments:

REPORT ON HOUSE BILL NO. 27.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 27, To Amend Section 69 of Chapter 7 of the Revised Laws of Hawaii, Relating to Elections, begs leave to report as follows:

This bill seeks to amend the election laws by adding to them a very desirable provision, enabling the party affiliation or the non-partisanship of the candidate to be shown on the ballots. Your Committee suggests the following verbal changes in the bill:

That the words "or the County Clerk" in lines 9 and 10 of Section 1, and the words "or the County Clerk, as the case may be," in lines 11 and 12 of Section 1, of said bill, be stricken out, for the reason that these words are unnecessary in view of the provisions of Section 29 of the County Act, and of Section 40 of the Municipal Act.

With these suggested changes, your Committee believes this bill is in proper form, and therefore recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Bill No. 27 passed Second Reading and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 60) from the Judiciary Committee, to whom had been referred House Bill No. 64, recommending the passage of the Bill, was read by the Clerk as follows:

REPORT ON HOUSE BILL NO. 64.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee to whom was referred, House Bill No. 64, To Amend Section 1272 of the Revised Laws of Hawaii, Relating to Procedure for Enforcing Payment of Delinquent Taxes Assessed Against Unknown or Non-resident Persons, begs leave to report as follows:

The intention of this bill is to facilitate the collection of delinquent taxes. Under the present law, if a man owns property on Maui, for instance, and lives on say Kauai, and is delinquent, it is necessary that the Assessor on Maui, where the property is located, shall go to Kauai to sue this man, take his books with him, and incur large expenses. In many instances where the amounts are small the expenses are larger than the amount that can be recovered. Under the proposed bill suit could be brought in the District Court within whose jurisdiction the property is located, and service of process could be secured by publication and by mail. This will all mean a large saving of expense to the Government.

For the reasons above stated, your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

Senator Judd presented a Report (No. 61) from the Judiciary Committee, to whom had been referred House Bill No. 78, recommending the passage of the Bill with certain amendments, was read by the Clerk as follows:

REPORT ON HOUSE BILL NO. 78.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 78, To Establish a Commission for the Promotion of Uniformity of Legislation in the United States, begs leave to report as follows:

Your Committee suggests that the title of said bill be changed so as to read as follows:

"To Establish a Commission for Hawaii to Co-operate in the Promotion of Uniformity of Legislation in the United States."

Your Committee considers it very desirable that we should join with the States and Territories of the United States in the effort to secure uniform laws on as many subjects as possible. It is of very great value to all business men to have uniform laws in the different States and Territories on the same subject, and it will be to the advantage of Hawaii to join in movements of this kind, and to be known throughout the States as having uniform laws on the same general subjects as they have.

With the above suggested change your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

To the Honorable Officials having in charge the

WHEREAS, for five years past the Department of Public

Instruction has recognized the need of a new commodious school building at Hanapepe, Eleele, Kauai; and

WHEREAS, each room has from 58 to 60 pupils, there being three pupils in many seats even in the advanced room, and further pupils being refused admittance for lack of room; and

WHEREAS; said school district has had only \$1994.00 expended for new buildings in the past 21 years, and indeed this covers all public funds expended in this section for improvements, except roads; and

WHEREAS, the property in this school district pays more taxes than any other school district on this island, paying taxes on the western portion of the McBryde Sugar Company's property (including the mill, Eleele, and the Hanapepe Valley with six large pumps) the Eastern portion of the Makawell Plantation, and the Kauai Railway Co., a \$500,000.00 corporation; and

REPORT ON HOUSE BILL NO. 25.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 25, To Amend Section 1 of Act 41 of the Session Laws of 1905, Relating to Prison Inspectors, begs leave to report as follows:

This bill seeks to amend the Act of 1905, by striking out the last sentence of Section 1, relating to the filling of vacancies. To leave the law as it now stands will in practice work out so as to deprive the Senate of its right to confirm the appointments of the Governor to this Board. The bill seeks to do away with anything of this kind, and insure to the Senate all its rights and privileges under Section 80 of the Organic Act.

Your Committee considers this a very desirable amendment, and recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 7, 1911.

Upon motion by Senator Fairchild, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 25 passed Second Reading and was placed on the order of the day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 64) from the Judiciary Committee, to whom had been referred House Bill No. 69, recommending the passage of the Bill with one amendment, which was read by the Clerk as follows:

REPORT ON HOUSE BILL NO. 69.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 69, To limit the time within which warrants upon the territorial treasury may be paid, adding a section to be known as Section 1542A to the Revised Laws of Hawaii, begs leave to report as follows:

The Governor in his message to the Legislature on page 11 of the printed copy thereof refers to the outstanding warrants upon the Territorial Treasury. From figures furnished by the Territorial Treasurer and Auditor, it appears that there are now outstanding warrants to the amount of \$4564.36, covering the period from 1898 to the present year. The majority of these are in very small amounts, some for one dollar, some for two dollars, and many for less than a dollar, being for a few cents only. Many of these warrants are being held as souvenirs. In one case there is a man who has a warrant pasted on the door of his safe, another has one framed. These will never be presented for payment, and it is considered useless to carry them on the books. The time limited in the bill within which a warrant shall be presented for payment is considered ample, it giving a range of from two to nearly four years. It is provided that this act shall take effect on July 1, 1912, thus giving ample time for the presentation of all warrants which are now outstanding.

The passage of this bill will save the offices of the Territorial Treasurer and Auditor from much useless labor in carrying these unpaid warrants on their books, and will in addition put into circulation the money which is being held awaiting the presentation of such outstanding warrants.

This is in no way a repudiation by the Territory of any of its obligations, since the remedy will always be open to holders of warrants to present their claims to the Legislature, in which case their claims would be easily provable by means of the warrants they may hold, and by the records in the office of the Territorial Treasurer and Auditor.

Your Committee suggests that the word "cancelled" be stricken from line 6 of Section 1542A, and that there be inserted in lieu thereof the following:

"deemed to have been paid."

With this slight change, and for the reasons above given your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

SENATE CHAMBER.

Honolulu, March 9, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred Senate Bill No. 27, beg leave to report as follows:

The object of the bill is to promote homesteading under existing laws in localities which are now owned by private interests, and which the bill seeks to acquire, is, to the Committee, a very wise provision to make. The bill is not compulsory. It is optional with the administration to secure such tracts as may be available and for the price commensurate with the sum hereby contemplated to be appropriated.

In Section 2, however, line 3 of the original bill, after the word "homestead," the words therein contained seem to the Committee to be objectionable, in that it would limit the acreage.

The Committee therefore recommends the bill pass with the following amendments:

Strike out all the words after "homesteads" in line 3 to the end of Section 2.

Change the comma after "homesteads" to a period.

Respectfully submitted,

S. E. KALAMA,
Chairman.

A. S. KALEIOPU,
GEO. C. HEWITT.

The Report of the Committee was received and placed on file, and upon motion by Senator Fairchild, seconded by Senator Pali, the Bill was referred to the Judiciary Committee.

President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred House Bill No. 24, entitled "An Act to Repeal Sections 772 and 778 of the Revised Laws Relating to Certain Parks" has had the same under careful and due consideration and beg leave to report as follows:

The bill seeks to repeal the existing laws relating to parks and fail to provide for the maintenance of existing parks. This failure to so provide makes the bill objectionable.

The Committees therefore recommends the bill be tabled.

Respectfully submitted,

S. E. KALAMA,
Chairman.
A. S. KALEIOPU,
GEO. C. HEWITT.

Upon motion by Senator Judd, seconded by Senator Baker, the Report of the Committee was adopted, and House Bill No. 24 was tabled.

Honolulu, March 9, 1911.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred Senate Petition No. 3 from the Kapaa Homesteaders praying for relief, has had the same under due and careful consideration and beg leave to report as follows:

The petition of the homesteaders mentioned in said petition to your Committee, seem to be just, and should be granted; but, there seems to be a legal question involved which should be clearly submitted to the Senate before final action is taken on this matter.

Your Committee therefore recommends that the Petition be referred to the Judiciary Committee for the purpose of securing legal expression as to the legality of the granting of the relief prayed for.

Very respectfully submitted,

S. E. KALAMA,

Chairman.

and Power System in the District of South Hilo, Island of Ha-
waii," and has the assistance of legal counsel in this con-
sideration. Your Committee believes that the time has arrived
when a franchise for a street railway should be granted for
Hilo on account of the growth of that place through the many
improvements made and to be made by the Federal Govern-
ment. In addition to this a street railway system would allow
hundreds, if not thousands, of citizens, who now live on leased
property in Hilo, to obtain their own homes in the near vicinity
and still reach the scene of their labor in that city at a mini-
mum cost. In addition to this it would have the effect of

greatly enhancing the value of taxable property in the County of Hawaii, and thus result in making more funds available for government work.

In regard to the electric light and power sections of the bill, Your Committee finds that there is one electric company at present operating in Hilo and does not feel that it is for the best interests of either the public or the owners of that company that two companies of this character should operate in a place the size of Hilo. It has therefore, after consultation with the applicants for the franchise, in the person of Mr. L. S. Conness, eliminated all sections of that character from the bill.

Your Committee has paid special care to the insertion of such sections as will carefully safeguard the interests of the public and has inserted a section whereby, after the expiration of ten years, the company shall pay one per cent of its gross receipts to the County of Hawaii. Another section has also been inserted whereby the Territory, the County of Hawaii or the City of Hilo, should such a municipality be created, may purchase the entire property of the company at any time after the expiration of twenty years, the price to be fixed by a commission of three, one of whom shall be appointed by the company, one by the purchaser and the third by these two, or if they fail to agree, by the Chief Justice of the Supreme Court of Hawaii.

In the opinion of your Committee, the franchise should be granted, but, in order that each Senator may have a clean copy of the bill as amended by the Committee before him when taking the matter up for consideration, your Committee would recommend that the bill as amended be ordered printed.

Respectfully submitted,

JOHN T. BROWN,
Chairman.

Senator Fairchild presented a Report (No. 77) from the Committee on Ways and Means, recommending the passage of House Bill No. 70, as follows:

SENATE CHAMBER.

Honolulu, T. H., March 10, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 70 entitled "An Act to Regulate the Rate of Interest due or to become due by Persons Acquiring or who have acquired Homesteads" beg leave to report as follows:

Your Committee has carefully looked in the matter of the interest now charged upon deferred payments and find, that the existing rate of 8% is excessive when the great amount of risk assumed by the homesteader is taken into consideration. The homesteader, not only has to prepare himself to meet his payments, but has also to strive with almost everything against him at the start to provide means to exist for himself and family. At this time, when the territory is seeking suitable persons to settle on lands available for homesteading, the Committee is of the opinion, that every reasonable encouragement

should be given to the bona fide settler and homesteader. The bill seeks to give this encouragement.

Very often, legislators are led to believe that the government should be legislated into a financial institution for money making. That, in the minds of many, is erroneous. The government is not, and should not be a money making institution as are financial corporations. On the other hand, the government should not be obligated to furnish everything for the homesteader without some fair remuneration for the outlay.

The bill proposes to fix the rate of interest to become due by persons acquiring or who have acquired homestead at 5%. A very liberal encouragement indeed.

Your Committee therefore recommends the passage of the bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.
WM. T. ROBINSON,
JOHN T. BROWN,
CECIL BROWN,
E. W. QUINN.

Upon motion by Senator Fairchild, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 70 passed Second Reading and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 78) from the Judiciary Committee, recommending the passage of House Bill No. 46, as follows:

REPORT ON HOUSE BILL NO. 46.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee to whom was referred House Bill No. 46, To Amend Section 2381 of the Revised Laws of Hawaii, Relating to the Recording of Certain Instruments, and Adding a New Section Thereto to be Known as Section 2381A, begs leave to report as follows:

FINDINGS.

This bill seeks to remedy defects in the present statutes and to make the law the same as it is in other jurisdictions.

By a strict construction of the present statute a failure to

record certain instruments renders them invalid as between all persons, including the parties to transaction.

Holmes vs. Serrao, 18 Hawaiian Reports 25.

The Law in other jurisdictions is different and should be so here, for the reason that no party ought to be able to avoid his personal undertakings by a mere failure to record the instrument. The recording laws were intended to give protection to Third parties and not to add a technical requirement as between the parties to the transaction. The amendment proposed by the bill leaves the instrument effective as between the parties when not recorded, but provides that it must be recorded to be effective against purchasers in good faith and for a valuable consideration, and creditors who give credit to the mortgagor upon the apparent ownership of the property.

Under Section 2381 of the Revised Laws, possession of the mortgaged property by the mortgagee does not make the mortgage good, if it is not recorded. The law in other jurisdictions is different.

Jones on Chattel Mortgages, Section 176.

In the existing statute the words used are "mortgages of chattel property." These words are changed in the proposed bill so as to read "mortgages and other conveyances of personal property." This is done for two reasons:

First, chattel property includes chattels real and chattels personal. Under Section 2381 of the Revised Laws as it now stands a mortgage of a leasehold having a term of 999 years would be a mortgage of chattel property, whereas all of the reasoning applied to this law would require that such a mortgage should be recorded as if it were a mortgage of real property, and therefore entitled to be recorded under Section 2380. A mortgage of a lease is held to be a mortgage of chattel real under statutes requiring mortgages of personal property to be recorded under provisions similar to our Section 2381.

Jones on Mortgages (Real Property), Section 478.

Jones on Chattel Mortgages, Section 286.

Second. The second reason for the amendment is to include all conveyances of personal property, whether they be intended by way of absolute conveyance or conveyance as security for the payment of a debt. The reason why a chattel mortgage should be recorded applies with equal force to a bill of sale.

CONCLUSIONS.

For the reasons above given your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 10, 1911.

Senator Judd moved to amend by inserting the words "of Hawaii" after the words "Revised Laws" in the title and wherever they occur throughout the Bill. Seconded by Senator C. Brown, and carried.

Upon motion by Senator Fairchild, seconded by Senator Makekau, the Report of the Committee was adopted; House Bill No. 46 passed Second Reading as amended and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 79) from the Judiciary Committee, recommending the passage of Senate Bill No. 47, as follows:

REPORT ON SENATE BILL NO. 47.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 47, Relating to Circuit Court Receipts and expenses, begs leave to report as follows:

This bill seeks to make the Circuit Courts county courts, and provides that all receipts of said courts shall be paid into the Treasury of the County or City and County in which the Courts are located, as the case may be, and that the expenses of these courts be paid by the County or City and County, as the case may be. The Circuit Courts are in reality County Courts and are so regarded elsewhere. In the bill the salaries of interpreters are not specifically provided for, but are left to be determined by the Supervisors from time to time, as they are matters that may vary from time to time, and the Supervisors

should be given the opportunity to reduce the expenses if this can be done. The salary of the stenographer for the second Circuit Court is not prorated. This is so as to enable the Court to employ a stenographer at a lower salary when little work is to be done and thus save the appropriation so as to employ a better stenographer at a higher salary in term time.

This bill is a step in the right direction, and is in line with the policy of marking more distinctly the line between County and City and County government and the Territorial government. Your Committee therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Upon motion by Senator Judd, seconded by Senator Pali, the Report of the Judiciary Committee on Senate Bill No. 47, together with the Bill, were referred to the Committee on Ways and Means.

Senator Judd presented a Report (No. 80) from the Judiciary Committee, recommending the passage of Senate Bill No. 46, as follows:

REPORT ON SENATE BILL NO. 46.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 46, Relating to the Expenses of District Magistrates, Amending Act 122 of the Laws of 1909, begs leave to report as follows:

The last Legislature, by Act 152, provided for the transfer of District Court receipts to the Counties, and by Act 122, for the transfer of the payment of salaries of district magistrates to the counties. The expenses of the district magistrates, however, were overlooked, and Senate Bill No. 46 seeks to remedy this defect. These expenses are very small in amount, being for various articles of Stationery, printing, and an oc-

casional book. These articles are now furnished by the Supreme Court out of Territorial funds.

This bill is in line with the policy of more distinctly marking the line between County and City and County matters and Territorial matters.

Your Committee recommends the passage of this bill.

Upon motion by Senator C. Brown, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 46 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 81) from the Judiciary Committee, recommending that Senate Bill No. 23 be tabled, as follows:

REPORT ON SENATE BILL NO 23.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 23, to Amend Sections 2, 3, 4 and 5 of Act 53 of the Session Laws of 1907, entitled "An Act Providing for Witness fees in Criminal Cases," begs leave to report as follows:

This bill seeks to have the Territory pay the witness fees, instead of the county as at present. Under the present law the County or City and County pays the witness fees in the Circuit Courts, while the Territory receives all the receipts of these courts.

This however is sought to be remedied by Senate Bill No. 47, which turns over all Circuit Court receipts to the County or City and County, as the case may be, Senate Bill No. 47, having been favorably reported there seems to be no necessity for Senate Bill No. 23.

For the reasons above set forth, your Committee recommends that Senate Bill No. 23 be tabled.

Respectfully submitted,

Senator Judd presented a Report (No. 82) from the Judiciary Committee, recommending that Senate Bill No. 38 be tabled, as follows:

REPORT ON SENATE BILL NO. 38.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 38, To Amend Act 152 of the Session Laws of 1909, entitled "An Act Relating to the Disposition of Fines and Costs and Bail Money in Certain Cases," begs leave to report as follows:

Senate Bill No. 38 seeks to have certain costs and ball money received in the Circuit Courts and Supreme Court turned over to the County or City and County, as the case may be. This Committee believes this matter to have been fully covered in Senate Bill No. 47, which has been favorably reported.

For the above reasons your Committee recommends that Senate Bill No. 38 be tabled.

Upon motion by Senator Kaleiopu, seconded by Senator Makekau, the Report of the Committee was adopted, and Senate Bill No. 38 was tabled.

Senator Judd presented a Report (No. 83) from the Judiciary Committee, recommending the passage of Senate Bill No. 58, as follows:

REPORT ON SENATE BILL NO. 58.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 58, Relating to the Records in the Office of the Clerk of the Judiciary Department, begs leave to report as follows:

FINDINGS.

This bill seeks to have typewritten copies made of all the old records in the vaults in the office of the Clerk of the Judiciary Department, which, when certified, can be used the same as the originals. Due to frequent handling and old age, in many of the probate cases and other cases in which the title of land is involved, the papers are beginning to crumble. In many cases some of the papers have disappeared because they are all loose. In other cases the ink is beginning to fade. The bill leaves the supervision of having these certified copies prepared to the Supreme Court, so that the Judges of that Court will practically have it in their discretion to determine how and in what manner these copies shall be made, and all the details thereof.

The provision with regard to making the copies admissible in evidence is based very largely on the provision of Act 8 of the Session Laws of 1909, An Act to make certified copies of public archives receivable in evidence.

An appropriation of \$10,000 has been asked to go along with this work.

CONCLUSIONS.

For the reasons above set forth your Committee recommends the passage of this Bill.

Respectfully submitted,

Upon motion by Senator Fairchild, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 58 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 84) from the Judiciary Committee, recommending that Senate Bill No. 57 be tabled, as follows:

REPORT ON SENATE BILL NO 57.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 57, To Amend Section 93 of Chapter 21, Act 39 of the Session Laws of 1905, entitled "An Act Creating Counties within the Territory of Hawaii and Providing for the Government Thereof," begs leave to report as follows:

This bill incorporates the ideas expressed on the floor of the Senate by the introducer of Senate Bill No. 16, which on the 6th day of March was tabled.

Senate Bill No. 57 meets in part the objections made by this Committee to Senate Bill No. 16.

This bill will make it impossible for any county attorney to practice or act as counsel for any party in any civil action in any court, with a heavy penalty for violation of the law.

Your Committee is of the opinion that theoretically the objects sought to be attained by the bill are good, but that as a practical measure the bill would not work out satisfactorily. It is believed that besides preventing the most capable legal talent in the counties from accepting public office the bill is but a stepping stone for a request for larger compensation to be paid to county attorneys. County government is already costing sufficient as it is, and the tendency should be toward economy in administration. Your Committee desires to observe that any attorney at law who would so violate his oath of office as to engage in practice in the different courts which would conflict with his public duty can be reached by process of law.

Your Committee therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

Upon motion by Senator Chillingworth, seconded by Senator Judd, the Report of the Committee was adopted, and Senate Bill No. 57 was tabled.

Senate Judd presented a Report (No. 85) from the Judiciary Committee, recommending that Senate Bill No. 36, be referred to the Committee on Ways and Means, as follows:

REPORT ON SENATE BILL NO. 36.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 36, Relating to Personal, Income and Property Taxes, and the Disposition of the Proceeds Thereof, Amending Certain Laws and Repealing Others, begs leave to report as follows:

FINDINGS.

This bill was referred to the Judiciary Committee for examination as whether or not the bill was "in proper shape," and a careful study has been made of the bill with the result that the Committee finds the bill in order, and has no amendments to suggest as to form.

At a public hearing of the commercial bodies of Honolulu the bill was criticised in its form in section 5, wherein the bill provides for estimates of the amount of money required to be raised, sub-section 1, referring to Current Expenses, sub-section 2, Permanent Improvements, sub-section 3, Interest and Sinking Funds for County or City and County bonds, and sub-section 4, Territorial needs in respect of bonds issued for the County or City and County. The criticism was that the credit of the Territory or County, or City and County demanded that first place in making estimates should be given to providing for the payment of bonds, interest and sinking funds.

Your Committee feels that this criticism of the bill was caused by a misunderstanding of its provisions, and that the point sought to be made is not well taken. Your Committee desires to point out that the items in the estimate numbered 1 and 2, for current expenses and permanent improvements respectively are by the bill items for which the taxation is limited in the rate per cent, and that items 3 and 4, both of which concern the standing and the credit of the governments involved are items where no limit of the rate per cent of taxation is fixed. In other words, the bill seeks to make it possible to have the rate per cent of taxation as high as necessary to pay the interest on the bonds, and to provide for sinking funds for their repayment.

CONCLUSIONS.

The bill being in proper form your Committee recommends that the bill be referred to the Ways and Means Committee for consideration with the other tax matters now before that Committee.

Respectfully submitted,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 10, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Makekau, the Report of the Committee was adopted, and Senate Bill No. 36 was referred to the Committee on Ways and Means.

Senator Judd presented a Report (No. 86) from the Judiciary Committee, recommending the passage of Senate Bill No. 35, as follows:

REPORT ON SENATE BILL NO. 35.

To the Honorable Eric A. Knudsen,
- President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 35, To Provide for Writ of Error in Certain Instances in Criminal Cases, begs leave to report as follows:

FINDINGS.

At the present time, in criminal cases, although the defendants may appeal from decisions of trial courts to the Supreme Court, the Territory, representing the people, cannot do so. There are many good reasons why a decision in favor of a defendant in a criminal case upon a question of fact, or on the guilt or innocence of the defendant should not be reviewed, but there is no good reason why a person charged with crime should be permitted to escape simply because a trial judge has erred on a pure question of law.

Not only should the Supreme Court be the final judge of questions of law in a particular case for the protection of the

public and to prevent guilty persons from escaping through erroneous decisions of law, but it is highly important that questions of criminal law should be determined by a single highest court, so as to settle the law for other courts and thus avoid decisions both ways by different trial judges.

The bill in question is taken substantially from a similar bill passed by Congress for Federal cases on March 2, 1907, (34 U. S. Statutes at large 1246) and is in line with the best thought on questions of improved judicial procedure.

The bill is directed to a judgment rendered before the moment of jeopardy is reached, and therefore is not repugnant to the 5th amendment to the Constitution of the United States.

Taylor vs. United States, 207 U. S. 120.

Referring to the Federal act mentioned above, the Supreme Court of the United States stated in the case of the United States vs. Bitty, 1908, 208 U. S. 393:

"The object of the act is to prevent unnecessary delay in the administration of the criminal law, and to provide a method by which courts of original jurisdiction may be instructed as to the validity and meaning of a particular criminal statute sought to be enforced."

CONCLUSIONS.

After a thorough discussion of this bill, and its purposes, your Committee recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,

March 10, 1911.

Upon motion by Senator Judd, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 35 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 87) from the Judiciary Committee, recommending that Senate Bill No. 13 be tabled, as follows:

REPORT ON SENATE BILL NO. 13.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 13, To Amend Sections 2331, 2337, 2342 and 2343 of the Revised Laws of Hawaii, Relating to sales of real property by Guardians, begs leave to report as follows:

This bill seeks to change the existing statute which only authorizes public sales of real property of minors, by authorizing private sales, and also sales, both public and private, to be made upon credit. The bill repeals the provision at present in our statutes as to the length of advertisement or notice before sale, leaving that entirely in the discretion of the court or judge. It also reduces the time within which action may be brought to recover lands so sold by guardians to three years instead of five years after termination of guardianship, attaining majority, returning to the Territory or removal of legal disability. Your Committee is of the opinion that the changes sought to be attained by this bill are not necessary, and for this reason alone are not desirable, although other objections could be made to some of the amendments.

Your Committee recommends that this bill be tabled.

Respectfully submitted

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

Committee.

Upon motion by Senator Chillingworth, seconded by Senator Baker, the Report of the Committee was adopted, and Senate Bill No. 13 was tabled.

Senator Judd presented a Report (No. 88) from the Judiciary Committee, recommending that Senate Bill No. 11 be tabled, and offering a substitute bill, as follows:

REPORT ON SENATE BILL NO. 11.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate

Bill No. 11, To Amend Section 1804 of the Revised Laws of Hawaii, Relating to Judgments and Executions, begs leave to report as follows:

This bill seeks to make judgments recovered in Courts of record a lien upon the real property of the judgment debtor. The Committee believes that the proposed bill in its present form is too much in detail, and is of the opinion that legislation of this character should be more general in its terms, leaving the details to be carried out by the officers of the Court. A further objection to the bill as introduced is that it is apparently copied largely from a code State. Your Committee believes that it is a mistake to attempt to incorporate into the Hawaiian System, which is the growth of years, parts of another system, based on an entirely different theory from that which this jurisdiction has proceeded on.

In place of this bill as introduced your Committee has prepared a substitute bill, which is hereto attached, which it is believed is not open to the above objections, and in addition thereto contains a provision for the enforcement of the judgment lien. The substitute bill also provides for the recording of the judgment lien in the Office of the Registrar of Conveyances, thus adding publicity to the lien, and rendering it readily accessible to one searching titles.

Your Committee recommends that Senate Bill No. 11 as introduced be tabled, and that in place thereof there be passed the substitute bill herewith submitted.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

Senator Judd presented a Report (No. 92) from the Judiciary Committee, recommending the passage of House Bill No. 8 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 8.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 8, to Amend Section 13 of Act 39 of the Session Laws of 1905, as Amended by Section 1 of Act 54 of the Session Laws of 1905 and as Amended by Section 1 of Act 58 of the

Session Laws of 1909, Relative to Deputy Sheriffs, begs leave to report as follows:

This bill seeks to make the Deputy Sheriff of South Hilo, Hawaii, and the Deputy Sheriff of Walluku, Maui, ex-officio, deputy sheriffs of their respective counties.

After a careful consideration of this bill, and a full discussion of the subject matter, your Committee recommends that the bill be amended by striking out the last five lines of Section 1 of the bill, beginning with the word "The," and that in lieu thereof there be inserted the following phrase:

"Every Deputy Sheriff so appointed shall, ex-officio, be Deputy Sheriff of the County."

This amendment is not a rejection of the House Bill, but is an extension of its provisions to cover all the Counties. Your Committee sees no reason why South Hilo, and Walluku should be singled out, and considers it a very desirable provision that every deputy sheriff appointed as by law provided should be ex-officio deputy sheriff of the whole county.

Your Committee therefore recommends that the bill be passed as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

March 11, 1911.

Upon motion by Senator C. Brown, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 8 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 93) from the Judiciary Committee, recommending the passage of House Bill No. 71, as follows:

REPORT ON HOUSE BILL NO. 71.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 71, Prohibiting the members of the several Boards of

Supervisors from practicing or acting as Attorneys or Counselors at law in criminal cases and in certain civil causes, during their term of office, and prescribing a penalty therefor, begs leave to report as follows:

After a careful consideration of this bill, and a full discussion of the subject matter thereof your Committee believes that it is not undesirable to have attorneys or counselors at law as members of boards of supervisors, and sees no reason why the fact that a man is trained in the law and has a license to practice should exclude him from representing the electors on the board of supervisors. The possession of such professional skill rather would fit him peculiarly for the office, and certainly should not prevent him from filling the office. This bill would prevent any practicing lawyer from becoming a member of the Board of Supervisors, since to become a member of such a board it would be necessary for him to practically discontinue his law practice.

For the reasons above set forth your Committee recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 11, 1911.

Upon motion by Senator Kaleiupu, seconded by Senator Baker, the Report of the Committee was adopted, and House Bill No. 71 was tabled.

Senator Judd presented a Report (No. 94) from the Judiciary Committee, recommending the passage of House Bill No. 99, as follows:

REPORT ON HOUSE BILL NO 99.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 99, To amend Section 2214 of the Revised Laws of Hawaii, Relating to records and certificates of marriage, begs leave to report as follows:

This bill seeks to establish a very desirable rule of evidence, by making a duly issued marriage certificate prima facie evidence of marriage. Cases frequently arise in our Courts, having to do with real property, where it becomes necessary to establish the fact of a marriage long after the parties thereto are dead, and where all the witnesses thereto have likewise passed away. The bill is also in accord with the policy of having uniformity of law in the states and territories in the United States, many of the States already having passed similar statutes.

For the reasons above given your Committee recommend the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

RESOLUTION.

BE IT RESOLVED, that the following questions shall be submitted to the Commissioner of Public Lands, viz:

1. Is the land of Kioloku in the District of Kau, now occupied by the Hutchinson Sugar Plantation Company, regarded by the Government as Public Land? If so, what revenue, if any, is the Government deriving therefrom, and upon what terms is it held by said Company?

2. Is it not true that said land was assumed to have been sold by the late King Kalakaua, to parties through whom said parties now claim title thereto?

3. Is it not true that said land at the time of such assumed sale was Crown Land, or Government land, and that King Kalakaua had no title thereto?

4. What steps, if any, has the Government taken to recover said land, or to have the title thereto determined?

5. If the Government has taken no such steps, does the Government intend to take action to that end, or for that purpose? If not, why not?

6. Have any of the Lots laid out for homesteads upon the lands of Kaunamano, in said Kau, and which were not disposed of to homesteaders, been used by said Company, since the same were so laid off? If so, upon what terms has said Company used or occupied the same?

7. Is said Company now using or occupying any of said lots? If so, upon what terms?

8. If said Company has been, or is now occupying any of said Lots, have the same, or any thereof been applied for by intending homesteaders? If so, have they been allotted to homesteaders? If not, why not?

9. Is it not true that Lot 15 of said Kaunamano Homestead Tract has not been assigned, for homestead purposes? If it has not been so assigned, has it been applied for, for such purpose? If so applied for, why has it not been assigned for such purpose?

Senator C. Brown presented a Report (No. 5) from the Special Committee on Senate Bill No. 33, recommending the passage of the Bill, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Special Committee of Oahu members to whom was referred, upon recommendation by the Judiciary Committee, Senate Bill No. 33, being "An Act to Amend Act 118 of the Session Laws of 1907, and Repealing Chapter Eleven of said Act," have had same under consideration, and report as follows:

The Judiciary Committee recommended in its report that all of paragraph A be stricken out, and a new paragraph A be inserted in its place; the change is simply in the wording, and makes no change or alteration in its effect if the Act becomes law. We agree that the recommendation of that Committee be adopted as well as the other minor amendments recommended.

A draft of the Bill as it would be if the amendments are adopted, is submitted herewith.

In most if not all, of the States and Territories, some provision is made for a recount of the votes cast at elections, and we believe that the Act introduced with the amendments thereto made will facilitate and improve the method now in vogue and as prescribed in Chapter Eleven of Act 118 of the Session

Laws of 1907. The Act applies, as well as the proposed amendment, to the City and County of Honolulu, and no other County.

We recommend that the Act as amended pass.

Respectfully submitted,

CECIL BROWN,
CHAS. F. CHILLINGWORTH,
ALBERT F. JUDD.

Honolulu, March 13, 1911.

Senator Chillingworth presented a Report (No. 6) from the Special Conference Committee on House Concurrent Resolution No. 5, as follows:

Honolulu, Hawaii, March 13, 1911.

Hon. Eric A. Knudsen,
President of the Senate, and

Hon. H. L. Holstein,
Speaker of the House.

Sirs:—

Your Conference Committee in re House Resolution pertaining to the division of the Federal Funds met on the 11th day of March, A. D. 1911 and recommend that the division be as follows:

SENATE: Eleven Thousand Dollars (\$11,000).

HOUSE OF REPRESENTATIVES: Nineteen Thousand Dollars (\$19,000).

Your Committee feels that as the Senate is run on an economical basis the sum of Eleven Thousand Dollars (\$11,000) will be sufficient for its needs.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman Senate Com.

DAVID K. BAKER,
PHILIP PALI.

J. H. CONEY,
Chairman House Com.

NORMAN WATKINS,
EDWARD WAI-AHOLO.

Senator Judd presented a Report (No. 96) from the Judiciary Committee, recommending the passage of House Bill No. 121, as follows:

REPORT ON HOUSE BILL NO. 121.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 121, To Amend Sections 1781 and 1782 of the Revised Laws of Hawaii as amended, Relating to the summoning of Jurors, begs leave to report as follows:

After a full consideration of this bill, and a careful investigation and discussion of the objects thereof, your Committee consider that this bill is a meritorious one. The objects of the bill are two.

First, by section 1, to do away with the present uncertainty as to whether the sheriff may properly deputize any one of the officers under him to summon jurors.

Second, to allow the court to summon additional grand jurors by any deputy sheriff or police officer, in addition to the sheriff.

The bill is in proper form, and your Committee recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

March 13, 1911.

Senator Judd presented a Report (No. 97) from the Judiciary Committee, recommending that House Bill No. 72 be tabled, as follows:

REPORT ON HOUSE BILL NO. 72.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 72, Relating to the appointment and removal of District Magistrates, and amending Section 1660 of the Revised Laws of Hawaii, as amended by Act 61 of the Session Laws of 1905, and by Act 38 of the Session Laws of 1909, and Section 1661 of the Revised Laws of Hawaii, as amended by Act 61 of the Session Laws of 1905, begs leave to report as follows:

This bill seeks to amend the present law as to the appointment of District Magistrates and their qualifications, by providing that in the districts of Honolulu, Wailuku, South Hilo and Lihue, such Magistrates shall have resided within the Judicial Circuit to which appointment is made for at least one year prior to the date of appointment. This provision would prevent appointments similar to the one made to the position of District Magistrate in Kona. The appointee in this case was a resident of Honolulu when appointed, but the appointment has given general satisfaction in Kona.

The bill also seeks to add to the present law as to the tenure of office the following: "until their successors are appointed and qualified."

After careful consideration and investigation your Committee finds that none of the changes sought to be made in the present law are desirable, and your Committee is further of the opinion that there has been ample legislation upon this subject, that the law should remain as it now stands, and that this bill is entirely unnecessary.

For the reasons above set forth your Committee recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CONCURRENT RESOLUTION.

REQUESTING CONGRESS TO ENACT AND THE PRESIDENT TO APPROVE AN ACT AUTHORIZING THE CONSTRUCTION OF A DITCH FROM HILO TO KAU, ISLAND AND TERRITORY OF HAWAII, AND FOR OTHER PURPOSES INCIDENTAL THERETO.

WHEREAS, there are large areas of fertile land in the District of Kau, Island and Territory of Hawaii, both of public and private ownership, which are non-productive, or productive only to a limited degree, by reason of the lack of rainfall, or water for irrigation;

AND WHEREAS, there are many streams in the District of Hilo, on said Island, much of the water of which is running to waste;

AND WHEREAS, it will be in the public interest to have the said waste water conveyed to said arid and semi-arid lands, for the purpose of developing the same and bringing them under cultivation;

AND WHEREAS, the cost of constructing the ditches, re-

servoirs and other structures necessary or incidental to the transportation of said waters as aforesaid, and of maintaining and operating the same, will be large, rendering it necessary for parties undertaking such work to raise money to operate by means of the issuance of bonds;

AND WHEREAS, it is improbable that private capital, without the guarantees hereinafter contemplated and provided for, would undertake to finance the said enterprise;

AND WHEREAS, in the opinion of this Legislature, the public interests will be advanced by the successful development of said lands in the District of Kau by means of said waters to the extent of warranting public assistance in that behalf, in manner herein set forth;

AND WHEREAS, the sanction and approval of Congress is necessary in order to secure to the grantee hereunder the rights, powers, privileges and authority herein enumerated;

NOW THEREFORE, BE IT RESOLVED:

That the Legislature of the Territory of Hawaii doth hereby recommend to and petition the Congress of the United States to pass, and the President to approve, an Act of Congress in substantially the following form, viz:

Section 1. The right and power is hereby granted to John T. McCrosson, and to his associates and assigns, and to such corporation as may be organized by him or them for the purpose of taking over and exercising the rights, powers and privileges hereby conferred, hereinafter collectively referred to as the "ditch company," to construct a ditch and ditches from any point or points in the District of Hilo, (which term shall be held to include both North and South Hilo), Island and Territory of Hawaii, through the said District last aforesaid, to and through the said Districts of Kau and Puna in said Island and Territory, and to any point or points therein.

Section 2. And also the right and power to construct and erect within the limits of said Districts of Hilo, Puna and Kau, any other ditches and any tunnels, dams, water heads, reservoirs, roads, trails, wire-lined conduits, buildings, machinery, and/or other structures or appliances, necessary or proper for diverting, securing or storing water to flow through said ditch or ditches, or for the production and/or transmission of power produced by such water or therefrom.

Section 3. And also the right and power to buy, take on lease, or otherwise acquire by private purchase, and to hold, all land or interests in land, necessary, convenient or proper for the purposes aforesaid, or any of them.

Section 4. And also the right and power to condemn and

take any land, or interest in land, necessary or proper for rights of way, or for dam or reservoir or building sites, for the purposes aforesaid, or any of them, SUBJECT, HOWEVER in all respects to the obligations, restrictions, payments and procedure now or hereafter imposed or prescribed by the laws of the Territory of Hawaii for the exercise of the right of eminent domain by public railroads in the said Territory.

Section 5. The commissioner of public lands for the Territory of Hawaii, hereinafter referred to as the "commissioner," is hereby authorized and directed to execute to the said John T. McCrosson, his associates and assigns, or to such corporation as may be organized by him or them for the purpose of taking over the rights, powers and privileges hereby conferred, and the governor of the Territory of Hawaii, hereinafter referred to as the "governor," is authorized and directed to approve a lease of all such public lands in the District of Kau to be designated by the ditch company, as are capable of being economically irrigated therefrom, together with rights of way for ditch purposes over all government lands situate in said Districts of Hilo, Puna and Kau. The lease shall provide that if within six months from the date of the first delivery of water in the said District of Kau, by said ditch company, it is ascertained to the satisfaction of said company that any of the lands theretofore designated by it are incapable of being economically watered from its waterways, such lands, or any portion thereof may be surrendered by the said company by notice in writing to said commissioner, and no rent for said lands so surrendered, if any, shall be charged or collected by the lessor, and that the surrender of a portion of such lands, as herein provided, shall in no wise affect the lessee's tenancy of the remaining lands under said lease; that the term of said lease shall be fifty years from the date hereinafter set forth; that the said ditch company shall have the right and authority at all times after the execution of said lease to enter upon said lands, and any and all thereof, for the purpose of surveys, construction work, etc.: that the rent to be paid for said lands shall be at the rate of one dollar per acre, per annum, payable to the Territory at its option, either in water from the waterways of said ditch company at the lowest rate payable by any consumer of water furnished by the company, or in cash. And the said ditch company shall furnish to homesteaders or settlers along the line of the company's waterways, or such other person or persons along said waterways, as said commissioner, with the approval of the governor, may direct, at a point or points to be designated by such officials, such water due as rental for said public lands. The lessee (ditch company) shall have full right to sublet the

said lands or any part thereof, or to assign the said lease in whole or in part, either by way of security or otherwise, SUBJECT, HOWEVER, in all things to the provisions hereof. The said lease shall be made subject to any unexpired and outstanding lease of any or all of such lands, and shall contain appropriate provisions to secure the construction and maintenance of the necessary works for supplying such lands with water, and the reversion of such works to the Territory upon the termination of the lease as hereinafter provided.

Section 6. Not more than thirty per cent. of the lands so held under lease by the ditch company may at any time after the expiration of six months from the date of the first delivery of water as aforesaid, by said company be withdrawn for public purposes, or homesteaded, or sold for other purposes under the laws relating to public lands in Hawaii such withdrawal of lands to be in blocks of not less than five hundred acres and the right of way of the ditch company through such land so withdrawn to be reserved to it, in which case the rent reserved shall be proportionately reduced at the rate of one dollar per acre for the land so withdrawn, homesteaded and sold; PROVIDED, that written notice of intention to withdraw any portion of such public lands, together with a proper description of the lands so to be withdrawn, shall be served, upon the ditch company by said commissioner, with the approval of the governor, not less than three calendar months before such withdrawal is to take effect; PROVIDED, ALSO, that growing crops, if any, upon said lands so to be withdrawn may be harvested by the ditch company, or those holding under it before such withdrawal is or shall be operative.

Section 7. The said lease shall go into effect when the said company shall have constructed a ditch from said District of Hilo to Pahala in said Kau, with a delivering capacity of one hundred million gallons of water per day of twenty-four hours, and when fifty million gallons of water shall have been actually delivered by means of said waterway to said Pahala within a period of twenty-four consecutive hours, such date to be ascertained by said commissioner and fixed by him with the approval of the governor. Notice of the fixing of such date, and the consequent beginning of the term of said lease, shall be communicated in writing to said ditch company by said officials within ten days from the date thereof.

Section 8. A sum, not less than \$50,000 in cash shall be actually expended by said ditch company in preliminary surveys, construction work upon said ditch or reservoirs, or for other good and useful purposes in that behalf, within one (1) year, \$100,000 within two (2) years, and \$1,000,000 within three years, from the date of the approval of this Act by the President.

Section 9. The said ditch shall be completed as far as Pahala, in said District of Kau, within four (4) years, and as far as Waiohinu, said Kau, within five (5) years from the date of said approval. If the said John T. McCrosson, his associates or assigns, or a corporation organized by him, as aforesaid, shall fail to expend the said respective sums of money, or either of them, within the respective times aforesaid, for the purposes aforesaid, then and in such case all of the rights, powers and privileges hereby granted and said lease shall be forfeited and become null and void and of no effect, and all works and improvements up to that time erected or constructed shall immediately revert to and become the property of the Territory, PROVIDED, HOWEVER, that the time hereinabove fixed for completion of the said ditch to various points for the expenditure of moneys in surveys, construction and other work aforesaid, and for the doing of any other or different act required by the said J. T. McCrosson, his associates or assigns, or a corporation organized by him, as aforesaid, may for good cause shown be extended by order of the governor for a time which he shall deem reasonable in view of such cause.

Section 10. If after the said expenditures have been made, any of said beneficiaries hereunder, shall fail to observe or perform any of the terms, requirements or conditions herein contained or prescribed, the governor shall give such beneficiary written notice to furnish to him within three months from date of such notice, assurances and proofs satisfactory to said governor that said breach or failure will be remedied and all terms, requirements and conditions herein contained or prescribed, observed, performed or complied with, within one (1) year after the date of such notice. If said beneficiaries shall fail to furnish to said governor assurances and proofs as aforesaid, within said term of three months, or, if having furnished the same, there shall at the end of said term of one (1) year, remain unperformed, unfulfilled, or unobserved, any term, requirement or condition herein contained, on the part of the beneficiary or beneficiaries to be observed, kept or performed, then and in such case all of the rights, powers and privileges hereby granted, and said lease, shall be forfeited and become null and of no effect.

Section 11. The corporation formed by the said J. T. McCrosson as aforesaid, for the purposes aforesaid, and its property used for or in carrying into effect the purposes aforesaid, or any of them, and its income, shall be free from territorial, municipal, and county property and income taxes for the term of ten years after the approval of the act.

Section 12. The rates at which water flowing along said ditch, and power produced thereby, or incidental thereto, shall

be sold to applicants, shall be fixed and published from time to time by the said ditch company with the approval of the governor, and the said rate shall be the same to all.

Section 13. Such rates shall be based upon the yielding of not more than sufficient revenue to pay the following, viz:

(1) The reasonable expenses of maintenance and operation of said ditch and other plant and appurtenances;

Senator Judd presented a Report (No. 100) from the Judiciary Committee, recommending that Senate Petition No. 3 be tabled:

**REPORT ON SENATE PETITION NO. 3 FROM KAPAA
HOMESTEADERS, PRAYING FOR RELIEF.**

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee to whom was referred Senate Petition No. 3, from the Kapaa Homesteaders, praying for relief, begs leave to report as follows:

This petition was referred to the Judiciary Committee for the purpose of securing
"legal expression as to the legality of the granting of the
"relief prayed for."

Reference to the petition shows that the request made by these petitioners was

"That the payments they have already made on their purchase
"be deemed sufficient prices for the lots, and that your petitioners be discharged from any and all further obligations
"to pay the balance now due on their purchases."

Your Committee, after a careful consideration of this petition is of the opinion that the request made in the petition cannot be granted. These petitioners, under the land laws of Hawaii which the Legislature cannot change, bid at public

auction and made purchases of these lands, and thereafter entered into contracts with the government to take homesteads (par. 2. Sec. 276 R. L.). Your Committee believes that to have the Legislature release these petitioners from the obligations which they have voluntarily assumed is in effect an attempt to change the land laws of Hawaii. Your Committee believes further that such action on the part of the Legislature would open the door to similar petitions from every collection of homesteaders in the Territory. An examination of the land laws of the Territory convinces this Committee that the Legislative Department of the Government is without authority to act in this matter as requested.

For the reasons above given your Committee recommends that this petition be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

March 14, 1911.

Upon motion by Senator Fairchild, seconded by Senator Pali, the Report of the Committee was adopted, and Senate Petition No. 3 was tabled.

Senator Judd presented a Report (No. 101) from the Judiciary Committee, recommending that Senate Concurrent Resolution No. 5 be tabled, as follows:

REPORT ON SENATE CONCURRENT RESOLUTION NO. 5.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Concurrent Resolution No. 5, relating to the cancellation of certain homestead agreements, begs leave to report as follows:

This Resolution seeks to have six months further time given to homesteaders in which to pay all interests and claims to the Territory, before actually putting the cancellation into effect.

Your Committee has gone very thoroughly into this matter,

and finds that the Commissioner of Public Lands is very willing to give every person all the consideration he is entitled to, so far as it is possible to do so under the law. Further the Commissioner is willing to give further time to anyone who shows that he is willing to, and will honestly endeavor to live up to the terms of his agreement. There are many cases where for a long term of years the homesteader has ignored the terms of his contract with the government and has made no attempt to live up to the terms thereof. In every case where the homesteader shows to the Commissioner of Public Lands that he is endeavoring to the best of his ability to carry out the terms of his contract, the Commissioner is willing to and does give further time, and will do everything possible to aid the bona fide homesteader.

In view of the foregoing there seems to be no need of the passage of the above resolution, and your Committee therefore recommends that this resolution be tabled, in which recommendation the introducer of the Resolution concurs.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

Upon motion by Senator J. T. Brown, seconded by Senator Pali, the Report of the Committee was adopted, and Senate Concurrent Resolution No. 5 was tabled.

Senator Judd presented a Report (No. 102) from the Judiciary Committee, recommending that Senate Bill No. 62 be tabled, as follows:

REPORT ON SENATE BILL NO. 62.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 62, To amend Section 62 of Act 39 of the Session Laws of 1905, by adding a new paragraph to be called paragraph 5A, begs leave to report as follows:

This bill seeks to give the various counties in the Terri-

tory the authority to pass ordinances relating to the borrowing of money by bonds for certain public purposes.

After full investigation and consideration of this bill your Committee is of the opinion that a matter of this kind which involves the credit of all the counties of this Territory is a matter which should not be left to county ordinances. This is something which ought to be dealt with, if at all, by a general enabling act, under which careful provision should be made, authorizing each county to issue bonds.

In view of the provisions of Section 55 of the Organic Act, as amended, by Act of Congress of the United States, May 27, 1910, which says:

"the Legislature may authorize loans by the Territory or "any such subdivision thereof" etc. there arises grave doubts in the minds of your Committee as to the constitutionality of this bill, which seeks to delegate this power to the counties.

Irrespective of the questions of policy involved, in view of the doubtful constitutionality of the bill your Committee recommend that it be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

RESOLVED that the sum of Twenty-six Dollars (\$26.00) be inserted in the Appropriation Bill to pay the claim of Isaac Wallace Sr.

WM. T. ROBINSON,
Senator, 2nd District.

Referred to the Ways and Means Committee.

Senator Judd presented a Report (No. 103) from the Judiciary Committee, recommending the passage of Senate Bill No. 63 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 63.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 63, Relating to expenditure of Public Money, amending Section 1 of Act 62 of the Session Laws of 1909, and adding a new section thereto, begs leave to report as follows:

This bill seeks to make it possible in certain instances to expend money for certain objects which are now only permitted after public advertisement. In several instances the requirement of public advertisement before contract has worked a serious hardship, especially has this been the case with work and especially food supplies for the Leper Settlement on the Island of Molokai. It has happened that after advertisement for food supplies no bids have been received, and a strict compliance with the letter of the present law would have left the people in the settlement without food. There are also certain kinds of food which have to be bought for the Leper Settlement which can be more advantageously purchased in small quantities and at frequent intervals.

Your Committee recommends that Section 1 of said bill be amended by inserting the following words after the word "County" in line 15 of said section:

"or of the Governor in the case of the Territory,"

Your Committee further recommends that the following words be added to Section 1 of said bill at the end of said section:

"And provided further that nothing herein provided shall prevent the Board of Health, if after publication of a call for tenders as herein provided for it receives no bids from any responsible bidder or only one bid therefrom, from purchasing at regular market prices, meats on the hoof or otherwise, and food stuffs, as may from time to time be required for the Leper Settlement."

Due to its location the Leper Settlement has difficulty in securing bids from responsible bidders, or in fact any bids at all, after advertisement for supplies of various kinds. This is due to a number of causes, among which are location, difficulties of transportation, etc. Your Committee considers it very essential that all precautions should be taken to avoid

any danger of a shortage of food supply at the Leper Settlement because of lack of bids, or for any other reason.

For the reasons above given your Committee recommends that this bill, as amended, be passed.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,

Senator Judd presented a Report (No. 104) from the Judiciary Committee, recommending that House Bill No. 63 be tabled, as follows:

REPORT ON HOUSE BILL NO. 63.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 63, To amend Section 1 of Act 62 of the Session Laws of 1909, Relating to the Expenditures of Public Money, begs leave to report as follows:

This bill seeks to make it possible for the Board of Health to purchase meats and other supplies for the Leper Settlement in certain instances in the open market, and at regular market prices. Your Committee is in entire accord with the spirit of this bill, but does not recommend its passage. Your Committee has considered this bill in connection with Senate Bill No. 63, which covers the same subject and is broader in its scope, and has recommended that Senate Bill No. 63 be amended by inserting therein the provisions contained in House Bill No. 63. The entire subject is thus covered in one bill and the object sought to be attained is accomplished.

For the reasons above expressed your Committee recommends that House Bill No. 63 be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 15, 1911.

Upon motion by Senator Quinn, seconded by Senator Robinson, the Report of the Committee was adopted, and House Bill No. 63 was tabled.

Senator Judd presented a Report (No. 105) from the Judiciary Committee, recommending the passage of Senate Bill No. 56 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 56.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 56, To Amend Sections 391, 392 and 393 of the Revised Laws of Hawaii, Relating to Fences, begs leave to report as follows:

FINDINGS.

The primary object of the bill seems to be to give the Governor the power to initiate the appointment of Fence Commissioners, the present statute being that the Governor shall make such appointment upon the petition of twenty-five owners of land in any taxation district.

The second paragraph of the bill prescribes how public notice shall be given to all those interested in the building of a certain fence, the present statute being that public notice shall be given, and the added provision is

"in a public newspaper published and circulated in the county where such lands are situated, said notice to be published ten days previous to the meeting hereinafter provided for."

After careful examination and investigation your Committee

recommends that in line 4 of Section 1 (line 2 of Section 391, as amended), the present words of the statute

"or upon the petition of twenty-five owners of land" be inserted after the word "necessary."

This will allow proceedings to be started either upon the petition of twenty-five owners of land, as the law now is, or when the Governor shall deem it necessary. This amendment will accomplish the object sought by the bill, and still make it possible for the owners of land to compel the Governor to take action.

Your Committee recommends that the phrase in lines 7 and 8 of Section 1 (lines 5 and 6 of Section 391 as amended),

"Such Commissioners shall hold office during good behavior and"

be stricken out. This phrase exists in the present law on the subject, and is unnecessary in view of the provisions of Section 80 of the Organic Act.

Your Committee recommends that the words "they shall" in line 10 of Section 2 of said bill (line 8 of Section 392 as amended) be stricken out, and in lieu thereof there be inserted the word "to."

This amendment is necessary in the proper construction of the paragraph.

Your Committee recommends that Section 3 of the bill be stricken out. This section attempts to make the judgment covering the cost of fencing a lien on the land. In view of Section 1806 of the Revised Laws of Hawaii, which allows judgments obtained before District Magistrates to be made a lien on real property, Section 3 of the Bill is unnecessary.

Your Committee recommends that Section 4 of the bill be numbered Section 3.

Your Committee recommends that Section 2 of this bill be amended by adding thereto the following words at the end thereof.

"It shall also be the duty of the said Commissioners to cause notice of such meeting to be given to all persons interested, by the same officers, and in the same manner, as is provided by Sections 1721, 1722 and 1724 of the Revised Laws of Hawaii, and as provided by Section 1723 of the Revised Laws of Hawaii as amended by Act 34 of the Session Laws of 1909, for service of summons issued under the seal of a Court of record.

All expenses and fees in connection with the proceedings brought hereunder shall be taxed by the Commissioners as costs against the losing party or parties, or against all parties to the proceeding, in such proportion as to the Commissioners shall deem equitable."

With the above amendments, your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

Senator Fairchild presented a Report (No. 106) from the Committee on Ways and Means, recommending the passage of House Bill No. 139, as follows:

SENATE CHAMBER.

Honolulu, March 15, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 139, entitled "An Act to appropriate Money for the Relief of the Hawaiian Development Co., Ltd.," has had the same under due and careful consideration and begs leave to report as follows:

The bill seeks to appropriate money for the purposes of refunding the amount paid by the Hawaiian Development Co., Ltd., for stamp duties to the Registrar of Conveyances upon a duplicate copy of a certain mortgage from the Hawaiian Mahogany Co., Ltd., to the Hawaiian Development Co., Ltd., which mortgage had been duly stamped and recorded. The facts herein given were substantiated by the Registrar of Conveyances, who states in his communication to the Committee "that said refund would be an act of simple justice and should be made."

Your Committee therefore recommends the passage of the bill.

Upon motion by Senator Fairchild, seconded by Senator Baker, the Report of the Committee was adopted; House Bill 139 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Fairchild presented a Report (No. 107) from the Committee on Ways and Means, recommending that Senate Bill No. 42 be tabled, as follows:

Honolulu, Hawaii, March 9, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Dear Sir:—

Your Committee on Ways and Means to whom has been referred Senate Bill No. 42, begs leave to report that they have had same under careful consideration, and would report, as follows:

The object of the Bill is to raise the present exemption under property taxes from Three Hundred Dollars (\$300) to Five Hundred Dollars (\$500). In view of the large financial demands upon the Legislature concerning matters pertaining to education, health, internal improvements and etc., and in view of the fact that the revenues will not be adequate to meet those demands, your Committee deems it inadvisable at the present time to make any alteration in the present Tax laws resulting in a reduction of the revenue.

We, therefore, recommend that the Bill not pass.

Respectfully submitted,

Chairman.

President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bill No. 23, being An Act to Amend Certain Sections of Act 53 of the Session Laws of 1907, beg leave to report as follows:

This Bill was referred to the Judiciary Committee of the Senate, and after consideration by them, was recommended to be tabled for the reason that Senate Bill No. 47 already reported on has rendered it unnecessary that the Bill be enacted; this Committee having recommended the passage of Bill No. 47 with the slight amendment thereto, recommends that this Bill be tabled.

The objects sought to be obtained by this bill are well covered in House Bill No. 89, which has been favorably reported by this Committee.

In view of the above your Committee recommend that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

Senator Judd presented a Report (No. 111) from the Judiciary Committee, recommending that Senate Bill No. 69 be indefinitely postponed, as follows:

REPORT ON SENATE BILL NO. 69.

To the Honorable Eric A. Knudsen,

Your Judiciary Committee, to whom was referred Senate Bill No. 69, To Amend Section 16 of Act 39 of the Session Laws of 1905, as Amended by Section 1 of Act 84 of the Session Laws of 1905, Relating to the Creation of Counties Within the Territory of Hawaii and Providing for the Government Thereof, begs leave to report as follows:

This bill is an attempt to bring before the Senate the same idea heretofore adversely reported on by this Committee, as Senate Bill No. 16, and Senate Bill No. 57. This bill seeks to prohibit any county attorney from transacting any private business between the hours of 9 o'clock A. M. and 4 o'clock P. M. For the reasons stated in the reports of this Committee on the above bills your Committee now presents an adverse report on Senate Bill No. 69, and recommends that the measure be indefinitely postponed.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

March 17, 1911.

Committee.

Upon motion by Senator Robinson, seconded by Senator Makekau, the Report of the Committee, together with the Bill, were laid on the table to be taken up for consideration on Wednesday, March 22nd, 1911.

Senator Judd presented a Report (No. 112) from the Judiciary Committee, recommending the passage of Senate Bill No. 71 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 71.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill

No. 71, To Amend Section 419 of the Revised Laws of Hawaii, Relating to Brands, begs leave to report as follows:

The object of this bill is to turn the registration of brands and marks on cattle over to the sheriff of the County or City and County as the case may be, taking the matter away from the Superintendent of Public Works. This is essentially a county matter, and should not be left in the hands of a Territorial official in the central office in Honolulu. Your Committee after careful consideration believes the proposed change in our laws to be a desirable one.

Your Committee recommends that all of Section 1 be stricken out after the words "Section 419," and that there be inserted in lieu thereof the following:

"Every owner of live stock shall, in order to its validity, have his brand or mark recorded in a book kept for that purpose by the sheriff of the City and County or County within which his animals are. Upon the payment of the sum of one dollar the said sheriff shall issue to such owner a certificate showing that such brand or mark has been duly recorded. All moneys so received shall be paid into the Treasury of the City and County or County as the case may be. No brand or mark shall be recorded which may be similar or approximate in design to any brand or mark which shall have been previously recorded, and no record shall be made of any mark which shall involve the cutting off of one or both ears of an animal."

Your Committee recommends that Section 2 of this bill be amended by striking out all of said section after the words "Section 2," and inserting in lieu thereof the following:

"All records of brands or marks now in the possession of the Superintendent of Public Works shall be forthwith transmitted to the Sheriff of the City and County of Honolulu."

Section 2 of this bill is changed as above indicated for the reason that the only records of brands and marks in the possession of the Superintendent of Public Works are those relating entirely to the Island of Oahu.

With these amendments it is believed the bill is in proper form, and your Committee recommends the passage of the bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

Committee.

March 17, 1911.

Upon motion by Senator Makekau, seconded by Senator Chillingworth, the Report of the Committee was adopted; Senate Bill No. 71 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 113) from the Judiciary Committee, recommending the passage of Senate Bill No. 78, as follows:

REPORT ON SENATE BILL NO. 78.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 78, To Amend Section 2359 of the Revised Laws of Hawaii, as Amended by Act 7 of the Session Laws of 1905, Relating to the duties of the Registrar of Conveyances, begs leave to report as follows:

The present statute, Act 7 of the Session Laws of 1905, provides that it shall not be lawful for the Registrar of Conveyances to accept, enter for record and record any instrument, on Sunday, on a legal holiday, on Saturday, except between the hours of 9 A. M. and 12 noon, and on any other day, except between the hours of 9 A. M. and 4 P. M.

By Joint Resolution No. 3, Relating to Office Hours of Territorial Offices and Officers and Employees, approved April 3, 1909, it is provided that the various Territorial Government offices, including that of the Registrar of Conveyances shall be kept open for public business on business days from 8:30 in the morning to 4:30 in the afternoon, except Saturdays, on which day noon was fixed as the closing hour.

The office of the Registrar of Conveyances has observed the requirements of Joint Resolution No. 3, but owing to the terms of Act 7 of the Session Laws of 1905, a period of thirty minutes each, in the morning and in the afternoon, occurs each day during which, while the office is open, it is not lawful for the Registrar to accept for record any documents.

This bill seeks to remedy this condition of affairs by extending the time within which instruments may be accepted, entered for record and recorded, to correspond with the office hours as prescribed in Joint Resolution No. 3 of April 3, 1909.

For the reasons above given your Committee believes this

a wise measure, and therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

March 17, 1911.

Committee.

Upon motion by Senator C. Brown, seconded by Senator Robinson, the Report of the Committee was adopted; Senate Bill No. 78 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 114) from the Judiciary Committee, recommending the passage of Senate Bill No. 80 with one amendment, as follows:

REPORT OF SENATE BILL NO 80.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 80, To Amend Section 1721 of the Revised Laws of Hawaii, Relating to Service of Summons issued Under the Seal of Court of Record, begs leave to report as follows:

The object sought to be attained by this bill is to have police officers, as well as sheriffs and deputy sheriffs, serve summons issued under the seal of a court of record.

This amendment will facilitate the business of the Courts, and remove a possible cause of delay.

Your Committee recommends that this bill be amended by inserting the word "at" after the word "or" and before the word "abode" in line 4 of Section 1.

With this amendment the bill is in proper form, and your Committee recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

March 17, 1911.

Committee.

Upon motion by Senator C. Brown, seconded by Senator Ma-
kekau, the Report of the Committee was adopted; Senate Bill
No. 80 passed Second Reading as amended, and was placed on
the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 115) from the Judi-
ciary Committee, recommending the passage of House Bill No.
32 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 32.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill
No. 32, To Provide for the Registration of Voters, begs leave to
report as follows:

After a careful consideration of this bill, and a discussion
of its provisions your Committee recommends the following
amendments:

Section 2, line 13, after the word "inspection" insert the fol-
lowing words

"and shall be a public record."

In line 10 of Section 6 of this bill strike out the word
"country" and in lieu thereof insert the word "county."

In line 10 of Section 6 of this bill, insert after the word
"county" the following phrase:

"or whose death or permanent removal is suggested to him
"in writing by any elector."

In the next to the last line of Section 7, strike out the words
"Boards of Inspectors," and in lieu thereof insert the following
words

"Inspectors of Election."

That all of Section 9 be stricken out, after the words "Section
9," and that there be inserted in lieu thereof the following:

"Sections 38, 39, 43, 44, 45, 46, 47, 48, 54, 55, 56, 57 and 58 of
"the Revised Laws of Hawaii, and Act 78 of the Session
Laws of 1907, and all laws and parts of laws in conflict here-
"with are hereby repealed."

"Section 42 of the Revised Laws of Hawaii is amended by
"striking out the word "Provided" in line 6 thereof and all
"the words following."

With the foregoing amendments it is believed by your Com-
mittee that the bill is in proper form.

The amendment in Section 2 line 13 is made for the purpose
of making the register a public record, so that any wrongful
taking, detention, alteration, erasure or mutilation of the re-

gister may be punished as provided by Act 30 of the Session Laws of 1905.

Your Committee is of the opinion that this bill is a wise measure, since it simplifies the registration of voters, it makes it possible for a voter to register at any time except for a short time before an election, it establishes a permanent register. It is also desirable because a voter once registered is always registered and does not have to register before every election. It has happened in many instances in the past that men whose business takes them from place to place in the Territory have been away on business during the registration periods, and have therefore been deprived of their votes.

For the above reasons your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 17, 1911.

The Report of the Committee was received and placed on file, and upon motion by Senator Makekau, seconded by Senator Pali, consideration of the Bill on Second Reading was deferred until Monday, March 20th, 1911.

Upon motion by Senator Makekau, seconded by Senator Chillingworth, the Clerk was directed to furnish the Senate with typewritten copies of the Bill as amended.

Senator Judd presented a Report (No. 116) from the Judiciary Committee, recommending that House Bill No. 70 be tabled, as follows:

REPORT ON HOUSE BILL NO. 70.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee to whom was referred House Bill No. 70, To Regulate the Rate of Interest due or to become due by persons acquiring or who have acquired homesteads, begs leave to report as follows:

This bill seeks to make 5 per cent. the rate of interest to be

paid by homesteaders on all deferred payments. There are now under the land laws four ways in which the homesteader can get land:

1. Right of purchase lease, section 319 R. L., by which the homesteader pays rental 8 per cent. of the appraised value of the land, which value is generally $\frac{1}{3}$ or $\frac{1}{4}$ of the real value of the land, no interest is charged on delinquent payments.

2. Cash freehold, section 326 R. L., under which the homesteader pays $\frac{1}{4}$ of the purchase price at the time of the purchase, and the balance in three payments, one, two and three years thereafter, with interest at six per cent. No interest is charged on delinquent interest.

3. Homestead lease, Sections 288, 294, R. L., under which the homesteader pays no interest whatsoever, but a fee of \$2 when he receives his certificate of occupation, which certificate of occupation, after a probationary period of six years is exchanged for a 999 years lease upon the payment of a fee of \$5.00.

4. Special homestead agreements, section 276 R. L. Under this section discretion is given to the Governor and the Commissioner of Public Lands to prescribe the terms of the agreement. The present rules now in force are that the homesteader shall pay 5 per cent. of the purchase price down, 5 per cent. the second year, and 10 per cent. each year thereafter, and no interest whatsoever is charged on deferred or delinquent payments.

It is well known that the Legislature of Hawaii cannot control the price nor the rate of interest in any of these four cases, and that these matters lie, under the Organic Act, with Congress. The only thing that the Legislature could do would be by concurrent resolution directed to the Governor and the Commissioner of Public Lands, requesting them not to charge more than 5 per cent. on the special homestead agreement referred to above, but this would appear to be absolutely unnecessary in view of the fact that the discretion given these officials by Congress has been exercised by them, and they have decided to charge no interest to the homesteader.

The Judiciary Committee is entirely in accord with the spirit of the bill, but in view of its analysis of the land laws above set forth believes that it would be a mistake to pass the bill. As above suggested the bill, if enacted into law, would accomplish nothing. Further than this the bill would undoubtedly mislead homesteaders into the belief that the Legislature of Hawaii had given them relief when the contrary would be the case.

In view of these two reasons, your Committee recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 17, 1911.

Upon motion by Senator Judd, seconded by Senator Baker, the Report of the Committee was adopted, and House Bill No. 70 was tabled.

Senator Judd presented a Report (No. 117) from the Judiciary Committee, recommending the passage of House Bill No. 74 with certain amendments, as follows:

REPORT ON HOUSE BILL NO 74.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 74, To Amend Sections 1680, 1681, 1684 and 1886, and Repeal Sections 1682, 1685, 1686 and 1687 of the Revised Laws of Hawaii, Relating to Supreme and Circuit Court Clerks, begs leave to report as follows:

This bill is in line with the policy of separating the clerks of the Supreme Court from the clerks of the Circuit Courts, is in accord with the ideas of the administration, and is considered by this Committee as a desirable measure.

Your Committee recommends that section 1 of this bill be amended by striking out all of Section 1 after the words "Section 1680," and inserting in lieu thereof the following:

"There shall be a clerk of the Supreme Court and as many deputy clerks and assistant clerks as the business of the Supreme Court shall require, appointed and removable by the Justice of the Supreme Court. The Clerk of the Supreme Court shall be ex-officio clerk of all the courts of record of the Territory, and as such may issue process returnable in all such courts.

"There shall be as many clerks of the Circuit Courts as

"may be necessary, appointed and removable by the Judge
"or Judges thereof, as the case may be."

This amendment is made at the suggestion of and is in accord with the views of the Chief Justice.

With this amendment it is believed that the bill is in proper form, and for the reasons above stated your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 16, 1911.

Senator Judd presented a Report (No. 118) from the Judiciary Committee, recommending the passage of House Bill No. 89 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 89.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 89, To Amend Section 2966 of the Revised Laws of Hawaii Relating to Embezzlement, begs leave to report as follows:

It is sought by this bill to remedy existing defects in our present statute relating to the crime of embezzlement.

Your Committee recommends that Section 1 of this bill be amended by striking out all of said section after the words "Section 2966," in line 4 of said section, and that there be inserted in lieu thereof, the following:

"EMBEZZLEMENT OF PUBLIC PROPERTY. PUNISHMENT. If any officer or other person who, by any law, regulation, appointment, or employment now is or hereafter shall be charged or entrusted, directly or indirectly, with the safekeeping, transfer or disbursement or, otherwise, has the possession, control or custody of any money, note, or other effects or property belonging to the Territory of Hawaii or to any

political or municipal corporation or subdivision thereof, shall convert the same to his own use or benefit or to the use and benefit of another than the owner or person entitled thereto; or shall loan with or without interest or shall deposit in his own name, or otherwise than in the name of the Territory of Hawaii or in the name of any political or municipal corporation or subdivision thereof, in banks or with any person or persons, or change for other funds or property any such money or property, except in the manner by law prescribed, he shall be deemed guilty of embezzlement and any such officer or person, upon conviction thereof, shall be punished at hard labor for a period of not to exceed ten years or by fine not to exceed five times the value of the thing or property embezzled; and any failure by such officer or person to pay over or produce or legally account for the whole or any part of such money or other property as required by law, regulation, appointment, employment or direction, on demand, shall be taken and held to be prima facie evidence of such embezzlement."

The suggested amendments by this Committee to this bill are verbal ones calculated to broaden the scope of the statute and have been given to this Committee by the officers in charge of recent prosecutions for embezzlement in this circuit, and are recommended by them as the result of such trials. It is trite to say that the statute itself has for its object the protection of the public.

Your Committee, for the foregoing reasons, recommend the passage of this bill as amended.

Respectfully submitted,

Senator Judd presented a Report (No. 119) from the Judiciary Committee, recommending the passage of House Bill No. 130, as follows:

REPORT ON HOUSE BILL NO. 130.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 130, To Amend Section 2916, Chapter 188, of the Revised Laws of Hawaii, Relating to Assault and Battery, begs leave to report as follows:

As has been stated on the floor of the Senate the main change in the present law concerning assault and battery which this bill seeks to accomplish is to increase the maximum term of imprisonment from six months to one year. There are cases where the corporal injury as the result of the battery is slight, but which for other reasons should be punished by imprisonment for a longer term than six months. The other change in the present law sought to be effected is to strike out the words "at hard labor" which is, today, at best of doubtful validity.

Your Committee recommends the passage of this bill.

Respectfully submitted,

Senator Judd presented a Report (No. 120) from the Judiciary Committee, recommending the passage of House Bill No. 131, as follows:

REPORT ON HOUSE BILL NO. 131.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 131, To Amend Section 2794, Chapter 181, of the Re-

vised Laws of Hawaii, Relating to Bonds, begs leave to report as follows:

This Bill proposes an amendment to Chapter 181 of the Revised Laws of Hawaii, relating to the giving of a bond to keep the peace. At the present time Section 2794 R. L. prescribes that the prisoner shall be committed to prison if a bond is not executed according to the order of the magistrate and shall continue to remain in custody until a bond be executed. The object of the bill is to make it impossible to keep such a defendant in custody longer than the term for which he was bound over to keep the peace.

Your Committee considers this a wise and proper provision, and therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

Senator Judd presented a Report (No. 121) from the Judiciary Committee, recommending the passage of House Bill No. 132, as follows:

REPORT ON HOUSE BILL NO. 132.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 132, To Amend Section 2977, Chapter 196, of the Revised Laws of Hawaii, Relating to Receiving Stolen Goods, begs leave to report as follows:

The object sought to be attained by this bill is to broaden the scope of the statute defining the receiving of stolen goods, Section 2977 R. L. At the present time the law only covers cases where the goods have been stolen, embezzled or illegally extorted, and does not cover the case where goods have been obtained by fraud or by false pretenses.

Your Committee is of the opinion that the objects sought to be attained by the bill are wise measures as recent cases have shown that the present statute is too narrow.

For the reasons above stated your Committee recommends the passage of the bill.

Respectfully submitted,

Upon motion by Senator Kaleiupu, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 132 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

A Report (No. 122) from the Committee on Ways and Means, recommending the passage of Senate Bill No. 29, was read by the Clerk as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 29, An Act for the Relief of John A. Cummins, beg leave to report as follows:

This matter either by bill or petition has been before the Legislature every session since the year 1900. The facts are John A. Cummins was arrested in 1895, and charged with treason, to which charge he plead guilty and was sentenced to imprisonment for five years at hard labor, and to pay a fine of \$5000. The imprisonment was afterward commuted and the fine paid by him. At the time of the charge, arrest and trial, party feeling was high as well as vindictive. Time has cooled them and now that the country is prosperous and the objects for which the revolution, (if it should be so called), have been attained, and all bitter feelings gone, we think that by-gones should be by-gones, and any matter or thing that may have been done in the hurry and haste of those troublous times

should be forgotten and laid aside, and any act that will help to attain that end should be done.

We therefore recommend that the bill pass.

Respectfully submitted,

CECIL BROWN,

WM. T. ROBINSON,
E. W. QUINN.

Upon motion by Senator Kaleiupu, seconded by Senator Baker, the Report of the Committee was adopted; Senate Bill No. 29 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Fairchild presented a Report (No. 123) from the Committee on Ways and Means, recommending that Senate Bill No. 41 be tabled, as follows:

SENATE CHAMBER.

Honolulu, March 16, 1911.

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bill No. 41 introduced by the Honorable W. T. Robinson, has had the same under due and careful consideration and begs leave to report as follows:

The Bill seeks to change the present rates of interest upon delinquent taxes to one per cent per month, and eliminate the 10% penalty now chargeable in addition to the interest.

Apparently the object of the bill is in the interests of the small tax-payer; in the actual operation, however, it will accrue to the benefit of large taxpayers, as under the proposed law there would be no compelling incentive for corporations and large tax-payers to pay their taxes when due, as now exists with the 10% penalty in force.

Other objectionable features in the bill have been suggested, to which the Committee will not allude, as the grounds above

stated are sufficient in the opinion of the majority of your Committee to warrant the tabling of the bill.

Your Committee therefore recommends the Bill be tabled.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

CECIL BROWN,

Upon motion by Senator Robinson, seconded by Senator Pali, the Report of the Committee was laid on the table, and consideration of Senate Bill No. 41 on Second Reading, was deferred until Wednesday, March 22, 1911.

Senator C. Brown presented a Report (No. 8) from the Special Committee on Senate Petition No. 1, recommending that the Petition be laid on the table, to be taken up for consideration with the Appropriation Bill, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Special Committee of Oahu Senators to whom was referred Petition No. 1 presented by Senator Kalelopu, beg leave to report as follows:

This petition has already been in the hands of the Committee on Public Lands and Internal Improvements, and its report was presented to the Senate on March 3rd and recommended the appropriation of the sum of \$2,500, the amount asked for. The Petition was laid on the table to be considered with the appropriation bill. For some reason or other, the petition was taken from the table, and re-referred to this Committee.

This Committee have had the facts set forth in the Petition under consideration, and find that the sum asked for is for the payment of certain land situate on Beretania Street, in this City, comprising some 668 square feet of land taken by the Government and used in the widening of Beretania Street just after the great fire of 1900. Upon inquiry we find that lands fronting on Beretania Street were paid for at the time it was taken for road purposes by the Government, at a rate ranging from say, 25 to 50 cents per square foot; may be in some cases

higher than 50 cents, but not above 75 cents a square foot so far as we are advised.

The remaining land from which this 668 square feet was taken, contains now some 1980 square feet, and is taxed or assessed at \$2,400. The American Board of Foreign Missions conveyed to the Territory of Hawaii by deed on June 28, 1905, 1958 square feet of land on Beretania Street for Road purposes for which they received the sum of \$1000, a little under the valuation at a rate of 50 cents a square foot. Taking all matters into consideration, and the length of time elapsed since the taking over and use of the land in question, we recommend that the sum of \$334, being at the rate of Fifty Cents per square foot for the land in question be paid, and that sum be inserted in the Appropriation Bill as follows:

"Relief of Hawaiian Board and Kaneahoa, claiming through Kalau Maka and R. Maka, for land taken in widening of Beretania Street in 1900, \$334.00."

And we further recommend that the Petition and the Report be laid on the table to be taken up when the Appropriation Bill is before this body.

Respectfully submitted,

CECIL BROWN,
A. S. KALEIOPU,
E. W. QUINN,
CHAS. F. CHILLINGWORTH,
ALBERT F. JUDD.

March 16th, 1911.

Upon motion by Senator Fairchild, seconded by Senator Hewitt, the Report of the Committee was adopted.

Senator J. T. Brown presented a Report (No. 124) from the Select Committee on House Bill No. 9, recommending the passage of the Bill with certain amendments, as follows:

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

Your Select Committee to which House Bill No. 9 was referred respectfully report as follows:

The object of the Bill being to increase the salary of the Deputy Sheriff of the District of Puna, County of Hawaii, from \$720 a year to \$960 a year.

We found out that the proposed increase of the salary as

stated in the Bill is warranted, on the ground that the legal business in said District so far as the criminal cases are concerned is increasing.

And we further believe that the salary of the Deputy Sheriff of the District of South Hilo should also be increased on the same ground.

We therefore recommend that the Bill may be passed with the following amendments: Insert after the word "amended" in line 2 of Section 1 the following so that the following lines "Deputy Sheriff of the District of South Hilo \$1620.00 a year." "Deputy Sheriff of the District of Puna \$720.00 a year" may read as follows:

"Deputy Sheriff of the District of South Hilo \$1800.00 a year."

"Deputy Sheriff of the District of Puna \$960.00 a year."

We also attach to this report a copy of the Bill as amended.

Respectfully submitted,

JOHN T. BROWN,

Chairman.

R. H. MAKEKAU.

Section 1. Section 28 of Chapter 9 of Act 39 of the Session Laws of 1905 is hereby amended so that the following lines "Deputy Sheriff of the District of South Hilo \$1620 a year." "Deputy Sheriff District of Puna \$720 a year" may read as follows:

"Deputy Sheriff District of South Hilo \$1800 a year."

"Deputy Sheriff District of Puna \$960 a year."

Section 2. This Act shall take effect from and after the date of its approval.

Upon motion by Senator Hewitt, seconded by Senator Makekau, the Report of the Committee was adopted; House Bill No. 9 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 125) from the Select Committee on Senate Bill No. 55, recommending the passage of the Bill with certain amendments as follows:

THE SENATE OF THE TERRITORY OF HAWAII.

Honolulu, March 17, 1911.

The Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Select Committee on Immigration, to which was referred Senate Bill No. 55, entitled "An Act to Create a Department of Immigration, Labor and Statistics, Repealing Act 49 of the Session laws of 1905 Relative to the Board of Immigration, and Amending Section 5 of Act 33 of the Session Laws of 1909 Relative to a Tax on Incomes for Immigration Purposes," introduced by Senator Judd, begs leave to report as follows:

This Bill was drafted by the Board of Immigration and incorporates the result of the experience of the Board for the last few years under the present statute, and is referred to in the printed report of the Board of Immigration to the Legislature.

After full investigation and careful consideration, your Select Committee recommends the passage of the Bill, with the following amendments:

In Section 7, in line 3 of the last paragraph thereof, insert the words "OR OTHERWISE" after the word "AUSPICES." The object of this amendment is to make it mandatory on the Board to investigate charges of fraud or extortion, whenever made by immigrants, and not to confine its duties in this regard to immigrants introduced under the auspices of the Board.

In Section 10, in the fifth and sixth lines from the end thereof, your Committee recommends that the phrase "INCLUDING THE EXPENSE OF RETURNING IMMIGRANTS TO THEIR OWN COUNTRY" be stricken out.

Your Committee further recommends that at the end of Section 8 of the Bill there be inserted the words "BUT THE BOARD SHALL NOT USE ANY OF ITS FUNDS IN THE PURCHASE OF ANY SUCH PRIVATE LANDS OR IN THE DEVELOPMENT OF EITHER PRIVATE OR PUBLIC LANDS, AND IN THE SETTLING OF FARMERS ON LAND IT SHALL MAKE PRIVATE LANDS SECONDARY TO PUBLIC LANDS,

TO THE END THAT THE INDUCING OF FARMERS TO TAKE UP UNDEVELOPED PUBLIC LANDS BE MADE THE FIRST CARE OF THE BOARD IN THE PERMANENT SETTLING OF FARMERS IN THE TERRITORY."

The object of this last amendment is to ensure that no part of the funds of the Board shall be used to assist any settler to develop his homesteads. The funds of the Board are collected for the purpose of bringing settlers to Hawaii and placing them on the land, and not for the purpose of building houses for the farmers or assisting them in the development of their homesteads. As these funds are Government moneys the Committee believes further that they should be expended first in the placing of settlers on the undeveloped public lands of the Territory. By this means the Territory will be reimbursed by the value which the settlers will create on the lands they occupy. Should, however, there be a lack of suitable public lands, or should the immigrants themselves decide, after arrival, that they prefer to settle on private lands, it is not the intention of the Committee in making the above amendment to debar private landholders from making offers to immigrants which may be on terms agreeable to them.

Your Committee desires to point out that experience has shown the necessity for a department of the Government whose peculiar duty it shall be to bring into the Territory, for permanent settlement on the land, agricultural settlers; that the demand today for such settlers, as shown by the records of the Board of Immigration, aggregates One Thousand and Forty-one farming families. The provisions of the bill safeguard, as well as ingenuity can devise, the introduction only of those trained in agricultural pursuits.

In order to make the work of the Board of Immigration, Labor and Statistics effective it becomes necessary to continue what is commonly known as the "Conservation Tax." For this purpose, as a Committee measure, your committee desires to introduce an Act to amend Section 6 of Act 33 of the Session Laws of 1909 relating to the conservation and development of the natural resources through immigration and other means; and a copy of such bill is appended to this report.

Act 33 of the Session Laws of 1909 expires by its own limitation on December 31st 1911. The object sought to be obtained by this Committee Bill is to continue the tax measure, placing it on the same footing as the other taxation statutes of the Territory. It is unnecessary to point out that succeeding Legislature have it in their power to amend or repeal

the statute concerning the conservation tax. Your Committee cannot too strongly urge the continuation of this tax.

Respectfully submitted,

COMMITTEE ON IMMIGRATION.

ALBERT F. JUDD,
Chairman.
R. H. MAKEKAU,
GEO. H. FAIRCHILD,
PHILIP PALI,
A. S. KALEIOPU.

G. F. Affonso, providing for the expenditure of \$600,000 upon the Belt Road of the County of Hawaii, and to protect the expenditure thereof, which, if those two bills are enacted into laws, would mean the expenditure of a large sum of money in constructing and building of said road whereby citizen labor will be employed.

RESOLUTION.

In view of the fact that while Governor Frear and Marston Campbell, Superintendent of Public Works, were in Hilo last December, they have made public statements in favor of having a territorial building for Hilo, and

In view of the fact the Governor and the Superintendent of Public Works made such statements in good faith on the part of the administration with the people of Hilo, therefore

Resolved by the American Citizen Labor Union that they do hereby express themselves in favor of having a territorial building for Hilo as recommended by Governor Frear and Maston Campbell the Superintendent of Public Works. The Labor Union respectfully requests the Governor and Marston Campbell to urge upon the Legislature of the Territory of Hawaii now in session to set aside such appropriation for the aforesaid building.

Honolulu, Hawaii, March 20, 1911.

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means, to whom has been referred Senate Joint Resolution No. 1, begs leave to report that they have had same under careful consideration, and after due deliberation came to the conclusion that in considering the resolution, not only questions of policy and revenue were involved, but also the feasibility of the scheme as well.

Upon inquiry we find that this resolution was introduced by the Chairman of our Committee at the request of the regents of the College of Hawaii, the object in having same presented being to provide an independent source of certain revenue rather than to be forced to rely upon the uncertain and inadequate appropriations which heretofore the Legislature has, with reluctance, provided.

The regents of the College have been advised that the demands for appropriations upon the Legislature now in session amount in the aggregate to a sum which is nearly three times the estimated revenues for the next biennial period. Realizing that there was little chance for them to receive from the Legislature appropriations needed for the development of their

institution, had recourse to a scheme, which they claim obtains in the States, for endowing their College with the revenues from a specified tract of public land. They have recommended for transfer to these regents the lands of Waialua in the proposed Act, but are quite willing to have any other lands so long as the object of the Act is attained.

While the resolution, upon its introduction, was regarded with suspicion as an agreement between the Regents of the College of Hawaii and the Lihue Plantation Company looking to the relief of one or the other institutions, we found that the Lihue Plantation Company knew nothing of the matter. Upon inquiry it was found that the lands sought to be transferred to the Regents for the purposes of the proposed Act, were under lease to the Lihue Plantation Company for six more years, and that the plantation was not willing to surrender them at this time.

In the interests of dividing ways and means to meet the crying needs of the education and health of the inhabitants of the Territory, your Committee have carefully scrutinized every source of revenue with a view of finding some means for raising funds to provide, not only for the College of Hawaii, but for the alleged underpaid teachers of our schools, the \$800,000.00 required for school houses as well as other large sums necessary to be expended in reclaiming disease-breeding lands and in improving the hospitals for our sick and unfortunates in the asylums and on Molokai.

There have been presented to the Legislature bills and resolutions looking to the raising of necessary funds for these purposes, among them a request that Congress pay over to the Territory one-third of the proceeds of the Custom House for the support of the schools. The so-called "vested interests" through the leading financial organizations here have gone upon record as being opposed to any increase in the taxes at this time. Your Committee, believing that Hawaii should be sufficient unto itself to take care of its children and sick without asking financial aid of Congress, has, upon investigation, found that there are about 40,000 acres of developed agricultural lands with water belonging to the Territory, which lands are under lease to corporations, and in many instances at very low rentals. Upon the expiration of these leases, should the lands and water be withdrawn from the restrictions or obligations of the Organic Act and placed in the hands of a board, of say five members, the Chairman of which should be the Governor, we have ample evidence to warrant the prophecy that these lands and water would bring into the Territory in rents and taxes at least \$400,000.00 a year, which revenue should be available only for appropriations in the interests of education and health. Some may oppose this idea on the

ground that the withdrawal of the developed agricultural lands from the provisions of the Organic Act for homesteaders would interfere with homesteading.

Your Committee is assured that as much and more undeveloped land and water is available for such purpose, to which they recommend homesteaders be given free access, if deemed advisable, but it does not seem fair to the inhabitants of the Territory that developed lands and water, capable of producing such a large yearly revenue, being equivalent to 5% on \$8,000,000.00, should be practically given away to a small percentage of the inhabitants of the Territory, or to immigrants to arrive, when the needs in the way of education and health of the inhabitants of the Territory are so great.

With the approaching completion of the Panama Canal, precursing a large, varied, and, as to infectious diseases, dangerous commerce, it is necessary to make use of every available source of income to render, Honolulu, around which the United States is spending vast sums in creating a Naval and Military stronghold, by the use of modern sanitary methods, as free from disease as possible.

As to the question of policy, your Committee being impressed with the present and future need for funds in the interests of education and health, look with favor upon the policy embodied in the resolution, as its adoption would result in making the lessees of the public lands pay for the use of same, the maximum revenue in the interests of the education and health of the people.

While it may be true that already the "corporations" are heavily taxed, it is equally true that the present rentals paid to the Government are out of all proportion to their value. Owing to the provisions of the Organic Act, no lease of agricultural lands can be made which is more than a tenancy at will therefore prospective lessees are only justified in offering small rentals owing to the uncertainty of tenure of any lease which the Government can grant.

The short-term lease has also given rise to the practice among tenants of neglecting the principles of good husbandry, the limited term militating against the expenditure of time and money necessary to insure scientific conservation of the soil, thereby greatly reducing, rather than enhancing, as good husbandry would, the yielding capacity of the land.

As an example of loss directly attributable to the indefinite term lease system, your Committee finds that in one district where 3000 acres of public developed land with a daily flow of 15,000,000 gallons of water were formerly operated under a lease which had expired and had not been renewed for five years, the falling off in revenues in the way of taxes and rent-

als, etc., has amounted to approximately \$30,000.00 per annum.

While being in accord with the spirit of the resolution, your Committee is of the opinion that it is unfair while all are suffering to single out any one institution of education or health for relief, and would, therefore, present for consideration the accompanying resolution, which is broader in character, and, it is believed, will meet with more general favor.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

A Communication (No. 37) from Mr. Marston Campbell, Commissioner of Public Lands, relative to certain public lands in the District of Kau, Island of Hawaii, was read by the Clerk as follows:

TERRITORY OF HAWAII.

COMMISSION OF PUBLIC LANDS.

Honolulu, March 20, 1911.

Gentlemen:—

Replying to your Resolution relative to the Lands of Kioloa, District of Kau, I submit the following:

1. Q. Is the land of Kioloa in the District of Kau, now occupied by the Hutchinson Sugar Co., regarded by the Government as public land?

A. The land of Kioloa, in the District of Kau, now occupied by the Hutchinson Plantation, is listed as "Government Land," but the title has been in doubt for many years.

Q. If so, what revenue if any is the Government deriving therefrom, and upon what terms is it held by said Company?

A. The Government is not deriving any revenue therefrom.

2. Q. Is it not true that said land was assumed to have been sold by King Kalakaua to parties through whom said parties now claim title thereto?

A. Yes.

3. Q. Is it not true that said land at the time of such assumed sale was Crown land, or Government land, and that King Kalakaua had not title thereto?

A. At the present time, I am unable to answer this question.

4. Q. What steps, if any, has the Government taken to recover said land or to have the title thereto determined?

5. Q. If the Government has taken no such steps, does the Government intend to take action to that end, or for that purpose? If not, why not?

A. (4&5). The matter was some months ago placed in the hands of the Attorney General for investigation and such steps as he shall advise in the premises will be taken. At present writing, such investigation has not yet been completed.

Note: On July 1, 1870, a partition deed was made between Lydia K. Dominis and her husband, John O. Dominis, L. M. Kapaakea, David Kalakaua and his wife, Kapiolani, and R. Keliokalani, as guardian of W. P. Kalahoolewa, whereby it appears that Lydia K. Dominis, Likelike, who was also known under the name of L. M. Kapaakea, David Kalakaua and W. P. Kalahoolewa were the children of C. Kapaakea and Annie Keohokalole, and as such were heirs at law of Annie Keohokalole, deceased, and entitled as heirs at law and tenants in common to certain property in the Hawaiian Islands, among which was claimed the land of Kioloku. By virtue of said partition, the land of Kioloku was set aside to David Kalakaua, who on December 15, 1873, conveyed it to Obadiah B. Spencer, and mesne conveyances it is now held by the Hutchinson Sugar Plantation Company.

6. Q. Have any of the lots laid out for homesteads upon the lands of Kaunamano, in said Kau, and which were not disposed of to homesteaders, been used by said Company since the same were so laid off?

A. Yes.

Q. Upon what terms has said Company used or occupied the same?

A. Tenancy at Will. Rental \$3.50 per acre per year.

7. Q. Is said Company now occupying any of said lots? If so, upon what terms?

A. Answered in No. 6.

8. Q. If said Company has been or is now occupying any of said lots, have the same, or any thereof, been applied for by intending homesteaders?

A. Yes.

Q. If so have they been allotted to homesteaders?

A. No.

9. Q. Is it not true that Lot 15 of said Kaunamano Homestead Tract has not been assigned for homestead purposes?

A. Yes, it has not been assigned.

Q. If it has not been assigned, has it been applied for, for such purposes?

A. Yes.

Q. If so, why has it not been assigned for such purpose?

A. See Court record hereto attached in matter of application of John Greig for Writ of Mandamus.

Very respectfully,

MARSTON CAMPBELL,
Commissioner of Public Lands.

The Honorable President and
Members of the Senate of the
Territory of Hawaii,
Honolulu.

MARSTON CAMPBELL,
Commissioner of Public Lands.

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL
CIRCUIT, TERRITORY OF HAWAII.

AT CHAMBERS.

In the Matter of the Application of
John Greig, for a Writ of Man-
damus Against Marston Camp-
bell, Commissioner of Public
Lands of the Territory of Hawaii.

MOTION TO QUASH ALTERNATIVE WRIT AND TO DIS-
MISS PROCEEDINGS.

To the Honorable Presiding Judge at Chambers
of the Circuit Court of the First Judicial Circuit,
Territory of Hawaii.

Comes now the respondent, Marston Campbell, Commis-
sioner of Public Lands of the Territory of Hawaii, by Alex-
ander Lindsay, Jr., Attorney General of said Territory, and
moves the Court that the Alternative Writ of Mandamus issued
herein be quashed and the proceedings herein dismissed, and
that the said respondent be not required to answer further.

This motion is based on the record herein and is made on
the several following grounds, to wit:

FIRST: That said Alternative Writ and the petition on
which said Writ is based do not state facts sufficient for the is-
suanee of the Writ of Mandamus or for any relief by manda-
mus.

SECOND: That it does not appear from said Alternative
Writ or from said Petition on which said Writ is based, or
from both said writ and said petition, that the application for
said writ is made by the party in interest herein, or by a per-
son having any right in the premises, or by a person sustain-
ing any injury complained of, or by one suffering or exper-
iencing any detail of justice.

THIRD: That it does not appear from said Alternative Writ
or from said Petition upon which said Writ is based, or from
both said Writ and said Petition, that respondent, Marton
Campbell, Commissioner of Public Lands for the Territory of
Hawaii, is under any legal obligation or duty to give public
notice of the opening for occupation of said lots mentioned in
the prayer of said petition and in said Alternative Writ, or any
of said lots, in accordance with the application alleged in said
petition as having been made by petitioner.

FOURTH: That said Alternative Writ is void in that it
seeks to enforce the exercise of a purely discretionary duty,

and seeks to restrain said respondent from exercising his legal discretion in the premises.

FIFTH: That the recitals in said Alternative Writ and the allegations of the petition upon which said Writ is based are obviously repugnant and meaningless and do not confer upon this court any jurisdiction to entertain said petition or to issue said Alternative Writ of Mandamus.

WHEREFORE, the said respondent asks that said Alternative Writ be quashed and that the proceedings herein be dismissed and that the respondent go hence with his reasonable costs and expenses herein incurred.

MARSTON CAMPBELL,
Commissioner of Public Lands of the
Territory of Hawaii, respondent.

SENATE CHAMBER.

Honolulu, March 21, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Education to whom was referred Senate Concurrent Resolution No. 1, introduced by Senator D. K. Baker, has had the same under due and careful consideration and begs leave to report as follows:

The Resolution seeks to petition Congress to appropriate one-third of the customs receipts collected in the Territory of Hawaii for the use of the Territory for the support and maintenance of its public schools.

The provision of this Resolution, if acted upon favorably by the Congress of the United States will, in a very great measure, relieve the Territory of the grave responsibility of maintaining the high standard now established in the present public school system of Hawaii. Local funds which may be added thereto from time to time, can be used to great advantage for improvement to the system wherever required, etc. The Committee therefore recommends the adoption of the Resolution.

Respectfully submitted,

WM. T. ROBINSON,
Chairman.
GEO. H. FAIRCHILD,
DAVID K. BAKER.

Upon motion by Senator Makekau, seconded by Senator Robinson, the Report of the Committee, together with Senate Concurrent Resolution No. 1, were referred to the Judiciary Committee.

Waiholo, Representative from the 3rd District, entitled "An Act to Amend Act 65 of the Session Laws of 1909, Relating to Earnings at Certain Industrial Schools," has had the same under due and careful consideration and begs leave to report as follows:

The Bill seeks to amend the present law relating to the subject of earnings at certain industrial schools, in order to include the "Girls' Industrial School."

The provision sought to be made is a very proper amendment, and the Committee therefore recommends the passage of the Bill.

Senator Judd presented a Report (No. 136) from the Judiciary Committee, recommending that Senate Bill No. 66 be tabled, and recommending the passage of a substitute Bill (S. B. No. 90), as follows:

REPORT ON SENATE BILL NO. 66.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 66, Authorizing the Issuance of Hawaiian Birth Certificates, begs leave to report as follows:

The object sought to be attained by this bill is the issuance by the Secretary of Hawaii of certificates to persons born within the Hawaiian Islands showing such birth, and the date thereof. Act 64 of the Session Laws of 1905, authorized the Secretary of Hawaii to issue such certificates. This Act was amended by Act 79 of the Session Laws of 1907, reducing the fee to be charged for such certificates from \$7.50 to \$2.50. These Acts were repealed by Act 15 of the Session Laws of 1909.

The present bill is drawn along the lines of the former acts covering this matter. The Secretary of Hawaii during his several years of experience under the former acts found several defects therein, which your Committee believes should be remedied in the present bill. Past experience has shown that

it is essential, to properly carry out the object sought to be attained, for the Secretary, and such persons as he may appoint therefor to have the power to subpoena witnesses, compel their attendance, punish for contempts etc. It has also been found that the fee charged under the Act of 1907 is too small. The work requires the services of competent clerks, two at least, one at \$150 per month and one at \$100 per month, and there will be various expenditures necessary for traveling expenses, stationery, printing, etc. The fee it is believed should be \$5.00 which sum it is estimated will reimburse the Territory for the necessary expenses which will be incurred in carrying out the object sought to be attained by this bill. The Secretary of Hawaii has prepared a substitute bill which remedies all the defects pointed out herein, and which covers all the essential points. This bill is attached to this report.

Your Committee is thoroughly in accord with the object sought to be attained by this bill, but since the substitute bill herewith submitted is much more thorough, your Committee recommends that Senate Bill No. 66 be tabled, and that the substitute bill be passed.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

March 21, 1911.

Committee.

Upon motion by Senator Chillingworth, seconded by Senator Kaleiipu, the Report of the Committee was adopted, and Senate Bill No. 66 was tabled.

First Reading of Senate Bill No. 90, entitled "An Act to Provide for the Issuance of Certificates of Hawaiian Birth."

The Bill passed First Reading by Title and was referred to the Printing Committee.

Senator Judd presented a Report (No. 137) from the Judiciary Committee, recommending the passage of Senate Bill No. 77 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 77.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate

Bill No. 77, to provide for the compulsory filing of plans of subdivisions of tracts of land from which are to be sold, by lot number and block number, begs leave to report as follows:

Your Committee recommend the following amendments to this bill:

First. That in line 2 of the title, after the word "sold" there be inserted the words "or leased."

Second. That in Section 3 the words "upon its approval" be stricken out, and that there be inserted in lieu thereof the following words "October 1, 1911."

The bill is amended to take effect upon October 1, 1911. This amendment is made for the reason that it will be impossible for many of the large real estate concerns to make up the proper plans for filing, in order to comply with the provisions of this bill, before that time.

Your Committee are thoroughly in accord with the objects sought to be attained by this bill. At the present time there is no law compelling an owner of land, when subdividing a tract, and selling lots or leasing lots, from the same by lot number and block number, to first file a plan thereof in the office of the Registrar of Conveyances.

Heretofore, in many instances, deeds and leases have been made and recorded, referring to a lot of land by simply a lot number and block number, the plan never having been placed on file or recorded. This leaves the purchaser or lessee of a lot without means of determining the size of his lot or its location, except by a possible reference to a plan, which at one time may have been in the custody of the original owner of the tract.

With the lapse of years it would become more and more difficult to find such a plan, and in most instances impossible, as the original owner, after having sold all of the land would have little or no interest in preserving the plan, and in course of time it would have become lost, mislaid or destroyed.

Such a practice as that outlined above works a hardship in many instances upon the small owner. The bill seeks to remedy this and to provide a means whereby the small owner, and the public generally may be protected as far as can be done.

Your Committee believes this is a wise measure, and recommends that the bill be passed as amended.

Respectfully submitted,

JUDICIARY COMMITTEE.

Senator Judd presented a Report (No. 138) from the Judiciary Committee, recommending the passage of House Bill No. 108, as follows:

REPORT ON HOUSE BILL NO. 108.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 108, to provide assistance for discharged prisoners, amending Chapter 110 of the Revised Laws of Hawaii by adding thereto a new section to be known as Section 1614A, begs leave to report as follows:

The object of this bill is to enable a prisoner to leave prison upon his discharge with some degree of self respect, and provides that if the prisoner upon his discharge has not sufficient funds for his present needs, he shall be furnished with a suit of clothes, and the sum of Five Dollars in money. Similar provisions exist in the United States Statutes, the first Act being that of March 3, 1875, Ch. 145, 18 Stat. L. 479, providing for one plain suit of clothes, and \$5 in money, amended by Section 6, Act March 3, 1891, Ch. 529, Stat. L. 839, providing for transportation to residence, clothing not to exceed \$12, and \$5 in money.

Your Committee is in accord with the object sought to be attained by this bill, and recommends its passage.

Respectfully submitted,

Upon motion by Senator Judd, seconded by Senator Chillingworth, the Report of the Committee was adopted; House Bill No. 108 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 139) from the Judi-

ciary Committee, recommending the passage of a substitute Resolution to House Concurrent Resolution No. 8, as follows:

REPORT ON HOUSE CONCURRENT RESOLUTION NO. 8.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Concurrent Resolution No. 8, requesting the Honolulu Rapid Transit and Land Company, to move its trolley poles to a safe distance from the line of its tracks, begs leave to report as follows:

After a careful investigation your Committee finds that the trolley poles used by the Honolulu Rapid Transit and Land Company on King Street from Alapai Street to Kalakaua Avenue belong to the Mutual Telephone Company, Limited, and are rented from them. It appears that these poles were in place long before the street car tracks now in use were ever laid on King Street. The construction of the tracks, the placing of the trolley wires, and the location of the trolley poles, distances, etc., were all approved by the then Superintendent of Public Works in 1902. At the time of the placing of the tracks of the Rapid Transit Company, on King Street, the Hawaiian Tramway Company had its tracks in the middle of King Street, and it was necessary to place the tracks of the Rapid Transit Company where they now are in order to enable the cars of the two companies to pass one another. The trolley poles on King Street from Alapai Street to Kalakaua Avenue are on an average of four feet from the edge of the track, on Kalakaua Avenue to the park, a distance of six feet, and in the park a distance of five feet from the outside of the track. The manager of the company stated that the poles in the park will all be moved to a distance of six feet from the edge of the track. The poles which are nearest to the tracks the company has no power to move, as they belong to the Mutual Telephone Company, Limited. Careful measurement on King Street shows that the maximum distance between the poles and the lower step on the widest car is one foot, four and one-half inches, and the minimum distance between the poles and the lower step of such car one foot and one and one-half inches. Where the distance between the pole and the track is six feet the maximum and the minimum will be increased by the addition of one foot and six inches.

Your Committee invites attention to sub-division 8 of Section 838 of the Revised Laws of Hawaii, wherein the Superintendent of Public Works is invested with the power of approv-

ing the manner of supporting wires, namely, poles. The question arises whether, after such approval has been once given, it may be rescinded. In paragraph 9 of the above section the approval must be had of the Superintendent of Public Works as to the repair of the streets, and the Superintendent is specifically given the power to order that repairs be made.

The condition of affairs referred to in the Resolution is dangerous, and particularly along King Street is a menace to the public safety. One person has died from injuries, we are told, received while standing on the side platform of a car by coming in contact with one of the poles in question.

Your Committee considers it inadvisable that the Senate should adopt the Resolution in its present form. The poles are now placed in the sidewalk by the curb. To move them at all, as the Resolution requests, so far as King Street is concerned, the poles must be moved either into the middle of the sidewalk, or to the fence or property line. There are serious objections to either of these locations.

Paragraph 1 of Section 838 states that the location in the street of the railway shall be as directed by the Superintendent of Public Works. It has not been determined, so far as the Committee knows, whether this would authorize the Superintendent to order the tracks on King Street to be moved away from the curb, which apparently would be the best solution of the difficulty.

Another objection to the form of the resolution is that it is phrased as a request by the Legislature to the public service corporation interested. Such a request might be ignored on the ground that the Resolution dealt with matters which under its franchise come not in the province of the Legislature but are under the Superintendent of Public Works.

Believing from its investigation that the situation referred to in the House Resolution is a menace to the safety of the public travelling on the cars in question, and for the reasons above stated your Committee recommends the passage of the resolution attached to this report in place of the Resolution adopted by the House of Representatives which does not commend itself to the judgment of your Committee.

Respectfully submitted,

JUDICIARY COMMITTEE.

Chairman.

CONCURRENT RESOLUTION.

Whereas, the Honolulu Rapid Transit and Land Company, in the conduct of its street railway system is operating cars along King Street, from Alapai Street, and from the turn on Kalakaua Avenue to the terminus near Diamond Head, which pass so close to the poles supporting the trolley wires as to be a menace to the safety of passengers standing on the side platforms or steps of such cars, when the cars are crowded and while they are in motion;

Now Therefore be it Resolved by the House of Representatives of the Territory of Hawaii, the Senate concurring, that the Superintendent of Public Works be and he is hereby directed to take such steps as he lawfully may to insure the safety of all the passengers travelling on such cars.

Upon motion by Senator Fairchild, seconded by Senator Judd, the Report of the Committee was adopted, together with the Concurrent Resolution as substituted.

Senator Fairchild presented a Report (No. 140) from the Committee on Ways and Means, recommending the tabling of Senate Bill No. 34, and the passage of a Substitute Bill (S. B. No. 91), as follows:

Honolulu, March 21, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 34, being an amendment to Section 2592 of the Revised Laws of Hawaii as amended and relating to the business of Banking under the Territorial Law, begs leave to report that they have had the same under consideration and report thereon as follows:

The Committee had one public meeting thereon and at which were present or represented the principal Banking Institutions and Trust Companies engaged in business in this City and County. Criticism and objections to the form and powers given by the Bill were made and the final outcome of the meeting so held was that another Bill should be drafted, covering the objects and powers intended by the Bill referred to this Committee. This has been done, but with safeguards in the interest of the public, by the attorney of one of the Trust Companies doing business in this city. This Committee presents herewith the Act so drafted in place of the one referred, and

recommends that it be substituted in its place and be acted upon, and that the one so referred be laid on the table.

Respectfully submitted,

GEO. H. FAIRCHILD,
WM. T. ROBINSON,
JOHN T. BROWN,
CECIL BROWN,
E. W. QUINN.

Upon motion by Senator Fairchild, seconded by Senator Judd, the Report of the Committee was adopted, and Senate Bill No. 34 was tabled.

First Reading of Senate Bill No. 91, entitled "An Act to Adjust and Regulate the Powers and Exercise of Powers of Corporations Now or Hereafter Organized Under the Laws of This Territory to Conduct a Banking or Trust Business and all Individuals or Copartnerships Engaged in Conducting Such Business or Any of Them."

The Bill passed First Reading by Title and was referred to the Printing Committee.

Senator Judd presented a Report (No. 141) from the Judiciary Committee, recommending the passage of Senate Bill No 27 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 27.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 27, An Act to appropriate \$15,000.00 for the Purchase of Private Lands in North Kona and South Kona, Island of Hawaii, for Homestead Purposes, and to Define the Area of Such Homesteads, begs leave to report as follows:

Your Committee recommend the following amendments to this bill:

First, that the words "and price" be inserted in line 3 of the title of the bill, after the word "area."

Second, that the first eight lines of said bill, and the first two words in line 9 be stricken out, beginning with the word "WHEREAS" in line 1, and ending with the word "THEREFORE" in line 9, so that after the title, the bill shall begin "Be it enacted" etc.

Thrd, that the word "apprpriated" in line 2 of Section 1

be stricken out, and the word "appropriated" inserted in lieu thereof.

Fourth, that in line 7 of Section 1 the word "sutable" be stricken out, and in lieu thereof there be inserted the word "suitable."

Fifth, that in line 3 of Section 1, after the word "DOLLARS," there be inserted the following words "or so much thereof as may be necessary."

Sixth, that in line 8 of Section 1, after the word "purposes" there be inserted the following words "as hereinafter set forth."

Seventh, that all of Section 2 be stricken out, after the words "Section 2," and that there be inserted in lieu thereof the following:

"That any land so purchased shall be laid out and sold for cash to citizens of the Territory, preference, if any, to be determined by lot, at such prices per lot as will in the aggregate return into the Territorial Treasury the sum hereby appropriated."

Your Committee desires to direct attention to the fact that it has been determined by the law officers of the Federal Government that land purchased with Territorial funds does not become a part of the public domain on which the land laws of Hawaii would apply. The bill has therefore been amended so that the object sought to be attained can be lawfully carried out. The above amendment will also eventually bring back to the Territory all the sums used for the purpose of settling citizens of the Territory on the lands in question.

Your Committee finds that a large part of the public domain in the District of Kona is not suitable for homesteading, it being either dry lava wastes in North Kona, or in South Kona high and unsuited to small holdings.

Your Committee is in accord with the object sought to be attained by this bill, and with the above amendments it is believed that the bill is in proper form. Your Committee therefore recommend the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.

CECIL BROWN,

Committee.

Upon motion by Senator Fairchild, seconded by Senator

Judd, the Report of the Committee was adopted; Senate Bill No. 27 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 142) from the Judiciary Committee, recommending the passage of Senate Bills Nos. 3 and 14, as follows:

REPORT ON SENATE BILLS NOS. 3 AND 14.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 3, to Repeal Chapter 73 of the Revised Laws of Hawaii, Relating to Building and Moving Permits, and Senate Bill No. 14, to Repeal Chapter 74 of the Revised Laws of Hawaii, Relating to Fire Limits, begs leave to report as follows:

Your Committee recommends the following amendments to these bills:

That Section 2 of each bill be amended so as to read as follows:

"Section 2. This Act shall take effect on July 1, 1911."

Senate Bill No. 3 suggests a larger question than is involved in that bill alone, namely, the transfer to the counties of all the functions covered by Title X, including Chapters 71 to 77, both inclusive, of the Revised Laws of Hawaii, and subsequent Acts amendatory thereof, relating to fire departments, fireproof buildings and explosives, by repealing these chapters and amending the county and municipal acts so as to give the several Boards of Supervisors the requisite powers to regulate these matters.

Your Committee therefore recommend that Senate Bill No. 3, repealing Chapter 73 of the Revised Laws of Hawaii, relating to building and moving permits, be passed; that Senate Bill No. 14, repealing Chapter 74 of the Revised Laws of Hawaii, Relating to Fire Limits, be passed.

The other chapters in Title X of the Revised Laws of Hawaii all deal with matters of local concern which could appropriately be transferred to the counties and City and County. Your Committee have therefore caused to be prepared four bills, as follows:

An Act to Repeal Chapters 71 and 72 of the Revised Laws of Hawaii, Relating to Fire Departments.

An Act to Repeal Chapters 75, 76 and 77 of the Revised Laws of Hawaii, and Act 132 of the Session Laws of 1907, Relating to Explosives and Inflammable and Fuel Oils.

An Act to Amend Section 62 of Act 39 of the Session Laws

of Hawaii, of 1905, Relating to the Powers and Duties of County Supervisors.

An Act to Amend Section 23 of Act 118 of the Session Laws of 1907, Relating to the Powers and Duties of the Supervisors of the City and County of Honolulu.

Your Committee is of the opinion that the repealing acts should take effect at the beginning of the next biennial period, namely, July 1, 1911, and the acts giving the Supervisors authority over these matters should take effect at once, so that the requisite ordinances may be passed by the time the repealing acts take effect.

In the bill drafted relating to the powers of the City and County Supervisors there is a provision relating to the creation and maintenance of Fire Departments. This power has already been given to the County Supervisors by Act 53 of the Session Laws of 1905, as amended by Act 10 of the Session Laws of 1907, and therefore in the drafted bill relating to the powers of County Supervisors this provision is omitted.

Your Committee, in view of the foregoing, recommend that Senate Bills Nos. 3 and 14 be passed as amended; that the four additional bills attached to this report and hereinbefore referred to and described, also be passed.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,

Senator Chillingworth presented a Report (No. 144) from the Committee on Public Health, recommending the passage of House Bill No. 88, as follows:

Honolulu, Hawaii, March 21, 1911.

Hon. E. A. Knudsen,
President of the Senate,
Honolulu.

Sir:—

Your Committee on Health begs leave to report on House Bill No. 88 as follows:

After careful consideration of the bill we find that it will absolutely do away with another source of danger to the public health, to-wit: the taking of fish from the harbor with nets, etc., for the purposes of sale, which we believe, as stated above, to be dangerous and a menace in view of the fact that vessels from the Orient and Occident come into the Port of Honolulu and leave their share of filth and probable infected matter.

Further we find that fishing with nets, etc., in the harbor has been hampering the progress of navigation and has caused a good deal of annoyance to masters of vessels coming in and out of the Port of Honolulu, and therefore recommend the passage of the bill.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.
ALBERT F. JUDD,
PHILIP PALI.

Very respectfully yours,

EDWARD WOODWARD,
Clerk, House of Representatives.

HOUSE CONCURRENT RESOLUTION NO. 11.

WHEREAS, at this time, as in the past, the agricultural development of Hawaii is retarded in proportion to the injury to growing plants by insect pests; and

WHEREAS, the Territory, as well as private enterprise, has demonstrated that there is a remedy for practically every plant pest; and

WHEREAS, it is of supreme importance to the Territory that a number of smaller agricultural interests, such as are now being developed, should be assisted in every possible manner; and

WHEREAS, a number of these industries are seriously threatened with destruction by insect pests; Therefore,

BE IT RESOLVED by the House of Representatives of the Sixth Legislature of the Territory of Hawaii, the Senate concurring, that out of any and all funds received by the Board of Commissioners of Agriculture and Forestry for any and all purposes during the coming biennial period, the sum of Fifteen Thousand Dollars (\$15,000.00) be and is hereby specifically segregated and set aside for the purpose of searching for and introducing into this Territory parasite enemies to the

following pests: Cotton Boll-Worm, the Melon Fly, Alligator Pear Mealy Bug, Mediterranean Fruit Fly, Corn Leaf Hopper, and Japanese Beetle.

AND BE IT FURTHER RESOLVED, that the Report under the heading "Report on Various Insect Pests" be made a part of this Resolution.

REPORT ON VARIOUS INSECT PESTS.

(1) Cotton Boll-Worm. This pest, after the first year of the growth of the cotton, destroys one-third of the crop, and depreciates, by discoloring, up to twenty-five per cent, the value of what remains.

(2) The Melon Fly—which preys upon cucumbers, melons, squash, pumpkins, tomatoes and beans, making the cultivation of some of these impossible, and practically all of them unprofitable.

(3) Alligator Pear Mealy Bug. This pest has on the several islands done enormous damage. For instance, in the year 1909, one concern in Honolulu exported to California twelve hundred dozen pears. It was the intention of this firm to send the following year (1910) not less than three thousand (3000) dozen pears to the Pacific Coast of the mainland, but there were only gathered on account of the ravages of the pest, in the neighborhood of nine hundred (900) dozen.

(4) The Mediterranean Fruit Fly. This pest attacks various fruits, and its ravages are at present confined to the Island of Oahu only, but there is every probability that it will reach the other islands and destroy entirely the citrus fruit crop of the Territory.

(5) Corn Leaf Hopper. The protection of corn here means a great deal to the stock raisers, but, with the presence of this pest, the growing of corn for fodder purposes must very soon cease.

(6) The Japanese Beetle. A fungus has already been introduced for the destruction of this insect, but does its work only in the very damp sections of the Islands, and prevents the growth of vegetables and roses on the lands of most of the group.

Your Committee has spent considerable time in consultation with entomologists of the United States Agricultural Experiment Station and of the Territorial Experiment Station, and from these officials and from private citizens acquainted with plant life and entomology, learns that the parasite for each one of these pests exists in India. For instance, the parasite for the cotton boll-worm has been brought from India and has saved the cotton industry of Australia, which was threatened with destruction.

This is also true of the parasite for the Mediterranean fruit fly.

In the Philippine Islands a parasite for the alligator pear mealy bug has been brought from India and used successfully.

We are advised that the enemies of all these pests can be secured promptly, and that their use will be of vast benefit to the agricultural interests of Hawaii, and will encourage the cultivation of large areas of land throughout the group that are now idle, particularly with relation to cotton, alligator pears, oranges, lemons, limes and vegetables.

AGRICULTURE COMMITTEE.

The Communication was received and placed on file, and upon motion by Senator Kaleiopu, seconded by Senator Fairchild, House Concurrent Resolution No. 11 was adopted.

S. Experiment Station.

REPORT ON SENATE BILL NO. 39.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 39, Granting a Franchise for the Construction, Maintenance and Operation of a Street Railway System in the District of South Hilo, County of Hawaii, begs leave to report as follows:

As indicated by the title, the object sought to be attained by the bill is the granting of a franchise for a street railway system in Hilo, County of Hawaii. After full hearings, thorough consideration and discussion of the form of the bill, and a thorough consideration of the object sought to be attained, your Committee have considered it advisable that a number of amendments be made in the form of the bill, and to properly safeguard the interests of the public. These amendments have all been incorporated in the bill and the bill printed as amended. The bill is believed now to be in proper form, the interests of the public properly safeguarded, and your Committee is further of the opinion that the bill as now printed will accomplish the purposes desired in proper form.

Your Committee recommend the passage of this bill as amended and printed. Your Committee submits with this report the printed amended bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Senator Judd presented a Report (No. 146) from the Judiciary Committee, recommending that House Bill No. 116 be tabled, as follows:

REPORT ON HOUSE BILL NO. 116.

President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 116, To Amend Section 1831 of Chapter 120 of the Revised Laws of Hawaii, Relating to Exemption of Personal Property from Attachment, Execution, Distress and Forced Sale, begs leave to report as follows:

The object sought to be attained by this bill is to add to the list of exempted property a motorcycle and an automobile.

Your Committee, after careful consideration and investigation, is of the opinion that the exemption in favor of a chauffeur, physician, surgeon or minister of the gospel, owning an automobile or motorcycle is excessive as compared with the exemption given to other classes of persons.

Your Committee therefore recommend that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

CECIL BROWN,
R. H. MAKEKAU.

By unanimous consent of the Senate, Senator Judd at this juncture presented a Petition (No. 6) from the Hawaiian Trust Company, Limited, relating to the Pauoa water-rights, as follows:

March 17, 1911.

To Marston Campbell, Esq.,
Superintendent of Public Works,
Territory of Hawaii.

Dear Sir:—

The undersigned, HAWAIIAN TRUST COMPANY, LIMITED, Administrator with the Will Annexed of the Estate of Charles W. Booth, Deceased, respectfully represents:

That among the assets of said Estate are valuable water rights and waters arising in Pauoa Valley above the City of Honolulu, which the Administrator proposes to sell, considering the same one of the most salable assets of the Estate; it being necessary, in order to pay the debts of said Estate, that some of the property belonging thereto shall be realized upon in the near future. The water supply in question is recognized to be very pure and easily available for use in the City of Honolulu.

The Administrator desires to realize only the cash market value of these water rights and believes that the inhabitants of the City of Honolulu believe very generally that the waters in question should be acquired for city use.

It need hardly be pointed out to you that those assets of the Estate in question which can be converted into cash promptly must be selected for sale, and it will therefore be out of the question for the Administrator to select the water rights in question for sale unless the Government is prepared to pay promptly therefor, and this would require an appropriation from this Legislature to pay for the condemnation or acquisition by the Government of the waters in question. Therefore, to the end that there may be a speedy and satisfactory adjustment of the matter, the Administrator respectfully requests that you formally approve and otherwise promote the insertion of an item in the appropriation bill to cover the acquisition of the water rights in question during the coming biennial period.

We are enclosing a copy of this letter in a petition addressed

to the Legislature of the Territory of Hawaii, requesting that it take action along the lines suggested herein.

Yours respectfully,

HAWAIIAN TRUST COMPANY, LIMITED,

By its Manager and Treasurer,
J. R. GALT.

KINNEY, BALLOU, PROSSER & ANDERSON,
Attorneys for Petitioner, and the Estate of
Charles W. Booth, Deceased.

PETITION OF THE HAWAIIAN TRUST COMPANY,
LIMITED.

To the Legislature of the Territory of Hawaii:

The undersigned, HAWAIIAN TRUST COMPANY, LIMITED, enclose herewith a letter from it to MARSTON CAMPBELL, ESQ., Superintendent of Public Works, which is self-explanatory.

To forward and promote the accomplishment of the request contained in said letter, the undersigned respectfully petitions that the Legislature take favorable action upon the same, and insert in the appropriation bill an item to cover the acquisition of the waters in question as soon as practicable.

And your petitioner will ever pray, etc.

HAWAIIAN TRUST COMPANY, LIMITED,

By its Manager and Treasurer,
J. R. GALT.

KINNEY, BALLOU, PROSSER & ANDERSON,

Charles W. Booth, Deceased.

Senator Judd presented a Report (No. 150) from the Judiciary Committee, recommending the passage of Senate Bill No. 54 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 54.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 54, Providing the Supervision of Public Parks to Various Counties or City and County, Repealing Sections 772 and 778 of the Revised Laws of Hawaii, begs leave to report as follows:

The object sought to be attained by this bill is to turn the

care and maintenance of public parks over to the county or city and county in which the same may be located.

After careful consideration this Committee is of the opinion that the form of the bill should be changed, and therefore recommend the following amendments:

First, that all of the title of this bill be stricken out after the words "AN ACT" and that there be inserted in lieu thereof the following:

"TO PROVIDE FOR THE MAINTENANCE OF PUBLIC
PARKS, REPEALING SECTIONS 772 AND 778,
AND AMENDING SECTION 774 OF THE REVISED
LAWS OF HAWAII."

Second, that all of Section 1, after the words "Section 1" be stricken out, and that in lieu thereof there be inserted the following:

"That all public parks and public recreation grounds in this Territory, other than Kapiolani Park, or any National Park, are hereby transferred to and placed in charge of the Boards of Supervisors of the County or City and County in which the same may be located, to be maintained by them. All lands hereafter set apart for such purposes shall likewise be placed in charge of and maintained by the several Boards of Supervisors."

Third, that all of Section 3, after the words "Section 3" be stricken out, and that there be inserted in lieu thereof the following:

"That Section 774 of the Revised Laws of Hawaii is hereby amended so as to read as follows:

"Section 774. May be held as a park. All or any part of said land and water that may be acquired as aforesaid and such government land as may be included within the said limits, that may not be required by the Territory for other public purposes, may with the approval of the governor be set apart by the superintendent of public works as a public park."

With these amendments it is believed that the bill is in proper form. The amendment of Section 774 of the Revised Laws has been added since under that section as it now stands on our statute books, certain lands and water are provided to be held by the superintendent of public works, and it is thought advisable by this Committee to turn the entire matter of public parks over to the counties and city and county.

Your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 22, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Judd, the Report of the Committee was adopted; Senate Bill No. 54 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 151) from the Judiciary Committee, recommending the passage of Senate Bill No. 81 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 81.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 81, Providing for the Seizure and Forfeiture of Moneys or Property Offered for Sale or Distribution in Violation of Any of the Provisions of Sections 3172-3182 of the Revised Laws of Hawaii and Repealing Section 3180 Thereof, begs leave to report as follows:

The objects sought to be attained by this bill are two; first, to turn over to the counties and city and county, instead of to the Territory as at present, all moneys or other personal property seized for violations of the laws against gambling, and second, to declare a rule of evidence.

Your Committee is thoroughly in accord with these objects, believing the bill to be in line with the policy of divorcing the counties and city and county from the Territorial Government.

Your Committee is of the opinion that the bill in its present form will not accomplish the objects desired, and therefore recommends the following amendments to this bill:

First: That all of the title of the bill be stricken out after the words "AN ACT" and that there be inserted in lieu thereof the following:

"TO AMEND CHAPTER 217 OF THE REVISED LAWS OF HAWAII, RELATING TO GAMBLING, AND ADDING A NEW SECTION THERETO TO BE KNOWN AS SECTION 3180A."

Second: That all of Section 1 be stricken out after the words "Section 1," and that there be inserted in lieu thereof the following:

"Section 3180 of Chapter 217, of the Revised Laws of Hawaii, relating to gambling is hereby amended so as to read as follows:

"'Section 3180. FORFEITURE OF PROPERTY. All moneys or other personal property offered for sale or distribution, or used, in violation of any of the provisions of Sections 3172-3182 of the Revised Laws of Hawaii, are forfeited to the County or City and County, as the case may be, in which the offense is committed, and may be recovered by information filed or by action brought by the County Attorney or City and County Attorney, as the case may be, or his deputy.'"

Third: That all of Section 2 be stricken out after the words "Section 2" and that there be inserted in lieu thereof the following:

"Chapter 217 of the Revised Laws of Hawaii, relating to gambling is hereby amended by adding thereto the following section:

"'Section 3180A. SEIZURE OF PROPERTY. EVIDENCE. All moneys or other personal property offered for sale or distribution, or used, in violation of any of the provisions of Sections 3172-3182 of the Revised Laws of Hawaii, shall be subject to seizure by the police officer or officers making arrests of offenders under this Chapter, and may be used as evidence on the trial of such offenders.'"

Section 2 of the bill as amended is declaratory of a rule of evidence which has obtained in this jurisdiction and which the Supreme Court of Hawaii has in repeated decisions held to be a proper rule.

The amendments which are recommended have been submitted to the law officers of the City and County and of the Territory and receive their approval as to form.

Your Committee is of the opinion that this bill is a wise measure, and with the amendments recommended will accomplish the objects desired.

For the reasons above stated your Committee recommend the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 23, 1911.

Upon motion by Senator C. Brown, seconded by Senator Makekau, the Report of the Committee was adopted; Senate Bill No. 81 passed Second Reading as amended and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 152) from the Judiciary Committee, recommending the passage of Senate Bill No. 85 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 85.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 85, An Act to Give Certain Rights and Powers of Eminent Domain to Corporations Organized for the Purpose of Developing Water for Irrigation and Other Purposes, and for the Reclamation of Arid and Semi-Arid Lands in the Territory of Hawaii, begs leave to report as follows:

The object sought to be attained by the bill is to give to irrigation companies the same rights of eminent domain for rights of way as railroad companies have, and your Committee is thoroughly in accord with this object, believing that irrigation companies, from the nature of the work undertaken by them, their development of the country and the public benefit expected to flow from them are entitled to such rights. The bill also gives to ditch companies what they should have, namely, the power to acquire property for sites for reservoirs and the necessary land for the placing of pumps and buildings. The other rights given to the irrigation companies by the bill are rights of easement which naturally will enure to the companies so long as they are used, and in that aspect are not permanent rights of property which may be acquired by the ditch companies under the provisions of this bill.

Your Committee, however, believe that the bill should be changed as to form, and therefore recommends the following amendments:

First, that the title of the bill should be amended by striking out the words "AND OTHER PURPOSES" in line 4 of the title, after the word "IRRIGATION."

Second, that Section 2 of the bill be amended by striking out all of such section after the words "Section 2" and inserting in lieu thereof the following:

"Such corporations shall have the right to condemn lands and property for sites for reservoirs, pumps and buildings, and to condemn rights of way over lands and property for ditches, tunnels, flumes and pipe lines necessary or proper for the construction and maintenance of a system and works for developing, storing, conveying, distributing and transmitting water for irrigation and for the reclamation of arid and semi-arid lands."

Third, that Section 3 of this bill be amended by striking out the word "proceedings" in line 2, and inserting in lieu thereof the word "procedure."

The object of the amendment of section 2 of the bill is to meet objections made to the bill before the Committee that the bill in its original form is too indefinite and if allowed to stand in that form might have a much wider application than is apparent on its face, and that bills of this character should be specific in their nature.

With the amendment to Section 3 of the bill the procedure for condemning lands will be the same as is provided in the case of railroad companies exercising the same rights as are given to ditch companies under this bill.

For the reasons above given your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 23, 1911.

Judd, the Report of the Committee was adopted; Senate Bill No. 85 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Robinson presented a Report (No. 153) from the Committee on Education, recommending the passage of Senate Bill No. 18 with certain amendments, as follows:

SENATE CHAMBER.

Honolulu, T. H., March 23, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Education to whom was referred Senate Bill No. 18, entitled "An Act to Provide for the Maintenance of the Public Schools" has had the same under due and careful consideration and begs leave to report as follows:

The Bill is the result of the arduous labors of the School Fund Commission appointed under and by virtue of Resolution No. 6 of the Session Laws of 1909. The Commission took the matter up and diligently studied the various plans suggested and finally came to the proposed solution as embodied in the Bill.

Pursuant to invitation of your Committee, representative men and women, business and professional men, including the members of the School Fund Commission, attended the public hearing before this Committee, held on Monday afternoon, in this Chamber. All were enthusiastic in support of the proposed scheme. There were minor amendments proposed and which the Committee believed proper to insert in the Bill. These, the Committee has embodied and herewith append the Bill as amended, and made part of this report.

Your Committee therefore recommend the passage of the Bill as amended.

Respectfully submitted,

WM. T. ROBINSON,
Chairman.
GEO. H. FAIRCHILD.

Senator Fairchild moved to further amend the Bill by inserting after the words "Public Instruction" the words "only as to size, arrangement, dimensions, lighting of rooms and sani-

tary conveniences" in line 14 of Section 6; seconded by Senator Hewitt, and carried.

Upon motion by Senator Fairchild, seconded by Senator Chilingworth, consideration of the Bill as amended on Second Reading was deferred until tomorrow, and the Clerk was instructed to furnish the Senate with typewritten copies of the amended bill.

Senator Judd presented a Report (No. 154) from the Judiciary Committee, recommending that House Bill No. 44 be tabled, and recommending the passage of a substitute Bill, as follows:

REPORT ON HOUSE BILL NO. 44.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee to whom was referred House Bill No. 44, To Amend Section 2450 of the Revised Laws of Hawaii, Relating to Land Registration, begs leave to report as follows:

This bill deals with the method of transferring land which has been registered in the Court of land Registration. The present statute Section 2450 R. L. prescribes only that a deed of conveyance be made of the land. This bill seeks to add to this the following provisions: That the deed shall be acknowledged and certified in the same manner as deeds of conveyance of real property or land not registered, and that the deed shall contain a reference to the number of the certificate of title of the land affected, and the volume and page of the registration book where it is entered. These provisions are carried out by every careful conveyancer preparing papers for the transfer of registered land. Objection has been made before the Committee that the bill as drafted is not broad enough, and that the provisions should be extended to cover the mortgaging, leasing, or otherwise encumbering of registered land. Your Committee has therefore prepared a substitute bill amending Section 2443 of the Revised Laws which will cover conveyances in fee, mortgages, leases and other transfers or encumbrances of registered land. In amending Section 2443 of the Revised Laws it has been pointed out to this Committee that it is advisable to also strike out the word "voluntary" in this section, so that the provisions of the substitute bill shall apply to all dealings with registered land, whether voluntary or otherwise.

Your Committee is thoroughly in accord with the purposes sought to be accomplished, and believing that the substitute

bill herewith submitted will attain these objects in better form than House Bill No. 44, therefore recommends that House Bill No. 44 be tabled, and that the substitute bill attached to this report be passed.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

March 23, 1911.

Committee.

Upon motion by Senator Judd, seconded by Senator Makekau, the Report of the Committee was adopted, and House Bill No. 44 was tabled.

Under suspension of the rules, the Judiciary Committee introduced Senate Bill No. 101, entitled "An Act to Amend Section 2443 of Chapter 154 of the Revised Laws of Hawaii, Relating to Dealing with Land After Original Registration."

The Bill passed First Reading by Title and was referred to the Printing Committee.

Senator Kalama presented a Report (No. 155) from the Committee on Public Lands and Internal Improvements, recommending the passage of House Bill No. 80, as follows:

Honolulu, Hawaii, March 23, 1911.

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred House Bill No. 80, entitled "An Act to Declare Certain Lands as a Public Park," has had the same under careful consideration and begs leave to report as follows:

The Bill seeks to set aside a certain tract of land situated at Waimea, Kauai, as a Public Park. With a large area of Public Land, and the increase in population, more particularly School children, your Committee believes the setting aside of the above tract of land as a recreation ground, an advisable measure.

Your Committee, therefore, recommends its passage.

S. E. KALAMA,
Chairman.

A. S. KALEIOPU,
GEO. C. HEWITT.

Upon motion by Senator Kalama, seconded by Senator Fairchild, the Report of the Committee was adopted; House Bill No. 80 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

2. "An Act Making Appropriations for the Construction of Armories for the National Guard of Hawaii, at Honolulu, Oahu, and Lahaina, Maui, and Additional Store-rooms to the Armories at Hilo, Hawaii, and Wailuku, Maui."

Under suspension of the rules, Senator Chillingworth introduced Senate Bill No. 102, entitled "An Act Adding New Sections to Act 46 of the Session Laws of 1909, Relating to the Militia, to be Known as Sections 166, 167, 168 and 169."

REPORT ON SENATE BILL NO. 67.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 67, To Amend Section 3 of Act 15 of the Session Laws of 1905, Relating to Public Entertainments and Athletic Sports on Sunday, begs leave to report as follows:

The object sought to be attained by this bill is to turn over to the counties and city and county the matter of regulating the holding and conducting of certain forms of entertainment and athletic sports on Sunday. After careful consideration your Committee is of the opinion that the bill in its present form will not accomplish the object desired, and your Committee therefore recommend the following amendments:

First, that all of the title of this bill after the words "AN ACT" be stricken out, and that there be inserted in lieu thereof the following:

"TO AMEND ACT 15 OF THE SESSION LAWS OF 1905,
"REGULATING THE OBSERVANCE OF SUNDAY."

Second, that all of Section 1 of this bill be stricken out after the words "SECTION 3" in line 3 of Section 1, and that there be inserted in lieu thereof the following:

"This act shall be construed as permitting the conducting of Aquariums, Museums, Zoological Gardens and outdoor athletic sports on Sunday."

Third, that Section 2 of this bill be numbered Section 3.

Fourth, that there be added to this bill a new section as follows:

"Section 2. That there be added to Act 15 of the Session Laws of 1905, the following section to be known as Section 3A as follows:

" 'Section 3A. The Boards of Supervisors of each county or city and county may permit and regulate by ordinance the conducting of shows, entertainments, and theatres on Sunday.' "

This bill, vitally affecting as it does the question of Sunday

openings, your Committee recommends that it be referred to the Committee of the Whole.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee of the Whole to whom was referred Senate Bill No. 67, begs leave to report that the same pass as amended by the Judiciary Committee.

R. H. MAKEKAU,
Chairman, Committee of the Whole.

March 24, 1911.

Upon motion by Senator Kaleiopu, seconded by Senator Judd, the Report of the Committee was adopted; Senate Bill No. 67 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Chillingworth presented a Report (No. 158) from the Committee on Public Health, recommending that Senate Petition No. 5 be referred to a Select Committee composed of the Senators from Hawaii, as follows:

Honolulu, Oahu, March 24, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health to whom Senate Petition No. 5, introduced by Senator Geo. C. Hewitt, was referred has had the same under careful consideration and begs leave to report as follows:

In regard to Paragraph 1 of said Petition, the subject matter therein contained is the same as Senate Bill No. 19 which your Committee recommended be tabled, to be taken up with the Appropriation Bill.

And as to Paragraphs 2, 3, 4 and 5, the subject matter therein contained only applies to the Island and County of Hawaii. Therefore, your Committee recommends this petition to be referred to the Select Committee of Hawaii Senators.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.
ALBERT F. JUDD,
PHILIP PALI.

Upon motion by Senator Judd, seconded by Senator C. Brown, the Report of the Committee was adopted.

Senator Chillingworth presented a Report (No. 159) from the Committee on Public Health, recommending the passage of Senate Bill No. 83 with certain amendments, as follows:

Honolulu, Hawaii, March 24, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health to whom was referred Senate Bill No. 83, entitled "An Act to Regulate the Practice of Veterinary Medicine, Surgery and Dentistry in the Territory of Hawaii," has had the same under careful consideration, and begs leave to report as follows:

The Committee recommend that the words "as a profession" in line 2 of Section 1 be stricken out, so that Section 1 will read as follows:

"Section 1. No person shall practice Veterinary Medicine,

Surgery or Dentistry in the Territory of Hawaii, either gratuitously, or for pay, or shall offer to so practice, or shall advertise or announce himself publicly or privately, as prepared or qualified to so practice, without having first obtained from the Treasurer under the seal of his Department, a license in form and style substantially as in this Chapter set forth.

"Provided, however, that nothing in this Act shall be construed to prevent the Medical, Surgical or Dental treatment of stock by the owners or the regular employees of owners, or by neighbors who do not assume to be practitioners of Veterinary Medicine, Surgery or Dentistry or by members of the Medical profession in cases of emergency, and provided further that this Act shall not apply to commissioned veterinary surgeons of the United States Army."

The object of this bill is to avoid the objections to the statute of 1905, relating to the same subject, which were found to exist by the Supreme Court in the case of the Territory of Hawaii vs. Pottle reported in 19 Hawaiian on page 99.

With the striking out of the words above set forth the Committee recommends the passage of the Bill.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,

Chairman.

ALBERT F. JUDD,

PHILIP PALI.

Upon motion by Senator Judd, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 83 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator J. T. Brown presented a Report (No. 11) from the Select Committee of Senators from Hawaii, recommending the passage of House Bill No. 86, as follows:

Honorable E. A. Knudsen,

President of the Senate.

Sir:—

The Committee consisting of Senators from the Island of Hawaii, and having under consideration House Bill No. 86, entitled "An Act to Provide for the Geographical Limits of the City of Hilo," begs to report that they have had under consideration the said bill, and recommend that it be passed without further amendment.

The provisions of the said bill give a careful and exact sur-

veyor's description of that portion of the district of South Hilo which is usually referred to as the City of Hilo. At the present time there is no provision under our statutes or by any regulation of any of the heads of departments by which the limits of the city of Hilo can be defined. This Act supplies the defect. It is a considerable advantage to the various departments of the United States government, such as the War Department, Navy Department, Census Bureau, Post Office Department, and United States Marine Hospital and Public Health Department, to know the exact limits of the City of Hilo. It is also of advantage to several of the departments of this Territory to have these limits defined accurately. No municipal powers are given under this Act.

We therefore recommend its passage.

Respectfully submitted,

JOHN T. BROWN,
GEO. C. HEWITT,
R. H. MAKEKAU,

Committee from Hawaii.

Upon motion by Senator Judd, seconded by Senator Makekau, the Report of the Committee was adopted; House Bill No. 86 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Judd presented a Report (No. 160) from the Judiciary Committee, recommending the passage of Senate Bill No. 99, as follows:

REPORT ON SENATE BILL NO. 99.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 99, to authorize the reduction of the capital stock of corporations and joint stock companies, begs leave to report as follows:

The objects sought to be attained by this bill are clearly indicated by its title. As the law now stands there is some doubt as to the power of a corporation to reduce its capital stock for the reason that there is no statute specifically giving the right.

Section 2566a of the Revised Laws as amended by Act 74 of the Session Laws of 1907, impliedly authorizes the reduction of capital stock of a corporation or joint stock company inasmuch as it prescribes that a fee be paid to the Treasurer of the Territory upon the filing of any certificate of decrease of capital stock or of increase or decrease of par value, or of number of shares. There is certainly no legal objection to allowing a corporation to reduce its capital stock under conditions which will protect creditors of the corporation, if any, as only creditors could be prejudiced. The act submitted amply protects not only creditors of the corporation by giving them reasonable notice and opportunity to object against any reduction of capital to their prejudice, but it also affords any stockholders the right to have an inquiry made by the Treasurer into the regularity of the proceedings.

For the foregoing reasons your Committee recommend the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Upon motion by Senator Pali, seconded by Senator Fairchild, the Report of the Committee was adopted; Senate Bill No. 99 passed Second Reading, and was placed on the Order of the Day for Monday, March 27th, 1911, for Third Reading.

A Communication (No. 21) from Mr. John A. Kealoha, Secretary, American Citizen Labor Union of Hilo, Hawaii, enclosing Resolutions, relating to Filipino laborers, was read by the Clerk as follows:

Hilo, Hawaii, March 23, 1911.

To the Honorable President of the Senate,
Senate Chamber, Territory of Hawaii.

Sir:—

Enclosed herewith please find copies of resolutions which were adopted by the American Citizen Labor Union. You will note in these resolutions the general feeling of the public of Hilo relative to the different measures pending before the Legislature of the Territory of Hawaii.

Hoping the legislature will do all in its power to accede to the wishes of the masses,

Yours very truly,

JNO. A. KEALOHA,
Secretary, A. C. L. U.

RESOLUTION.

Whereas at the opening of the 6th Session of the Legislature of the Territory of Hawaii, the Hon. G. F. Affonso has introduced a resolution calling for an investigation of Filipino laborers in Hawaii, whether they are desirable class or not; and

Whereas, in view of the fact that the legislature has appointed a committee to look into the facts of the case and make

its report to that honorable body during this session; and

Whereas, in view of the fact that when Daniel J. Keefe, Commissioner of Labor, was in Hawaii some time ago, he gave out a resume of the facts which he had gathered through his personal investigation of said matter by commenting: "That the Filipino immigrants as laborers are worthless as material for citizens, half-sick, dirty, etc.;" and

In view of the fact that the above statement made by Commissioner Keefe was true in all respects which easily could be proven by referring this matter to the Hilo Jail Authorities who can show that at the present time there are more than One Hundred of this undesirable class of laborers in the lock-up who rely mainly upon the County of Hawaii to support them at the expense of the tax-payers.

Be it Resolved that the Labor Union does hereby respectfully request the Legislature of the Territory of Hawaii to take such action as it may see fit to prohibit same from entering into the Territory of Hawaii as laborers, and that a more desirable class of laborers could be induced who would Americanize this Territory.

(Signed) CHAS. B. MAKANUI.

Dated Hilo, Hawaii.

March 22nd, 1911.

I hereby certify that the foregoing resolution is a true copy of the original now on file.

JNO. A. KEALOHA,
Sec'y. A. C. L. U.

RESOLUTION.

The Hilo Labor Union places itself on record as opposed to the farming out of prisoners to County Officials and private parties as has been the practice heretofore. The Labor Union does hereby express itself in support of the stand taken by the District Magistrate of South Hilo in condemning this practice.

Resolved by the Hilo Labor Union that the Legislature of the Territory of Hawaii be respectfully requested to enact a law to this effect.

(Signed) IMUIWI.

Dated, Hilo, Hawaii,

March 22nd, 1911.

I hereby certify that the foregoing resolution is a true copy of the original now on file.

JNO. A. KEALOHA,
Secretary, A. C. L. U.

RESOLUTION.

Whereas, that there are now pending before the Legislature of the Territory of Hawaii, Senate Bill No. 60 relative to Government by Commission, introduced by Honorable David K. Baker, and a House Bill providing for the election of a supervisor-at-large and for three supervisors from each side of this island; and

Whereas, if such bills are enacted into laws would mean the curtailing of the powers in exercising popular form of government and that would be the beginning of machine politics and corruption which are very detrimental to the public interests, unless men of efficiency and of high business standing that would take the affairs of the public at heart should be elected to fill such responsible positions; and

Whereas, the present form of government is gradually improving upon its present system and its elective powers should be enlarged, upon which is based our fundamental principles of popular government; therefore

Resolved by the American Citizen Labor Union, that it does hereby respectfully request the Legislature of the Territory of Hawaii, now in session at Honolulu, to table such measures which are pending before the legislature or which may be introduced affecting the present form of county government.

(Signed) M. K. KEALAWAA.

Dated at Hilo, Hawaii,

I hereby certify that the foregoing resolution
is a true copy of the original now on file.

That for the purpose of aiding in the construction, equipment, operation, and maintenance of such railroads, using steam, electricity, or other power, in the Territory of Hawaii as may hereafter be constructed pursuant to the laws of said Territory, the said Territory is empowered to enter into a contract of guaranty with any railroad company organized pursuant to said laws undertaking to construct, equip, operate, and maintain any such railroad, whereby the said government shall guarantee interest, at not exceeding four per centum per annum upon first lien bonds to be issued by such company, properly secured by mortgage or deed of trust upon the said railroad, its equipment, franchises, and other property, real, personal, and mixed, then owned and thereafter to be acquired.

Such contract of guaranty shall be signed on behalf of said Territory by the governor thereof, and on behalf of the railroad company undertaking the construction, equipment, maintenance, and operation of said railroad by such officers thereof, as shall have been duly authorized by the stockholders and directors of the same, and shall contain, among others, the following provisions:

First. That the total amount of bonds the interest upon which is to be guaranteed shall in no event exceed the amount actually invested in cash in the construction and equipment of such railroad, to be determined as hereinafter provided.

Second. That no debt except as above provided shall be incurred by the said undertaking railroad company, its successors or assigns, by which a lien shall be created upon such railroad, its equipment or other property, prior to the lien of said government to secure the repayment of the interest paid

by it under said guaranty without the consent of the Congress.

Third. That the said railroad shall be constructed and equipped within the time limited in the first instance by the laws of said Territory, or any extension of said time granted by said Territory for good cause shown.

Fourth. For the further security of said Territory the governor thereof shall declare the proper rules for ascertaining clearly the cash capital actually invested in said railroads, and the net income actually received on said capital so invested, and shall provide for the supervision by said Territory of the conduct of the finances of the road, and of its location, construction, operation, and maintenance.

The governor of said Territory shall appoint two members of the board of directors of any undertaking company the interest on whose bonds shall be guaranteed as provided in this act.

Each such railroad company shall make such reports from time to time as to its receipts and expenditures, in such form and substance and sworn to by such officials, as may be prescribed by the laws of said Territory.

The supreme court of the said Territory shall have original and exclusive jurisdiction in all actions, proceedings or suits at law or in equity brought by the said Territory against any person or corporation involving the construction of this act or any right existing under, duly enjoined or act prohibited by said act or any contract made in pursuance thereof; and the jurisdiction is hereby vested in said supreme court to make such order, to enter such judgment or decree and to take such proceedings in enforcement thereof as may be proper. During the vacations of said court the chief justice or any judge thereof shall have all the power to grant restraining orders, orders of injunction, to appoint receivers, or to do any other act under authority herein granted, that a judge of a court of general jurisdiction may do in the vacation of court.

AND BE IT FURTHER RESOLVED that the Delegate to Congress be forwarded a certified copy of this resolution, with a request to submit the same to Congress for their consideration.

Senator Judd presented a Report (No. 162) from the Judiciary Committee, recommending that Senate Concurrent Resolution No. 1 be tabled, as follows:

REPORT ON SENATE CONCURRENT RESOLUTION NO. 1.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Concurrent Resolution No. 1, requesting the Congress of the United States to appropriate one-third of the customs receipts collected in this Territory for the support and maintenance of the public schools in the Territory, begs leave to report as follows:

After a thorough consideration of this resolution your Committee finds that there are two very serious objections to it. First, the resolution in asking the Congress of the United States to appropriate one-third of the customs receipts collected in this Territory for the benefit of the Territory is asking the Congress of the United States to pass an act the constitutionality of which your Committee doubts very much. Hawaii is an integral part of the United States and the constitution of the United States is in full force and effect in this Territory. (Organic Act Section 5, *Downes vs. Bidwell*, 182 U. S. 305, *Hawaii vs. Mankichi*, 190 U. S. 197). Such being the case, in the opinion of your Committee, Congress can no more give to Hawaii the one-third of the customs receipts collected in this Territory for the use of the public schools, than it could give to the State of New York or to the City of New York, one-third of the revenues there collected, for like purposes. If Hawaii was a colonial or insular possession, what is sought to be requested could readily be done, but Hawaii is not such now, and does not desire to become such.

The second objection to the resolution is that it is a request for special legislation for the benefit of Hawaii. It must be borne in mind that Hawaii is an organized Territory of the United States; that territorial form of government is only a temporary one; that Hawaii, in the art of self-government, must be moving, either forward or backward; that Hawaii's progress should be forward towards ultimate statehood. We must remember that the government at Washington is watching Hawaii with a view to determining whether she is able to take care of her own affairs, whether she is progressing towards statehood, or whether it would be better to take from her the measure of self-government she now has, and provide otherwise for her government. There are certain departments of the Federal Government which would be only too glad to see Hawaii made an insular or colonial possession. If this resolution is passed these departments will say to us, if you want special legislation we had better give to you a colonial

form of government, make you an insular possession, and then you can have all the special legislation you desire. We can and we must show Washington and the people of the United States at large that we are able to take care of our own affairs, and do not have to call upon Congress for special legislation for local matters. When the time comes for Hawaii to admit her incompetence in this regard, then let her ask to be put in the class with the Philippines, Porto Rico, Guam and Samoa. Your Committee is of the opinion that it would be a grave mistake to pass this resolution.

For the reasons above set forth your Committee recommend that this resolution be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

Chairman.

The object of this Act is to repeal that portion of the Conservation Act which limited its existence, or in other words the authority to collect the tax in question until December 31st of this year of 1911, which will make the tax a continuous one, or until such time as a future legislature may repeal it in toto.

As the Senate has now under consideration an Act relating to and reorganizing the Board of Immigration, and funds will be needed for the purposes covered by that Act, as well as the Act amended, we recommend that it pass.

Senator Fairchild presented a Report (No. 166) from the Committee on Ways and Means, recommending the passage of House Bill No. 161, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred House Bill No. 161 providing for an annuity for ex-Queen Liliuokalani of Fifteen Thousand Dollars, begs leave to report that they have had the same under consideration and recommend that the Act pass.

The Act provides among other things that the Treasurer of the Territory shall continue the sum of \$1250.00 a month "during the remainder of her life."

The Legislature of the Territory can only make appropriations for the biennial period (See Section 52 of the Organic Act), so the phrase quoted is deemed an expression of opinion merely of the present Legislature, and the money to be available for the next biennial period will have to be re-appropriated, and may be either decreased or enlarged as the Legislature of that period may determine.

Respectfully submitted,

GEO. H. FAIRCHILD,
JOHN T. BROWN,
WM. T. ROBINSON,
CECIL BROWN,
E. W. QUINN.

Senator Kalama presented a Report (No. 13) from the Select Committee of Maui Senators, recommending the passage of Senate Bill No. 27 with certain amendments, and the tabling of House Bill No. 55, as follows:

SENATE CHAMBER.

Honolulu, T. H., March 28, 1911.

The Honorable
E. A. Knudsen,
President of the Senate.

Sir:—

Your Special Committee, consisting of the members of this

Senate from the Island and County of Maui, to which were referred (1) Senate Bill No. 17, being "An Act to Amend Section 28 of Act 39 of the Session Laws of 1905, Entitled 'An Act Creating Counties Within the Territory of Hawaii and Providing for the Government Thereof,'" introduced by Senator W. T. Robinson, and (2) House Bill No. 55, entitled almost similarly with the above Senate Bill, introduced by Representative Joseph Cockett, after due and careful consideration, it begs leave to submit herewith the following report:

As already inferred above, the titles of both Bills are almost similar, the purport of the measures being practically identical, in that they aim to increase the salaries of certain elective County officers of the County of Maui, as well as other non-elective officials, the only difference being that the House Bill does not go far enough in its intended scope. The reason for these proposed increases is very evident, the duties of the positions having largely increased during the past period, and it is now sought to make them commensurate with the duties imposed.

In this wise, as a result of its consideration, your Committee recommends the tabling of House Bill No. 55, and in its stead, further recommends the passage of Senate Bill No. 17, by amending it, eliminating all of sub-division numbered 1 and ordering the re-numbering of the rest of the sub-divisions so as to conform accordingly.

Respectfully submitted,

S. E. KALAMA,
Chairman.
PHILIP PALI,
WM. T. ROBINSON.

Upon motion by Senator Robinson, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 17 passed Second Reading as amended, and was placed on the Order of the Day for tomorrow for Third Reading, and House Bill No. 55 was tabled.

At 10:44 o'clock A. M., the Senate adjourned.

JOHN H. WISE,

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., March 28, 1911.

The Honorable President and
Members of the Senate of
the Territory of Hawaii.

Gentlemen:—

A Communication (No. 22) from Mr. John A. Kealoha, Secretary, American Citizen Labor Union of Hilo, Hawaii, enclosing Resolution relating to guarantee of interest on private railroad bonds, was read by the Clerk as follows:

Hilo, Hawaii, March 27, 1911.

To the Hon. President of the Senate,
Senate Chamber, Honolulu, T. H.

Sir:—

I was instructed by the Labor Union of Hilo to forward you

herewith certified copy of a resolution adopted by the said Union at a public meeting assembled on March 22nd, 1911, relative to the Territory guaranteeing the Bond interest on private Railway Corporations.

Hoping your Honorable Body will take this matter in due consideration, I beg to remain,

Yours very truly,

JNO. A. KEALOHA,
Secretary, A. C. L. U.

RESOLUTION.

Whereas there is now before the Legislature of the Territory of Hawaii a Senate Bill which provides for guaranteeing the interest on the Bonds of a private Railway Corporation; and

Whereas this Territory lacks now many important public improvements which necessitates the expenditure of all the revenue of this Territory and these are not sufficient for the needs of the Territory; and

Whereas we believe that if this Territory is in such good financial condition as to warrant it safely to guarantee interest on the Bonds of a private R. R. company, it should then provide for the building of such Railway as a Territorial enterprise; and

Whereas the members of the Hilo Labor Union believe that it is entirely out of the provision of this Territorial Government to guarantee any private enterprise in any manner; therefore

Be it resolved by the members of the Hilo Labor Union in public meeting assembled on March 22nd, 1911, that any act of the Legislature of Hawaii tending to the enactment of this Senate Bill or any similar Bill is hereby uncompromisingly opposed. And be it further resolved, that copies of these Resolutions be sent to the Governor, the Senate, the House of Representatives and also to the members of these bodies from the senatorial and representative districts of Hawaii.

(Signed) JOHN BOHNENBERG

I hereby certify that the above is a true copy of the Resolution adopted by the Hilo Labor Union on March 22nd, 1911.

JNO. A. KEALOHA,
Secretary, A. C. L. U.

The Communication and Resolution were received and placed on file.

Senator Fairchild presented a Report (No. 168) from the Committee on Ways and Means, recommending that Senate Bill No. 36 be referred to the Committee of the Whole, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 36 relating to personal, income and property taxes, and the disposition thereof, report that they have had same under consideration, and are unable to agree thereon.

Under the provisions of this Act a rate of taxation of over one per cent. is possible, with which proposition a majority of this Committee do not agree. Should the Act to provide for the maintenance of public schools pass, and become law, amendments will be necessary to Section 5, to furnish funds necessary and provided by that Act for the support of such schools. Such amendments should be inserted first as paragraph or sub-division 4, and would read as follows:

"4. The Treasurer of the Territory shall similarly prepare and transmit to such Assessor an estimate of the amount of money required for that year to be raised from this tax and paid to the Treasurer of such County or City and County, for such school buildings and grounds under "An Act to Provide for the Maintenance of the Public Schools," and any other Act or Acts, which amount shall be one-half of the sums specified for such purposes for such County or City and County in the biennial school budget operative under said Act or Acts, at the time such estimate is made."

If this paragraph or sub-division is inserted the number of the next paragraph will have to be changed to 5. For the same reason, for inserting paragraph 4, there will have to be inserted at the end of paragraph 5 after the words "City and County" on line 22 of the printed bill, the following amendment:

"The amount for school purposes under this sub-division shall be an amount which shall bear the same ratio to one-half of the amount specified for all school purposes in said biennial budget plus the amount estimated to be required for that year in accordance with the salary schedule provided for in the Act or Acts referred to in sub-division 4 of this Section, less the amount estimated for school buildings and grounds under said sub-division 4, and less the amount of school taxes (provided for in Section 1200) collected during the preceding year, that the aggregate value of property in such County or City and County as assessed for the purpose of this tax during the preceding year bears to the aggregate value of property in this Territory as similarly assessed, exclusive of the property mentioned in the proviso of this Section."

Should the proposed amendments as hereinbefore set forth be made, a few other minor amendments will be necessary in relation to the renumbering of the sub-divisions and the insertion of the new number where such sub-divisions are recited.

Should the Senate desire to limit the rate of taxation to one per cent., and no more, it has been suggested that all that portion of sub-division 5 as re-numbered, now sub-division 4 of the printed Bill, commencing on line 28 after the word "basis," should be stricken out. That is, that all of that sub-division being a portion of line 28 and the whole of lines 29, 30, 31, 32, 33, 34, 35, 36, and that portion of line 37 ending at the words "one per cent.," should be stricken out, and the following provision inserted in the place of what is stricken out:

"If the rate so estimated for the purposes specified in sub-divisions 1 and 2 shall when added to the rate required for the purposes specified in sub-divisions 3, 4 and 5, make the total rate in excess of one per cent., the rate for the purposes specified in sub-divisions 1 and 2 shall be reduced so that such total rate shall be one per cent. If the estimates of the amounts required for the purposes specified in sub-divisions 1 and 2 shall not be transmitted to the assessor on or before the last day of January in that year, the assessor shall fix as the rate for the purposes specified in sub-divisions 1 and 2 the difference between the rate required for the purposes specified in sub-divisions 3, 4 and 5, and the maximum rate of one per cent. The rate thus determined for the purposes specified in sub-divisions 1 and 2 shall be divided in the proportion of

three-fourths for the purposes specified in sub-division 1, and one-fourth for the purposes specified in sub-division 2.

Under the circumstances, and considering that this Committee is unable to agree, it is recommended that Act 36 be referred to a Committee of the whole Senate for consideration and action.

Respectfully submitted,

GEO. H. FAIRCHILD,
WM. T. ROBINSON,
JOHN T. BROWN,
CECIL BROWN.

Senator Fairchild presented a Report (No. 169) from the Committee on Ways and Means, recommending the passage of Senate Bill No. 70, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 70, being an Act to amend Sections 2687-2688 of the Revised Laws relating to weights and measures, report that they have had the same under consideration.

The Act transfers the carrying out and enforcing of its provisions as to weights and measures from the Superintendent of Public Works to the Sheriff of the City and County or County, as the case may be. It also, so far as the fees are concerned for the work required by Section 2687, makes no charge for sealing and marking liquid or dry measure. The Act also provides that the Sheriff may deputize anyone of the employees in his office to do the work required.

We recommend that the Bill pass.

Respectfully submitted,

GEO. H. FAIRCHILD,
JOHN T. BROWN,
WM. T. ROBINSON,
CECIL BROWN.

Honolulu, March 29th, 1911.

Upon motion by Senator Pali, seconded by Senator Fairchild, the Report of the Committee was adopted; Senate Bill No. 70 passed Second Reading, and was placed on the Order of the Day for tomorrow for Third Reading.

Senator Fairchild presented a Report (No. 170) from the Committee on Ways and Means, recommending that Senate Bill No. 75 be tabled, as follows:

Hon. E. A. Knudsen,
President of the Senate,

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 75, report that they have had same under consideration.

The intention of this Act and its object, is to exempt from stamp duty all instruments of any nature executed by eleemosynary institutions, and also to provide that when any instrument is drawn providing for a re-issue of bonds, that stamps thereon shall be paid over again notwithstanding the fact that the instrument securing the original issue of bonds and of which the re-issue is to take the place had already paid the stamps required by law. As to the first provision, we do not see why any eleemosynary institution that is in a position to buy property or make investments should have any more privileges than the people at large, and should not from the fact of being an eleemosynary institution escape paying its grote towards the expenses of carrying on the government where it has its being as well as the protection afforded thereby. As to the second provision, we believe that as the original instrument which secured the bonds first issued had already paid the stamp duties required by law, that the mere fact of the re-issue for the same amount, (in other words an extension of time in which to make payment of the original issue) should be re-taxed by stamping.

If, however, the amount of the issue should be decreased or increased, it would be a new loan and subject to stamp duties.

We recommend that the Bill be laid on the table.

Respectfully submitted,

GEO. H. FAIRCHILD,
WM. T. ROBINSON,
JOHN T. BROWN,
CECIL BROWN.

Honolulu, March 29th, 1911.

Upon motion by Senator Hewitt, seconded by Senator Baker, the Report of the Committee was adopted, and Senate Bill No. 75 was tabled.

Senator Fairchild presented a Report (No. 171) from the Committee on Ways and Means, recommending the passage of Senate Bill No. 76, as follows:

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 76, being an Act authorizing the Registrar of Conveyances to make certain charges upon the filing of certain documents, report that they have had the same under consideration.

An attachment law was passed by the Legislature of 1905 and no provision was made for a fee for filing of notice of an attachment, when so done, in the office of the Registrar of Conveyances.

The Act in question fixes the fee of filing at One Dollar and the discharge of same at Twenty-five cents. We believe that the fees are reasonable and the work so done should be paid for and therefore recommend the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
WM. T. ROBINSON,
JOHN T. BROWN,
CECIL BROWN.

Honolulu, March 29th, 1911.

Upon motion by Senator C. Brown, seconded by Senator Kalamā, Senate Bill No. 76 was tabled.

Senator Fairchild presented a Report (No. 172) from the Committee on Ways and Means, recommending that Senate Bill No. 82 be tabled, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred

Senate Bill No. 82 being an Act to amend Section 1221 of the Revised Laws as amended by Act 141 of the Session Laws of 1909, being an Act to exempt certain property from taxes, report that they have had the same under consideration and report as follows:

The object of the Bill and the amendment proposed to Section 1221 is to exempt the real and personal property of the Young Men's Christian Association from taxation. This matter of exemption of this property has already been up at this present session in the House and refused. For this reason and also for the reason that this Committee deems it a bad precedent, they recommend that the Bill be laid on the table.

Senator Fairchild presented a Report (No. 173) from the Committee on Ways and Means, recommending the passage of House Bill No. 159, as follows:

SENATE CHAMBER.

Honolulu, March 29, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom is referred House Bill No. 159, entitled "An Act to Amend Sections 1354 and 1355 of the Revised Laws of Hawaii, Relating to Billiards and Bowling Alleys" has had the same under careful consideration and begs leave to report as follows:

The provisions of the Bill seek to do away with the large vagrant gathering in billiard joints conducted by orientals. Gamblers are not to be permitted to secure license, and minors and females are to be prohibited from such licensed parlors or bowling alleys. Liquor is also to be strictly prohibited.

These provisions, the Committee believes, are for the best interests of the community at large.

Your Committee therefore recommends the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

SENATE CHAMBER.

Honolulu, March 29, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Concurrent Resolution No. 12 relating to "Requesting the United States Experiment Station to Publish bulletins on certain Hawaiian Products," has had the same under due and careful consideration and begs leave to report as follows:

The provisions of the resolution, if carried out, the Committee finds would be a great value to those of Hawaii nei, who are interested in small farming, but who are not of the class generally known as experts. The publications desired will in a great measure instruct the people as to the best methods to pursue and how to combat destructive pests. From the reading of the resolution, no special appropriation is necessary.

Your Committee therefore recommends the adoption of the Resolution.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,

Senator J. T. Brown presented a Report (No. 14) from the Select Committee of Hawaii Senators on House Bill No. 66, as follows:

SENATE CHAMBER.

Honolulu, March 29, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Select Committee, consisting of Senators from the first Senatorial District, to whom was referred House Bill No. 66, entitled "An Act to Amend Section 12A of Act 39 of the Session Laws of 1905, etc.," has had the same under careful consideration and now begs leave to report as follows:

The bill seeks to enact a law whereby the present law relating to the election of Supervisors in the County of Hawaii, according to apportionment in the said laws enumerated, and to provide for the election of three supervisors from the first Representatives District, three from the second Representative District and one at large who shall be Chairman of the Board of Supervisors.

The Committee, consisting of four members, fails to agree or to secure a majority report. Two of the Committeemen, namely: Senators Brown and Hewitt, are in favor of reporting that the bill be tabled, while Senators Baker and Makekau favor the passage of the Act.

The two Senators opposing the Bill and who recommend that

it be tabled do so for the reason that the majority of the people on the Island of Hawaii protest against any change in the existing conditions of the election law upon this subject. A large number of protests have been received, and if the Bill is passed, the election of inferior men would be the result.

In order to get a decisive vote on this question, we recommend that the Senate vote upon the question "Shall this Bill Pass Second Reading," which action will determine the fate of the Bill.

Respectfully submitted,

JOHN T. BROWN,
Chairman.
GEO. C. HEWITT.

Senator Makekau presented a Report (No. 15) from the Select Committee of Hawaii Senators on House Bill No. 66, as follows:

SENATE CHAMBER.

Honolulu, T. H., March 27, 1911.

Hon. E. A. Knudsen,
President of the Senate,

Sir:—

Your Special Committee, consisting of the Hawaii members of the Senate, to which was referred House Bill No. 66, entitled "An Act to Amend Section 12A of Act 39 of the Session Laws of 1905, entitled 'An Act Creating Counties within the Territory of Hawaii and Providing for the Government Thereof,'" begs leave to respectfully report as follows:

The object of the Bill is to amend Section 12A of Act 39 of the Session Laws of 1905, by changing the manner of the election of the Supervisors of the County of Hawaii, so that three of them would be elected at large by the voters of the first representative district and three by those of the second district, and one at large by those of the whole County.

The proposed change is a very important one and in which your Committee believes it an improvement over the present form or manner of electing the Supervisors of said County. It further believes that the change would be for the best interest of the County as a whole, and that it would result in making matters more acceptable to those directly interested; and in consideration therefore, your Committee recommends

that said House Bill No. 66 pass with the following amendments.

Strike out the words "Chairman of the Board of Supervisors" at the end of Section 1, and insert in lieu thereof the following words: "Superintendent of public streets, highways, water and sewer works, parks, and other public property."

Together with the clauses hereunder to follow the foregoing amendment:

"He may, with the approval of the Board of Supervisors, appoint deputies and employees, who shall be subject to his management and control. Said Supervisor so elected at large shall, at the end of each month, make to the Board of Supervisors a detailed statement of all works undertaken and completed in the County under his control, and also a detailed financial statement setting forth all receipts and expenditures. He shall maintain his office at the County Seat and shall be allowed all his necessary travelling expenses.

"Every Supervisor shall be a person residing within the representative district for which he is a candidate and shall be elected at large by the duly qualified electors of such representative district, except the Supervisor elected at large who shall be elected by all the voters in the County of Hawaii.

"And provided, however, that the said Supervisor so elected at large shall be required to give a bond to the County of Hawaii in the sum of Fifteen Thousand Dollars (\$15,000.00)."

In conclusion, your Committee herewith appends said Bill as amended, with the recommendation that the same pass.

Respectfully submitted,

R. H. MAKEKAU,
DAVID K. BAKER.

Your Judiciary Committee, to whom was referred Senate Bill No. 51, to Provide for the construction of a belt road around the Island of Hawaii, and a road from Kukuihaele Village to Waipio Gulch in the district of Hamakua, Island of Hawaii, and making special appropriations therefor, begs leave to report as follows:

As indicated by the title this bill seeks to provide for the construction of certain roads on the Island of Hawaii.

After careful consideration your Committee is of the opinion that this matter should be taken up and provided for in Senate Bill No. 50, To Provide for Public Improvements, when that bill comes up for consideration.

Your Committee therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

Senator Judd presented a Report (No. 182) from the Judiciary Committee, recommending that Senate Bill No. 52 be tabled, as follows:

REPORT ON SENATE BILL NO. 52.

To the Honorable Eric A. Knudsen,
President of the Senate:

Your Judiciary Committee, to whom was referred Senate Bill No. 52, to Provide for the reimbursement of the Territory for the cost of the Belt Road around the Island of Hawaii and

the road from Kukuihaele to Waipio Gulch, Hamakua, Island of Hawaii, begs leave to report as follows:

As indicated by the title the object sought to be attained by the passage of this bill is to provide for the manner in which the Territory shall be reimbursed for the money which may be used for the construction of certain roads on the Island of Hawaii.

After careful consideration your Committee is of the opinion that this matter should be taken up, and provided for in Senate Bill No. 50, To Provide for Public Improvements, when that bill comes up for consideration.

Your Committee therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

March 30, 1911.

Upon motion by Senator Kalama, seconded by Senator Judd, the Report of the Committee was adopted, and Senate Bill No. 52 was tabled.

Senator Judd presented a Report (No. 183) from the Judiciary Committee, recommending the passage of Senate Bill No. 106, as follows:

REPORT ON SENATE BILL NO. 106.

To the Honorable E. A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 106, to prevent excessive County or City and County expenditures, liabilities and obligations, begs leave to report as follows:

As indicated by the title the object of this bill is to prevent the Counties and City and County from incurring liabilities and obligations beyond their means, and to prevent their spending more money than is warranted by the means at their command.

This bill carries out the recommendation made by the Governor in his message to the Legislature, page 11 of the printed copy of the message. Your Committee is thoroughly in accord with the purpose of this bill, and believes that it is a wise measure, and that there should be some check upon the anticipation of revenues.

Your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 30, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 106 passed Second Reading, and was placed on the Calendar for tomorrow for Third Reading.

Senator Judd presented a Report (No. 184) from the Judiciary Committee, recommending that House Bill No. 45 be tabled, as follows:

REPORT ON HOUSE BILL NO. 45.

To The Honorable E. A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 45, to regulate the incurring of indebtedness by county supervisors, officers and employees, begs leave to report as follows:

As indicated by the title the objects sought to be attained by this bill are to prevent the Counties or City and County spending money or incurring liabilities beyond the means at their command, or in other words to prevent them from anticipating their revenues.

Your Committee is thoroughly in accord with the purposes of this bill, but in view of the fact that Senate Bill No. 106 covering the same subject matter is much broader in its scope, and will better accomplish the purposes desired, your Committee has recommended that Senate Bill No. 106 be passed.

In view of the foregoing your Committee recommend that House Bill No. 45 be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

March 30, 1911.

The Report of the Committee was adopted and House Bill No. 45 was tabled.

Senator Judd presented a Report (No. 185) from the Judiciary Committee, recommending the passage of House Bill No. 140 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 140.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 140, To Amend Act 15 of the Session Laws of 1905, Amending Sections 3190 and 3191 of the Revised Laws of Hawaii, Regulating the observance of Sunday, and adding a new Section thereto, begs leave to report as follows:

This is the barbers' bill. In section 1 of the bill all that is sought to be done is to delete from the present statute the following words:

"and that barber shops may be kept open until eleven o'clock
"in the forenoon."

Your Committee recommends the following amendments to this bill:

First: That all of the title of this bill be stricken out after the words "AN ACT" and that there be inserted in lieu thereof the following:

"To further amend Section 3190 of the Revised Laws of
"Hawaii as amended by Section 1 of Act 15 of the Session
"Laws of 1905, regulating the observance of Sunday."

Second: That the first two lines of Section 1, after the words "Section 1" be stricken out, and that there be inserted in lieu thereof the following:

"Section 3190 of the Revised Laws of Hawaii as amended by

Section 1 of Act 15 of the Session Laws of 1905, is hereby further amended so as to read as follows:"

Third: Strike out all of Sections 2 and 3. These sections are unnecessary in any event as they simply repeat without amendment Sections 2 and 3 of Act 15 of the Session Laws of 1905.

Fourth: Insert Section 2 to read as follows:

"Section 2. Nothing in this Act contained shall be construed to repeal or amend any other section of Act 15 of the Session Laws of 1905."

The object of this amendment is to prevent any conflict arising should Senate Bill No. 67, also a Sunday bill, which has passed the Senate, and is now in the House, become law.

Your Committee understands that the barber shop proprietors and barbers, at least in the City and County of Honolulu, are in favor of this bill, and your Committee sees no reason why their request should not be granted.

With the above amendments, your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

March 30, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 140 passed Second Reading as amended, and was placed on the Calendar for tomorrow for Third Reading.

Senator Judd presented a Report (No. 186) from the Judiciary Committee, recommending that House Bill No. 157 be tabled, as follows:

REPORT ON HOUSE BILL NO. 157.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 157, To Amend Section 7 of Act 125 of the Session

Laws of 1907, Defining, and Relating to, Estrays, begs leave to report as follows:

This Bill adds the following words to Section 7 of Act 125 of the Session Laws of 1907:

"and it shall be the duty of all police officers to apprehend
"and convey such estray to the pound."

After a careful consideration of the proposed amendment to the present statute your Committee finds no reason why the present law should be changed, it being found that the present law is entirely satisfactory.

Your Committee therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

March 30, 1911.

Upon motion by Senator Kalama, seconded by Senator Hewitt, the Report of the Committee was adopted, and House Bill No. 157 was tabled.

Senator Judd presented a Report (No. 187) from the Judiciary Committee, recommending the passage of House Bill No. 192, as follows:

REPORT ON HOUSE BILL NO. 192.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 192, to prevent Public Officers and Employees, from being or becoming interested in Public Contracts, begs leave to report as follows:

As indicated by the title the purpose sought to be accomplished by this bill is to prevent public officers and employees from becoming pecuniarily interested in any public contract.

Your Committee desires to call attention to the fact that Senate Bill No. 6, covering the same subject passed the Senate, and this bill is a substitute bill from the House in place of

Senate Bill No. 6. This bill covers the subject more thoroughly, and your Committee is entirely in accord with it.

Your Committee recommends the passage of House Bill No. 192.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,

Senator Judd presented a Report (No. 16) from the Select Committee on Immigration, recommending the passage of House Bill No. 85 with certain amendments, and the tabling of Senate Bill No. 84, as follows:

REPORT OF SELECT COMMITTEE ON IMMIGRATION ON
HOUSE BILL 85 AND SENATE BILL 84.

Honorable Eric. A. Knudsen,
President of the Senate.

Sir:—

Your Select Committee on Immigration to whom was referred House Bill 85, an Act to amend Section 6 of Act 33 of the Laws of 1909 and also Senate Bill 84, the object of which is to amend the same Section of the same Act, have met and carefully considered the two measures.

As your Committee has already stated in its report on Senate Bill 84 heretofore filed, the present conservation tax law expires of its own limitation on December 31, 1911. The House Bill in question extends the measure to December 31, 1915.

In view of the Committee's report on Senate Bill 84 the object of which bill is to remove all limitation as to the expiration of the tax measure and to place it on a par with other taxation statutes to be amended or repealed by subsequent Legislatures, the Committee recommends that House Bill 85

be amended by striking out all of Section 1 after the word "hereunder" in line seven. And the Committee recommends that the bill pass with the above amendment.

With reference to Senate Bill 84 the Committee recommends the measure be laid on the table as House Bill 85 if amended according to the Committee's suggestions will carry the intent of Senate Bill 84.

Respectfully submitted,

IMMIGRATION COMMITTEE,

ALBERT F. JUDD,
Chairman.
R. H. MAKEKAU,
P. PALI,
GEO. H. FAIRCHILD.

A Communication (No. 44) from the Secretary of the Territory of Hawaii, informing the Senate of the appointment of Harry Klemme, Jr., as Disbursing Clerk for the Federal Appropriation for Legislative Expenses, was read by the Clerk as follows:

EXECUTIVE BUILDING.
Secretary of Hawaii.

Honolulu, T. H., March 30, 1911.

Honorable Eric A. Knudsen,
President of the Senate,
Legislature of the Territory of Hawaii,
Honolulu, Hawaii.

Sir:—

I beg leave to inform you that Harry Klemme, Jr., was appointed by me on March 1, 1911, as clerk in my office to attend to the disbursing of the Federal appropriation for "Legislative Expenses, Territory of Hawaii, 1911." He is to receive a salary of \$75.00 a month.

Very respectfully yours,

E. A. MOTT-SMITH,
Secretary of Hawaii, Special Disbursing
Agent, U. S. Treasury Department.

The Communication was received and placed on file.

Senator Judd presented a Report (No. 189) from the Judiciary Committee, recommending the passage of Senate Bill No. 108 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 108.

To Honorable Eric A. Knudsen,
President of the Senate,
Territory of Hawaii.

Sir:—

Your Judiciary Committee to which was referred Senate Bill No. 108, entitled "An Act to Define, Regulate and License Emigrant Agents," beg leave to report thereon as follows:

Your Committee are of the opinion that more stringent regulations than those existing under the present law (Session Laws of 1905, Act 57) are necessary to safeguard the interests of the laborers and employers of this Territory. So far from strict regulation of the business of emigrant agents being ground for attacking the constitutionality of the law, the courts have frequently expressed the opinion that such regulation is not only desirable, but necessary. The Supreme Court of North Carolina has said:

"It is of the greatest importance to all citizens of the state that the inexperienced and artless laborer may not be imposed upon by the fraudulent representations and other fraudulent practices of an emigrant agent; and it is one of the highest duties imposed upon the lawmakers to prevent such abuses by prescribing rigid and appropriate regulations under which the said occupation can alone be followed."

The Supreme Court of the United States has expressed a similar view in the following language:

"It would seem, moreover, that the business itself is of such nature and importance as to justify the exercise of the police power in its regulation. We are not dealing with single instances but with a general business and it is easy to see that if the business is not subject to regulation, the citizen may be exposed to misfortunes from which he might otherwise be legitimately protected."

Williams vs. Kears, 179 U. S. 270, 275.

Your Committee believe that the provisions of the present Bill are neither prohibitive nor unnecessarily restrictive. Any persons or corporations proposing to take laborers over the two thousand miles of water separating this Territory from the nearest land must necessarily engage in the business on a large scale and at considerable expense. The bond of Twenty-five Thousand Dollars, for example, does not seem unreasonable from this point of view, particularly when it is taken into consideration that each laborer in this Territory costs the conservative figure of One Hundred Dollars. A shipment of Two Hundred and Fifty laborers would amount to the Twenty-five Thousand Dollars required. The distance at which a laborer may find himself stranded if the representations of the agent are false imposes a corresponding obligation upon this Territory to protect him. The individual bond of One Hundred Dollars to be given for each laborer recruited is only a revival of a similar provision in Section 143 of the old civil code which exacted a bond in the same amount for each man taken from Hawaii by the whalers and which proved a salutary protection to the laborers in the days of the whal-

ing fleet. The other regulations prescribed by this Act are likewise designed to prevent irresponsible agents from misrepresenting the terms of proposed employment to the laborers they are recruiting and we think are justified under the circumstances above detailed.

Your Committee recommend several amendments to the Act, as follows, referring to the Bill as printed:

Ist. Section 5, line 3, after the word "minor," insert "and in case said minor has no parent or guardian then of the Attorney General of the Territory."

2nd. Insert a new section numbered Section 6, as follows:

No emigrant agent shall induce, entice or persuade or attempt to induce, entice or persuade, any servant or laborer who shall have contracted either orally or in writing to serve his employer for a specific length of time, to leave the service of said employer during the term thereof, without the consent of said employer, nor shall he aid or abet any such servant or laborer in leaving said service during the term thereof, without the consent of said employer.

3rd. Renumber present Sections 6, 7, 8 as Sections 7, 8, 9 respectively.

4th. In Section 8 of the present Bill, being Section 9 of the Bill as amended, in line 3, after the word "conviction" insert "shall forfeit his license, if he has one, and shall."

5th. For the purpose of safeguarding the rights both of the public and of those who may hold licenses under the present Act, insert the following sections in place of the repealing section of the present bill:

Section 10. Act Fifty-seven of the Laws of 1905 is hereby repealed, except as to the offenses committed, acts done in violation of, or rights accrued or established under the provisions of said Act, and causes whether civil or criminal either pending at the time this Act shall go into effect, or subsequently brought to enforce any of the provisions of said Act; and as to every such offense, act, and right, and actions to enforce the same said Act above specified shall continue and remain in full force.

Section 11. Every emigrant agent holding license as such under the existing law shall comply with the provisions of this Act except that all vested or contract rights, if any, shall be preserved to him, and that the license fee hereinabove required shall not be payable by him during the unexpired term of his license.

6th. Renumber present Section 10 as Section 12.

With these amendments the Committee recommend that the Bill pass.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU

Senator Judd presented a Report (No. 190) from the Judiciary Committee, recommending the passage of Senate Bill No. 109 with certain amendments, as follows:

REPORT ON SENATE BILL 109.

Hon. Eric A. Knudsen,
President of the Senate,
Territory of Hawaii.

Sir:—

Your Judiciary Committee to whom was referred Senate Bill No. 109 entitled:

"An Act Making it a Misdemeanor to Induce, Entice or Persuade Servants or Laborers to Leave their Employment or to Aid or Abet such Leaving, and Providing a Punishment Therefor," beg leave to report thereon as follows:

Acts of this kind are common in all the southern states which like the Territory of Hawaii have agricultural resources in excess of available labor supply. Many of these states go much further than the bill in question; some states, in addition to the provisions of this bill making it a misdemeanor to harbor or employ servants during the term of their original employment. None of these have ever been declared unconstitutional, so your Committee has no reason to doubt either the constitutionality or the advisability of the proposed measure.

Nevertheless your Committee feels that the bill as introduced is wider than the mischief that it is intended to remedy and therefore recommends the following amendments, referring to the bill as printed:

First: In Section 1, line 1, strike out the words "himself or agent" and insert the word "promise of employment outside the Territory of Hawaii."

In Section 1, line 5, after the word "laborer" insert the words "so induced, enticed or persuaded."

With these amendments your Committee recommends that the bill pass.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU.

March 31, 1911.

Upon motion by Senator Kalama, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 109 passed Second Reading as amended, and was placed on the Calendar for tomorrow for Third Reading.

Senator Judd presented a Report (No. 191) from the Judiciary Committee, recommending the passage of Senate Bill No. 110 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 110.

To Honorable Eric A. Knudsen,
President of the Senate,
Territory of Hawaii.

Sir:—

Your Judiciary Committee, to which was referred Senate Bill No. 110, entitled "An Act Declaring, Establishing and Defining Legal and Equitable Remedies for Inducing, Enticing or Persuading, or Attempting to Entice, Induce or Persuade Servants or Laborers to Leave Their Employment, or Aiding, Abetting, or Attempting to Aid or Abet Such Leaving," begs to report thereon as follows:

In the absence of statute, it has been established at common law that a third person who legally entices a servant, knowing that he is in the employ of another, to quit such service, is liable in damages to the master (26 Cyc. 1580).

The leading case on this subject, familiar to all law students, is the English case of Lumley vs. Gye, 2 E. & B. 216, and in this country the case of Angle vs. Chicago etc. Railway Co., 151 U. S. 1, decided by the Supreme Court of the United States.

The English case of Lumley vs. Wagner, 1 De Gex Macnaghten and Gordon, 604, also decides that the injured party is entitled under some circumstances to relief in equity by injunction.

Nevertheless, it seems desirable to define clearly in the special class of cases sought to be reached by this act, both the common law and the equitable jurisdiction.

Your Committee recommends that the bill be amended so as to meet more specifically the mischief intended to be remedied, and therefore recommends the following amendments, referring to the bill as printed:

1. Section 1, line 1, after the word "persuading" insert "by promise of employment outside of the Territory of Hawaii."

2. Section 1, line 1, after the words "attempting to" insert the word "so."

Section 1, line 5, after the word "thereof" insert the words "for the purpose of leaving the Territory of Hawaii."

4. Section 2, line 3, after the word "threaten" insert the words "by promise of employment outside the Territory of Hawaii."

With these amendments your Committee recommends that the bill be passed.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

Upon motion by Senator C. Brown, seconded by Senator Judd, the Report of the Committee was adopted; Senate Bill No. 36 passed Second Reading as amended, and was placed on the Calendar for Monday, April 3, 1911, for Third Reading.

Senator Fairchild presented a Report (No. 192) from the Committee on Ways and Means, recommending that Senate Bill No. 103 be laid on the table to be taken up for consideration with the Appropriation Bill, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 103, being an Act to appropriate money for the construction of Armories for the National Guard of Hawaii in Honolulu and Lahaina as also to erect additional store-rooms in the Armories at Hilo and Wailuku, report that they have had same under consideration; the Act asks for \$125,000 for the Armory in Honolulu and the sum of \$10,000 for the Armory at Lahaina, and the additional store-houses at Hilo and Wailuku.

This Committee while not objecting to the improvements contemplated by the Bill, fail to see and are unaware where the money needed is to come from unless out of any money obtained under the Loan Act which is still in the hands of this Committee.

The income of the general or current income of the Territory has now a fixed and first call upon it under the Bill relating to the maintenance of Public Schools, and there are many other needs and calls for objects and improvements more necessary

for the good of the Territory out of the general fund or income than the objects which this Act seeks to provide for. Under these circumstances, the Committee recommend that the Act be laid on the table and taken up and be considered with the Loan Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
JOHN T. BROWN,
CECIL BROWN,
E. W. QUINN.

Honolulu, April 1st, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Baker, the Report of the Committee was adopted; Senate Bill No. 103 was laid on the table to be taken up for consideration with the Appropriation Bill.

Senator Fairchild presented a Report (No. 193) from the Committee on Ways and Means, recommending the passage of Senate Bill No. 79, as follows:

SENATE CHAMBER.

Honolulu, April 1, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bill 79, being an Act to amend Section 1335 of the Revised Laws of Hawaii as amended, which relates to the sale of awa, report that they have had the same under consideration. The object of the Bill is to reduce the license to sell awa from \$500.00 a year to \$300.00 in the City and County of Honolulu, the license fee for the rest of the awa districts remain the same as provided by Act 90 of the Session Laws of 1907. There has been some talk, that the fee of \$500 for this District is too high and tends to a monopoly.

We recommend that the Bill pass.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.
JOHN T. BROWN,
E. W. QUINN,
CECIL BROWN.

Upon motion by Senator Makekau, seconded by Senator Hewitt, consideration of the Bill (Senate Bill No. 79) was deferred until Monday, April 3, 1911.

Senator Fairchild presented a Report (No. 194) from the Committee on Ways and Means, recommending the passage of House Bill No. 154, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred House Bill No. 154, report that they have had same under consideration.

The object of the Bill is to reduce the stamp duty on documents which have to be paid before being recorded. The law is now that all deeds under a consideration of \$500, pay a stamp duty of \$1.00, and above \$500 and not exceeding \$1000, \$2.00. The Act in question seeks to make the stamp duty for the consideration of any sum up to and less than \$1000, \$1.00, and when exceeding \$1000 and less than \$10,000 or any fractional part thereof, at the rate of \$3.00 per thousand, and when over \$10,000 and not exceeding \$50,000, \$4 per thousand, and when over \$50,000 or any fractional part thereof, at the rate of \$5 per thousand, and these are the principal amendments made by this Act.

There are others relating to stamp duty on exchange, partition and mortgage deeds whereby any transaction involving less than \$1000 are exempt. Section 1320 has been the source of considerable revenue to the Territory. It is not a matter that has been generally enacted in other States or Territories.

The call upon the Treasury of the Territory for appropriations by this Legislature will from appearances be large and as the proposed amendment will make but a small difference in the average transactions of the Territory.

We recommend the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
JOHN T. BROWN,
E. W. QUINN.
CECIL BROWN,

Honolulu, April 1st, 1911.

Upon motion by Senator Fairchild, seconded by Senator Judd, the Report of the Committee was adopted; House Bill No. 154

passed Second Reading, and was placed on the Calendar for Monday, April 3, 1911, for Third Reading.

Senator Fairchild presented a Report (No. 195) from the Committee on Ways and Means, recommending the passage of Senate Bill No. 68 with one amendment, as follows:

SENATE CHAMBER.

Honolulu, April 1, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bill No. 68, entitled "An Act Providing for the Purchase of Certain Lands, Water Rights and Water Ways in Palolo Valley and in Palolo Hill Tract in the City and County of Honolulu, Territory of Hawaii," has had the same under due and careful consideration and begs leave to report as follows:

The object of the Bill is to provide adequate means of supplying water to the people living in Palolo Valley and vicinity, and the acquisition of the land and water rights in said valley, in the opinion of the Committee, tend to improve the general water supply system of the City of Honolulu. Expenditures made therefor, will, in time, under proper supervision, more than repay the Territory for this outlay by the revenues naturally to result.

In order to insure the proper carrying out of the provisions of the proposed Act, it is necessary to make some amendments to the Bill, as follows:

Amend paragraph 2 of Section 1 so as to read as follows:

"(2) a deed of bargain and sale of all water rights and water ways including all necessary rights of way for pipe-lines owned by it, said Palolo Land and Improvement Company, Limited, in said Palolo Valley and in and appurtenant to the lands hereinabove described: that the amount of said waters be not less than the minimum amount of one million gallons of water per day: that the sum of \$40,000.00 the purchase price of the water rights, crater and water sheds, and all rights of way for pipe-lines and necessary for the transportation and storage of water in Palolo Valley, be paid to the Palolo Land and Improvement Company, Limited, only upon the certificate of the Superintendent of Public Works showing that for a period in no case to exceed twelve months after the approval of this Act, (or for such shorter period as may satisfy said

Superintendent of Public Works of the permanency of the supply) the volume of water conveyed by the Palolo Land and Improvement Company, Limited, has been not less than an average minimum amount of one million gallons per 24 hours, and that such one million gallons is at such an elevation as will insure a domestic supply of water on the slopes of Palolo and Kaimuki, at an elevation of not less than 850 feet, such quantity of water to be from the run of the streams and not from any storage works of any character whatsoever: that the Superintendent of Public Works shall, immediately upon the approval of this Act install the necessary weirs and recording apparatus, as may be necessary: that immediately following the acceptance, the Superintendent of Public Works shall begin the construction of the pipe-line from the source of supply to the Palolo Hill Tract, said pipe-line to bring out water at an elevation of not less than 850 feet."

With this amendment the Committee recommends the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,

Chairman.

JOHN T. BROWN,

CECIL BROWN,

E. W. QUINN,

Upon motion by Senator Fairchild, seconded by Senator J. T. Brown, the Report of the Committee was adopted; Senate Bill No. 68 passed Second Reading as amended, and was placed on the Calendar for Monday, April 3, 1911, for Third Reading.

Senator Judd presented a Report (No. 196) from the Judiciary Committee, recommending that Senate Bill No. 104 be tabled, as follows:

REPORT ON SENATE BILL NO. 104.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 104, To Amend Section 2284 of the Revised Laws of Hawaii, as amended by Act 43 of the Session Laws of 1905, Relating to the Widow's Election of Dower, begs leave to report as follows:

Under the present law it is provided that a widow shall, within six months after the probate of the Will of her husband,

elect whether she will take under the will of her husband or be endowed, and that in case no election is made she shall be presumed to have reserved her dower. The present bill seeks to change this in several material particulars. It provides that she shall make her election but no time is limited as under the old law. This bill also provides that if the widow fails to elect within six months after the probate of the will of her husband, then the executor of the will shall apply for an order citing the widow to appear and make her election. However, there is nothing to compel her to make her election if she does not so desire at that or any other time.

Your Committee is of the opinion that the present law is plain, specific and unambiguous, and furthermore amply protects the interests of the widow. Further, that under the present law there is no possibility of titles to land being in question through failure of the widow to elect. Under the proposed bill it is the opinion of your Committee that the administration of estates will be tied up through refusal of the widow to elect, and that the titles to land will in many instances be clouded because of neglect on the part of the executors under a will, or because of neglect or refusal of a widow to elect. No one can be sure of the title to land which formerly belonged to a person since deceased, without going carefully over the records of the Courts, to see whether any election has been made, whether the executor has applied for the order provided for in Section 2, whether an election was made after the issuance of such an order, and if no election has been made, whether the widow is living or dead.

For the foregoing reasons, and the confusion liable to arise in land titles, and further in view of the fact that the present law is entirely satisfactory, your Committee recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

Chairman.

SENATE CHAMBER.

Honolulu, April 1, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred House Bill No. 30, being An Act to provide for the construction of Roads to and upon Public Lands opened for Homestead, residence and other purposes, has had the same under careful consideration and begs leave to report as follows:

It is the opinion of the Committee that making such provisions as would tend to encourage the taking up of homesteads is a wise legislation, which should receive the hearty co-operation of every person having the best interests of the community at heart.

Your Committee therefore recommends the passage of the Bill.

S. E. KALAMA,
Chairman.
A. S. KALEIOPU,
GEO. C. HEWITT.

Upon motion by Senator Pali, seconded by Senator Hewitt, the Report of the Committee was adopted; House Bill No. 30 passed Second Reading, and was placed on the Calendar for Monday, April 3, 1911, for Third Reading.

Senator Fairchild presented a Report (No. 198) from the Committee on Ways and Means, recommending that Senate Bill No. 49 be laid on the table to be taken up for consideration with the Appropriation Bill, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 49 report that they have had the same under consideration.

The bill was introduced for the purpose of obtaining an appropriation of \$4,500 wherewith to pay James Quinn for the total loss and destruction of an automobile caused by negligence of the Territorial officers in not providing the so-called Hackfeld Wharf in the City of Honolulu with proper and suffi-

cient lights at night while a large passenger and freight boat was lying alongside that wharf on the night of June 11, 1909. The would be beneficiary under this Act was advised by his attorneys that he had under the law as existing no remedy against the Territory; hence the appeal to the Legislature.

The Committee had a hearing, and from the evidence adduced, are satisfied that there were no lights burning or put upon the wharf where the accident happened, or near the place; that it was a very dark night; that the wharf was under repair, being replanked, and that the side stringers that run along both sides of the wharf at a height of, say, from 8 to 10 inches from the floor had been removed; these stringers or protectors prevented as a rule any vehicle from going over the side of the wharf into the harbor. The automobile belonging to Mr. Quinn went over the side of the wharf into the harbor, and was burnt up, and became utterly useless and of no value to the owner. One of the passengers was injured seriously, and was compelled to remain over in the Queen's Hospital, and resume the voyage to San Francisco by a boat leaving some 3 or 4 weeks later.

At the hearing it was admitted that the automobile did not have its acetylene gas lamps lighted, but continued down onto the wharf under its side kerosene lights only. This Committee is of the opinion that had Mr. Quinn before going onto the wharf, seeing no lights upon it, that it was very dark, and knowing that on occasions of arrival of passenger and freight boats from the East, there are always a large number of passenger vehicles and foot passengers going to and from the vessels, lighted his acetylene gas lights, that these lamps would have cast in front and on the sides of the automobile a sufficiency of light to have prevented the happening of this accident. This Committee cannot but call attention to the fact that the person in charge of the wharf was negligent in his duties in not providing lights upon it, and especially at the sides where stringers had been taken up. We also are of the opinion that it was negligence on the part of Mr. Quinn in not having his acetylene gas lamps alight under the circumstances.

We therefore recommend that the bill be laid upon the table; and should the Legislature care to insert the claim in the Appropriation Bill, it can come up when it is under consideration.

Respectfully submitted,

GEO. H. FAIRCHILD,
JOHN T. BROWN,
CECIL BROWN,
E. W. QUINN.

In reference to House amendment in line 3, sub-section (b) of Section 4, Your Committee recommends that the amendment be adopted.

In reference to the House amendment striking out Section 20 and inserting a new section in lieu thereof, Your Committee recommends that the amendment be adopted.

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., April 4, 1911.

The Honorable President and

Territory of Hawaii.

Gentlemen:—

I have the honor to transmit herewith House Concurrent Resolution No. 19, which was this day adopted in the House of Representatives of the Territory of Hawaii.

Very respectfully yours,

Clerk, House of Representatives.

HOUSE CONCURRENT RESOLUTION NO. 19.

BE IT RESOLVED by the House of Representatives of the Legislature of the Territory of Hawaii, Session of 1911, the Senate concurring, that the Superintendent of Public Works or other proper officer or authority be, and is hereby directed to reduce the present unsightly and useless wall enclosing the Honolulu Central Grammar School, Emma Street, to a coping or guard wall not more than two and one-half feet in height.

Representative, 4th District.

The Communication was received and placed on file, and House Concurrent Resolution No. 19 was referred to the Committee on Education.

Senator Fairchild presented a Report (No. 203) from the Committee on Ways and Means, recommending the passage of Senate Bill No. 114, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 114, report that they have had same under careful consideration.

The Bill was introduced for the relief of one Yee Yap, and

to authorize the payment to him of the sum of \$1,214 for damages sustained in a land transaction with the Territory. It appears that on October 28th, 1909, the claimant purchased some 15,090 square feet of land in this City from the Territory for \$2,500 as evidenced by Royal Patent No. 61. After delivering the Royal Patent and entry and building upon the land in question, other persons appeared and claimed title in three certain portions or parcels of the land described in the Royal Patent, and litigation followed which resulted in favor of the plaintiff and against the claimant Yee Yap.

The result showed that portions or parcels of the land sold under the Royal Patent were defective in title as to the Government. The whole of the land described in the Royal Patent as well as that claimed adversely against Yee Yap had been built upon, and the claimant, in order that he can protect himself, has been compelled to make outlays of the amount named \$1,214 as follows: \$125 to purchase land belonging to Gou Chong, \$750 to purchase land belonging to Mary Kahai, \$64 paid for costs of Court, \$25 incidental expenses and \$250 for attorney's fees in the matter, a total of \$1,214. The mistake of including other peoples land with that of the Territory and selling both as one, was that of the Territorial officials.

We think the claim is a just one, and recommend the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
JOHN T. BROWN.
E. W. QUINN,
CECIL BROWN,

Honolulu, April 4th, 1911.

Upon motion by Senator C. Brown, seconded by Senator Judd, the Report of the Committee was adopted; Senate Bill No. 114 passed Second Reading, and was placed on the Calendar for Wednesday, April 5, 1911, for Third Reading.

Senator Fairchild presented a Report (No. 204) from the Committee on Ways and Means, recommending the passage of House Bill No. 179, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 179, report that they have had same under consideration. The Bill seeks to amend Section 2621

of the Revised Laws as amended in 1905, 1907 and 1909, which Section covers the annual fee or tax to be paid by insurance companies or corporations as a license for the privilege to do business within this Territory. Under the law as now in our statute books, a tax of two per cent. on the net income received from premiums was paid, after deducting all losses paid in the Territory, allowing as well other deductions, as a reference to the Section will prove. The change made is to levy a tax of two per cent. upon the gross income. From figures furnished this Committee, it appears that the fees or tax paid by insurance companies for the past six years has been \$126,361.48, and the amounts collected as premiums, etc., for the same period has been \$7,725,731.92, and the losses paid for the same period, being fire, marine and life, has been \$2,221,923.12, and added to this should be the \$126,361.48 paid out as license fees and taxes, making a sum total of, say, \$2,648,284.60, leaving a balance of about \$5,077,447.32; deduct from this, commissions of agents and other expenses say, of, \$1,295,000, and we have a net total of \$3,782,447.32 income. The taxes or license fee upon this sum is a little over 2% for the past six years, and in the opinion of this Committee, totally inadequate to the business done and the privilege of doing such business under the protection of the Territory.

We recommend the passage of the Bill.

Respectfully submitted,

CECIL BROWN,

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

I have the honor to transmit herewith House Concurrent Resolution No. 20, which was this day adopted in the House of Representatives of the Territory of Hawaii.

In accordance with the adoption of said Resolution, the Speaker of the House of Representatives of the Territory of Hawaii has this day appointed the following as a Special Committee to act with a like committee to be appointed by the President of the Senate in the event of the adoption of said Resolution by your Honorable Body:

Representatives Sheldon, Long and Kawewehi.

CONCURRENT RESOLUTION.

WHEREAS, it was made very evident during a recent legislative visit that the children confined for correction in the Boys' Industrial School, at Waialeale, Oahu, and at the Girls' Industrial School, at Honolulu, are subjected to certain harsh treatment, and for other causes which should be investigated,

and that, moreover, the food furnished them is of such a quality that the standard is much lower than what is being supplied the prisoners confined in Oahu Prison and Honolulu Jail:

THEREFORE:

BE IT RESOLVED, by the House of Representatives of the Legislature of the Territory of Hawaii, the Senate concurring, that a Special Joint Committee be appointed, to consist of three members from each Body, to investigate and report to this Legislature, as soon as may be convenient, their findings, and at the same time, to make such recommendations as they may deem proper, whereby conditions, if found unsatisfactory, may be improved.

WM. SHELDON,
Representative, 6th District.

April 4, 1911.

The Communication was received and placed on file, and House Concurrent Resolution No. 20 was adopted; whereupon the Chair appointed Senators Chillingworth, Hewitt and Robinson as the Senate Committee to act in accordance with the terms of the Resolution.

Senator Judd presented a Report (No. 206) from the Judiciary Committee, recommending the passage of House Bill No. 48 with one amendment, as follows:

REPORT ON HOUSE BILL NO. 48.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 48, To Amend Act 55 of the Laws of 1909, Relating to the Acquisition of Property for Public Purposes, begs leave to report as follows:

Formerly private property required for public purposes was usually acquired by exchange.

The method, however, was changed and greatly improved by Act 55 of the Laws of 1909 by providing that such property, instead of being acquired by exchange, could be acquired by selling property that might otherwise be given in exchange and using the proceeds to purchase the property acquired.

The Organic Act amendments now necessitate a further change because under its restrictions as to exchanges pro-

perty cannot be obtained to the extent required for public purposes. Consequently the present bill provides that the proceeds of any land sold for other than homestead purposes shall be available for this purpose. Even with this amendment it will probably be impossible to obtain as much property for public purposes as has hitherto been possible because of the limitations in the Organic Act amendments upon sales for other than homestead purposes.

Incidentally the bill conforms to the Organic Act amendments by eliminating the Superintendent of Public Works, who no longer has authority to sell lands, and at the same time it conforms to other bills, the object of which is to avoid the multiplication of special funds by substituting therefor more appropriations.

Your Committee recommends that this bill be amended by striking out the words

“with the approval of the Land Board”

from lines 7 and 8 of Section 1. In the opinion of your Committee this provision is unnecessary and unwise. The sales of land contemplated by this bill will all be subject to the approval of the Land Board, and the price to be paid for land proposed to be purchased is to be fixed by three disinterested persons. The sale of lands and the purchase of other lands thus being properly safeguarded there appears no reason why it should be necessary to go to the Land Board to secure their approval of the setting apart of the money received from the sale of land, which they have already approved. To so provide would give to them powers and duties which it was not the intention of Congress that they should have, and which belong to a different department of the Government.

With the above amendment your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

Senator Judd presented a Report (No. 208) from the Judiciary Committee, recommending the passage of House Bill No. 144, as follows:

REPORT ON HOUSE BILL NO. 144.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 144, Relating to Insane Persons, Amending Sections 4, 8 and 10 of Act 149 of the Laws of 1909, and adding thereto three new Sections to be known as Sections 5A, 9A and 10A, begs leave to report as follows:

The amendment to Section 4 of Act 149 of the Laws of 1909 consists of the insertion of the words "and a copy thereof to the Superintendent of the Insane Asylum" after the word "insanity." This section as it now stands requires the magistrate committing an insane person to send a certificate of commitment to the Chairman of the Commissioners of Insanity. It is deemed important that a copy of such certificate be sent

to the Superintendent of the Insane Asylum in order that he may be advised of the circumstances which brought about the committal. This information is generally of great assistance to the Superintendent in determining how to take care of and handle each patient and perhaps aid in his treatment.

Section 5A, the new section, re-enacts Section 1117 of the Revised Laws of Hawaii, which was repealed by Act 149 of the Laws of 1909. This section is self-explanatory, and your Committee considers it a wise provision.

The change in Section 8 of Act 149 of 1909, consists in the substitution of the word "clerk" for the word "Treasurer" so that the claims of the Commissioners for fees and expenses payable by the Counties may go directly to the proper officer. At present it is a matter of annoyance to the County Treasurers, as well as delay, to require them to receive and forward papers which should go directly to the county clerk.

The new section 9A gives the Commissioners power to administer oaths, to punish for contempts, etc., a very desirable provision.

The amendment to Section 10 of Act 149 consists in the insertion of the words "or upon application of the Superintendent." In the cases of a great number of persons detained in the Asylum, the Superintendent of the Asylum is in a better position to know when it would be proper to have a patient examined as to his or her sanity, and the Superintendent should be given the power to take the initiative, and to notify the Commissioners of Insanity.

Section 10A gives the Commissioners power to grant paroles and to compel the observance of the terms thereof.

Your Committee is thoroughly in accord with the purpose of this bill and believes it to be a desirable measure, and therefore recommend its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

April 5, 1911.

Upon motion by Senator Judd, seconded by Senator Fairchild, the Report of the Committee was adopted; House Bill

No. 144 passed Second Reading, and was placed on the Calendar for Thursday, April 6, 1911, for Third Reading.

Senator Judd presented a Report (No. 209) from the Judiciary Committee, recommending the adoption of Senate Concurrent Resolution No. 6 with certain amendments, as follows:

REPORT ON SENATE CONCURRENT RESOLUTION NO. 6.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Concurrent Resolution, Requesting Congress to enact and the President to approve an act authorizing the construction of a ditch from Hilo to Kau, Island and Territory of Hawaii, and for other purposes incidental thereto, begs leave to report as follows:

Your Committee has held two public hearings on this Resolution affording opportunity for friends and opponents of the measure to be fully heard for and against it. Section 1 and 2 of the resolution have been redrafted, and as it now stands satisfies the objections made to those sections. Section 4 has been amended by adding a clause thereto limiting the exercise of the right of eminent domain therein provided. It is believed that the amendment made meets all objections urged against this part of the resolution. Various minor changes have been made in Section 5 of the resolution to make the provisions thereof a little more specific, and this has also been done with Section 9, which has been divided into four sections, i. e. Sections 9, 10, 11, 12. Section 14, new number Section 16 has been made more definite in its terms. The last section of the resolution has likewise been made a little more definite in its terms, and there has been added to the section clauses similar to those in Senate Bill No. 39, providing for a commission of three persons to determine price to be paid the Ditch Company should the Territory decide to purchase, with the right of appeal to the Supreme Court of Hawaii, from decisions of the commission of three.

Your Committee desires to call attention to the fact that while the resolution requests the passage by Congress of a "Ditch Bill" so called, the measure is in its essence a land bill. For fifty years all the public lands in Kau which can be economically irrigated by the ditch will be leased to the Ditch Company, of this area 30% can be withdrawn from the lease and thrown open to homesteaders, but such homesteaders can have no assurance that the Ditch Company will sell them water. All they can rely on is the water which the Territory will re-

celve as rent from the Ditch Company, and this is estimated at but 250 gallons per day per acre for the homesteader. Upon investigation your Committee finds that of the lands which will be taken by the Ditch Company about 1245 acres consist of land which today can be homesteaded. It is believed that in the district of Kau there will be about 8,000 acres of public lands, arid and semi-arid, which will be below the ditch, and which can be irrigated by it. This is only an estimate since no accurate surveys of this section have been made. Your Committee believes that the increase in wealth in the District of Kau because of the completion of this ditch will more than compensate for the withdrawing of this area of land from homesteading. It is estimated that the increase in taxes from the Kau District due to the building and completion of this ditch will amount to about \$60,000 per year. Your Committee desires to draw attention to the fact that the Ditch Company cannot hope to finance this extensive work without the land feature accompanying the other part.

Your Committee appends to this report a copy of the Resolution as amended, and recommends that the same be printed.

Your Committee is in favor of this Resolution, and recommends that the same be passed as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

SENATE CONCURRENT RESOLUTION NO. 6.

Requesting Congress to Enact and the President to Approve
An Act Authorizing the Construction of a Ditch From
Hilo to Kau, Island and Territory of Hawaii, and for Other
Purposes Incidental Thereto:

WHEREAS, there are large areas of fertile land in the District of Kau, Island and Territory of Hawaii, both of public and private ownership, which are non-productive, or productive only to a limited degree, by reason of the lack of rainfall, or water for irrigation;

AND WHEREAS, there are many streams in the District of Hilo, on said Island, much of the water of which is at times running to waste;

AND WHEREAS, it will be in the public interest to have

such waste water conveyed to said arid and semi-arid lands, for the purpose of developing the same and bringing them under cultivation;

AND WHEREAS, the cost of constructing the ditches, reservoirs and other structures necessary or incidental to the transportation of said waters as aforesaid, and of maintaining and operating the same, will be large, rendering it necessary for parties undertaking such work to raise money to operate by means of the issuance of bonds;

AND WHEREAS, it is improbable that private capital, without the guarantees hereinafter contemplated and provided for, would undertake to finance the said enterprise;

AND WHEREAS, in the opinion of this Legislature, the public interests will be advanced by the successful development of said lands in the District of Kau by means of said waters to the extent of warranting public assistance in that behalf, in manner herein set forth;

AND WHEREAS, the sanction and approval of Congress is necessary in order to secure to the grantee hereunder the rights, powers, privileges and authority herein enumerated;

NOW THEREFORE, BE IT RESOLVED

That the Legislature of the Territory of Hawaii doth hereby recommend to and petition the Congress of the United States to pass, and the President to approve, an Act of Congress in substantially the following form, viz:

Section 1. The right and power is hereby granted to John T. McCrosson, and to his associates and assigns, and to such corporation as may be organized by him or them for the purpose of taking over and exercising the rights, powers and privileges hereby conferred, hereinafter collectively referred to and the "DITCH COMPANY," to construct a ditch together with the tunnels, dams, waterheads, reservoirs, roads, trails, conduits, buildings, machinery, and other structures or appliances necessary or proper for conducting or storing water to flow through said ditch from any point in the District of Hilo, (which term shall be held to include both North and South Hilo), Island and Territory of Hawaii, through the said District to and through the Districts of Puna and Kau in said Island and Territory, and to any point or points therein; provided that said ditch shall be constructed at an elevation of not less than 2500 feet at its nearest point to the land of Hakalau, District of Hilo, and shall have a fall of not more than six feet to the mile within the limits of said district of Hilo.

Section 2. The right and power is also granted to the Ditch Company to develop, produce, use, sell and transmit power produced by water within the District of Kau, but not elsewhere.

Section 3. And also the right and power to buy, take on lease, or otherwise acquire by private purchase, and to hold, all land or interests in land, necessary, convenient or proper for the purposes aforesaid, or any of them.

Section 4. And also the right and power to condemn and take any land, or interest in land, necessary or proper for rights of way, or for dam or reservoir or building sites, for the purposes aforesaid, or any of them, SUBJECT, HOWEVER, in all respects as near as may be to the obligations, restrictions, payments and procedure now or hereafter imposed or prescribed by the laws of the Territory of Hawaii for the exercise of the right of eminent domain by public railroads in the Territory, and PROVIDED, HOWEVER, that nothing in this act contained shall authorize or empower the condemnation of water or water rights, nor permit the Ditch Company to take or divert water now used in the said District of Hilo.

Section 5. The commissioner of public lands for the Territory of Hawaii, hereinafter referred to as the "commissioner," is hereby authorized and directed to execute to the Ditch Company, and the governor of the Territory of Hawaii, hereinafter referred to as the "governor," is authorized and directed to approve a lease of all such public lands in the District of Kau to be designated by the Ditch Company, as are capable of being economically irrigated from the ditches of the company, together with rights of way for ditch purposes over all government lands situated in said Districts of Hilo, Puna and Kau. The lease shall provide that if within six months from the date of the first delivery of water in the said District of Kau, by the Ditch Company, it is ascertained to the satisfaction of the Ditch Company that any of the lands theretofore designated by it are incapable of being economically watered from its waterways, such lands, or any portion thereof shall be surrendered by the said Ditch Company by notice in writing to the commissioner, and no rent for said lands so surrendered, if any, shall be charged or collected by the lessor, and that the surrender of a portion of such lands, as herein provided, shall in no wise affect the lessee's tenancy of the remaining lands under said lease; that the term of said lease shall be fifty years from the date hereinafter set forth; that the Ditch Company shall have the right and authority at all times after the execution of said lease to enter upon all such public lands in the District of Kau for the purpose of surveys, construction work, etc.; that the rent to be paid for said lands shall be at the rate of one dollar per acre, per annum, payable to the Territory at its option, either in water from the waterways of the Ditch Company at the lowest rate payable by any consumer of water furnished by the company, or in cash; that the Ditch Company shall furnish to homesteaders or set-

tlers along the line of the company's waterways, or such other person or persons along said waterways, as the commissioner, with the approval of the governor, may direct, at a point or points to be designated by such officials, such water due as rental for said public lands. The Ditch Company shall have full right to sublet the said lands or any part thereof, or to assign the lease in whole or in part, either by way of security or otherwise, SUBJECT, HOWEVER, in all things to the provisions hereof. The lease shall be made subject to any unexpired and outstanding lease of any or all of such lands, and shall contain appropriate provisions to secure the construction and maintenance of the necessary works for supplying such lands with water, and the reversion of such works to the Territory upon the termination of the lease as hereinafter provided.

SECTION 6. Not more than thirty per cent. of the lands so held under lease by the Ditch Company may at any time after the expiration of six months from the date of the first delivery of water as aforesaid, by the Ditch Company be withdrawn for other public purposes, or homesteaded, or sold for other purposes under the laws relating to public lands in Hawaii, such withdrawal of lands to be in blocks of not less than five hundred acres and the right of way of the Ditch Company through such land so withdrawn to be reserved to it, in which case the rent reserved shall be proportionately reduced at the rate of one dollar per acre for the land so withdrawn, homesteaded and sold; PROVIDED, that written notice of intention to withdraw any portion of such public lands, together with a proper description of the lands so to be withdrawn, shall be served upon the Ditch Company by the commissioner, with the approval of the governor, not less than three calendar months before such withdrawal is to take effect; PROVIDED ALSO, that growing crops, if any, upon said lands so to be withdrawn may be harvested by the Ditch Company, or those holding under it, before such withdrawal is or shall be operative.

SECTION 7. The lease shall go into effect when the Ditch Company shall have constructed a ditch from said District of Hilo to Pahala in said Kau, with a delivering capacity of one hundred million gallons of water per day of twenty-four hours, and when fifty million gallons of water shall have been actually delivered by means of said waterway to said Pahala within a period of twenty-four consecutive hours, such date to be ascertained by the commissioner and fixed by him with the approval of the governor. Notice of the fixing of such date, and the consequent beginning of the term of the lease, shall be communicated in writing to the Ditch Company by said officials within ten days from the date thereof.

SECTION 8. A sum, not less than \$50,000 in cash, shall be actually expended by the Ditch Company in preliminary surveys, construction work upon said ditch or reservoirs, or for other good and useful purposes in that behalf, within one (1) year, \$100,000 within two (2) years, and \$1,000,000 within three (3) years, from the date of the approval of this Act by the President.

SECTION 9. The ditch shall be completed as far as said Pahala within four (4) years, and as far as Waiohinu, in said Kau, within five (5) years from the date of said approval.

SECTION 10. If the Ditch Company shall fail to expend such respective sums of money, or any of them, within the respective times aforesaid, for the purposes aforesaid, then and in any such case all of the rights, powers and privileges hereby granted and the said lease shall be forfeited and be null and void and of no effect, and all works and improvements up to that time erected or constructed shall immediately revert to and become the property of the Territory.

SECTION 11. If after such expenditures shall have been made the Ditch Company shall fail to observe or perform any of the terms, requirements or conditions herein contained or prescribed, the governor shall give the Ditch Company written notice to furnish to him within three (3) months from the date of such notice, assurances and proofs satisfactory to him that such breach or failure will be remedied and all terms, requirements and conditions herein contained or prescribed, observed, performed or complied with, within one (1) year after the date of such notice. If the Ditch Company shall fail to furnish to the governor assurances and proofs as aforesaid, within such term of three (3) months, or, if having furnished the same, there shall at the end of said term of one (1) year, remain unperformed, unfulfilled, or unobserved, any term, requirement or condition herein contained on the part of the Ditch Company to be observed, kept or performed, then and in such case all of the franchises hereby granted, and the said lease, shall be forfeited and be null and void and of no effect.

SECTION 12. That the times herein fixed for completion of the said ditch to various points, for the expenditure of moneys in surveys, construction and other work aforesaid, and for the doing of any other or different act required by the Ditch Company may for good cause shown be extended by order of the governor for a time which he shall deem reasonable in view of such cause.

SECTION 13. The corporation formed by the said J. T. McCrosson as aforesaid, for the purposes aforesaid, and its property used for or in carrying into effect the purposes aforesaid, or any of them, and its income, shall be free from terri-

torial, municipal, and county property and income taxes for the term of ten (10) years after the approval of this act.

SECTION 14. The rates at which water flowing along said ditch, and power produced thereby, or incidental thereto, shall be sold to applicants, shall be fixed and published from time to time by the Ditch Company with the approval of the governor, and such rates shall be the same to all.

SECTION 15. Such rates shall be based upon the yielding of not more than sufficient revenues to pay the following, viz:

(1) The reasonable expenses of maintenance and operation of the ditch and other plant and appurtenances;

(2) Interest on any bonds issued to procure money with which to construct the ditch and other plant and appurtenances, at a rate not to exceed 6% per annum, payable semi-annually;

(3) An annual sinking fund to redeem all of such bonds within the term of the lease and franchises hereby granted;

SECTION 16. If at any time the income of the Ditch Company shall exceed a sum sufficient for the purposes aforesaid, the rates for water and such power shall be reduced to an estimated figure, approved by the governor, which will produce an income in compliance with the provisions of the section last aforesaid.

SECTION 17. The Ditch Company shall at the end of each fiscal year, ending June 30th, file with the governor a report showing what its transactions have been during the previous year; what additions to the plant, if any, have been made; the actual cost thereof; its receipts and whence derived; and expenditures and for what made, during the previous year. Such reports shall be open to public inspection. The books, papers, accounts and records of said Ditch Company shall at all times be subject to the inspection of the governor or the commissioner, and to any agent or representative of said officers or either of them.

The amount to be paid to the Ditch Company for such purchase shall be determined by a commission of three (3) persons, one (1) to be appointed by the Ditch Company, or in case it should fail to do so within thirty (30) days after requested to do so by the governor then by the Chief Justice of the Supreme Court of Hawaii, one (1) by the purchaser and the third by the two (2) so appointed, or in case they should fail to agree upon the third member within thirty (30) days, then by said Chief Justice.

Either the Ditch Company or the Territory may appeal to the Supreme Court of Hawaii from the decision of such commission by filing a written notice of appeal with the commission within five (5) days after the decision is rendered. It shall thereupon be the duty of the commission immediately to certify up to the Supreme Court the record of its proceedings, showing in such certificate the valuation claimed by the association, the valuation claimed by the purchaser, and the valuation as determined by the commission. Such certificate shall be accompanied by copies of all papers, documents and evidence upon which the decision of the commission was based and a copy of such decision. Upon any such appeal the Supreme Court may in its behalf take or require further evidence to be introduced by either party.

Senator Hewitt presented a Report (No. 210) from the Committee on Manufactures, Forestry and Promotion, recommending the passage of Senate Bill No. 112, as follows:

Honolulu, April 5, A. D. 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Manufactures, Forestry and Promotion to whom was referred Senate Bill No. 112, entitled "An Act to Regulate the Importation and Sale of Seed Into and Within the Territory of Hawaii," has had the same under careful consideration and begs leave to report as follows:

The object of this proposed law is to prevent as far as is

practicable the entry of weed seeds into the Territory of Hawaii and to make it possible for the people to get seed of the kinds of agricultural seed that they desire reasonably free from adulteration.

Pure seed laws are in line with the pure food and fertilizer control legislation of recent years. The present act follows closely a bill introduced in the last Federal Congress and an act now in force in North Dakota. Among other progressive States having legislation of this character are Maine, Virginia, Tennessee and Kentucky.

It is not proposed at this time to ask for an appropriation to carry on the seed inspection. With its present equipment, especially in connection with the Entomological inspection, the Board of Agriculture and Forestry will be able to make a beginning.

If later it is found advisable to pay more attention to seed inspection, the needs can be brought to the attention of subsequent legislatures.

Under the climatic conditions that exist in Hawaii the establishment of a bad weed is a serious menace to local agriculture, even more so than on the mainland.

The enforcement of a pure seed law will go far toward keeping this danger in check.

Your Committee therefore recommends the passage of the Bill.

Respectfully submitted,

GEO. C. HEWITT,
Chairman.
A. S. KALEIOPU,
PHILIP PALI.

BE IT RESOLVED by the Legislature of the Territory of Hawaii that the Chairman of the Committee on Public Lands and Internal Improvements of the House of Representatives, the Chairman of the Committee on Agriculture, Forestry, Promotion and Immigration of the House of Representatives, the Chairman of the Committee on Public Lands of the Senate, the Chairman of the Committee on Manufactures, Forestry and Promotion of the Senate, and one other person to be named by the Governor, shall be, and they are hereby appointed and constituted a Committee for the purposes hereinafter set forth.

No officer or employee of, or stockholder in, any grazing, planting or transportation corporations, nor any manager, trustee, or employee of any grazing or other large landed estate, shall be eligible for such appointment by the Governor.

It shall be the duty of such Committee to organize as soon as may be after appointment, and to elect one of its members as Chairman and one of its members as Secretary of such Committee, and thereafter to inquire into the methods and policy which have in recent years been observed, and are now observed and followed by the Territorial Administration with respect to the management, control, leasing and other disposition of the public lands, and especially to inquire whether said Territorial Administration has fairly, intelligently and impartially administered the law with reference to the setting aside and allotment of lands for homestead purposes, and with reference to the treatment of homesteaders to whom such allotments have been made; and further to inquire whether said Administration has faithfully and impartially administered said laws as between the planting or grazing corporations and other large land-holders on the one hand, and those desiring to obtain, or those holding homesteads on the other hand; such inquiries to include all questions concerning the use and disposition of water and water rights pertaining to the Government as between corporations and individuals; and further to inquire to what extent, if at all, the owners or managers of planting or grazing corporations or estates, have combined, or are now combining, to the end or for the purpose

of depressing the rental or other values of privately owned lands adjoining or adjacent to the estates of such grazing or planting corporations or estates, respectively, or whether any oppressive measures have been or now are in vogue on the part of such, or any of such corporations, or estate owners, toward the owners or holders of privately owned lands in their respective vicinities, or whether the policy pursued by any such planting or grazing corporations, or estate owners, or by any corporation or corporations engaged in the transportation of passengers or freight within or between ports of this Territory is inimical to the best interests of small land holders, and to what extent such corporations, or any of them, might profitably be regulated by law in the interest of the building up of a system of small farming and of a class of small farmers within this Territory.

It shall further be the duty of such Committee to report its findings and recommendations in the premises to the Governor not later than January 1, 1913, and the Governor shall transmit such report to the Legislature at its next Regular Session.

The members of such Committee shall serve without compensation, but their reasonable expenses shall be paid upon the certificate of the Chairman and the Secretary of said Committee, and the sum of two thousand dollars (\$2,000.00) is hereby appropriated out of any moneys in the Treasury, not otherwise appropriated, for the payment of such expenses.

The Report of the Committee was received and placed on file.
Senator Hewitt presented a Report (No. 215) from the Com-
mittee on Manufactures, Forestry and Promotion, recommend-
ing the passage of House Bill No. 91, as follows:

Honolulu, April 6, 1911.

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Manufactures, Forestry and Promotion,
to whom was referred House Bill No. 91, entitled "An Act to
Encourage Certain Industries," has had the same under care-
ful consideration and begs leave to report as follows:

The Bill seeks to exempt from taxation for three years,

from and after January 1, 1911, all property real and personal, actually used in the production of cotton, tobacco, sisal, rubber, and copra for commercial purposes.

Your Committee is in favor of the features of the Bill and therefore recommends its passage.

Respectfully submitted,

GEO. C. HEWITT,

Chairman.

PHILIP PALI,

A. S. KALEIOPU.

Upon motion by Senator C. Brown, seconded by Senator Judd, the Report of the Committee was adopted; House Bill No. 91 passed Second Reading, and was placed on the Calendar for Third Reading on Friday, April 7, 1911.

Senator Judd presented a Report (No. 216) from the Judiciary Committee, recommending the tabling of House Bill No. 185, as follows:

REPORT ON HOUSE BILL NO. 185.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 185, To Amend Chapter 151 of the Revised Laws of Hawaii, Relating to Registration of Conveyances by Adding Thereto Three Sections to be Known as Sections 2358A, 2358B and 2358C, Providing for County Records of Conveyances, begs leave to report as follows:

The objects sought to be attained by this bill are to provide for the keeping in the various counties of records of conveyances registered in the office of the Registrar of Conveyances, and which concern land within the respective counties, and requiring the Registrar to furnish such records, and to furnish in addition indexes thereof.

Your Committee has given this bill very careful consideration, and finds that to carry out the provisions thereof would burden the Territory with a heavy expense, it being estimated that it would require in the neighborhood of \$15,000.00 to do this work for the next biennial period. This expense is very large in view of the small demand there is for this additional work. It is believed that there is very little demand on the part of people on the other Islands for County Records of this sort, and that the call only comes from a very few per-

sons. Such being the case, and in view of the condition of the finances of the Territory it does not seem advisable to incur the large expense necessary to carry out the provisions of this bill, and especially in view of the small demand therefor.

Your Committee therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

April 6, 1911.

The Report of the Committee was adopted, and House Bill No. 185 was tabled.

Senator Chillingworth presented a Report (No. 217) from the Committee on Public Health, recommending the passage of House Bill No. 150, as follows:

Honolulu, Oahu, April 6, 1911.

Honorable E. A. Knudsen,

President of the Senate.

Sir:—

Your Committee on Public Health, to whom was referred House Bill No. 150, entitled "An Act Relating to Adulterated Foods and Drugs, Amending Sections 1041 and 1043 of the Revised Laws and Adding a New Section to be Known as Section 1042A," has had the same under careful consideration and begs leave to report as follows:

This Bill has had the Committee's careful consideration, and recommends its passage for the same reasons as stated in the report of this Committee on Senate Bill No. 89, to wit, the safeguarding to the consumer of certain food products.

This Bill establishes certain standards as to certain food products, and will be of material assistance to the Government in prosecutions for the adulteration of food products.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,

Chairman.

ALBERT F. JUDD,

PHILIP PALI.

Upon motion by Senator Quinn, seconded by Senator Kalei-opu, the Report of the Committee was adopted; House Bill No. 150 passed Second Reading, and was placed on the Calendar for Third Reading on Friday, April 7, 1911.

Senator Chillingworth presented a Report (No. 218) from the Committee on Public Health, recommending the tabling of Senate Bill No. 43, as follows:

Honolulu, Oahu, April 6, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health, to whom was referred Senate Bill No. 43, entitled "An Act to Provide for Medical Inspection of the Public School Children in the Territory of Hawaii," has had the same under careful consideration and begs leave to report as follows:

We regard the purposes of this Bill excellent, but at the present time there is no necessity of it.

Government Physicians now perform many, if not all, the requirements of the Act, while teachers are not only required to take an interest in the health of their children, but as a part of their teaching to give them elementary ideas on hygiene and sanitation.

For the above reasons, your Committee recommends that this Bill be tabled.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.

PHILIP PALI,
ALBERT F. JUDD.

The Report of the Committee was adopted, and Senate Bill No. 43 was tabled.

Honolulu, Oahu, April 6, 1911.

President of the Senate.

Sir:—

Your Committee on Public Health, to whom was referred

Senate Bill No. 89, entitled "An Act to Provide for the Issuance of Licenses for the Manufacture, Compounding and Preparation of Certain Food Products," has had the same under careful consideration and begs leave to report as follows:

In line 5 of Section 1 of this Bill, your Committee recommends the changing of the word "of" to "or".

This Bill seeks to create a safeguard to the consumer of certain Food Products, and therefore recommends the passage of the Bill.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.

ALBERT F. JUDD,

HOUSE CONCURRENT RESOLUTION NO. 21.

WHEREAS, there is a general complaint from persons applying for titles to homesteads, that the Department of Public Lands is wrongfully holding back and delaying the granting of such titles:

THEREFORE, BE IT RESOLVED, by the House of Representatives of the Legislature of the Territory of Hawaii, the Senate concurring, that the Commissioner of Public Lands is hereby directed to furnish the following information:

First: How many applications for titles are now held in the Department, or in the hands of the Attorney General.

Second: The name of each applicant, the date when lease was issued, the date of application for title, the amount of money paid on each application, and the date when referred to the Attorney General.

Third: Have there been any protests against the granting of any of the said titles, and if so, by whom?

Fourth: Have there been any protests against the opening of any of these lands for settlement, and if so, by whom?

At 11:43 o'clock A. M., the Senate took a recess until 2:00 o'clock P. M.

AFTERNOON SESSION.

The Senate came to order at 2:00 o'clock P. M.

Senator Fairchild presented a Report (No. 220) from the Committee on Ways and Means, recommending the passage of Senate Bill No. 113 with one amendment, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred Senate Bill No. 113, report that they have had same under consideration.

The Act introduced is for the purpose of turning over to the several Counties and to the City and County of Honolulu, all the fees paid for the licenses issued under the provisions of the Act entitled "An Act to Regulate the Sale of Intoxicating Liquors," etc. Under the law now on the Statute Books, the fees are paid over to the Treasurer of the Territory. As the payment of the expenses of the Circuit Courts have been at this session made payable by the Counties and the City and County of Honolulu, other revenue must be provided in order that enough money to pay such extra expenses can be provided for, and the Act under consideration was introduced for that purpose.

In making this change, it is necessary therefore that the several Counties and the City and County of Honolulu should pay all the expenses incurred in the administration of the Act to regulate the sale of intoxicating liquors, etc. It will therefore be necessary that an amendment be made to the Act now under consideration providing for the payment of the expenses incurred by the several Boards of Liquor Commissioners in the Counties and in the City and County of Honolulu.

The Committee therefore recommends that an amendment at the end of Section 26 as proposed by the Act under consideration be made as follows:

"And the expenses of the Board in each County or City and County and the salaries to be fixed by the Board of all officers appointed by it, shall be paid by the Treasurer of such County or City and County, upon warrants issued by the Auditor thereof upon requisitions therefor made by the Chairman of the Board to an amount not exceeding the following in any year:

City and County of Honolulu	\$7,500."
County of Hawaii	2,500.00
County of Maui	1,250.00
County of Kauai	1,250.00"

Should this amendment be adopted, the appropriation already made under the head of "Liquor Commission \$25,000" in Act 22 now under consideration by this body, should be stricken out.

With the above amendment, we recommend the passage of the Act.

Respectfully submitted,

GEO. H. FAIRCHILD,
WM. T. ROBINSON,
E. W. QUINN,
CECIL BROWN.

Honolulu, April 6, 1911.

Senator Baker gave notice of his intention to introduce a Bill entitled "An Act to Repeal Chapters 46 and 47 of the Revised Laws, Relating to Waterworks at Wailuku, Kahului and North Kohala."

Under suspension of the Rules, Senator Baker introduced Senate Bill No. 121, entitled "An Act to Repeal Chapters 46 and 47 of the Revised Laws, Relating to Waterworks at Wailuku, Kahului and North Kohala."

The Bill passed First Reading by Title and was referred to the Printing Committee.

At 2:07 o'clock P. M., the Senate resolved itself into a Committee of the Whole, Senator Makekau in the Chair, for the consideration of Senate Bills Nos. 22 and 50.

At 4:16 o'clock P. M., the Committee rose, reported progress and asked for time in which to file their report.

The Report of the Committee was adopted.

A Communication (No. 185) from the House of Representatives, notifying the Senate of its non-concurrence in the amendment made to House Bill No. 48, was read by the Clerk as follows:

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., April 6, 1911.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

I have the honor to inform your Honorable Body that the House of Representatives of the Territory of Hawaii, this day, failed to concur in the Senate amendment to House Bill No. 48, and that the Speaker of the House has appointed the following as a Conference Committee to act with a like committee to be appointed by the President of the Senate for the further consideration of said Bill:

Representatives Castle, Waiaholo and Kanekoa.

Very respectfully yours,

EDWARD WOODWARD,
Clerk, House of Representatives.

The Communication was received and placed on file, whereupon the Chair appointed Senators Judd, C. Brown and Makekau as Senate Conferees for the further consideration of House Bill No. 48.

Senator Chillingworth presented a Report (No. 221) from the Committee on Public Health, recommending the passage of Senate Bill No. 44 with one amendment, as follows:

Honolulu, Oahu, April 6, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health has had Senate Bill No. 44 under consideration and recommends that the bill pass with the following amendment, viz:

In line 2 of Section 1 amend by striking out the word "Twenty" and the figures "20,000.00" and insert in lieu thereof "Five" and the figures "5,000.00."

Your Committee finds that since the date named in the bill only eleven persons have been found free from disease and nearly all have since found employment.

This Bill does not contemplate those to be discharged in the future and your Committee therefore believes that the sum of Five Thousand will be sufficient.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.

ALBERT F. JUDD,
PHILIP PALI.

Upon motion by Senator Chillingworth, seconded by Senator Judd, the Report of the Committee was adopted; Senate Bill No. 44 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Friday, April 7, 1911.

Senator J. T. Brown presented a Report (No. 222) from the Printing Committee, stating that Senate Concurrent Resolution No. 6 was printed and ready for distribution.

The Report of the Committee was received and placed on file, and Senate Concurrent Resolution No. 6 was placed on the Calendar for Friday, April 7, 1911, for consideration.

Senator Chillingworth presented a Report (No. 223) from the Committee on Public Health, recommending the passage of House Bill No. 135 with certain amendments, as follows :

Honolulu, Oahu, April 6, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health begs leave to report on House Bill No. 135 as follows:

After a careful consideration we recommend that the title be amended so as to read as follows:

“AN ACT

TO PROVIDE A CLOSE SEASON FOR THE PROTECTION
OF MULLET.”

In line 4 of Section 1, strike out the words “of amaama, otherwise known as.”

In line 8 of Section 1, strike out the words “Amaama, otherwise known as.”

In line 11 of Section 1, strike out the following words “Ama-

ama, otherwise known as," and also the same words in lines one and two of Section 3.

In line 13 of Section 1, strike out remainder of section after the words "privately owned."

Amend after words "privately owned" by placing a period instead of a semi-colon.

Your Committee has made a careful investigation of the results of passing this bill without the foregoing amendments and find that to pass it would be to exterminate the carrying on of the fish industry as far as fish ponds are concerned.

Mullet do not breed in ponds and it is absolutely necessary to re-stock the fish ponds with young fish taken from the sea during the spawning season.

As Mullet do not propagate their young in Ponds your Committee feels that it would be an injustice to prevent owners of fish ponds from selling their fish or to prevent them by law from taking young fish from the sea to re-stock their ponds.

Your Committee finds a considerable difference of opinion as to what should be the closed season.

Inquiry of the Staff of the B. P. Bishop Museum discloses that "unluckily science knows nothing positive about the breeding season of most of the Hawaiian fish."

While the director of the Museum believes the spawning season of the Mullet is early in the year one of the Staff inclines to the theory that the season is in June and July and the ichthiologists Jordan and Everman say that the principal spawning season is from the latter part of October to the early part of February (Commissioner's Report 1901, U. S. Commission of Fish and Fisheries).

The Bill as amended is recommended for passage by this Committee, as it might be of some good.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.

PHILIP PALI,
ALBERT F. JUDD.

lingworth, House Bill No. 193 was referred to the Judiciary Committee.

Upon motion by Senator Judd, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 22 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Saturday, April 8, 1911.

Senator Fairchild presented a Report (No. 224) from the Committee on Ways and Means on Senate Bills Nos. 61, 72 and 96, Senate Resolution No. 18, and House Bills Nos. 103, 145, 155, 167, 172 and 174, relating to various claims and unpaid accounts, as follows:

SENATE CHAMBER.

Honolulu, April 7, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bills 61, 72 and 96, Senate Resolution No. 18, and House

Bills 103, 145, 155, 167, 172 and 174 relating to various claims and unpaid bills, has had the same under due and careful consideration and investigations, and begs leave to report as follows:

All of the bills referred to, including the Resolution, are for claims incurred and which were presented for payment after the close of the period for which regular appropriations were provided, some of which were for refund of amounts collected by the Department of Public Lands on account of land sales which were withdrawn and disposed of to others than those who made deposits in good faith on account of the purchase price of the lots selected. Each of the items contained in the said bills and resolution have been checked, and those that were incurred illegally were stricken out by the Committee, and those items which were charged contrary to established rates were corrected,—interests charged being refused.

Realizing the great expense incidental in printing bills practically covering the same subject matter, your Committee has merged all of the approved items into one bill, by using House Bill 145 as the basis into which amendments necessary are to be inserted.

The order of these insertions are as follows:

Department of the Attorney General.

Treasury Department.

Department of Public Instruction.

Department of Public Works.

Maintenance, Repairs, Additions, Landings and Wharves,
Maul.

Honolulu Wharf and Harbor Improvements.

Department of Public Lands. (as in the bill)

Board of Health.

The Courts.

The Secretary.

Each heading above referred to is hereby treated separately so as to make clear the method employed by the Committee in arriving at this report.

DEPARTMENT OF THE ATTORNEY GENERAL.

The items under this headings are transferred from House Bill No. 174. The total of "\$202.50" in line "8" thereof is changed to "\$162.00" in order to comply with the rate of charges fixed by the Supreme Court, Vol. 8, p. 459, Haw. Rep. The other items under this head are vouched for as being correct by the Attorney General. Claim of R. A. Churton is struck out for want of proper voucher.

TREASURY DEPARTMENT.

The items under this heading were submitted to the Committee, and upon investigation, the vouchers therefor found proper excepting one for "\$50.00" put in by M. M. Springer for transcripts furnished, which was reduced to "\$42.11" to comply with the ruling of the Supreme Court, Vol. 8, p. 459, Haw. Rep.

DEPARTMENT OF PUBLIC INSTRUCTION.

The items under this heading were submitted to the Committee, and upon investigation, the vouchers therefor were found proper and lawfully incurred. And the item "A. B. Lindsay, Sept. 30, 1908, \$45.40" is from House Bill No. 167, duly authenticated.

DEPARTMENT OF PUBLIC WORKS.

The items under this head are from Senate Bill No. 96—vouchers for which have been submitted properly authenticated. A new item is added reading as follows: "Feb. 28—June 30, 1903—Hilo Electric Light Co., Ltd., \$35.50" from House Bill 103 as corrected. The original item was for \$407.77." This claim has been before the Legislature, now, for the third time. In 1905, the Legislature inserted in the appropriation bill under the heading "To Hilo Electric Light Co., \$101.50." Governor Carter, in his veto message called the attention of the legislature to the fact that the items making up this total of \$101.50 were "wholly incurred during the period when no appropriation existed, and were thus without Legislative authority." Senate Journal, Extra Session 1905, p. 2216.

In the Session of 1909 the claim appeared again as House Bill No. 174 claiming "\$416.17" which passed the House without amendment, and evidently without proper examination of the items, and merely on the say-so of the official of the Department of Public Works who recommended them to be allowed. When the Bill came to the Senate of 1909, it was referred to the Select Committee of Hawaii—Senators Palmer P. Wood, Chairman, John T. Brown, D. K. Baker and R. H. Makekau, who, upon due and careful investigation reported as follows:

SENATE CHAMBER.

Honolulu, T. H., April 26, 1909.

Hon. W. O. Smith,
President of the Senate,
Honolulu.

Sir:—

Your Select Committee, consisting of the Members from the Island of Hawaii, to whom was referred House Bill 197, entitled "An Act to appropriate Money for the Relief of the Hilo Electric Light Company, Limited," begs leave to report that it has had the same under careful consideration.

From investigations made by your Committee it finds that the amount of the claim was contracted for without the least color of authority and in violation of Section 4 of Act 10, Session Laws of 1903, and therefore recommends that the Bill be laid upon the table.

A Communication from the Auditor, showing the complete standing of the claim sought to be recovered by this Bill, is attached hereto and made a part of this Report.

Respectfully submitted,

PALMER P. WOOD,
Chairman.

DAVID K. BAKER,
R. H. MAKEKAU,
JOHN T. BROWN.

TERRITORY OF HAWAII.
AUDITING DEPARTMENT.

Honolulu, April 22, 1909.

Honorable Palmer P. Woods,
Member, Select Committee of Hawaii Members.

Dear Sir:—

Replying to your inquiry as to bills of the Hilo Electric Light Company, I beg to make the following statement:

The first claim No. 2284 is intended to be a charge against the appropriation for "Hilo Fire Department" for \$69.40; by referring to the items as stated on the back of the bill of the Hilo Electric Light Co., it will be noticed that the charges from December 31, 1902, to June 30, 1903, amount to \$43.90 and belong to the appropriation for the biennial period of 1901-1903,

and by reference to the receipts on file in this office I find that the items for December 31, 1902, and January 31, 1903, for \$4.20 each have been paid by warrants Nos. 1071 and 1073 respectively, thus reducing this amount to \$35.50.

The Legislature of 1903 passed an appropriation bill for six months, from July 1, 1903, to December 31, 1903, and an eighteen months bill from January 1, 1904, to June 30, 1905. In neither of these bills was there an appropriation out of which these items could be paid.

The County Act having been declared invalid by the Supreme Court January 13, 1904, Governor Carter reappropriated the items of the six months bill to cover the needs of the Territory to June 30, 1904.

From July 1, 1903, to December 31, 1903, the Light Company make no charge but from January 1, 1904, to June 30, 1904, they made a charge of \$25.50 for light furnished during that time.

In view of the above facts I hold that the items amounting to \$25.50 were contracted without the least color of authority and in violation of Section 4, of Act 10, S. L. 1903.

Why the first mentioned items for \$35.50 were not presented and paid at the proper time I do not know, but was probably the fault of the company as a balance of \$2,118.90 lapsed at the end of the period, June 30, 1903.

The bill of the company for \$99.60 is a proper charge against the appropriation for "Electric Lighting, Hilo Streets," but could not be paid when presented as a part of their bill for \$232.80 (voucher 11234) and was deducted therefrom for the reason that there was a balance of only \$191.90 in the appropriation at the time.

The bill of the same Company dated March 31, 1903, for \$247.70 against "Electric Lighting, Hilo Streets" for extending pole line and changing location of eight lights (as stated on the back of the bill) evidently was never presented for payment. Of the small balance remaining in the appropriation at the time, I hold that as the balance of the appropriation at the date of the bill was barely sufficient to pay the regular monthly lighting bills to the end of the period, the bill should never have been contracted, even if eight lights had to be dispensed with, and is a violation of Section 4 of Act 4, S. L. 1901.

In this connection I beg to inform you that in pursuance of resolution No. 45 of the Senate, adopted May 1, 1907, I advertised during the month of November last and the above bills were not presented in response thereto. I have the honor to remain,

Very truly yours,

J. H. FISHER,
Auditor, Territory of Hawaii.

See Senate Journal, 1909, pp. 1117-1119.

House Bill 174 was Substituted by House Bill 197, Session 1909.

Whereupon, after due motion being put, the report of the Select Committee was unanimously adopted.

It is a very significant fact that the Hilo Electric Light Co., Ltd., in 1909 claimed \$416.17 as per House Bill 174. The Auditor in his communication to the Committee as above quoted shows that "\$8.40" were paid thus reducing the claim to \$407.77. The Auditor also called attention to the fact that the items making up this total of \$407.77 less \$35.50 were incurred without authority of law and contrary to the specific provisions of Section 4 Act 4, Laws of the Extra Session of 1901 which reads:

"Section 4. It shall be lawful for the Treasurer to make payments in accordance with the appropriations authorized by this Act, until the Thirtieth day of June 1903; Provided that the Auditor shall not draw a warrant for any sum on account of any bill for salaries and pay rolls in this Act in excess of the due proportion of the amount appropriated for such item for the time elapsed."

and also—

"Section 4. Act 10, Laws of the Extra Session of 1903 which reads:

"Section 4. The Auditor shall not draw a warrant in payment for any of the objects named in this Act, except as herein provided, and the unauthorized expenditure of any money from the Treasury to be hereafter accounted for the Legislature by an Indemnity Bill, is hereby expressly prohibited."

In this connection also, the Committee obtained from the Hilo Electric Light Co., Ltd., an itemized Bill for particulars—dated March 28, 1911, for items incurred from Dec. 31, 1902 to April 30, 1905—both days inclusive—a total of claims amounting to \$347.30. Among the items making up this total of \$347.30, is a claim for \$247.70, under date of April 30, 1905. In 1909, that same claim was put in as of March 31, 1903. The Committee is informed that the bill of particulars submitted is a correct abstract of the accounts shown by the books of the Hilo Electric Light Co., Ltd. If so, then there is evidence of very careless accounting on the part of the said company, and the Department of Public Works should be severely censured for permitting subordinates and representatives of the department to incur expenses for which no provisions were made by the legislature. The allowance of unauthorized expenditures, and especially such as are expressly prohibited by Act of the legislature, will only place the legislature in the position of a "machine" for some careless official to handle at will.

All the items under the heading "MAINTENANCE, RE-

PAIRS, ADDITIONS, LANDINGS AND WHARVES, MAUI," are from House Bill No. 172—and all of which are certified to by properly authenticated vouchers.

The items under the heading DEPARTMENT OF PUBLIC LANDS are the original items of the Bill with 9 new items of similar character. That is to say: All are for refund of monies deposited on account of the purchase price of each lot through error, and were not refunded under the provisions of Section 276, Revised Laws of Hawaii as amended by Act 57 of the Session Laws of 1909. All of the claims were certified to by the Commissioner of Public Lands.

Under the heading BOARD OF HEALTH, one claim properly authenticated by certified voucher is also inserted.

The items under the title "THE COURTS, THIRD CIRCUIT," are from Senate Bill No. 61, with the following insertions:

"Constantine V. Moreira, June 30, 1909,.....\$2.00
 "M. M. Springer, Feb. 28, 1906,..... 6.12
 "M. M. Springer, March 31, 1906,..... 9.00"

The words "Estate of" in line 16 of said S. B. 61 are stricken out, because the service rendered was by Joseph H. Martin and not by his estate. And, if he is dead, Section 2 of the Bill as amended provides for the collection of the claim by the legal representatives or assigns of said Joseph H. Martin, or other claimants.

Insert a new Section to read:

"Section 3. The appropriations under this Act shall lapse after the 30th day of June, A. D. 1911. Renumber "Section 3" as "Section 4."

With these Amendments, the Committee recommends the passage of House Bill No. 145 as amended, a copy of which is hereto appended and made a part thereof.

House Bill No. 155 seeks to provide relief for one Geo. Kauwe for certain land taken by the government in 1878 for road purposes. About 4.57 acres. The land in question is situated in Kau, Hawaii, and is covered by Royal Patent No. 2644, for which the very small fee or price paid was only \$24 for the whole of 94 acres in the patent, of which the $4\frac{1}{2}$ acres is a part. Every session of the legislature of Hawaii from 1880 to date has had to appropriate monies for road damages. At the time the road in question was constructed, the land was under lease to the then existing plantation in Kau, and using that particular land covered by R. P. 2644. And the road was cut through the land with the full knowledge and consent of the lessee, and without any objection from Geo. Kauwe or those from whom he inherited the land. The Committee therefore, recommends the tabling of this Bill.

A new item is inserted to follow the claims under "THE COURTS," to read as follows:

THE SECRETARY.

The Senate of 1909:

Claim of The Garden Island Publishing Co., Ltd., Feb. 18, 1909, for 7 subscriptions ordered per Senate Resolution No. 3—the original warrant for payment of same, No. 128, dated May 5, 1909, having been lost and payment stopped,\$5.25."

The Committee also recommends that Senate Bills Nos. 61, 72 and 96 (72 and 96 practically covering the same items), also Senate Resolution No. 18, and House Bills Nos. 103, 155, 167, 172 and 174 be tabled.

In concluding, your Committee desires to call the special attention of the Senate to the absence of a statutory provision to prevent the regular recurrence of requests to the legislature for appropriations to pay unpaid departmental bills which were usually presented long after the close of the biennial period. Some definite time should be fixed within which lawfully contracted claims should be presented or filed with the Auditor properly attested.

The Committee strongly disapproves of the present manner in which departmental heads submit their "unpaid claims." The respective legislative Committees are unaware of any such claims, with few exceptions, until various bills for the same items are referred to them. Very often these claims are unaccompanied by any proper voucher. The Auditor too, is often without knowledge of the presentations of many of the claims—some of which, in many instances would have already been stricken out by him,—having been paid or illegally contracted. All unpaid claims should be submitted to the legislature through the Auditor on the opening day of the legislature, extraordinary cases, excepted.

Very respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

JOHN T. BROWN,
CECIL BROWN.

At 11:49 o'clock A. M., the Senate took a recess until 2:00 o'clock P. M.

AFTERNOON SESSION.

The Senate came to order at 2:00 o'clock P. M.

Senator Judd presented a Report (No. 226) from the Judiciary Committee, recommending the passage of Senate Bill No. 116, as follows:

REPORT ON SENATE BILL NO. 116.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 116, to reimburse Wm. P. Thomas and Chung Ah Get, holding Lots Nos. 18 and 19 respectively, of the Pupukea-Paumalu Tract, for the reduction in the Area of their lots caused by the settlement of boundaries, begs leave to report as follows:

Upon investigation your Committee finds that the men above named hold Lots Nos. 18 and 19 of the Pupukea-Paumalu Tract under right of purchase leases from the Territory; that these lots are located on the boundary of the Government land; that there arose a dispute between the Territory and the Oahu Railway and Land Company as to the exact location of this boundary; that upon investigation the Territory found that its survey of the boundaries of its land at Pupukea-Paumalu was not correct; that 29.35 acres of the Thomas Lot and 97.44

acres of the Ah Get lot, did not in fact belong to the Territory. The Committee also finds that the Territory has been collecting rentals from these two men in question, and that the sum of \$406.78 represents the money which these two men have actually paid into the Territorial Treasury for the land which it was supposed they had secured from the Territory, but which in fact did not belong to the Territory. It might be added that the above referred to settlement of boundaries took from these men the larger portion of their lots.

This money having been paid under a mistake of fact, both by the Government, and by the men, your Committee considers it only just and fair that they should be reimbursed therefor, and accordingly recommend that this bill be passed.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 7, 1911.

Upon motion by Senator Fairchild, seconded by Senator Hewitt, the Report of the Committee was adopted; Senate Bill No. 116 passed Second Reading, and was placed on the Calendar for Third Reading on Saturday, April 8, 1911.

Senator Judd presented a Report (No. 227) from the Judiciary Committee, recommending the passage of Senate Bill No. 85 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 85.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 85, to give certain rights and powers of eminent domain to corporations organized for the purpose of developing, storing, conveying, distributing and transmitting water for irrigation, and for the reclamation of arid and semi-arid lands in the Territory of Hawaii, begs leave to report as follows:

Your Committee recommends the following amendments to this bill:

First: Strike out from the title of this bill the following words:

"AND FOR THE RECLAMATION OF ARID AND SEMI-
"ARID LANDS IN THE TERRITORY OF HAWAII."

Second: Strike out from Section 1 of this bill the following words:

"and for the reclamation of arid and semi-arid lands in the
"Territory,"

Third: Amend Section 2 of this bill by adding at the end of said section the following; first inserting a semi-colon instead of a period after the word "Irrigation:"

"Provided, however, that no such corporation shall exercise such right of condemnation in more than one county."

Fourth: Strike out the word "each" in line 3 of Section 4 of this bill, and insert in lieu thereof the word "either."

Your Committee has carefully considered all objections which have been made to this bill, and believes that the bill as amended meets all these objections.

As has been stated on the floor of the Senate, the bill is extremely limited in its provisions. It gives the right to bona fide irrigation companies only, and only to such companies as own tangible property to the amount of \$50,000 in value, to condemn rights of way to enable them to take the water which they own and supply it to the purchasers and users of the water. The interests of the private owners of land are amply safeguarded by the provisions of Chapter 64 of the Revised Laws. It is further provided in the bill that the easement obtained by the irrigation companies shall lapse in either of two events, 1, of the company not using the ditches for the period of one year, or, 2, of using them for purposes other than for irrigation and domestic purposes. Your Committee believes that the bill is a step forward, and is necessary in the agricultural development of the country, and urges the passage of the bill.

Your Committee recommends that this bill be passed as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

April 7, 1911.

Committee.

Upon motion by Senator C. Brown, seconded by Senator Ma-

kekau, the Report of the Committee was adopted; Senate Bill No. 85 passed Third Reading as amended on the following division of Ayes and Noes:

Ayes: Senators Baker, C. Brown, Chillingworth, Fairchild, Hewitt, Judd, Kalama, Kaleiupu, Makekau, Pali, Quinn, and President Knudsen. Total, 12.

Noes: Senator Robinson.

Absent and not voting: Senator J. T. Brown.

Senator Judd presented a Report (No. 228) from the Judiciary Committee, recommending the passage of Senate Bill No. 118 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 118.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 118, To Amend Chapter 102 of the Revised Laws of Hawaii, as Amended by Act 96 of the Session Laws of 1907, Amending Section 1418H Thereof, Relating to Peddlers, begs leave to report as follows:

The matter of issuing licenses to peddlers is now a County matter, and the object of this bill is to enlarge the powers of the County Treasurer in the matter of the issuance of such licenses, granting power to issue licenses for a period of not less than three months, and to charge for the licenses at the rate of \$12.50 for every three months or fraction thereof. It frequently happens that a peddler desires to carry on his business in one county for a few months and then move to another county for a few months, go over that territory, and then to another county. Under the present law in each instance it is necessary for him to take out a license in each county for the full year, paying the full sum of \$50 therefor. Under the laws of the Territory before the amendment of 1907, this hardship was not imposed, since one license covered the whole Territory. The idea of the present bill is to charge only for what is actually received in benefits, and not to impose such a fee in each county as will practically prohibit a peddler from conducting his business in more than one county during the year.

To fully carry out these objects your Committee finds it necessary to amend the bill, and therefore recommends the following amendments:

Add the following words after the word "Dollars" in line 3 of Section 1 of this bill:

"To be paid quarterly in advance at the rate of Twelve Dollars and Fifty cents for every three months or fraction thereof;"

Second: That the first line of section 1, after the words "Section 1" be stricken out, and that the following words be inserted in lieu thereof:

"Section 1418H of the Revised Laws of Hawaii is hereby amended to read as follows:"

This latter amendment is only a verbal one, and in no way changes the objects of the bill.

Your Committee believes this to be a just and fair measure, and therefore recommends the passage of the bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 7, 1911.

Upon motion by Senator Chillingworth, seconded by Senator J. T. Brown, the Report of the Committee was adopted; Senate Bill No. 118 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Saturday, April 8, 1911.

Senator Judd presented a Report (No. 229) from the Judiciary Committee, recommending the tabling of House Bill No. 17, and the passage of substitute Bill (Senate Bill No. 123) as follows:

REPORT ON HOUSE BILL NO. 17.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 17, Relating to Terms of the Second and Fourth Circuit Courts, Amending Section 1644 of the Revised Laws as Amended by Act 34 of the Laws of 1905, and Act 50 of the Laws of 1907, begs leave to report as follows:

This bill seeks to carry out the recommendations of the Governor in his message to the Legislature, pages 40 and 41 of the printed copy of his message, relating to the terms of

the Circuit Courts, abolishing the terms at Lahaina, Maui, and Honokaa, Hawaii. Upon investigation your Committee finds that the present bill does not go far enough, it leaving certain parts of the present law unchanged, and inconsistent with the provisions of this bill. Your Committee after careful consideration does not consider it advisable to abolish the term of the Circuit Court at Lahaina, Maui.

These changes are so material that your Committee has prepared a substitute bill, abolishing the term of the Circuit Court at Honokaa, Hawaii, and further amending the present law to make it consistent throughout to correspond with the abolishment of the term at Honokaa.

Your Committee therefore recommends that House Bill No. 17 be tabled, and that there be passed in place thereof the bill submitted with this report.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 7, 1911.

Upon motion by Senator Makekau, seconded by Senator Robinson, the Report of the Committee was adopted, and House Bill No. 17 was tabled.

First Reading of Senate Bill No. 123, entitled "An Act Relating to Terms of Circuit Courts, Amending Sections 1644 and 1646 of the Revised Laws of Hawaii, as Amended by Acts 34, 37 and 56 of the Session Laws of 1905, and as Further Amended by Act 50 of the Session Laws of 1907."

The Bill passed First Reading by Title and was referred to the Printing Committee.

Senator Judd presented a Report (No. 230) from the Judiciary Committee, recommending that House Bill No. 170 be referred to the Committee on Ways and Means, as follows:

REPORT ON HOUSE BILL NO. 170.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House

Bill No. 170, Appropriating Twenty-five Thousand Dollars for the purpose of Repaying Moneys Wrongfully Collected as Merchandise License Tax Under Sections 764 to 768 of the Penal Laws of 1897, begs leave to report as follows:

This bill was first introduced in the House as House Bill No. 94, and contained a list of names of those persons and firms in the Territory, with the amounts paid by them as license tax subsequent to June 14, 1900. This list is not a complete one, it only containing the names of those persons and firms still doing business in the Territory, and who, if this bill passes are likely to make claim for the refund of the taxes claimed to have been wrongfully collected. The total of this list is \$19,155.31. This bill was tabled in the House, and House Bill No. 170 introduced as a substitute therefor, making an appropriation of \$25,000.00 in one lump sum, the figure being so set so as to cover other claims that might come in in addition to those specified in the list contained in House Bill No. 94.

The unconstitutionality of this tax was decided in the case of Lansing vs. Davies, 13 H. 286, in January, 1901. The first claim for a refund of this tax was the case of the Hawaiian Fertilizer Company, Ltd., Petition No. 54, House of Representatives, session of 1903, dealt with in Standing Committee Report No. 212. The Petition was laid on the table to be considered with the appropriation bill. In the appropriation Bill, Extra Session 1903, Act 10, there appears an item Hawaiian Fertilizer Company \$1776.36. The facts in this case as shown by the Committee report are that the Hawaiian Fertilizer Company protested against the payment of the Tax, drawing a check for the amount thereof, and giving the same to the Treasurer of the Territory to be held in escrow by him pending an opinion of Judge Whiting as to the constitutionality of the tax. Before Judge Whiting gave any opinion the check was cashed, and the money turned into the Territorial Treasury. In view of these facts, and in view of the decision in the case of Lansing vs. Davies the Legislature of 1903, decided to reimburse the Hawaiian Fertilizer Company for the money so paid.

In the Legislature of 1905, one J. Goldstein made a similar claim for the refund to him of \$50 paid as license tax under the penal laws of 1897, House Bill No. 117. This was favorably reported on in a short report in the House and passed Third Reading there, House Journal page 712. The bill was adversely reported on in the Senate for the reason that "license paid in October, law declared unconstitutional in following January," and the bill was tabled in the Senate, Senate Journal page 730, 1905.

The matter of the refunding of all license taxes unlawfully

collected in 1900 came up in the 1907 Session of the Legislature, House Bill No. 182. This bill was tabled, and Substitute Bill No. 217 introduced in place thereof, passed Third Reading in the House, House Journal page 1384, the Committee making a short but favorable report. In the Senate the Ways and Means Committee verbally reported on the bill recommending that it be tabled, and the report was adopted, Senate Journal page 1240.

The matter was again brought before the Legislature of 1909, House Bill No. 186, providing for the repayment of the license taxes unlawfully collected in 1900. The bill was reported on by the Finance Committee, two reports, a majority report and a minority report, the majority report being very short, and favoring the passage of the bill. The minority report was at some length and recommended that the bill be tabled, stating that there was nothing in the bill to show that the claims were legitimate, nothing to show that license fees were paid under protest, that the proper remedy for the claimants was to have brought suit against the Territory; that previous legislatures had rejected the claims; and suggesting that the claims are barred by the statute of limitations, and that had it not been for the agitations, and that had it not been for the agitation of persons for private gain these claims would never have been made. The majority report was adopted, and a substitute bill introduced, Bill No. 215. This bill failed to pass the House on third reading, House Journal, 905.

A copy of House Bill No. 94 is attached to this report, it has been compared with the records in the office of the Territorial Treasurer and found to be correct. As originally printed there were several errors in the amounts therein, but these have been corrected in the copy appended to this report.

Your Committee desires to direct attention to the repayment to the Hawaiian Fertilizer Company of the license tax paid by it. The facts in that case were totally different from those of the claimants in House Bill No. 94, the company protested against the payment of the tax, and by a mistake their check which was to have been held awaiting a decision as to the constitutionality of the tax was cashed and the money covered into the Territorial Treasury, and the only way the Territory could carry out its agreement with the Fertilizer Company to return its check was to appropriate the amount thereof for repayment to them.

It is the opinion of this Committee that there is no legal obligation resting upon the Territory to repay this money. It might be different in the case of a man paying money under a mistake of fact or of law, and getting no benefit from the payment, but these persons and companies while they paid the

money under a mistake of law, did get a benefit from it, in that all those who did not pay the tax were kept out of the business of selling imported goods. The case seems to your Committee like the case of a person having paid sewer rates, without having contracted to do so, thus securing the benefit of the service, even though the law under which the rates were charged was declared unconstitutional. In such a case there is no obligation resting upon the Territory to repay these moneys collected as sewer rates.

This bill was referred to this Committee to report on the facts. This your Committee has done, and believing that this matter should be considered from the standpoint of policy and therefore should be referred to the Ways and Means Committee to find out where the money is to come from to pay the claims.

Your Committee therefore recommends that this bill be referred to the Ways and Means Committee.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 7, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Pali, the Report of the Committee on House Bill No. 170, together with the Bill were deferred for consideration until Monday, April 10, 1911.

Senator Judd presented a Report (No. 231) from the Judiciary Committee, recommending the tabling of House Bill No. 190, and the passage of a substitute Bill (Senate Bill No. 124), as follows:

REPORT ON HOUSE BILL NO. 190.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 190, To Amend Section 118 of the Revised Laws of Hawaii, Providing for Withholding a Portion of the Salary or Wages of Officers or Employees Indebted to the Territory of

Hawaii, or Any Municipal Corporation Thereof, begs leave to report as follows:

Under the terms of the present statute provision is made for the withholding of the salary or compensation of officers, agents and employees in the Public Service, until all indebtedness of such persons to the Territory or to any Department thereof shall be fully paid and discharged. This is construed by your Committee to mean that any public officer who, in his official capacity, is indebted to the Territory shall have his salary or compensation withheld until such indebtedness is discharged. The authority to withhold the salary or compensation of a public officer for the payment of debts which are due from him to the Territory in his private capacity is not given by this statute.

On the other hand the terms of House Bill No. 190, are so broad that it includes therein any and all indebtedness to the Territory from any officer or employee whether incurred in his official capacity or otherwise. Further this bill goes a great deal farther than the present statute and provides not only for the withholding of a portion of the salary or compensation, but provides for the appropriation of a certain portion of the salary or compensation to the payment of the indebtedness. At the most the present statute only provides for the withholding, and not for the actual appropriation of the salary or compensation to the payment of the indebtedness to the Territory.

Your Committee is of the opinion that in the case of public officers becoming indebted to the Territory in their official capacity, such as for embezzlement of public funds, etc., the Government should have the power to withhold all moneys which may be due such officer, and not only a portion thereof, as is provided for in the present bill. Furthermore, as to debts due to the Government by Public Officers in their private capacity the Government now has the same rights and remedies as any other creditor to sue, obtain judgment and garnishee debts due, salary or compensation earned or to become earned. In the one view this bill is, in its present form, undesirable, and in the other view unnecessary. However, upon investigation your Committee finds that in some instances it is highly desirable that the government should have the right to withhold a portion of an officer's salary for debts due the government, such as for taxes, water rates and sewer rates, when they have become delinquent, and to this end Your Committee have prepared and submit with this report a bill to carry out this idea.

Your Committee therefore recommends that House Bill No.

190 be tabled, and that the substitute bill submitted with this report be passed in place thereof.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 7, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Baker, the Report of the Committee was adopted, and House Bill No. 190 was tabled.

First Reading of Senate Bill No. 124, entitled "An Act to Amend Chapter 13 of the Revised Laws of Hawaii, by Adding a New Section Thereto to be Known as Section 118A, Providing for the Collection of Certain Debts Due the Territory, or Any Political or Municipal Subdivision Thereof, by Public Officers and Employees."

The Bill passed First Reading by Title and was referred to the Printing Committee.

Senator Judd presented a Report (No. 232) from the Judiciary Committee, recommending the passage of House Bill No. 227, as follows:

REPORT ON HOUSE BILL NO. 227.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 227, To Amend Sections 6 and 8 of Act 48 of the Session Laws of 1911, entitled "An Act to Define, Regulate and License Emigrant Agents," begs leave to report as follows:

The first amendment made is to Section 6 of Act 48 of this Session, by the insertion of the words "for the purpose of leaving the Territory" in lines 5 and 6 (lines 6 and 7 of Section 1 of this bill).

This amendment is for the purpose of making more clear and certain the original intent of the law.

The second amendment to this Act is to Section 9 thereof.

This section as it now stands in Act 49 of the Laws of 1911 makes it obligatory upon the County Treasurer to bring a suit to enforce the bond provided for in the Act. The amendment makes this obligatory only on the Treasurer in case he has been given assurances for the payment of costs.

After careful consideration your Committee is of the opinion that both of these amendments are desirable, and therefore recommend the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
CECIL BROWN,
R. H. MAKEKAU,

Committee.

April 7, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 227 passed Second Reading, and was placed on the Calendar for Third Reading on Saturday, April 8, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Pali, Senate Concurrent Resolution No. 6 was taken up for consideration.

Senator Chillingworth moved to amend by inserting in line 33 of Section 5, the following: "Provided, however, that nothing herein shall authorize the withdrawal of any lands now open or applied for for settlement purposes;" seconded by Senator Judd, and carried.

Senator Chillingworth moved to amend further by inserting the words "as far as practicable" in line 5 of Section 6 after the word "be". Seconded by Senator Pali, and carried.

Upon motion by Senator Chillingworth, seconded by Senator Baker, Senate Concurrent Resolution No. 6 was adopted as amended.

Senator Fairchild presented a Report (No. 233) from the Committee on Ways and Means, recommending the tabling of Senate Bills Nos. 91, 97 and 100, and the passage of a substitute Bill (Senate Bill No. 125), as follows:

Honolulu, Hawaii, April 6, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred Senate Bill Nos. 91, 97 and 100 relating to banking and trust companies, have had same under careful consideration, during which time several public meetings have been held, at which time the only persons appearing were those conducting or interested in a banking or trust business.

Throughout the discussion of these bills by those interested there were practically no legal objections advanced against their becoming law. This, in the opinion of your Committee, is to be regretted, as it resulted in leaving the impression in the minds of some members, that the main opposition was due to motives other than legal objections.

The introducer claimed the opposition to his measures was principally on the ground, that his opponents in the course of the business conducted by them did not care to exercise the additional powers sought, claiming as a reason for such opposition, that their affiliations and connections with the several trust companies doing business in the Territory rendered it unnecessary for them to use such powers, and that another corporation organized under the same law but not engaging in commercial business should be denied the right to do a business it thought proper and legitimate to its wants, and to which no legal objections were advanced during the several hearings.

The Committee realizes that in the conduct of all business contending parties will naturally seek to safeguard their own interests, but it is a pleasure for the Committee as a Whole to state that throughout the discussion it was very evident that the banking business in this Territory is on a firm foundation, and the public's financial interests are ably administered and safeguarded under the present law.

The opponents of the bill contend that there was no good reason shown to change the present laws in the manner sought by the bill, that the bill provided a method which is not financially sound and, furthermore, is confusing and without proper safeguard, and that the laws should not be changed except after due deliberation.

We cannot help but feel that the main difficulty in the whole matter has been the spirit of competition, and that all the banks, with the exception of the bank of which the introducer of these Acts is President, has financial connections with trust

companies, which render it unnecessary for them to seek any change in the law.

The introducer of the bill claims that for him to establish a trust company in order to conduct the business sought under the bill, would put him to a large expense, and that this is the main reason for the introduction of the Acts under consideration.

A substitute Bill covering the special additional powers most desired by those interested, has been drawn, and is herewith submitted in the place of Senate Bill No. 91, and which substitute Bill we recommend pass.

Bill No. 97, authorizing the appointment of a Bank Examiner, was objected to at the public meetings principally upon the ground that it put the opposing Bankers and Trust Companies to too much extra expense, and that the law on the Statute Book was sufficient. Be this as it may, the Committee does not see any particular reason or urgent necessity for the enacting of the law at this session of the Legislature, and therefore recommends that Bill No. 97 be laid on the table.

The Committee also recommend that Bill 100 be laid on table, as its passage and the necessity therefor depended on the passage of Bill 97.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

JOHN T. BROWN,
CECIL BROWN,

Senator Fairchild presented a Report (No. 234) from the Committee on Ways and Means, recommending the passage of House Bill No. 5, as follows:

Honolulu, T. H., April 7, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 5, entitled: "An Act to Provide for Entertainment and Expenses of Such Senators and Members of the House of Representatives of the United States and Other Distinguished Persons as May Visit the Territory of Hawaii Prior to June 30, 1913," has had the same under careful consideration and begs leave to report as follows:

The Bill seeks to provide funds necessary for the entertainment of Congressmen and other distinguished persons who may visit Hawaii, and is practically the same as Act 5 of the Laws of 1909. The resulting benefit to Hawaii from such expenditure, no one questions. The Committee therefore recommends the passage of the Bill.

FORTY-SIXTH DAY.

The Journal of the Forty-fifth Day was read and approved.

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.

Honolulu, April 10, 1911.

To the Legislature:

I return herewith, without my approval, House Bill No. 87, entitled "An Act Adding New Sections to Act 46 of the Session Laws of 1909 Relating to the Militia, to be Known as Sections 166, 167, 168 and 169."

The Bill was evidently intended to add four new Sections, to be known as Sections 166, 167, 168 and 169, to the Revised Laws. Not only does it not do this, but there are already in the Revised Laws three Sections bearing the same numbers as three of those purporting to be added thereto.

The Bill in terms adds these Sections, 166, 167, 168 and 169, to Act 46 of the Laws of 1909, which at present contains only three Sections.

Mistakes of this character will naturally occur once in a while through inadvertence, but I feel that the Legislature would prefer not to have them appear upon the statute books and thus detract from the credit which it deserves for the good form in which bills usually are passed.

WALTER F. FREAR,
Governor of Hawaii.

Senator Chillingworth moved that consideration of the Governor's Message be deferred until Tuesday, April 11, 1911. Seconded by Senator Hewitt, and carried.

A Communication (No. 51) from Mr. Marston Campbell, Commissioner of Public Lands, replying to questions propounded in House Concurrent Resolution No. 21, was read by the Clerk as follows:

WHEREAS, there is now stored in the Archives Building of the Territory of Hawaii, a certain chest of silverware that was used in the Palace during the reign of His Majesty King Kalakaua; and

WHEREAS, no good purpose can be served by retaining said chest of silverware in the custody of the Government; and

WHEREAS, it is peculiarly appropriate that said silverware should be available for use by the successor in family and estate of his said Majesty King Kalakaua, to wit: Honorable Jonah K. Kalanianaʻole;

THEREFORE, BE IT RESOLVED by the House of Representatives, the Senate concurring, that the Board of Commissioners of Public Archives is hereby authorized and directed to turn over and deliver to said Honorable Jonah K. Kalanianaʻole the said chest of silverware, for the sum of ONE DOLLAR (\$1.00).

The Communication was received and placed on file.

Upon motion by Senator Kaleiōpu, seconded by Senator Hewitt, House Concurrent Resolution No. 23 was adopted.

A Communication (No. 31) from the Banks and Trust Companies of the City of Honolulu, relating to Senate Bill No. 125, was read by the Clerk as follows:

Honolulu, T. H., April 8, 1911.

Hon. Eric A. Knudsen,
President Senate,
Territory of Hawaii,
Honolulu, Hawaii.

Sir:—

Referring to Senate Bill No. 125, the undersigned Banks and

Trust Companies respectfully represent that under the present system of Banking and Trust Company laws the Banking Institutions and Trust Companies of this Territory have been safely and conservatively administered with the confidence of the community.

The act above mentioned seeks to change the present system in a manner which is unsatisfactory and which will lead to confusion. No good or sound reasons have been advanced for the change in the present law in the manner outlined by the above Bill.

It is our belief that changes in the present law should only be made after due deliberation and proper consideration being given to their effect upon the present Banking and Trust Company laws and the operation of the various financial institutions thereunder; and that there is not sufficient time during the present session of the Legislature to properly consider a law covering the broad field set forth in said bill.

The present Bill is apparently an attempt by one Banking Institution to obtain special legislation for its own interest inasmuch as the powers and privileges sought for in the Bill are not desired by any other Banking Institution in the Territory. The Chamber of Commerce, Merchants' Association and Hawaiian Sugar Planters' Association, through their Legislative Committee, have recorded the fact that they and each of them are opposed to any change in the Banking or Trust Company laws during the present session of the Legislature.

Yours very truly,

Dear Sir:—

I beg to submit herewith a copy of resolution passed by the officers and teachers of Kawaihāo Seminary, of Honolulu, Hawaii, in support of the School Bill.

WHEREAS, it is a recognized American principle that all children of school age shall have equal opportunities of obtaining a public school education, and

WHEREAS, a School Bill, correcting conditions, has been introduced into the Territorial Legislature, now in session, and is now receiving the serious consideration of its members, and

WHEREAS, education is of such paramount importance that it deserves immediate and heartiest support in every direction,

THEREFORE, RESOLVED, That We, the officers and Teachers of Kawaihāo Seminary, of Honolulu, Hawaii, do hereby endorse the general plan covered in Senate Bill No. 18, and House Bill No. 219, wherein ample provision is made for

Senator J. T. Brown presented a Report (No. 237) from the Printing Committee, stating that Senate Bill No. 50 was printed and ready for distribution.

The Report of the Committee was received and placed on file.

Senator Judd presented a Report (No. 238) from the Judiciary Committee, recommending the passage of Senate Bill No. 115 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 115.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 115, To Prevent the Destruction, Defacing or Removal of Survey Monuments, begs leave to report as follows:

The purpose of the bill, as indicated by the title, is to afford some protection to the Government survey monuments which are from time to time destroyed, defaced or removed, and which costs the Government large sums of money to replace. One very aggravating circumstance is related, that of a Government trigonometrical survey station being removed, in ignorance of its importance it is true, for the purpose of building a pig sty.

It has been found by your Committee that a number of verbal amendments should be made to the bill, and therefore recommends that the bill be amended as follows:

Strike out the word "hereafter" in line 1 of Section 1; insert after the word "unlawful" in line 1 of Section 1, the following words: "without the written consent of the Territorial Surveyor;" strike out the words "offend against" in line 7 of Section 1, and insert in lieu thereof the following: "violate;" strike out the words "in any Court" in line 9, and strike out all

of lines 10 and 11 of Section 1, and insert in lieu thereof the following:

"shall be punished by a fine of not more than FIVE HUNDRED DOLLARS, or by imprisonment for a period of not more than four months, or by both such fine and imprisonment."

With the foregoing amendments it is believed that the bill is in proper form, and will accomplish the objects desired.

Your Committee is of the opinion that the Government survey monuments are as much entitled to protection against defacement, destruction and alteration as are any other public records, especially since these monuments vitally affect lands, both public and private.

In view of the foregoing your Committee recommends that this bill be passed as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

April 8, 1911.

Upon motion by Senator Kalama, seconded by Senator Quinn, the Report of the Committee was adopted; Senate Bill No. 115 passed Second Reading as amended and was placed on the Calendar for Third Reading on Tuesday, April 11, 1911.

Senator C. Brown presented a Report (No. 239) from the Judiciary Committee, recommending that House Bill No. 141 be tabled, as follows:

REPORT ON HOUSE BILL NO. 141.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 141, To Amend Section 1613 of the Revised Laws of Hawaii, as amended by Section 2 of Act 50 of the Session Laws of 1905, Relating to Commutation, begs leave to report as follows:

The amendment made to the present statute is by the addition thereto of the following phrases:

"Provided, however, that in case of a prisoner serving sent-

ence for the commission of a misdemeanor, the Board of Inspectors shall not be justified in withholding or forfeiting the deduction of sentence in this Act provided, on the ground that such prisoner has refused to perform labor."

This amendment is considered by your Committee to be entirely unnecessary, for the reason that prisoners serving sentence for the commission of a misdemeanor cannot be compelled to work. The only thing for which the Board of Prison Inspectors can withhold or forfeit the reduction of sentence to which a prisoner is otherwise entitled is for an infraction of the rules of the prison.

In view of the above your Committee recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

April 8, 1911.

Upon motion by Senator Kalama, seconded by Senator Pali, the Report of the Committee was adopted, and House Bill No. 141 was tabled.

Senator C. Brown presented a Report (No. 23) from the Special Committee on Petition relating to Pauoa Springs, recommending the granting of the Petition, and introducing a Bill entitled "An Act Authorizing and Directing the Superintendent of Public Works to Acquire Certain Water-Rights and Lands in Pauoa Valley, City and County of Honolulu," as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Special Committee composed of the Oahu Senators, to whom was referred the Petition of the Hawaiian Trust Company, Limited, who are the Administrators with the Will Annexed of the Estate of the late Charles W. Booth; report that they have given such Petition careful consideration.

Your Committee believes that the Territorial Government should be the owner and control all the water that runs and

takes its source in any and all valleys on this Island back of the City of Honolulu that can now be obtained either by purchase or condemnation proceedings for the purpose of using and distributing such water for the use and benefit of the City of Honolulu and its inhabitants. This Committee believes that the longer this object is deferred, the greater will be the price demanded for such water when the time arrives that the ownership and use of the same will be imperative.

The purchase of the Pauoa water has been before the public and every Legislature since 1903. This Committee submits herewith an Act directing the purchase of all water-rights, rivers, springs, etc., that the Estate of the late Charles W. Booth is interested in in that Valley and vicinity, and recommends its passage. The Committee further recommends that insertion of an item in the Loan Act known as Senate Bill No. 50, after the item "Honolulu Water Works, \$500,000," which should read as follows:

"1a. To acquire for the use and benefit of the Territory of Hawaii, all rights owned by the late Charles W. Booth at the time of his death in all springs as well as the waters of Pauoa Stream and Valley, and in Pacific Heights waters and water works, and in such undeveloped land surrounding any of the sources or water-leads as may in the opinion of the Superintendent of Public Works be necessary for insuring the purity of such water, at a price not to exceed \$100,000.00."

Respectfully submitted,

CECIL BROWN,
ALBERT F. JUDD,
E. W. QUINN,
A. S. KALEIOPU,
CHAS. F. CHILLINGWORTH.

A N A C T

**AUTHORIZING AND DIRECTING THE SUPERINTENDENT
OF PUBLIC WORKS TO ACQUIRE CERTAIN WATER
RIGHTS AND LANDS IN PAUOA VALLEY, CITY AND
COUNTY OF HONOLULU.**

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. The Superintendent of Public Works is hereby authorized and directed to acquire for the use and benefit of the Territory of Hawaii, all rights owned by the late Charles

W. Booth at the time of his death, in all springs, as well as the waters of Pauoa Stream and Valley, and in Pacific Heights waters and works, and in such undeveloped land surrounding any of the sources or water leads as may in his opinion be necessary for insuring the purity of such water. Acquisition shall be made by purchase at a price not exceeding One Hundred Thousand Dollars (\$100,000) as may be agreed upon between said Superintendent of Public Works and the person or persons authorized to sell such water rights; and in the event that such purchase is not consummated within three months from the date of the approval of this Act, said Superintendent of Public Works is hereby authorized and directed to proceed to acquire such rights by condemnation proceedings in the name and on behalf of the Territory of Hawaii.

SECTION 2. The Treasurer of the Territory of Hawaii is hereby authorized and directed to pay upon the Warrant of the Superintendent of Public Works any sum of money that may be necessary to purchase all such water rights not to exceed said sum of One Hundred Thousand Dollars (\$100,000) mentioned in Section 1 of this Act.

SECTION 3. This Act shall take effect on the date of its approval.

Upon motion by Senator Judd, seconded by Senator C. Brown, the Report of the Committee was adopted.

First Reading of Senate Bill No. 126, entitled "An Act Authorizing and Directing the Superintendent of Public Works to Acquire Certain Water Rights and Lands in Pauoa Valley, City and County of Honolulu."

The Bill passed First Reading by Title and was referred to the Printing Committee.

Senator C. Brown presented a Report (No. 24) from the Special Committee on House Bill No. 219, recommending the passage of the Bill with one amendment, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Select Committee of Oahu Senators to whom was referred House Bill No. 219, report that they have had same under consideration.

The reason for the introduction of the Bill is known to all, and your Committee approves the object for which it was introduced, and therefore recommends its passage, with this

amendment to Section 2,—at the end of that Section strike out the words "January, A. D. 1913," and insert in their place, "May, 1911."

Respectfully submitted,

CECIL BROWN,
ALBERT F. JUDD,
A. S. KALEIOPU,
CHAS. F. CHILLINGWORTH.

I do not concur:

E. W. QUINN.

Honolulu, April 8th, 1911.

Upon motion by Senator Judd, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 219 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Tuesday, April 11, 1911.

Senator C. Brown presented a Report (No. 25) from the Special Committee on House Bill No. 2, recommending the passage of the Bill with certain amendments, as follows:

Honolulu, Hawaii, April 8, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Special Committee of Oahu Senators to whom was referred House Bill No. 2, report that they have given the same due consideration.

The Act is an amendment to Section 39 of the Session Laws of 1907 as amended by Act 128 of the Session Laws of 1909, and covers the salaries of the principal officials of the City and County of Honolulu.

Your Committee are of the opinion that an increase should be made in the salaries of some of the officials, and recommend the following amendments:

Members of the Board of Supervisors.....	\$ 900.00
Sheriff	3,000.00
City and County Clerk	2,400.00
Auditor	2,400.00
City and County Attorney	4,200.00
Treasurer	2,400.00
Deputy Sheriff of the District of Honolulu....	2,400.00

The reason of the substantial increase in the salary of the Attorney of the City and County of Honolulu, is, that in the opinion of this Committee, that that office is as important and as of high an official standing as that of the Attorney General of the Territory, and that as much work, if not more, is done there than in that of the Office of the Attorney General.

With the amendments suggested above, we recommend that the Bill pass.

Respectfully submitted,

CECIL BROWN,

Chairman.

E. W. QUINN,

A. S. KALEIOPU,

ALBERT F. JUDD,

CHAS. F. CHILLINGWORTH.

Upon motion by Senator Fairchild, seconded by Senator Baker, consideration of the Bill was deferred until Wednesday, April 12, 1911, at 2 o'clock P. M.

Senator C. Brown presented a Report (No. 26) from the Special Committee on House Concurrent Resolution No. 18, recommending the adoption of the Resolution, as follows:

Hon. E. A. Knudsen,

President of the Senate.

Sir:—

The Special Committee of Oahu Senators to whom was referred House Concurrent Resolution No. 18, report that they have had same under consideration.

The Preamble of the Resolution explains the object sought to be accomplished by its adoption, the establishment of a Park or Recreation ground in Makiki Valley back of the Reservoir site in that Valley lying between Tantalus Heights and Manoa Valley.

This Committee is in sympathy with this and recommends that the Resolution be adopted.

The area of the proposed Park is 640 acres.

Respectfully submitted,

CECIL BROWN,

E. W. QUINN,

A. S. KALEIOPU,

ALBERT F. JUDD,

CHAS. F. CHILLINGWORTH.

Honolulu, April 8th, 1911.

Upon motion by Senator Makekau, seconded by Senator Pali, the Report of the Committee was adopted.

Senator Hewitt presented a Report (No. 240) from the Committee on Manufactures, Forestry and Promotion, recommending the passage of House Bill No. 100, as follows:

Honolulu, April 8, 1911.

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Manufactures, Forestry and Promotion to whom was referred House Bill No. 100, entitled "An Act to Encourage Diversified Industries," has had same under careful and due consideration, and begs leave to report as follows:

The Bill seeks to exempt from taxation for one year from and after the 1st day of January, A. D. 1913, all property solely and actually used in the production of grapes for the manufacture of wine for commercial purposes.

Your Committee agrees with the views of the Bill and therefore recommends its passage.

Respectfully submitted,

GEO. C. HEWITT,
Chairman.

PHILIP PALI,
A. S. KALEIOPU,

Upon motion by Senator C. Brown, seconded by Senator Quinn, the Report of the Committee was adopted; House Bill No. 100 passed Second Reading and was placed on the Calendar for Third Reading on Tuesday, April 11, 1911.

Senator Robinson presented a Report (No. 241) from the Committee on Education, recommending the adoption of House Concurrent Resolution No. 19, as follows:

SENATE CHAMBER.

Honolulu, T. H., April 10, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Education to whom was referred House

Concurrent Resolution No. 19, relating to the wall enclosing the Honolulu Central Grammar School, has had the same under careful consideration and begs leave to report as follows:

The object of the Resolution is to cause the reduction of the height of the wall surrounding the school referred to by the proper official. Hence, the passage or adoption of the resolution will not in any way hamper with the education of the youths now attending the school within the high enclosure.

Your Committee therefore recommends the adoption of the Resolution.

Respectfully submitted,

WM. T. ROBINSON,
Chairman.
GEO. H. FAIRCHILD,
DAVID K. BAKER.

Upon motion by Senator Quinn, seconded by Senator Pali, the Report of the Committee was adopted.

Senator C. Brown presented a Report (No. 27) from the Special Committee on House Bill No. 184, recommending the passage of the Bill with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 184.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Select Committee of the Oahu Members, to whom was referred House Bill No. 184, to amend Sections 17, 19, and 121, and paragraphs 3, 9 and 22 of Section 23 of Act 118 of the Session Laws of 1907, being "An Act Incorporating the City and County of Honolulu," begs leave to report as follows:

The purposes of this bill are to change the Charter of the City and County of Honolulu in several important particulars, such as lessening the number of publications of bills, shortening the time after passage within which an ordinance shall take effect, giving additional powers to the City and County as to buildings, the acquirement of certain property, and placing certain restrictions upon expenditures, and dealing with the appointment of clerks in the office of the City and County Clerk.

Your Committee has had this measure under careful consideration, and as a result, for the reasons hereinafter stated, recommends the following amendments to this bill:

First: That all of the first line of the title after the words "Sections" and "22 of" in line 2 be stricken out and that there be inserted in lieu thereof the following:

**"17 AND 19, AND SECTION 121 AS AMENDED BY ACT
"118 OF THE SESSION LAWS OF 1909, AND PARA-
"GRAPH 9 OF"**

Second: That Section 3 of this bill be stricken out. The purpose of this section is to give to the City and County the power to regulate the erection and removal of buildings. This Section is stricken out for the reason that Section 1 of Senate Bill No. 94 covers this ground very thoroughly and has passed third reading in the Senate, gone to the House, and been favorably reported to the House by its Judiciary Committee, and will no doubt in due course pass third reading there, and become law. This Section is therefore unnecessary.

Third: That Section 4 be re-numbered Section 3, and that the following amendments be made thereto:

(a) That the following phrase be stricken out of lines 8, 9 and 10 of this Section:

**"sewers, pumping stations, water works, including res-
"ervoirs, wells, pipe lines and other conduits for dis-
"tributing water to the public;"**

This is stricken out for the reason that this power is given to the City and County of Honolulu by Act 101 of the Session Laws of 1909, and this provision is therefore unnecessary in this bill.

(b) Strike out from lines 14 and 15 of this Section the following:

"fire apparatus and appliances and"

This ground is also more thoroughly covered in Section 3 of Senate Bill No. 94 hereinbefore referred to, and is therefore unnecessary in this bill.

(c) After the word "cleaning" in line 15 of this Section insert the words

"of the streets."

(d) After the words "and" and before the word "flushing" in line 16 of this Section insert the word

"for"

(e) That in line 16 the word "herein" be made "therein."

These are merely verbal changes to conform to the existing law on the subject, which it was not intended should be changed by this bill.

Fourth: That all of Section 5 be stricken out. This Section imposes restrictions upon the expenditure of public moneys.

Act 47 of the Laws of 1911, approved March 31, 1911, approved after this bill was introduced, covers this subject very thoroughly, and your Committee therefore considers this Section of this bill entirely unnecessary.

Fifth: That the first two lines of Section 6 be stricken out, and that there be inserted in lieu thereof the following:

"Section 4. Section 121 of Act 118 of the Session Laws of 1907, as amended by Act 118 of the Session Laws of 1909 is hereby further amended to read as follows:"

This is merely for the purpose of changing the numbering of the section, and to make it cover the 1909 Act, amending this Section 121, this having been overlooked in the drafting of this measure.

Sixth. That Section 7 be renumbered Section 5. This becomes necessary because of the striking out of Sections 3 and 5.

Your Committee is of the opinion that the changes made in the existing laws by Sections 1 and 2 of this bill are very desirable, and especially so in view of the long delay which is now experienced between the time a bill is introduced in the Board of Supervisors, and the time it finally becomes effective.

Section 4 of this bill, Section 3 as amended, gives to the City and County, in addition to the powers already possessed by it, the power to acquire buildings for City and County purposes, and the power to acquire plants, apparatus and appliances for lighting streets and public buildings. The first is a very desirable provision, as is also the second since it is a matter which should be entirely in the hands of the local government. These two additional grants of power are considered by your Committee to be wise provisions for the future. It certainly cannot be questioned that a City the size of Honolulu and growing as it is should own its own public buildings, and that it should own and control the necessary plant for lighting its streets and public buildings.

With the amendments which have been recommended your Committee is of the opinion that the bill is in proper shape, and will accomplish the purposes desired.

In view of the above your Committee recommends that this bill be passed as amended.

Respectfully submitted,

SELECT COMMITTEE OF OAHU MEMBERS.

CECIL BROWN,
Chairman.

E. W. QUINN,
A. S. KALEIOPU,
CHAS. F. CHILLINGWORTH,
ALBERT F. JUDD.

April 10, 1911.

Senator Kalama presented a Report (No. 242) from the Committee on Public Lands and Internal Improvements, recommending the passage of House Joint Resolution No. 7, as follows:

SENATE CHAMBER.

Honolulu, Oahu, April 8th, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improvements to whom was referred Joint Resolution No. 7 has had the same under due and careful consideration and begs leave to report as follows:

Your Committee agrees with the views of the Resolution and therefore recommends its passage.

Respectfully submitted,

S. E. KALAMA,
Chairman.

A. S. KALEIOPU,
GEO. C. HEWITT.

Upon motion by Senator Judd, seconded by Senator Baker, consideration of the Resolution was deferred until Tuesday, April 11, 1911.

Senator Chillingworth presented a Report (No. 243) from the Committee on Public Health, recommending the passage of House Bill No. 160 with certain amendments, as follows:

Honolulu, T. H., April 7, 1911.

Honorable Eric A. Knudsen,
President of the Senate,
Honolulu, Hawaii.

Sir:—

Your Committee on Public Health to whom was referred House Bill No. 160, "An Act to Regulate the Manufacture of Poi for Sale," begs leave to report as follows:

Your Committee has had a public hearing on the bill, and has given the measure its careful consideration.

Poi is a more comprehensive term than paiai, as it includes poi made from other vegetables than taro, while paiai refers only to a product of taro. The title of the bill does not refer to paiai.

The Committee recommends that there be deleted from the bill the words "or paiai" where they appear in the bill, viz: in Sections 1, 2 (three times) and 3.

In lieu of the words stricken out, the Committee recommends there be inserted the words "or food products of which poi is made" and that in the title of the bill there be inserted after the word "poi" the words "and food products of which poi is made."

Your Committee believes that the time has come to safeguard the public health by legislation calculated to insure clean food to the consumer. Some legislation to this end has already been completed and the bill in question is but one step in this policy. Epidemics have become altogether too frequent and disease is making heavier inroads into Hawaii's population. Your Committee is strongly of the opinion that now is the time to take preventive measures, rather than to let things go on as they are until drastic and expensive measures have to be taken either by the people of Hawaii or by the parent government.

With the above amendments the Committee recommends the passage of the bill.

Respectfully submitted,

PHILIP PALI,
ALBERT F. JUDD.

I endorse the substance of the foregoing report but believe that, where possible, the Board of Supervisors of the City and County of Honolulu should have charge of sanitation in the City of Honolulu except in such cases as they are not able to enforce such proper regulations as may be made—in other words, if the Board of Health of the Territory of Hawaii sees the necessity for so doing, it may call the attention of the Board of Supervisors to such conditions that exist that in their opinion may be a menace to the safety and health of the community and if the Board of Supervisors, by Ordinance or otherwise, fail to correct such conditions, the Board of Health shall then take such steps as they may deem proper and the expense, if any, shall be paid by the County or City and County, as the case may be.

CHAS. F. CHILLINGWORTH.

consideration of the Bill was deferred until tomorrow, April 11, 1911.

WHEREAS, a School Bill, correcting conditions, has been introduced into the Territorial Legislature, now in session, and is now receiving the serious consideration of its members, and

WHEREAS, education is of such paramount importance that it deserves immediate and heartiest support in every direction,

THEREFORE, RESOLVED, That We, The Board of the Hawaiian Evangelical Association, of Honolulu, Hawaii, do hereby endorse the general plan covered in Senate Bill No. 18, and House Bill No. 219, wherein ample provision is made for

school needs, and urgently petition the members of the Legislature of the Territory of Hawaii to pass the same.

Senator Fairchild presented a Report (No. 245) from the Committee on Ways and Means, recommending the passage of House Bill No. 170 with certain amendments, as follows:

SENATE CHAMBER.

Honolulu, T. H., April 10, 1911.

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 170, entitled "An Act Appropriating Twenty-five Thousand Dollars for the Purpose of Repaying Moneys Wrongfully Collected as Merchandise License Tax Under Sections 764 to 768 of the Penal Laws of 1897," on the recommendation of the Judiciary Committee of the Senate, begs leave to report as follows:

While it is contended that under the present rule of law these claims could not be recovered in a suit at law, there is nothing to prohibit the legislature from correcting an injustice due to its enacting into a law an illegal act, on the other hand there is much to commend such an action.

It is ascertained that the sum of Twenty Thousand Dollars would be more than sufficient to meet all claims under this proposed Act, and the Committee recommends the amending of the amount from "Twenty-five Thousand" to "Twenty Thousand."

In Section 3 the Committee also recommends the striking out of all the words after "presented" in line 2 to and including the word "Act" in line "3," and inserting in lieu thereof the following words: "on or before the 30th day of June, A. D. 1911."

This amendment is necessary in order to prevent any of the unpaid claims or any claim for which appropriations are provided, from being paid out of the current revenues of the ensuing biennial period after June 30, 1911. The passage of the Bill with the provision in Section 3 forever barring such claims as are not made and presented within the limited time, will in the future prevent further legislation on this matter. This matter has been before the legislature, now for the fifth time, and is certain to appear again unless something is done to right the illegal action of a previous regulation.

Your Committee therefore recommends the Bill pass with the amendments submitted.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.
WM. T. ROBINSON,
CECIL BROWN,
E. W. QUINN,

Upon motion by Senator Fairchild, seconded by Senator Chillingworth, the Report of the Committee was adopted; House Bill No. 170 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Wednesday, April 12, 1911.

Senator Fairchild presented a Report (No. 246) from the Committee on Ways and Means, recommending the passage of House Bill No. 228, as follows:

Honolulu, Hawaii, April 11, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 228, report that they have had the same under consideration.

The object of the Bill is to increase the Loan Act of 1905 from the amount then passed to an amount now not exceeding \$7,500,000.00.

By the Governor's Report there are on hand now yet to be issued bonds amounting to \$1,756,000.00. This with the increase proposed by the Bill under consideration of \$2,500,000.00 more will, in the opinion of this Committee, be sufficient for the purposes desired. We recommend the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

E. W. QUINN,
WM. T. ROBINSON,
CECIL BROWN.

Upon motion by Senator Fairchild, seconded by Senator Chillingworth, the Report of the Committee was adopted; House Bill No. 228 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 12, 1911.

Senator C. Brown presented a Report (No. 28) from the Special Committee on Senate Bill No. 117, recommending the passage of the Bill, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Special Committee of Oahu Senators to whom was referred Senate Bill No. 117, report that they have had same under consideration.

The Bill seeks to relocate a portion of the North side of Union Street in the City of Honolulu, and is shown by the plan or diagram attached to this report and made a part thereof.

That portion of the street as now used on the North side and which will by this relocation be unnecessary for the use for street purposes, can be sold by the Government to the owner of property upon which the street as at present used, abuts, as provided by Section 722 of the Revised Laws of Hawaii, and the Act so provides.

This Committee believes that the projected relocation is in the line of City improvement, and will be an improvement to that portion of Honolulu, and therefore recommend the passage of the Bill.

Respectfully submitted,

CECIL BROWN,
ALBERT F. JUDD,
A. S. KALEIOPU,
CHAS. F. CHILLINGWORTH,
E. W. QUINN.

Honolulu, April 11th, 1911.

Upon motion by Senator Quinn, seconded by Senator Judd, the Report of the Committee was adopted; Senate Bill No. 117 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 12, 1911.

Senator Judd presented a Report (No. 247) from the Judiciary Committee, recommending the tabling of Senate Bill No. 15, and the passage of a substitute Bill, (Senate Bill No. 128), as follows:

REPORT ON SENATE BILL NO. 15.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate

Bill No. 15, An Act to Provide for the Sale and Conveyance of the Property of Deceased Persons, begs leave to report as follows:

The objects sought to be attained by this Bill are to abolish the priority between the real and personal property belonging to the estate of a deceased person, and to provide for the sale of real property for the payment of debts before the personal property is exhausted.

Upon a careful investigation we find that there is an urgent need for some provision in our statutes, there being none at the present time, whereby unproductive real property rather than revenue-producing personal property may be sold to pay debts. As the law now stands it is necessary to dispose of all the personal property before the real property can be touched for the payment of debts. In a number of instances reported to this Committee this has worked a serious hardship on the family of the deceased, the executor being compelled to dispose of revenue-producing personal property, such as valuable dividend-paying stock, for the purpose of securing money to pay debts due by the estate, and to keep real property which while perhaps of considerable value brought in little or no revenue. Under these circumstances your Committee is of the opinion that a change in our law is desirable, and that the purposes sought to be accomplished by this bill are good. However, your Committee believes the bill in its present form too long and complicated, and in addition it appears to have been taken bodily from the statute books of a code state, and is therefore unsuited to the system of law and procedure in this jurisdiction, which is the growth of years, and should not be so radically changed as is contemplated in this bill. Your Committee has therefore prepared a substitute bill which is submitted with this report. This substitute bill is believed to thoroughly cover the ground, to grant the relief desired, and to be consistent with our system of law and procedure.

In view of the foregoing your Committee recommends that Senate Bill No. 15 be tabled, and that the substitute bill submitted with this report be passed in place thereof.

April 11, 1911.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

Upon motion by Senator C. Brown, seconded by Senator Quinn, the Report of the Committee was adopted, and Senate Bill No. 15 was tabled.

First Reading of Senate Bill No. 128, entitled "An Act Providing for the Sale of Real Property by Executors and Administrators, Amending Section 1855 of the Revised Laws of Hawaii, and Adding to Said Revised Laws Two New Sections to be Known as Sections 1855A and 1855B."

The Bill passed First Reading by Title and was referred to the Printing Committee.

Senator Judd presented a Report (No. 248) from the Judiciary Committee, recommending the passage of House Bill No. 237 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 237.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 237, to Protect and Safeguard the Interests of Newly Arrived Immigrants Into the Territory, begs leave to report as follows:

The object of this Bill is to protect the newly arrived immigrants into this Territory from being misled by false and mischievous representations of emigrant agents seeking to withdraw such immigrants from the Territory, and inducing them to enter into ill-advised contracts, before they have had opportunity to look over the land, and get some idea of the local conditions. This in no way restrains the newly arrived immigrant, he being entirely free to do as he wishes, but this bill is intended as a restraint upon the powers of the Emigrant Agent and to prevent him from inducing and enticing such immigrant to leave the Territory before he has had time to become familiar with the Territory and what it offers. This restrain upon the activities of the Emigrant Agent is for a period of 30 days after the immigrant arrives in the Territory.

Your Committee recommends that Section 1 of this bill be amended by inserting after the word "Immigration" in line 12 thereof, the following words:

"or any legal successor in powers and duties to such
"board,"

And that Section 2 of this bill be amended by inserting after the word "Immigration" in line 2 thereof the following words:

"or any legal successor in powers and duties to such
"board,"

With these amendments your Committee is of the opinion that the bill is in proper form, and will accomplish the purposes desired.

In view of the above your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

April 12, 1911.

Senator Judd gave notice of his intention to introduce a Bill entitled "An Act to Amend Chapter 147 of the Revised Laws of Hawaii by Adding Thereto a New Section to be Known as Section 2284A, and to Repeal Section 2 of Act 43 of the Session Laws of 1905, Relating to the Widow's Election of Dower."

Under suspension of the rules, Senator Judd introduced Senate Bill No. 129, entitled "An Act to Amend Chapter 147 of the Revised Laws of Hawaii by Adding Thereto a New Section to be Known as Section 2284A, and to Repeal Section 2 of Act 43 of the Session Laws of 1905, Relating to the Widow's Election of Dower."

REPORT ON HOUSE BILL NO. 31.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Oahu Committee, to whom was referred House Bill No. 31, To Provide for Nominations by Direct Vote, begs leave to report as follows:

This is the primary bill, the purposes of which are indicated by the title. This bill as it came from the House provides for nominations by direct vote of candidates for offices on the Island of Oahu, as well as for Senators and Representatives. After careful consideration your Committee is of the opinion that Representatives from the Fourth and Fifth Representative Districts, and Senators from the Third Senatorial District are not elective officers on the Island of Oahu, within the meaning of the Direct Primary Plank in the Republican Platform. The provisions of the bill which relate to Senators and Representatives have therefore been eliminated from the bill.

Section 10 of the bill also has been amended by providing that electors intending to vote a party ticket shall file at least 60 days before the primary a declaration of party affiliation, and that only one such declaration shall be filed by any such person desiring to vote a party ticket. This provision is added for the purpose of preventing persons attempting to vote the ticket of the party to which they do not belong. This matter is also safeguarded by an amendment to Section 12 of the bill by providing two additional grounds of challenge, i. e. That such elector is not entitled to vote a party ticket, and that such person is not entitled to vote the party ticket which he demands. It is believed that these two amendments to Sections 10 and 12 will force electors to vote the party ticket of the party to which they belong, and prevent them from voting for candidates of the party to which they do not belong, to the detriment of such party.

After a careful consideration of the bill and the amendments which have been made, your Committee has thought it advisable to prepare a copy of the bill incorporating the amendments therein. Your Committee recommends that the amended bill submitted with this report be passed.

Respectfully submitted,

SELECT COMMITTEE OF OAHU MEMBERS.

CECIL BROWN,
Chairman.

A. S. KALEIOPU,

Whereas the water supply for the City of Hilo is barely sufficient for its present needs and will be totally inadequate therefor in the near future; and

Whereas there is situated upon the immediate surrounding of the present Water Head certain parcel of land containing an area of about 50 acres more or less, with certain springs which, if the County could obtain possession thereof would develope it with larger storage capacity that will give an increased water supply to the City of Hilo for many years to come; and

Whereas the Hawaiian Board of Missions is willing to sell this property to the County of Hawaii for the sum of Seven Thousand Two Hundred and Seventy-seven and Fifty Cents (\$7,277.50) Dollars, and as the funds of the County are barely adequate to meet this demand at the present time; therefore Be it resolved by the American Citizen Labor Union that the Legislature of the Territory of Hawaii be respectfully requested to appropriate the above sum for the purpose of purchasing this valuable property which is required for the Water-shed for the City of Hilo, County and Territory of Hawaii.

RESOLUTION.

Whereas House Bill No. 66 is now pending before the Senate of the Territory of Hawaii for its passage, providing for the election of a supervisor-at-large and three supervisors for East and West Hawaii; and

Whereas that it is the general feeling among the people of this County to oppose such proposed change effecting the present form of government; and

Whereas that the Honorable Senator R. H. Makekau is still insisting upon a change by moving all supervisors elected-at-

large, which action is contrary to the wishes of the public of this County.

Be it resolved by the members of this Labor Union that they do hereby vigorously oppose the action taken by the Senator from Hawaii, and the Union still opposes any attempt on the part of the Honorable Senator to change the present form of County Government.

Be it further resolved that a copy of this resolution be forwarded to the President of the Senate and the Speaker of the House of Representatives, and to the members from the First Senatorial District, County and Territory of Hawaii.

The Bill passed First Reading by Title and was referred to the Judiciary Committee.

Senator Judd presented a Report (No. 250) from the Judiciary Committee, recommending the passage of Senate Bill No. 122, as follows:

REPORT ON SENATE BILL NO. 122.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 122, Relating to abatement of nuisances, amending Sections 994, 995, 997 and 1000 of the Revised Laws, adding a new section thereto to be known as Section 995A, and repealing Sections 996, 1001 and 1002, begs leave to report as follows:

Sections 994, 995, 996, 997 of the Revised Laws have been on our statute books for a period of 42 years, being parts of the Penal Code of 1869, and while the provisions thereof may have been very satisfactory, and amply sufficient when they were passed, the time has come when those laws should be changed so as to meet the requirements of the present day and generation. Conditions today are different in Honolulu, and in the Territory than they were in 1869, and the laws which were sufficient then do not meet the needs of today. The amendments which have been made to the present statute give the Board of Health no greater degree of power, but they do enlarge the scope of the Board, but the bill is intended to and does give greater elasticity to the powers which are given to the Board of Health. The power given to abate, remove, destroy, etc., "waters in which mosquito larvae breed" is especially desirable in view of the large increase in shipping there will be after the opening of the Panama Canal, and the danger from yellow fever, and other disease resulting from the additional shipping. Honolulu, the port of call for trans-

pacific steamers, and the other ports which receive calls from such steamers are as the number of ships coming to the Territory increase subject to more and more danger from disease, and should a disease such as yellow fever ever secure a foothold in one of the ports of the Territory it will sweep the Islands, unless the proper machinery is given the Board of Health to eradicate the agencies which spread disease.

Your Committee has carefully examined this bill, and believes it to be an essential as well as a wise measure for the future. Your Committee therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,

Chairman.

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.
Honolulu, April 13, 1911.

To the Legislature:

In my first message I called your attention to the provision in Section 55 of the Organic Act that, "the Legislature, after its first regular session after the census enumeration shall be ascertained, and from time to time thereafter, shall reapportion the membership of the Senate and House of Representatives among the Senatorial and Representative Districts on the basis of the population in each of said Districts who are citizens of the Territory."

It will be noticed that the reapportionment is required to be made on the basis, not of the population nor of the voters, but of citizens.

The Director of the Census has expedited the tabulation of the census returns according to citizenship with a view to having them completed in time for the Legislature to act in this matter at the present session. The results have now been received, and I submit herewith a compilation from them according to citizenship and Senatorial and Representative Districts.

WALTER F. FREAR,
Governor of Hawaii.

* The "Unknown" are probably mostly aliens.

** Three enumeration districts were partly in the Fourth and partly in the Fifth Representative District, and the figures for these could be apportioned only approximately, but such inaccuracies as might occur from this would not make any difference in the result.

*** Midway Island is omitted. It has 6 native born and 4 naturalized citizens, 7 who have taken out their first papers, and 18 aliens. The question whether that is a part of the Territory of Hawaii is not settled.

Since there are 102,065 citizens, and 15 Senators and 30 Representatives, there would be, on a reapportionment, one Senator to 6,804 citizens and one Representative to 3,402 citizens. The result would be as follows:

REPORT ON SENATE BILL NO. 121.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 121, To Repeal Chapters 46 and 47 of the Revised Laws of Hawaii, Relating to Water Works at Wailuku, Kahului and North Kohala, begs leave to report as follows:

By Act 100 of the Session Laws of 1909, the power is given to the Counties to establish and maintain water works. This matter now being entirely a county matter it is only proper that the jurisdiction of the Superintendent of Public Works over these water works should be taken away. Upon investigation your Committee finds that there are no water works now at North Kohala, and that the water works at Kahului and Wailuku were constructed with funds from the general revenues, and not from any of the Territorial Bond moneys.

In view of the above your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 105, to Amend Section 1 of Act 102 of the Session Laws of 1905, as amended by Section 1 of Act 147 of the Session Laws of 1909, Relating to Inheritance Tax, begs leave to report as follows:

The only change in the present law made by this bill is to raise the exemption from the inheritance tax from \$5,000 to \$20,000. Upon investigation your Committee finds that in 13 of the States of the United States, the Exemption is set at \$10,000, and in only two states is it set at \$20,000. After careful consideration of this bill your Committee is of the opinion that to set the exemption at \$20,000 is too high, and is of the opinion that the exemption should be set at \$10,000.

Your Committee therefore recommends that the words "TWENTY THOUSAND DOLLARS" wherever they occur in this bill be stricken out, and that there be inserted in lieu thereof in each instance the words "TEN THOUSAND DOLLARS."

Your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 13, 1911.

Upon motion by Senator C. Brown, seconded by Senator Judd, the Report of the Committee was adopted; Senate Bill No. 105 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Friday, April 14, 1911.

Senator Judd presented a Report (No. 254) from the Judiciary Committee, recommending the passage of Senate Bill No. 129 with one amendment, as follows:

REPORT ON SENATE BILL NO. 129.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 129, to Amend Chapter 147 of the Revised Laws of Hawaii by adding thereto a new section to be known as Section 2284A and to repeal Section 2 of Act 43 of the Session Laws of 1905, relating to the Widow's Election of Dower, begs leave to report as follows:

Senate Bill No. 104 covering the same subject matter was tabled on the recommendation of this Committee, for reasons stated in its report.

Your Committee recommends that this bill be amended by adding thereto after the word "shall" in line 5 of Section 1 (line 3 of Section 2284A) the word "Immediately."

Your Committee is of the opinion that under this bill as amended the interests of the widow will be very well protected, and at the same time the machinery is provided whereby the election of the widow may be ascertained before the time when it is incumbent upon the executor to pay the debts and distribute the estate. Your Committee is of the opinion that this bill is a great improvement over the present law.

In view of the above your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

Committee.

Upon motion by Senator Fairchild, seconded by Senator Pali, the Report of the Committee was adopted; Senate Bill No. 129 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Friday, April 14, 1911.

Senator Judd presented a Report (No. 255) from the Judiciary Committee, recommending the passage of House Bill No. 175, as follows:

REPORT ON HOUSE BILL NO. 175.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 175, to provide for the sale by Common Carriers of unclaimed articles, and for the disposition of the proceeds of such sale, begs leave to report as follows:

The purposes of this bill are indicated in the title thereof. The power given to Common Carriers to sell unclaimed articles is hedged about with safeguards which it is believed will prevent the abuse of this power. Articles cannot be sold until they have been in the possession of the Common Carrier for six months, provision is made for notice of the sale, proceeds of the sale are to be paid to the owner of the article at any time within five years after the sale, and thereafter such proceeds shall escheat to the Government. The Common Carriers receive no money from these sales, but they are relieved of the necessity of keeping these articles for an indefinite time. The bill is drawn on the lines of similar statutes in Maine and Connecticut, both common law states, and will therefore not be inconsistent with our system of law. This bill has the endorsement of the Common Carriers in this Territory.

Your Committee believes this to be a wise measure, and therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 13, 1911.

Upon motion by Senator Hewitt, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 175 passed Second Reading, and was placed on the Calendar for Third Reading on Friday, April 14, 1911.

Senator Judd presented a Report (No. 256) from the Judiciary Committee, recommending the passage of House Bill No. 246, as follows:

REPORT ON HOUSE BILL NO. 246.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 246, To Regulate the Storage of Explosives, begs leave to report as follows:

Senate Bill No. 93, which has passed the Senate, and is now in the House, seeks to repeal Chapters 75, 76 and 77 of the Revised Laws of Hawaii. These Chapters relate to the storage etc., of gunpowder, liquid explosives and the testing, storage, etc., of kerosene. Senate Bills Nos. 94 and 95 by Section 2, seek to put these matters into the hands of the County and City and County Governments, they being considered purely local matters. These bills passed the Senate, and are now in the House. The Health Committee of the House has recommended that Section 2 of Senate Bills Nos. 94 and 95 be stricken out, recommending the passage of the other sections of these bills. The Health Committee introduced in place of and as a substitute for these sections 2, House Bill No. 246. This bill seeks to establish a standard requirement regulating the storage of explosives in the Territory, and provides that the law shall be enforced by the Counties and City and County within their respective jurisdictions. This bill has the approval of the Fire Underwriters and the business men generally. It is in much detail, and thoroughly covers the ground. It has the great advantage of making the various requirements the same in all parts of the Territory at the same time leaving the minor details, and the matter of the actual enforcement of the law in the hands of the County and City and County officers, where it should belong, it being a purely local matter. Since Senate Bill No. 93 taking these matters out of the hands of the Superintendent of Public Works will undoubtedly pass the House it is essential that some measure pass placing the jurisdiction over these matters in the hands of the County and City and County officers. and since this bill covers the ground very thoroughly and is believed by your Committee to be satisfactory in every respect, your Committee is of the opinion that it should pass.

In view of the above your Committee recommends the passage of House Bill No. 246.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., April 13, 1911.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

I have the honor to return herewith Senate Bill No. 89, which this day passed Third Reading in the House of Representatives of the Territory of Hawaii with the following amendments:

In line 6 of Section 1, after the word "located" insert the words "a license."

After Section 2, insert two new sections, to read as follows:

Ayes: Senators Baker, J. T. Brown, Chillingworth, Hewitt, Kaleiopu, Makekau, Pali, Quinn, and Robinson. Total, 9.

Senator Judd presented a Report (No. 257) from the Judiciary Committee, recommending the tabling of House Joint Resolution No. 7, as follows:

REPORT ON HOUSE JOINT RESOLUTION NO. 7.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Joint Resolution No. 7, Requesting the appointment of a Committee to inquire into the methods and policy followed by the Administration in the disposition of Public Lands, begs leave to report as follows:

After a careful investigation your Committee finds that there are a number of legal objections to this Resolution. The resolution provides for a Committee composed of five persons, four members of the Legislature, and one outside person. A legislative committee cannot be so composed, since it must be composed entirely of members of the Legislature. Bouvier's Law Dictionary, Committee, in Legislation. The resolution is also objectionable on the ground that it is in conflict with Sections 16 and 17 of the Organic Act, providing that no member of the Legislature shall hold public office. A still further objection is that the Committee shall report by January 1, 1913,

and two of the Representatives and one of the Senators composing the Committee will not be in office on January 1, 1913, their terms expiring November, 1912, and will therefore on January 1, 1913, not be members of the Committee. On the other hand if it is a Board rather than a Committee, the provision for the appointment of the members is contrary to Section 80 of the Organic Act.

Your Committee further is of the conviction that it is unwise to recommend favorably a measure which will put large and grave responsibilities on a committee or commission, such as those outlined in the resolution, without giving the Committee a corresponding power to fulfill those duties. No inquisitorial powers are sought to be given by this resolution and the result of passing the resolution can only be to have an investigation made by the committee or commission which will be only superficial.

Your Committee further sees no reason why the resolution should single out one common carrier by sea to be investigated, and not have the duty given the committee or commission of investigating all common carriers.

For the reasons above stated your Committee recommends that the resolution be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,

I do not concur

At 10:26 o'clock A. M., a Message (No. 8) from the Governor, vetoing Senate Bill No. 99, was received and read by the Clerk as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.

Honolulu, April 14, 1911.

To the Legislature:

I return herewith, without my approval, Senate Bill No. 99, entitled "An Act to Authorize the Reduction of Capital Stock of Corporations and Joint Stock Companies."

The object of this bill is to authorize reductions in both the capital and the capital stock of corporations, but it is at least doubtful whether it accomplishes these purposes. The bill is objectionable also because of its uncertainty and because it contains a provision that might operate unfairly to minority share-holders.

"Capital" and "capital stock" are often confused, each being used in the sense of the other or in both senses, but when properly used they signify different things. One is actual property; the other, merely a nominal representation of it.

In the first two paragraphs of the present bill the words "capital stock" seem to be used in their more appropriate sense, while in the third paragraph the word "capital" seems to be used interchangeably in both senses. It is only the first paragraph that purports to grant the authority desired; and that, in conformity with the title of this Act, purports to grant authority only to reduce the capital stock. If the capital also may be reduced, it is only by uncertain inference from the language of the Act or as a legal corollary to the reduction of the capital stock irrespective of the language of the Act. The Act is too uncertain to justify placing it upon the statute books. One of its objects is to remove uncertainties in the present law; it should not add other uncertainties. Legislation upon an important branch of corporation law should be clear.

Moreover, the Act provides that in case of a reduction by surrender or retirement of outstanding stock, the share-holders shall be entitled to participate pro rata "unless the resolution authorizing the reduction shall otherwise provide." Either this provision would be unconstitutional, as injuriously affecting vested rights or contract obligations, or else it would permit three-fourths of the share-holders to take an unfair advantage of the remaining fourth, contrary to established salutary principles of corporation law.

The desired ends can easily be attained by the enactment of another Act.

WALTER F. FREAR,
Governor of Hawaii.

AN ACT

TO AUTHORIZE THE REDUCTION OF CAPITAL STOCK OF CORPORATIONS AND JOINT STOCK COMPANIES.

Be It Enacted by the Legislature of the Territory of Hawaii:

Section 1. Any Corporation or joint stock company, upon complying with the requirements of this Act, may, by vote of

not less than three-fourths of all the shares of stock, or if two or more classes of stock have been issued, of three-fourths of each class of stock outstanding and entitled to vote at any meeting heretofore or hereafter duly called and held for the purpose, effect a reduction of its capital stock by retiring or reducing any class or number of shares of stock, or by reducing the par value of its stock.

If reduction is to be made by the surrender and retirement of a portion of the outstanding stock, each stock-holder shall, unless the resolution authorizing the reduction shall otherwise provide, be entitled to participate *pro rata* in the surrender of certificates for cancellation and retirement. If any stock-holder shall fail to exercise his option within thirty days after written notice given him by the corporation, the corporation may accept any other shares in lieu thereof.

A sworn certificate shall be signed by the presiding officer and secretary of the meeting and presented to the Treasurer of the Territory setting forth therein the action taken, and certifying that at the time such vote was taken, the Company was not and has not since become indebted in any manner over and above half of the amount of its remaining capital. The Treasurer shall record thereon the date of its receipt in his office and shall publish a notice of the same in some suitable newspaper in Honolulu at least once a week for four successive weeks, the first publication to be not more than ten days after the receipt of said certificate. Upon the expiration of thirty days after the first publication of said notice, if no protest or objection to the proposed reduction of capital shall have been filed with the Treasurer by any person claiming to be a stock-holder or creditor of such corporation, the Treasurer shall enter such decrease of capital of record and the same shall thereupon stand as effected as of the date of the original filing of said certificate. Otherwise the Treasurer shall proceed to consider any object made, and if he shall thereupon be satisfied that the vote certified has been truly taken, and that the corporation was not at the time of filing of said certificate indebted beyond the limit aforesaid, he shall enter such reduction of capital of record in manner aforesaid.

Section 2. This Act shall take effect from the date of its approval.

Approved this day of April, A. D. 1911.

Honorable Eric A. Knudsen,
President of the Senate,
Legislature of the Territory of Hawaii,
Honolulu, Hawaii.

Sir:—

By direction of the Secretary, I beg leave to notify your Honorable Body that the Governor has this day signed the following bills:

House Bill No. 228, as Act 89, entitled "An Act to Amend Section 1 of Act 42 of the Session Laws of 1903, Relating to Public Loans;"

House Bill No. 237, as Act 90, entitled "An Act to Protect and Safeguard the Interests of Newly Arrived Immigrants Into this Territory."

Very respectfully yours,

H. P. O'SULLIVAN,
Chief Clerk.

The Communication was received and placed on file.

Senator Judd presented a Report (No. 258) from the Judiciary Committee, recommending the passage of House Bill No. 191, as follows:

REPORT ON HOUSE BILL NO. 191.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 191, To Amend Section 2161 of the Revised Laws of Hawaii, Relating to Notices of Foreclosure of Mortgages under power of Sale, begs leave to report as follows:

The purpose of this Bill is to do away with the necessity of advertising foreclosures of mortgages in the Hawaiian as well as in the English language. After careful investigation your Committee is of the opinion that this measure is advisable on the ground of the saving in money to the man whose property is being sold. Your Committee is of the opinion that sufficient advertisement is given when the notice is published in the English language.

For the above reasons your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 14, 1911.

Upon motion by Senator Makekau, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 191 passed Second Reading, and was placed on the Calendar for Third Reading on Saturday, April 15, 1911.

Senator J. T. Brown presented a Report (No. 31) from the Special Committee on House Bill No. 206, recommending the passage of the Bill, as follows:

Honolulu, April 14, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Select Committee consisting of the Hawaii Senators to whom was referred House Bill No. 206 entitled "An Act to Provide for the Erection and Maintenance of Hospitals in the Districts of North Kohala, North and South Kona, Island of Hawaii, by the County of Hawaii," has had the same under careful consideration and begs leave to report as follows:

The Bill seeks to provide the means of having indigent sick as well as people who may be able to pay for medical aid, properly treated and cared for, without expense to the Territory in general. The Committee finds no reasonable objection to the passage of the Bill. The building of hospitals in localities far removed from any establishment which is fully equipped with medical supplies for dispensing to such persons as may apply for medicines and treatment, is considered an advancement towards promoting the health interests of the communities favored with such institutions.

Your Committee therefore recommends the passage of the Bill.

Respectfully submitted,

J. T. BROWN,
Chairman.

R. H. MAKEKAU,
GEO. C. HEWITT,
DAVID K. BAKER,

Upon motion by Senator C. Brown, seconded by Senator Judd, the Bill was tabled.

2. "An Act to Amend Section 188 of the Revised Laws as Amended by Section 3 of Act 42 of the Session Laws of 1909."

Under suspension of the rules, Senator Robinson introduced Senate Bill No. 135, entitled "An Act to Amend Sections 212,

219, 221, 234, 238, 246 and 247 and Repeal Sections 200, 201, 202, 220 and 230 of the Revised Laws, Relating to the Department of Public Instruction."

Senator Judd presented a Report (No. 259) from the Judiciary Committee, recommending the passage of Senate Bill No. 127 with certain amendments, as follows:

REPORT ON SENATE BILL NO. 127.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 127, Relating to Taxation, Amending, Repealing and Adding to Certain Laws Relating Thereto, begs leave to report as follows:

This bill seeks to make a number of changes in our law relating to the assessment and collection of taxes throughout the Territory, and are made in the light of past experience which has shown in what particulars the present law could be advantageously amended:

The object of the amendment made by lines 3 and 4, of the printed bill, of Section 1, is to change the date on which taxes are due and payable, from January 31 to January 1. The reason for this change is that it is desired to have taxes always due, and not to have a period of 30 days when taxes are not due and payable.

Section 1, lines 7, 8 and 9 of the printed bill, make the personal, specific, and the first half payment of the property taxes delinquent on May 15th of each year. Under the present law with personal taxes delinquent on March 31, and specific and first half of property taxes delinquent May 15, considerable confusion and unnecessary work is caused in the tax office. By making them all delinquent on the same date will make for efficiency and economy of administration.

Section 1, lines 12 to 16 of the printed bill, lengthen the time within which the tax office may notify the tax payer of the disallowance by it of exemption claimed, or of a raise in tax, and also advance the time within which an appeal by the tax payer may be filed, from May 1 to 15, to April 15 to May 1. Heretofore the date on which specific and the first payment of property taxes became delinquent, and the last day for filing notice of appeal both fell upon the same date. On these last days when the tax office is exceedingly busy with collections, the assessor and his deputies have had to devote a great deal of their time to tax payers who want to take up with them the matter of their assessments. This of course has been to the detriment of their other duties. By making the proposed amendment to this section of the Revised Laws, the tax office will be able to devote the 15 days from May 1 to 15 exclusively to collections. This provision also makes for efficiency and economy of administration.

Section 1, lines 17, 18 and 19 of the printed bill, shortens the time within which the assessment books shall be open from 15 to 10 days. This is a minor matter since the books of the tax

office are always open to the public throughout the year, but it is a convenience to the tax office to have them closed during the last five days before delinquency if they so desire.

Section 1, lines 22 to 24 of the printed bill, change the law to make the tax office legally open during the entire 12 months of the year.

Section 2 and 3. These sections amend the Revised Laws so as to make the requirements as to bonds and oaths of the tax assessor and the deputies the same as in the case of other public officers of the Territory who are required to give bond. This makes for uniformity, and in that view is desirable.

Section 4. The object of the amendment made by this Section is to put the management of the tax office on a more business-like basis.

Section 5. The object of the amendment made by this section is to meet the requirements of today, and to meet the changed condition of affairs today. When the statute of 1905 was drafted all the leading manufactures of automobiles gave the factory weights of the machines they put upon the market. This was the weight of the machine stripped, and ten per cent was then added to this weight to cover the equipment of automobiles. Today none of the factories give the weights of their machines. Numerous efforts have been made to ascertain the weights of different automobiles by inquiring of the factories, but with no success, they being either unable to or refusing to give the weights. It is therefore considered desirable to base the tax upon the actual weight of the automobile.

Section 6. This section repeals Section 1218 of the Revised Laws. This is for the reason that this provision in our statutes has been inoperative and useless, and there is therefore no necessity of keeping it upon our statute books.

Section 7. This amendment by addition to Section 1221 of the Revised Laws providing that failure by the tax payer to make due return of the property owned by him shall be a waiver of his right to any exemption from taxation, is thought to be a very desirable provision since it will force all owners of property to make return thereof to the tax office, and will also materially assist the tax office in their duties.

Section 8. This section of the Revised Laws as amended by this bill provides for the filing of the statement claiming exemption in January, the same time other returns are to be made, instead of in July as at present. The statute is also amended by inserting the approval of the Board of Agriculture and Forestry as a requirement for use of the land and the sale of its product in certain cases.

Section 9. The amendment made by this section is for the purpose of covering all property which has been overlooked.

whether this has been during the current year or during preceding years, and is considered a desirable provision.

Section 10. The amendment made by this section is to change the law to conform to the provisions of Section 1 of this bill, lines 17, 18 and 19 of Section 1 of the printed bill.

Section 11. The amendment made by this section to the present law is to make it conform to Section 1 of this bill, lines 14, 15 and 16 of the printed copy.

Section 12. The amendment made to Section 1249 of the Revised Laws by this section is for the following reason. Under the present law each deputy is required to keep a copy of the list made by him, the intention of the law being only that the country deputies should keep such copies. The deputies in the office in Honolulu do not need these copies. It is further desired to have the lists in by May 1 of each year.

Section 13. The amendment made by this section is to conform to lines 3 and 4 of Section 1 of the printed bill.

Section 14. The amendment to the existing law made by this section is for the purpose of having it conform to the provisions of Section 1, lines 7, 8 and 9 of the printed copy of the bill.

Section 15. This Section seeks to change the rate of interest on delinquent taxes. The rate of interest now charged is ten per cent, and it is believed that 6 per cent is sufficient if interest is to be charged. The section also reduces the penalty from 10 to 5 per cent.

Section 16. This section seeks to make taxes due a perpetual lien upon the property assessed, instead of a lien for 3 years.

Section 17 provides for the sale of real property by way of foreclosure of the tax lien thereon, and is a desirable provision to have on our statute books.

Section 18. The amendment made by this section is for the purpose of keeping the tax office open during the entire year, and to conform to the provisions of Section 1, lines 22 to 24 of the printed bill.

Section 19 refers entirely to the publishing of lists of delinquent tax payers, and changes the date from December 1 to December 31.

Section 20 amends the present law by adding to the list of property which may be seized under the provisions of Section 1271 of the Revised Laws, "property subject to specific taxes."

The foregoing shows the changes which this bill proposes to make to the present law.

After a careful consideration of the provisions of this bill, your Committee recommends the following amendments. The majority of these amendments are only verbal ones, and are for the purpose of inserting at the beginning of each section the

words in the present law indicating the subject matter of each section. This is a practice which your Committee considers desirable.

These amendments are to the typewritten bill:

Section 1, line 4, after the words "Section 1183" insert the word "DATES." Strike out all of lines 31 to 35, beginning with the words "as soon" and ending with "December 31." (Lines 25 to 28 of the printed bill). This provision as to the advertisement of the delinquent list is stricken out for the reason that it is of no practical benefit, and is only an expense to the Government. Further, this list as now published only includes the delinquent tax payers for the preceding year, and does not include the delinquents from other years.

Section 2, line 3, after the words "Section 1186" insert the words "BOND, OATH."

Section 3, line 3, after the words "Section 1188" insert the words "BOND, OATH."

Section 4, line 4, after the words "Section 1195" insert the word "COMPENSATION."

Section 5, line 5, after the words "Section 1203" insert the words "BRAKE, SULKY, OX-CART, AUTOMOBILE, ETC., TAX." Line 22 strike out "to the steering wheel or handle" and insert in lieu thereof the words "upon the license number." This is believed to be a better place to attach the tag provided for in this Section than the steering wheel, where it will be in the way of the driver. Line 42, strike out the first word "to" before the word "be." This word is unnecessary.

Section 8, line 3, after the words "Section 1222" insert the words "FOREST LAND." Line 19, strike out the word "thereon" and in lieu thereof insert the words "on such land." This is only a verbal change, and to make the intent of the section clear.

Section 9, line 3, after the words "Section 1242" insert the words "ADDITION OF UNRETURNED PROPERTY."

Section 10, line 4, after the words "Section 1244" insert the words "TAX LIST OPEN TO PUBLIC."

Section 11 strike out first three lines, and insert in lieu thereof the following:

"Section 11. Section 1245 of the Revised Laws of Hawaii as amended by Section 9 of Act 89 of the Session Laws of 1905, and as further amended by Act 18 of the Session Laws of 1909, is hereby further amended by striking therefrom the words" Reference to the act of 1909 was omitted in the draft of this bill.

Section 12, line 4, after the words "Section 1259" insert the words "DEPUTY ASSESSOR'S LISTS."

Section 13, line 4, after the words "Section 1263" insert the words "WHEN TAXES PAYABLE."

Section 14, line 4, after the words "Section 1264" insert the words "DELINQUENCY."

Section 15, line 4, after the words "Section 1265" insert the word "PENALTY." Line 7, beginning with the words "All delinquent" strike out balance of line, and lines 8, 9, 10 and 11. Add at the end of this section the following:

"If taxes assessed prior to December 31, 1911, remaining unpaid, are paid after January 1, and before June 30, 1912, the tax assessor shall have the power to remit all penalties and interest thereon, and if not so paid no interest shall accrue thereon after June 30, 1912." Your Committee is of the opinion that this provision will result in large collections being made of delinquent taxes. Your Committee is also of the opinion that there should be no interest on delinquent taxes since it mounts up so rapidly that in a short time the amount of the tax is doubled, and this keeps many people from paying taxes which are delinquent who would otherwise be able and willing to pay up.

Section 16. Your Committee is of the opinion that the change from a lien of 3 years to a perpetual lien is inadvisable and undesirable. It sees no reason why the change suggested should be made. It is believed that the expiration of the tax lien in three years, as under the present law would throw upon the tax assessors the duty of enforcing the lien before its expiration, and would be an incentive for them to do so. With a perpetual lien they would have the feeling that the property is always good for it, and that there is no need of getting after the property owner, and enforcing the lien promptly.

Strike out all of Section 16.

Section 17. Renumber this Section—Section 16. Line 3 after the words "Section 1266A" insert the words "SALE OF REAL PROPERTY." In the last line of this section strike out the words "on and."

Section 18. Renumber this Section—Section 17. Line 4 after the words "Section 1267" insert the words "PUBLIC NOTICE, TIME, PLACE OF COLLECTION."

Section 19. Strike out the whole of this section, for the same reason as given for striking out lines 31 to 35 of Section 1.

Section 20. Renumber this Section—Section 18. Line 3 after the words "Section 1271" insert the words "PROCEDURE UPON DISTRESS."

Renumber Section 21, Section 19.

With the amendments which have been made by your Committee it is believed that the bill is in proper form, and that it will accomplish the purposes desired.

After holding hearings upon the bill, and having a full dis-

cussion of the provisions, your Committee is of the opinion that the bill as amended is a wise measure.

In view of the foregoing your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 15, 1911.

Upon motion by Senator Robinson, seconded by Senator Pali, consideration of the Report was deferred until Monday, April 17, 1911.

Senator C. Brown presented a Report (No. 32) from the Special Committee on House Bill No. 249, recommending the passage of the Bill with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 249.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Select Committee of the Oahu Members, to whom was referred House Bill No. 249, to appropriate and provide for the purchase and acquisition of the right, title, and interest held by the Kapiolani Estate, Limited, in and to the lease on certain lands situate on the slopes of Punchbowl, Auwalolimu, in the City of Honolulu, begs leave to report as follows:

The purposes of this bill are indicated by the title, it being purposed to purchase from the Kapiolani Estate, Ltd., all its right, title and interest in and to certain lands in Honolulu. To accomplish the purposes desired your Committee is of the opinion that it will be necessary to make several amendments to this bill. Your Committee therefore recommends the following amendments:

First: Amend the title of the bill by striking out all of the title after the words "An Act" and inserting in lieu thereof the following:

"To Appropriate Twenty Thousand Dollars (\$20,000.00) to facilitate and expedite the granting of certain preference rights."

Second: Strike out all of Sections 1, 2, 3 and 4, and insert in lieu thereof the following:

"Section 1. The sum of Twenty Thousand Dollars (\$20,000.00), or so much thereof as may be necessary, is hereby appropriated from the general revenues of the Territory, to be expended by the Commissioner of Public Lands, with the approval of the Governor, to facilitate and expedite the granting of preference rights on the land of Auwalolimu in the City of Honolulu, by the purchase of the right, title and interest of the Kapiolani Estate, Limited, therein, or otherwise."

"Section 2. Any such moneys so expended shall be, as near as may be, repaid to the Territory by the occupants of said land in such proportions and upon such conditions as to the Commissioner of Public Lands, with such approval, shall seem equitable; it being the intent of this Act that the cost of facilitating and expediting the granting of such preference rights shall not finally be borne by the Territory."

Third: That Section 5 be renumbered "Section 3."

With these amendments your Committee is of the opinion that the bill will accomplish the objects desired. As in Act 57 of the laws of 1911, provision is made in this bill for the reimbursement of the Territory for the money expended for these purposes. Your Committee is thoroughly in accord with the idea of facilitating and expediting the granting of preference rights in the lands of Auwalolimu.

Your Committee recommends the passage of this bill as amended. A copy of the amended bill is attached to this report.

Respectfully submitted,

SELECT COMMITTEE OF OAHU MEMBERS.

CECIL BROWN,

Chairman.

Senator Judd presented a Report (No. 262) from the Judiciary Committee, recommending the passage of House Bill No. 240 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 240.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 240, Relating to Registration of Voters amending Sections 4, 6 and 8 of Act 68 of the Laws of 1911, and Repealing Section 30 and amending Sections 37, 41, 50, 52 and 53 of the Revised Laws of Hawaii, begs leave to report as follows:

The purposes of this bill are to make certain changes in Act 68 of the Laws of 1911 to make it conform to the Organic Act, and to make certain other changes, and also to amend the Revised Laws to conform to the provisions of said Act 68.

Section 1. The most important change is to make a provision for the County of Kalawao, it being left out of Act 68, and to include the same in the County of Maui for the purposes of

this Act. It also adds additional provisions for challenges.

Section 2. Change made by this section is to have the law conform to the provisions of the Organic Act with respect to length of residence before registration in any precinct.

Section 3. This section advances the time for closing the county register by twenty-four hours.

Section 4 repeals Section 30 of the Revised Laws for the reason that this section is now unnecessary, and therefore should no longer remain upon our statute books.

Section 5. Strikes certain words from Section 57 of the Revised Laws. This change is necessary to avoid conflict in our statutes.

Section 6. Strikes certain words from Section 41 of the Revised Laws for a like reason.

Section 1. Strikes certain words from Section 50 of the Revised Laws for a like reason.

Amendments to the Revised Laws made by Section 8 and 9 are also necessary in view of the provisions of Act 68 of the laws of 1911.

After a careful consideration of this bill your Committee finds that all of the amendments made therein to the laws of 1911 and to the Revised Laws are desirable, and necessary, and your Committee therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

April 15, 1911.

Committee.

Upon motion by Senator Judd, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 240 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Monday, April 17, 1911.

Senator Judd presented a Report (No. 263) from the Judiciary Committee, recommending the passage of House Bill No. 229 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 229.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 229, to Prohibit Trespassing upon the rights of way of

railroads within the Territory of Hawaii, begs leave to report as follows:

The purposes of this bill are to protect human life, and to prevent trespassing upon railroads, as well as to protect the railroads from gross carelessness on the part of the public.

While this bill does not follow very closely the statutes of any particular state, it is based upon similar laws in Pennsylvania, New Jersey, New York, and Wisconsin.

Your Committee, after a careful consideration of this bill, recommends the following amendments:

First: Strike the words "ten dollars" in line 3 of Section 2, and insert in lieu thereof the words "Fifty Dollars." This change is made for the reason that your Committee is of the opinion that a ten dollar fine is not sufficient to deter all persons from violating the provisions of this bill.

Second: That after Section 2 there be a new Section 3 inserted reading as follows:

"Section 3. No owner or operator of any railroad shall be liable in damages for the death of or injury to any person arising out of a violation of the provisions of this Act."

This provision is found by your Committee to be necessary to give proper effect to the bill. Without this provision it is considered that the bill would be useless.

Third: That Section 3 be renumbered Section 4, and that this section be amended by inserting after the word "include" in line 2 thereof the following words:

"Temporary or portable steam railroads as well as" Your Committee sees no reason for leaving temporary or portable steam railroads out of the provisions of this bill, your Committee being of the opinion that there is every reason for giving them the same measure of protection that is given to railroads operating upon a permanent right of way, and especially so since in the majority of cases these portable or temporary railroads are operated exclusively upon their own property.

Fourth: That Section 4 be renumbered Section 5, and that the section be amended to read as follows:

"Section 5. A copy of this Act shall be posted in conspicuous places in all railroad stations, and at permanent railroad crossings."

Fifth: That Section 5 be renumbered Section 6.

With these amendments your Committee is of the opinion that the bill is in proper form, and will accomplish the purposes desired.

Your Committee is in accord with the purposes of this bill,
and therefore recommends the passage of the bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

The Journal of the Fifty-first Day was read and approved.

At 10:07 o'clock A. M., a Message (No. 9) from the Governor vetoing House Bill No. 3, was received and read by the Clerk as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.

Honolulu, April 17, 1911.

To the Legislature:

I return herewith, without my approval, House Bill No. 3, entitled "An Act to Provide for the Construction of Belt Roads."

This bill requires the Territory to pay \$400,000 to the counties for the construction of belt roads. The principal objection to it is lack of funds.

I enclose herewith a revised statement of estimated receipts and expenditures for the present half year and the next biennial period. It shows receipts of \$1,817,280 for the present half year, and \$6,465,721 for the next period, from which must be deducted, as required by law, transfers to special funds and payments to counties of \$911,420 and \$4,829,553 respectively for the two periods, leaving available receipts for general Territorial expenses of \$905,860 and \$1,646,168 respectively, to the former of which there must be added the net cash balance on hand December 31, 1910, of \$753,097.72, and from which there must be deducted the balance of old appropriations amounting to \$805,385.94, less the portion thereof that will remain unexpended on June 30, 1911, estimated at \$57,110.67, leaving \$910,628.45 for the present half year, and \$1,646,168 for the next period, or a total of \$2,556,850.45, available for new appropriations for general Territorial expenses to the end of the next period. Deducting from this the new appropriations already made at the present session, amounting to \$376,468.06, the proposed appropriations, amounting to \$2,042,661, in the general appropriation bill as passed by the Senate, less the cost, \$139,800, of collecting taxes, payable out of special funds; and the interest and sinking fund, amounting to \$98,130, required by the public improvement appropriation bill, as passed by the Senate, in respect of Territorial improvements alone, other than water and sewer works, and assuming that the bonds will be thirty-year bonds and will bear only four per cent interest and that only half of them will be issued the first year—a total of \$2,377, 459.06—there remains only \$179,391.39 for all further

appropriations at the present session and all appropriations of the next session for the same biennial period, such as those for the expenses of the Legislature of 1913 and other purposes, and also for the maintenance of the government from July 1, 1913, until the taxes are paid in the following November.

It is obvious that there will be no available funds out of Territorial general revenues for county belt roads.

The bill, of course, was intended to carry out a party pledge, but, in the first place, that pledge was made with reference to an expected surplus which it now appears does not exist. Consequently, the pledge has become impossible of fulfillment. To attempt a fulfillment by taking from funds required for the maintenance of the government would be to commit a greater wrong in order to avoid seeming to commit a lesser one. In the second place, the platform contained a number of pledges calling for funds and since it has proved to be impossible to fulfill all of these, owing to lack of funds, the Legislature has done the best that it could do under the circumstances by giving the preference to those, such as that for public schools, which have the better claim on the revenues. In the third place, finding it impossible to carry out this pledge literally, that is, out of general revenues, the Legislature may more than fulfill it in spirit by providing more amply, as apparently it plans to do, for the same object out of loan funds. Additional sources of revenue also are being given to the counties, which with the natural increase in their present revenues should result in a net increase of at least \$200,000 for the next period.

It should be borne in mind also that the counties found it possible last year to expend out of their present revenues \$721,380.66 for roads alone, or at the rate of nearly one and a half million dollars in a biennial period. To add to that at the expense of the public schools, the public health and like services would be to place luxuries before necessities—to be generous before being just.

It should be borne in mind also that the government must be supported from one tax-paying period to the next and that the surplus consists at most of the net cash balance immediately before and not immediately after the taxes come in. For instance, the net cash balance at the beginning of the present half year was \$753,097.72 but it is only \$413,180.78 now, with yet a month before the next general property taxes have to be paid, and with many of the March bills not yet paid, and that, too, though all specific property and personal taxes have to be paid before the end of March. This consideration is of special importance with reference to the next half year, when there are no specific and personal taxes to tide over the comparatively barren months from July to October and when there will be special need of funds, in view of the proposed

new tax system, for carrying the counties and schools until the increase in taxes takes place next year.

If the bill in question should become law, the Executive would unavoidably be obliged to confine expenditures to the most pressing needs and to curtail even those, and leave unexpended appropriations for some important objects.

The bill makes mandatory the payment of the \$400,000 in two equal instalments just after the next two main collections of taxes, that is, on the first days of June and December next, when the necessary funds will be sure to be in the Treasury. This makes it a first charge upon the revenues of the Territory. If there were to be ample funds, as it was believed there would be, such a gift out of Territorial revenues to the counties might be regarded as an act of magnanimity on the part of the representatives of the Territory, but, under the circumstances as now disclosed, such a gift could not be regarded otherwise than as a raid upon the Territorial treasury by representatives of the counties, regardless of consequences, and would tend to impair the credit of the Territory and reflect upon the capacity of its people and their representatives for efficient and honest government.

In view of the splendid record of this Legislature I feel confident that it is unnecessary to do more than call attention to the facts in order to secure a just result.

WALTER F. FREAR,
Governor of Hawaii.

And in order to protect the Territory of Hawaii in securing the benefit of such expenditures, any labor agent or other person who shall solicit to leave the Territory immigrants thus assisted with Territorial funds to come to Hawaii, shall provide bonds satisfactory to the Treasurer of Hawaii that he will pay the expense of returning to the country from which they came all immigrants thus solicited and removing from the Territory to the mainland of the United States who may within three years after landing in the United States become public charges; and shall, in addition, reimburse the Territorial Government for the cost of bringing to Hawaii any immigrants who may in consequence of his solicitation remove from the Territory, and to make suitable laws for carrying out these provisions; and

Senator Fairchild presented a Report (No. 265) from the Committee on Ways and Means, recommending the tabling of Senate Joint Resolution No. 1, and the adoption of a substitute Concurrent Resolution (No. 10), as follows:

Honolulu, Hawaii, April 18, 1911.

Hon. E. A. Knudsen,

President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred

Senate Joint Resolution No. 1, has had same under careful consideration and investigation, has held a duly advertised public hearing for a general discussion of the objects of the resolution, and has compiled considerable data relative thereto, which is submitted herewith as a result of conferences, discussions and investigations.

Your Committee has so amended the original resolution that it now recommends it be tabled substituting for same Concurrent Resolution No. 10 which accompanies this report.

The object of this resolution is, as was the one it replaces, to withdraw all of the developed public lands and waters from the operation of the Organic Act placing them in the hands of a Commission for the purpose of making them render the maximum revenue in the interests of the education and health of the inhabitants of this Territory thereby removing them from imminent danger of being lost to the people under the guise of homesteading at a fraction of their real value. This action is in accord with American principles under which 67,893,919 acres have been set aside in the various states and territories.

Your Committee from its investigation has found many reasons to urge the passage of this resolution which will immediately result in conserving to the people a mere remnant of the most valuable asset once possessed by them from which to derive an ever increasing revenue in the interests of the greatest good for the greatest number. We find that there are 35,000 acres of public land with water improvements etc., which in the opinion of those competent to judge, is worth over \$5,000,000. Should this realty be given to homesteaders at a fraction of its value, the temptation for those most interested to acquire it through homesteaders, upon terms which would induce them to sell out their holdings, is so great we believe it would result in the Territory eventually losing all these lands and water, and at a price much below their real worth.

To the few ultra conservatives who oppose the passage of this resolution fearing it may be considered a radical or retrogressive step and be regarded by Washington as indicating an inimical attitude toward the homesteading of this Territory with white immigrants, attention is called to the fact that from our investigations we are inclined to believe that the withdrawal of all the developed lands and waters and the offering for homesteads of the undeveloped lands at nominal prices would result in the adoption of a safe, sane and sound homestead policy with the result that homesteading such as is desired will come more quickly than under the present law. We have evidence to warrant the belief that so long as the valuable revenue producing lands are subject to homesteading at

a fraction of their value, there will be no pioneer homesteading of the 100,000 acres of undeveloped lands to which we urge the pioneer homesteader be given free access and every legitimate encouragement. One of the reasons why 1,400 surveyed homesteads, comprising an area of 44,266.43 acres, are not taken up is due, in our opinion, to the fact that those desiring same do not want to forfeit their chance to homestead on valuable developed lands, by taking up one of the undeveloped homesteads. Remove this bar and we believe the homesteads now awaiting occupants will be taken up immediately. To those who oppose the resolution for fear of political consequences, we venture the opinion that the party which espouses the carrying into effect of this resolution will reap its reward and that which opposes will go down to defeat before a general election. From a financial standpoint there is everything to commend its passage. According to the Treasurer of the Territory the interest and sinking fund to redeem the present bonded indebtedness unless refunded will amount to \$515,368.70 a year, add to this \$173,490.33 interest and sinking fund charges in the new loan of \$3,000,000 and the total annual charge against the revenue will amount to \$688,859.03. In the opinion of Your Committee the time has arrived to conserve our assets.

To those who oppose the passage due to the fact that the last session of the Legislature requested Congress to amend the Organic Act, in the interests of homesteaders, it must be conceded they would have good grounds for their contention had the Act been amended as requested, but when the Legislature's requests were so amended, changed and altered as to result in a loss of revenue and fee of our most valuable lands and waters, should we not protest at this time which is our first opportunity, would we not be guilty of shirking our responsibilities.

In order that the Senators may be advised of the area and extent of the Public lands, the following statement has been compiled.

Total Area of Public Lands	1,674,804.44 Acres
Total Area of Public Lands Leased	877,841.87 "
Total Area of Public Lands not leased	796,962.57 "

Of the 877,841.87 acres 428,131.89 are leased direct to Plantations, which are classified as follows:

Land in Cane (developed)	35,042.44 Acres
Land suitable for cane (undeveloped)	2,947.20 "
Land suitable for agriculture (undeveloped) ..	7,896.86 "
Land in Rice (developed)	1,030.75 "

Land leased for Pastoral purposes	119,445.37	"
Land in Forests	84,373.11	"
Land designated as waste	119,631.14	"
Land not classified	57,765.02	"
	<hr/>	
	428,131.89	"

According to the foregoing list the lands to be removed from homesteading purposes in accordance with Concurrent Resolution No. 10 are less than 40,000 acres, but it is safe to state that there are sufficient undeveloped cane, agricultural and pastoral lands contiguous to the plantations to provide a homesteading area far in excess of the area so removed.

The Commissioner of Public Lands reports that the following lands are now surveyed, opened and ready for homesteaders:

Hawaii	37,320.67	Acres
Maul	4,308.29	"
Oahu	775.85	"
Kauai	1,861.62	"
	<hr/>	
Total	44,266.43	"

Within the unleased area of 796,962.57 acres of land, there are large areas of excellent arable land and undeveloped water. In the Kona and Kau District alone over 30,000 acres of the best homesteading land is to be opened up for agriculture should House Concurrent Resolution No. 9 which seeks to encourage the building of a railroad into this vast domain become law. Your Committee is advised that this land is far more valuable for homesteaders when opened up by a railroad than are the developed lands to be set aside by the Resolution now under consideration, as they are capable of producing a greater variety of crops than any of the lands in the Territory. Of the 35,042 acres now in cane there are 22,191 acres embraced in six plantations which with the appurtenant waters, improvements, etc., are worth as already stated about \$5,000,000.00, the rentals from them at the present time are nominal, but upon the expiration or extension of the existing leases, they should yield a yearly revenue of from \$250,000.00 to \$400,000.00. What the other 12,851 acres will bring is not as well known except it is presumed a higher rental under the proposed plan, than can be obtained under the present unsatisfactory law.

In conclusion Your Committee in its findings recommends

the tabling of Senate Joint Resolution No. 1, and the passage of Senate Concurrent Resolution No. 10 submitted herewith.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.

JOHN T. BROWN,
WM. T. ROBINSON,
CECIL BROWN,
E. W. QUINN.

Senator Chillingworth moved to amend the Resolution by inserting in Section 2 after the words "this Act," the following:

"And, provided that at any time upon two years' notice having been previously given after the first five years of any lease, the Legislature may, upon the request of the Governor of the Territory of Hawaii, remove any of said lands from the operation of this Act for the purpose of making the same available, at a value not less than the market value of same, to be placed thereon by three appraisers appointed by said Legislature, under the law relating to homesteading."

Seconded by Senator Hewitt, and carried.

Upon motion by Senator Judd, seconded by Senator C. Brown, consideration of the Report of the Committee was deferred until Wednesday, April 19, 1911.

Senator Brown presented a Report (No. 266) from the Committee on Education, recommending the passage of House Bill No. 79, as follows:

SENATE CHAMBER.

Honolulu, April 18, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Education to whom was referred House Bill No. 79 entitled "An Act to Amend Section 211 of the Revised Laws of Hawaii as Amended by Act 47 of the Session Laws of 1907, Approved the 5th Day of April, 1907," has had the same under careful investigation and consideration and begs leave to report as follows:

The Bill seeks to provide that the Hawaiian language may

be taught to such pupils as may be permitted by their parents during such hours as may be fixed without interfering in any manner with the regularly prescribed courses of study. Foreign languages are permitted under the existing law, and the native language of the aborigines of these islands is being neglected to such an extent, that very few persons today understand thoroughly the language. As the bill does not make it compulsory that the Hawaiian language be taught, Your Committee fails to see any reason why the bill should not pass.

Your Committee therefore recommends the passage of the Bill.

Respectfully submitted,

WM. T. ROBINSON,
Chairman.

DAVID K. BAKER,

I do not concur

GEO. H. FAIRCHILD.

Upon motion by Senator Robinson, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 79 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

At 11:48 o'clock A. M., the Senate stood in recess until 2:00 o'clock P. M.

AFTERNOON SESSION.

The Senate came to order at 2:00 o'clock P. M.

Senator Judd presented a Majority Report (No. 267) from the Judiciary Committee, recommending the tabling of House Bill No. 183, as follows:

REPORT ON HOUSE BILL NO. 183.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 183, defining and punishing Gift Enterprises, begs leave to report as follows:

The bill as drawn is based upon a statute of the District of Columbia, which was upheld in the case of Matter vs. Gregory, Petitioner, 219 U. S. 210.

The bill is aimed at the trading stamp enterprise, and other

gift enterprises in the Territory of Hawaii. Your Committee finds upon investigation that it is aimed principally against trading stamp enterprises, though as drawn it is broad enough to cover any sort of gift enterprise.

After a careful investigation your Committee is of the opinion that the trading stamp enterprise is a legitimate business, which gives value for value, and that there exists no valid reason why it should be suppressed, especially so since it is an encouragement to cash business, and gives value for value, giving to the consumer the benefit of a cash discount which he would not otherwise receive, and discourages the running of accounts.

For the above reasons your Committee recommends that this bill be tabled.

Respectfully submitted by majority,

JUDICIARY COMMITTEE,

CECIL BROWN,
R. H. MAKEKAU,

April 18, 1911.

Senator Judd presented a Minority Report (No. 267A) from the Judiciary Committee, recommending the passage of House Bill No. 183, as follows:

MINORITY REPORT ON HOUSE BILL NO. 183.

To the Honorable Eric A. Knudsen,
President of the Senate.

I do not concur in the majority report of the Judiciary Committee, to whom was referred House Bill No. 183, defining and punishing Gift Enterprises, for the following reasons:

Upon investigation I find that the trading stamp enterprise, and the other enterprises at which this bill is aimed are pernicious in their effect, and that they are injurious to legitimate business, and of no real value to the consumer. I find that in many of the States of the United States there are very stringent statutes prohibiting trading stamp enterprises, and that these statutes have been passed only after years of experience with trading stamps, and with a full knowledge of the evils resulting therefrom.

I therefore cannot concur in the majority report on this bill, and recommend that the bill be passed.

Respectfully submitted by minority,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

April 18, 1911.

Chairman.

Upon motion by Senator Makekau, seconded by Senator Baker, the Majority and Minority Reports of the Judiciary Committee on House Bill No. 183, together with the Bill, were tabled.

Senator Judd presented a Report (No. 268) from the Judiciary Committee, recommending the passage of House Bill No. 225, as follows:

REPORT ON HOUSE BILL NO. 225.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 225, to amend Chapter 83 of the Revised Laws of Hawaii, relating to Insanitary Land by amending Sections 1025, 1026, 1027, 1028, 1029, 1030, 1031, 1032 and 1033, and adding a new section to be known as Section 1029A, begs leave to report as follows:

Chapter 83 of the Revised Laws relating to Insanitary Land is defective in several particulars, the constitutional rights of the owners of private lands which may be affected not being properly guarded. These rights in the present bill are properly cared for, and the doubts in our statutes removed. Act 29 of the laws of 1911, carries an appropriation of \$50,000.00 for the purpose of carrying out the provisions of this Chapter of the Revised Laws, and we do not want to have part of that money expended, and not be able to get it back because of the insufficiency or incompleteness of our present laws.

After a careful consideration of this subject your Committee is of the opinion that all of the amendments which are sought to be made by this bill are desirable, and therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

April 18, 1911.

Committee.

Upon motion by Senator Judd, seconded by Senator Fairchild, the Report of the Committee was adopted; House Bill No. 225 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

Senator Judd presented a Report (No. 269) from the Judiciary Committee, recommending the passage of House Bill No. 257, as follows:

REPORT ON HOUSE BILL NO. 257.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 257, to Amend Section 2196 of the Revised Laws of Hawaii Relating to Arbitration, begs leave to report as follows:

Under the present statutes covering the subject of arbitration there is no appeal on questions of law from the decision of the arbitrator even though the parties in their submission to arbitration expressly agree that there shall be such an appeal. On *Tai vs. Richards*, 20 H. 198.

After careful consideration your Committee sees no reason why when parties to an arbitration so agree that an appeal from the decision of the arbitrator should not be taken. This is all the amendments, made to our statute by this bill, do. They allow an appeal when the parties so agree in their submission to arbitration.

Your Committee is of the opinion that the bill is in proper form, and for the reasons above given recommends that it be passed.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 18, 1911.

Upon motion by Senator Judd, seconded by Senator Chillingworth, the Report of the Committee was adopted; House Bill No. 257 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

Senator Judd presented a Report (No. 270) from the Judiciary Committee, recommending the passage of House Bill No. 262, as follows:

REPORT ON HOUSE BILL NO. 262.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 262, to Authorize the Reduction of Capital and of Capital Stock of Corporations, begs leave to report as follows:

Senate Bill No. 99 covering the same subject matter passed the Senate and House, and was vetoed by the Governor, for reasons stated by him in his veto message to the Legislature. House Bill No. 262 incorporates in it the suggestions made by the Governor in his veto message, and will accomplish the purposes desired.

Your Committee therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

April 18, 1911.

Committee.

Upon motion by Senator Judd, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 262 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

Senator Chillingworth presented a Report (No. 271) from the Committee on Public Health, recommending the adoption of House Concurrent Resolution No. 22, as follows:

Honolulu, Oahu, April 18, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health to whom was referred

House Concurrent Resolution No. 22, has had the same under careful consideration and begs leave to report as follows:

This is a harmless resolution. It expresses the opinion only of the Legislature, that it would be a good thing if the President of the Board of Health should permit certain physicians, empowered to issue burial certificates, deputize Sheriffs or Deputy Sheriffs to issue such certificate in certain cases.

A concurrent resolution has not the force of law and would leave the Board of Health President free to carry out the intent of the resolution if he legally can do so.

For the reasons above stated, Your Committee recommends the adoption of the resolution.

Respectfully submitted,

CHARLES F. CHILLINGWORTH,
Chairman.

PHILIP PALI,
ALBERT F. JUDD.

The Report of the Committee and the Concurrent Resolution were adopted.

Senator Chillingworth presented a Report (No. 272) from the Committee on Public Health, recommending the passage of House Bill No. 247, as follows:

Honolulu, Oahu, April 18, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sirs:—

Your Committee on Public Health to whom was referred House Bill No. 247, entitled "An Act to Further Provide for the Care and Medical Treatment of Persons Afflicted with Leprosy" has had the same under careful consideration, and begs leave to report as follows:

This Bill is for the purpose of giving the Board of Health the authority to allow persons detained at Kalihi Hospital or at the Settlement at Molokai to go thence to some other place at such time as the Board of Health may designate, whenever the Board of Health consider it advisable.

This Bill will ameliorate the condition of those persons afflicted with disease.

Your Committee believes this to be a meritorious Bill and recommends its passage.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.
PHILIP PALI,
ALBERT F. JUDD,

Upon motion by Senator Chillingworth, seconded by Senator Judd, the Report of the Committee was adopted; House Bill No. 247 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

Senator Chillingworth presented a Report (No. 273) from the Committee on Public Health, recommending the Passage of House Bill No. 197, as follows:

Honolulu, Oahu, April 18, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health to whom was referred House Bill No. 197, entitled "An Act to Provide Homesteads with Buildings Thereon for Patients Discharged from the Kalihi Receiving Station or the Molokai Leper Settlement" has had the same under careful consideration, and begs leave to report as follows:

Strike out the words "not otherwise appropriated" in line three and four of Section 3 of this Bill, and insert in lieu thereof the words "available for the purpose."

This Bill seeks to carry out the pledges made by most of the members of the Senate, and Your Committee believes that it is nothing but simple justice to furnish the person discharged from the Kalihi Hospital and the Molokai Settlement with a home.

In most every case such person has had to dispose of his home when taken into custody to be segregated for the Benefit of the people of Hawaii.

With the above reasons the Committee recommends the passage of the Bill.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.
PHILIP PALI.
ALBERT F. JUDD.

Upon motion by Senator Pali, seconded by Senator J. T. Brown, the Report of the Committee was adopted; House Bill No. 197 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

Senator Hewitt presented a Report (No. 274) from the Committee on Manufactures, Forestry and Promotion, recommending the passage of House Bill No. 238, as follows:

Honolulu, Oahu, April 18, 1911.

Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Manufactures, Forestry and Promotion to whom was referred House Bill No. 238 entitled "An Act To License and Regulate Billboards and Outdoor Advertising," has had the same under due and careful consideration, and begs leave to report as follows:

The Bill seeks to provide a regulation and license fee for outdoor advertising which in the opinion of the Committee is a proper thing to do.

Your Committee therefore recommends the passage of the Bill.

Respectfully submitted,

GEO. C. HEWITT,
Chairman.

A. S. KALEIOPU,
PHILIP PALI.

Upon motion by Senator Pali, seconded by Senator Robinson, the Report of the Committee was adopted; House Bill No. 238 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

Senator Kalama presented a Report (No. 34) from the Special Committee on Senate Bill No. 120 and House Bill No. 233, recommending the tabling of Senate Bill No. 120, and the passage of House Bill No. 233, as follows:

SENATE CHAMBER.

Honolulu, T. H., April 18, 1911.

The Honorable E. A. Knudsen,
President of the Senate.

Sir:—

Your Special Committee, consisting of the members of the

Senate from the Island and County of Maui, to which was referred Senate Bill No. 120, and House Bill No. 233, both being entitled similarly as "An Act to prescribe the Tenure of Office and manner of Election of the Supervisors of the County of Maui," begs leave to state, that after it had given both Bills due and careful consideration, it submits the following as its report:

The intent of both measures are identical, in that they aim to have the members of the Board of Supervisors elected at large, and that the contemplated change, your Committee feels, is very imperative. The present method of electing members of the Board is distinctly objectionable, it being the old "ward" system, which history as well as experience has taught us that it is the worst kind of government, in that it encourages all manner of irregularities. Further than this, the Bills also provide for the election of a chairman and executive officer of the Board and County; in other words, the proposed chairman would become the manager, or superintendent, of the County, and he, together with the four members, would constitute the County's Board of Directors.

Under the system that now prevails, the Board is the Board of Directors of the County. It directs its various subordinate superintendents or heads of departments, once each month at its stated monthly meetings, dissolves itself and leaves no head to affairs until its next stated meeting, a month hence, or when it may call itself together in special session. The purport of these Bills intend to remedy the defect of the present system, so that the chairman or executive officer, or head of affairs, may act with authority from the Board of Supervisors between meetings.

In conclusion, your Committee would therefore recommend that Senate Bill No. 120 be laid on the table. It further recommends the passage of House Bill No. 233.

Respectfully submitted,

S. E. KALAMA,

Chairman.

WM. T. ROBINSON,

PHILIP PALI,

Members.

Upon motion by Senator Pali, seconded by Senator Baker, the Report of the Committee was adopted; Senate Bill No. 120 was tabled; House Bill No. 233 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 19, 1911.

A Communication (No. 58) from Hon. E. A. Mott-Smith, Executive Officer of the Board of Commissioners of Public Archives, transmitting a Resolution relative to the Chest of Silverware in the Archives, was read by the Clerk as follows:

ARCHIVES OF HAWAII.

Honolulu, H. T., April 18, 1911.

Hon. Eric A. Knudsen,
President of the Senate.

Sir:—

I have the honor to transmit the following Resolution of the Board of Commissioners of Public Archives, passed at a meeting held this 18th day of April, 1911:

"Resolved that the Chairman of the Board be requested to immediately acknowledge the receipt of Concurrent Resolution No. 23, and to state to the Legislature now in session, that in the humble opinion of this Board, a Concurrent Resolution does not confer any authority to make the desired disposition of the Chest of Silver received by Kamehameha IV. in 1858, and therefore does not relieve this Board of its responsibility. If the Territory, through its Legislative and Executive Branches, desires by law to show the Hon. Jonah K. Kalanianaʻole its appreciation of the services he has rendered as Delegate at Washington by such disposition of the Silver as the Concurrent Resolution indicates, then action should be taken while there is still time during this session to pass either an Act or a Joint Resolution to that effect."

I have the honor to be,

Very respectfully,

E. A. MOTT-SMITH,
Chairman and Executive Officer,
Board of Commissioners of Public Archives.

Honolulu, April 19, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sirs:—

Your Committee on Public Lands and Internal Improvements to whom was referred Concurrent Resolution No. 24, Requesting the Attorney General and the Commission of Public Lands to take such steps as may be necessary for the purpose of adjudicating in the matter of the Waiohinu Spring water rights, in the District of Kau, Island of Hawaii, begs leave to report that it has had the same under due and careful consideration, and recommends its adoption.

Respectfully submitted,

Chairman.
A. S. KALEIOPU,
GEO. C. HEWITT,

Upon motion by Senator Pali, seconded by Senator Judd, the Report of the Committee and the Resolution were adopted.

Senator Chillingworth presented a Report (No. 277) from the Committee on Military, recommending the passage of House Bill No. 165 with one amendment, as follows:

SENATE CHAMBER.

Honolulu, April 19, 1911.

Honorable E. A. Knudsen,
President of the Senate,
Honolulu.

Sir:—

Your Committee on Military to whom was referred House

Bill No. 165, entitled "An Act to Amend Section 115 of the Revised Laws of Hawaii Relating to Holidays," begs leave to report that the same has had careful consideration and further recommends that it pass as amended by your Committee.

Your Committee recommends striking out the clause in Section 1 which reads "Whenever any of said days shall fall upon Sunday, the Monday next following such day shall be a legal holiday," and inserting in lieu thereof the clause "Whenever any of said days shall fall upon Sunday, all government offices shall remain closed on the Monday next following such Sunday."

It is the custom in the territory for all banks and business houses to so observe this day and by this amendment government offices will be permitted to observe the same custom.

The second paragraph of this bill gives to the Governor the power to declare a holiday which is the right of every governor of every state in the Union.

The Congress of the United States has given the Governor, under the provisions of the Organic Act, the great power to call upon the army and navy of the United States stationed in Hawaii if necessary, to suspend the writ of habeas corpus, and to declare martial law should occasion require, this bill will confer upon him the lesser right of declaring a holiday.

Your Committee respectfully recommends that the bill do pass as amended.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.

E. W. QUINN,
R. H. MAKEKAU.

Upon motion by Senator Chillingworth, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 165 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Thursday, April 20, 1911.

Senator Kalama presented a Report (No. 278) from the Committee on Public Lands and Internal Improvements, recommending the passage of House Bill No. 218 with one amendment, as follows:

Honolulu, April 19, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Lands and Internal Improve-

ments to whom was referred House Bill No. 218 entitled "An Act Authorizing the cancellation of Lease of the Island of Kahoolawe and remitting back Rents" has had the same under careful investigation and consideration and begs leave to report as follows:

The Bill seeks to cancel the lease referred to in the Bill at the instance of the Departmentt of Forestry of the Territory and to refund back rents due therefor.

The Committee sees no reason why the Bill should not pass, and therefore recommends its passage with the following amendment:

Insert the word "unpaid" after the word "all" in line 3 of Section 3 of the Original.

Respectfully submitted,

S. E. KALAMA,
Chairman.
GEO. C. HEWITT.

Senator Judd presented a Majority and Minority Report (No. 279) from the Judiciary Committee on House Bill No. 186, as follows:

REPORT ON HOUSE BILL NO. 186.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House

Bill No. 186, creating a Board of Water and Sewer Commissioners for Honolulu, and providing for the transfer of the management, control and maintenance of the Honolulu Water and Sewer Works to and by said Board of Commissioners, begs leave to report as follows:

The purposes of this bill are to create a Board of Water and Sewer Commissioners for Honolulu, to be composed of five members, of which the Superintendent of Public Works shall be chairman ex-officio, and to turn over to this Board the powers and duties heretofore imposed upon the Superintendent of Public Works relative to the Honolulu Water and Sewer Works.

Constitutional objections have been urged before this Committee against this bill, but after a very thorough and careful consideration of the provisions of this bill and of the Organic Act, your Committee is of the opinion that it is well within the power of the Legislature under the Organic Act to modify the powers and duties of the Superintendent of Public Works as is done by this bill.

After careful investigation of the matter your Committee finds that it is inadvisable to continue the control and management of the Honolulu Water and Sewer Works in the hands of a single man, and especially so when this man is not able to devote his entire time and attention to these matters, because of numerous other duties cast upon him, and which require his attention. Also with the management and control of these matters vested in a Board of five members there is less likelihood of there being an arbitrary exercise of executive power in any instance, and further that the public generally will be able to present their side of disputed questions with more assurance of full hearing and proper consideration, and even when questions are decided against them will be better satisfied, than they are when the sole power is invested in one man, with no appeal or relief from his decisions.

After a careful consideration of this bill your Committee is of the opinion that it is in proper form, and will make for efficiency of administration.

Your Committee therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

R. H. MAKEKAU,

MINORITY REPORT ON HOUSE BILL NO. 186.

To the Honorable Eric A. Knudsen,
President of the Senate.

I do not concur with the majority report of the Judiciary Committee on House Bill No. 186, creating a Board of Water and Sewer Commissioners for Honolulu, and providing for transfer of the management, control and maintenance of the Honolulu Water and Sewer Works to and by said Board of Commissioners, for the reason that I have considerable doubt as to the constitutionality of this bill, and also as to the policy of adopting the suggestion set forth in this bill at this session of the Legislature.

In view of the above, I therefore am unable to concur in the majority report.

Respectfully submitted,

CECIL BROWN,
Member, Judiciary Committee,

April 20, 1911.

Upon motion by Senator Fairchild, seconded by Senator Judd, consideration of the Reports was deferred until Friday, April 21, 1911.

Senator Judd presented a Majority and Minority Report (No. 280) from the Judiciary Committee on House Bill No. 193, as follows:

REPORT ON HOUSE BILL NO. 193.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 193, Relating to Harbors, their management, control, improvement and regulation, begs leave to report as follows:

The purposes of this bill are to create a Board of Harbor Commissioners, to be composed of five members, of which the Superintendent of Public Works shall be chairman ex-officio, and to turn over to this Board the powers and duties heretofore imposed upon the Superintendent of Public Works, relative to harbors, harbor improvements, ports, docks, wharves and shipping throughout the Territory.

Constitutional objections have been urged before this Committee against this bill, but after a very thorough and careful

consideration of the provisions of this bill and of the Organic Act, your Committee is of the opinion that it is well within the power of the Legislature under the Organic Act to modify the powers and duties of the Superintendent of Public Works as is done by this bill.

After careful investigation of this matter your Committee finds that it is inadvisable to continue the control and management of the harbors, wharves, shipping, etc., in the Territory in the hands of a single man, and especially so when this man is not able to devote his entire time and attention to these matters, because of numerous other duties cast upon him, and which require his constant attention, but that on the other hand it is highly desirable to turn these matters over to a Board such as is provided for in this bill. Also with the management and control of these matters vested in a Board of five members there is less likelihood of there being an arbitrary exercise of executive power in any instance, and further that the public generally, and the business and shipping men in particular, will be able to present their side of disputed questions with more assurance of full hearing and proper consideration, and even when questions are decided against them will be better satisfied than they are when the sole power is vested in one man, however capable and efficient he may be, with no appeal or relief from his decisions. The business and shipping men are in favor of this measure, it meets with their approval, and they believe that it will work out to the mutual advantage of the shipping interests, and the Territory, and will make for efficiency of administration, also that it is a wise provision for the future.

Your Committee therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

R. H. MAKEKAU,

MINORITY REPORT ON HOUSE BILL NO. 193.

To the Honorable Eric A. Knudsen,
President of the Senate.

I do not concur with the majority report of the Judiciary Committee on House Bill No. 193, Relating to Harbors, their

management, control, improvement and regulations for the reason that I have considerable doubt as to the constitutionality of this bill, and also as to the policy of adopting the suggestions set forth in the bill at this session of the Legislature.

In view of the above I therefore am unable to concur in the majority report.

Respectfully submitted,

CECIL BROWN,

April 20, 1911.

Member of Judiciary Committee.

Upon motion by Senator Judd, seconded by Senator C. Brown, consideration of the Reports was deferred until Friday, April 21, 1911.

Senator Judd presented a Report (No. 281) from the Judiciary Committee, recommending the passage of House Bill No. 207, as follows:

REPORT ON HOUSE BILL NO. 207.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 207, to Repeal Sections 1676, 1689, 1690 and 1691, and to amend Section 1688 of the Revised Laws of Hawaii, Relating to the duties of Clerks of Courts of Record, begs leave to report as follows:

House Bill No. 74, made certain changes in our statutes relating to Supreme and Circuit Court Clerks. This bill passed the House of Representatives and Senate, and has been approved and signed by the Governor as Act 84 of the Laws of 1911. It has been found that Act 84 does not cover the entire ground, and that there now exists some inconsistencies on our statute books on this subject. House Bill No. 207 was therefore introduced for the purpose of amending other sections of the Revised Laws to make them harmonious with Act 84.

After a careful examination of this bill your Committee finds that the changes sought to be made are necessary and desirable, and therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

April 20, 1911.

Committee.

Upon motion by Senator Kalama, seconded by Senator J. T. Brown, the Report of the Committee was adopted; House Bill No. 207 passed Second Reading, and was placed on the Calendar for Third Reading on Friday, April 21, 1911.

Senator Judd presented a Report (No. 282) from the Judiciary Committee, recommending the tabling of House Bill No. 222, as follows:

REPORT ON HOUSE BILL NO. 222.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 222, To Amend Section 1 of Act 152 of the Laws of 1909, Relating to the Disposition of Fines, Costs and Bail Moneys in certain cases, begs leave to report as follows:

The purposes of this bill are fully covered by Senate Bill No. 47, which bill has passed both the Senate and House of Representatives, and approved by the Governor as Act 104 of the laws of 1911. There therefore being no need of the present bill your Committee recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 20, 1911.

Upon motion by Senator Kalama, seconded by Senator J. T. Brown, the Report of the Committee was adopted, and House Bill No. 222 was tabled.

Senator Judd presented a Report (No. 283) from the Judiciary Committee, recommending the tabling of House Bill No. 243, as follows:

REPORT ON HOUSE BILL NO. 243.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 243, Fixing the liability of a Bank to its Depositors for

payment of forged or raised checks, begs leave to report as follows:

The object of this bill is to fix one year as the limit of time within which a depositor may, after receipts of vouchers, make claim against a bank for the payment of a forged or raised check.

After careful investigation and consideration your Committee is of the opinion that there exists no necessity for a bill of this nature. Your Committee is further of the opinion that if any time should be fixed by statute it should not be longer than say 60 days, and that a more reasonable time would be 30 days.

Your Committee finding no necessity for this measure recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 20, 1911.

Upon motion by Senator Kalama, seconded by Senator Fairchild, the Report of the Committee was adopted and House Bill No. 243 was tabled.

Senator Judd presented a Report (No. 284) from the Judiciary Committee, recommending the passage of House Bill No. 248, as follows:

REPORT ON HOUSE BILL NO. 248.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 248, Relating to Inheritance Tax, amending Sections 5 and 12 of Act 102 of the Session Laws of 1905, as amended by Sections 2 and 3 Respectively of Act 147 of the Session Laws of 1909, begs leave to report as follows:

The purposes of this bill are to amend our present statutes by eliminating the proviso at the end of Section 2 of Act 147 of the laws of 1909, by making more certain the date at which the property of a decedent shall be appraised, and by provid-

ing a more certain method of fixing the value of certain negotiable securities.

Upon investigation your Committee finds that all of these changes are desirable, and have been found by the administrative officers of the government to be necessary.

Your Committee therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

Chairman.

Upon motion by Senator Judd, seconded by Senator Fairchild, the Report of the Committee was adopted; House Bill No. 248 passed Second Reading, and was placed on the Calendar for Third Reading on Friday, April 21, 1911.

Senator Judd presented a Report (No. 285) from the Judiciary Committee, recommending the passage of House Bill No. 260, as follows:

REPORT ON HOUSE BILL NO. 260.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 260, to Amend Chapter 190 of the Revised Laws of Hawaii, by amending Section 2929 thereof, and by adding two new sections to be known as Sections 2929A and 2929B, begs leave to report as follows:

The purpose of this bill is to remedy defects in the criminal statutes of the Territory which have been found to exist as the result of recent cases in our Courts. The amendments made by this bill cover cases of indecent and improper liberties taken with the person of a female child under the age of 12 years, without committing or intending to commit the crime of rape.

Upon investigation your Committee finds that there is great

need of these amendments to our statutes, and therefore recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

CECIL BROWN,

Committee.

Upon motion by Senator Chillingworth, seconded by Senator Kalama, the Report of the Committee was adopted; House Bill No. 260 passed Second Reading, and was placed on the Calendar for Third Reading on Friday, April 21, 1911.

Senator C. Brown presented a Majority and Minority Report (No. 36) from the Special Committee on House Bills Nos. 231 and 232, as follows:

REPORT ON HOUSE BILLS NOS. 231 AND 232.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Select Committee of the Oahu Members, to whom was referred House Bill No. 231, To amend Chapter 66 of the Revised Laws of the Territory of Hawaii, Relative to Honolulu Rapid Transit, and to extend the franchise thereof, and House Bill No. 232, to Amend Chapter 66 of the Revised Laws of the Territory of Hawaii, Relative to Honolulu Rapid Transit, begs leave to report as follows:

After careful investigation your Committee is of the opinion that the amendments to Chapter 66 of the Revised Laws contained in these two bills should all be incorporated in one bill, the amendments all relating to the same subject, and there appearing no good reason why they should thus be separated, and there appearing many good reasons why they should all stand or fall together. If the bills are passed in their present form it might happen through some unforeseen contingency only one of them might be accepted by the Rapid Transit Company, in which event there would result an unjust advantage, either to the company, or to the public as the case might be. For this reason and for other reasons your Committee recommends as follows:

That the following amendments be made to House Bill No. 231.

First: That after Section 2, there be inserted a new Section 3, to read as follows:

"Section 3. That the first paragraph of Section 837 of said Revised Laws, being a section of said Chapter Sixty-six, shall be and the same is hereby amended by striking out the second proviso in the first paragraph of said section and inserting the following in place thereof:

'and further provided that the said railway, or any part thereof, between Diamond Head and the Western boundary of Kalihi, and between the sea coast on the one side and a line drawn parallel thereto approximately a mile and a half distant therefrom upon the other side, shall not be operated with cars propelled by the use of steam or animal power, but it shall be lawful to operate the same with power developed by the use of internal combustion engines between the hours of 11 P. M. and 7 A. M., and at such other times as may be approved by the Superintendent of Public Works.'"

That after the end of the foregoing new Section 3, there be added Section 4 to read as follows:

"Section 4. That paragraph 1 of Section 843 of said Revised Laws is hereby amended by striking therefrom the words "one and a half" and inserting in lieu thereof the word "three," and inserting after the words "Diamond Head" in said paragraph the words "20th Avenue."

The foregoing Sections 3 and 4 correspond to Sections 1 and 2 of House Bill No. 232.

Second: That Section 1 of House Bill No. 231 be amended by striking out the figures "1930" in line 4 thereof, and inserting in lieu thereof the figures "1940." This extends the time when the Legislature of Hawaii may terminate the franchise of the Honolulu Rapid Transit and Land Company, and purchase from it its property. This change is considered desirable since the present franchise terminates in 1930, and if the Legislature could step in in 1930, and terminate the franchise then this present bill, if approved by Congress and accepted by the company, might very possibly result in no extension of the franchise at all, in which view of the matter it is very probable that the Rapid Transit Company would not care to accept the terms of this bill, since there would always be the possibility before them of not getting anything in the way of extension in return for what they conceded in the way of the impairment of their present rights and privileges. With this amendment extending the time to 1940, it is believed that it would be acceptable to the company and is equally fair to the public.

Third: That after the end of the foregoing new Section 4 there be added Section 5 to read as follows:

"Section 5. That Section 864, 'Franchise subject to What,' of said Revised Laws, being a section of said Chapter Sixty-six,

shall be and the same is hereby amended by adding thereto at the end thereof a new subdivision to be numbered 4 and to read as follows:

'4. This franchise may at any time, after January 1, 1930, be amended or repealed by the Congress of the United States or by the Legislature of the Territory of Hawaii with the approval of the Congress of the United States.'"

This amendment is considered by your Committee to be a very desirable one. A similar provisions was inserted in Senate Bill No. 39, Granting a Franchise for the Construction, Maintenance and Operation of a Street Railway System in the District of South Hilo, County of Hawaii, in Section 18 thereof. This bill has been passed by the Legislature and signed by the Governor as Act 66 of the laws of 1911. It is also the provision which is inserted in similar franchises and extensions of franchise in the United States generally, and is considered everywhere a desirable and necessary provision for the protection of the public. Your Committee is therefore of the opinion that it is only just and proper that this provision should be inserted in any extension of franchise which may be granted to the Rapid Transit Company.

Fourth: That Section 3 of House Bill No. 231, be renumbered Section 6.

This amendment is rendered necessary because of the other amendments which have been recommended by your Committee in this report.

In view of the foregoing your Committee recommends that House Bill No. 232 be tabled, its provisions having been incorporated in House Bill No. 231, by the amendments recommended in this report.

After a careful consideration of House Bill No. 231, and the amendments which have been made thereto by this report, your Committee is of the opinion that it will accomplish the purposes desired, that the rights of the public are properly safeguarded, and that the bill as amended is a wise measure from whatever standpoint viewed.

Sirs:—

Your Committee of Conference on the disagreeing votes of the two Houses on House Bill No. 48, entitled "An Act to Amend Act 55 of the Laws of 1909, Relating to the Acquisition of Property for Public Purposes," begs leave to report as follows:

The bill passed the House with the following words, after the word "may" in line 7 of Section 1; "with the approval of the Land Board." The Senate amended the bill by striking therefrom the said words.

Therefore your Committee having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

- (1) That the Senate recede from its amendment.
- (2) That after the word "may" in line 7 of Section 1 of said Bill, the following words be inserted "with the approval of the Governor."

Absent and not voting: Senators Hewitt, Kalama, and Quinn.

Senator Judd presented a Report (No. 288) from the Judiciary Committee, recommending the tabling of Senate Bill No. 86, as follows:

REPORT ON SENATE BILL NO. 86.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 86, to Amend Section 1035 of the Revised Laws of Hawaii, as amended by Section 1 of Act 21 of the Session Laws of 1905, Relating to cleaning of streets, removal of garbage, dead animals and other nuisances, cleaning of cesspools and making sewer connections in any city, town or village in the Territory of Hawaii, and to regulate rates and charges for such services, begs leave to report as follows:

The statutes sought to be amended by this bill are repealed by House Bill No. 224, which has this day been favorably reported by this Committee. Your Committee further finds that most of the matters covered by Section 1035 of the Revised Laws as amended by Act 21 of the Laws of 1905, are covered by Acts 98 and 99 of the Session Laws of 1909, and that the remaining matters are fully covered in House Bill No. 224, above referred to.

Your Committee therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

April 21, 1911.

The Report of the Committee was adopted, and Senate Bill No. 86 was tabled.

Senator Judd presented a Report (No. 289) from the Judiciary Committee, recommending the tabling of Senate Bill No. 87, as follows:

REPORT ON SENATE BILL NO. 87.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred Senate Bill No. 87, To Amend Sections 1036 and 1037 of the Revised Laws of Hawaii, relating to Regulation and payment of Sewer Rates, begs leave to report as follows:

The matters intended to be covered by this bill are more fully covered in House Bill No. 224, which bill is favorably reported by this Committee this day, and which is drawn with a view of remedying the defects in the present law as disclosed by a recent decision in the Supreme Court of this Territory. This bill is therefore unnecessary.

In view of the above your Committee recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 21, 1911.

The Report of the Committee was adopted, and Senate Bill No. 87 was tabled.

Senator Judd presented a Report (No. 290) from the Judiciary Committee, recommending the passage of House Bill No. 209 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 209.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 209, To Amend Section 1221 of the Revised Laws of Hawaii as amended by Act 141 of the Session Laws of 1909, Re-

lating to Property Exempt from Taxation, begs leave to report as follows:

This bill seeks to add to the list of property exempt from taxation a portion of the property of Young Men's and Young Women's Christian Associations.

Since the Legislature of Hawaii has adopted the policy of granting taxation exemption to education and religious institutions your Committee is of the opinion that it is in accord with this policy to pass this measure which grants a partial exemption to the Young Men's and Young Women's Cristian Associations, on the ground that these two institutions are partly religious and educational, and to that extent under this policy should receive the same taxation exemption.

Your Committee recommends that the last three lines of Section 1, being the last sentence in this section should be deleted. The exemption intended to be granted is clearly set forth in the preceding sentence if standing alone, but with this last sentence added there arises a doubt as to what the extent of the exemption shall be. In fact upon a careful reading it appears to extend the exemption much beyond the limits intended. Your Committee is therefore of the opinion that the last three lines of Section 1 be stricken out, and so recommends.

For the reasons above given your Committee recommends that this bill be passed as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 21, 1911.

Upon motion by Senator Judd, seconded by Senator Kaleiopu, the Report of the Committee was adopted; House Bill No. 209 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Saturday, April 22, 1911.

Senator Judd presented a Report (No. 291) from the Judiciary Committee, recommending the passage of House Bill No. 224 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 224.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 224, Relating to Sewers and Garbage, Repealing Chapter 84 of the Revised Laws and Act 21 of the Laws of 1905, and establishing rates for the use of the Honolulu Sewers, begs leave to report as follows:

This bill is drawn with a view to remedying the defects in the present statutes as disclosed by the decision of the Supreme Court of Hawaii, recently handed down in the McCandless case.

After investigation your Committee finds that the rates provided for in this bill are reasonable, and that the whole subject of the charges for the use of the sewers is comprehensively covered. Chapter 84 of the Revised Laws having been found defective, as above indicated, is repealed. Act 21 of the Laws of 1905 is also repealed since the matters therein covered have been by Acts 98 and 99 of the Laws of 1909 made County and City and County matters, and there is therefore no necessity for keeping this law upon our statute books.

Your Committee is of the opinion that Section 5 of this bill as drawn is defective in that there is no provision for charges for unmetered use of sewers from July 1, 1911, to January 1, 1912, and your Committee therefore recommends the following amendment to this section.

Add the following phrases at the end of this Section:

"Charges for unmetered use of the sewers for the six months beginning July 1, 1911, and ending January 1, 1912, shall be due and payable in advance on July 1, 1911."

Your Committee recommends that Section 10 of this bill be amended by striking out the word and figure "July 1," and inserting in lieu thereof the word and figures "June 30,"

This amendment is made for the reason that in this bill certain powers and duties are imposed upon the Superintendent of Public Works, while House Bill No. 186, now before the Senate, provides for turning over to a Board of Commissioners the powers and duties imposed upon the Superintendent of Public Works relating to the Honolulu Water and Sewer Works. This Bill 186 provides that it shall take effect July 1, 1911. Should both bills pass and both take effect July 1, 1911, there may arise doubt as to the powers and duties of the Superintendent of Public Works, and this Board of Commissioners. If this bill No. 224 is passed to take effect June 30, 1911, no such doubt can arise.

For the reasons above given your Committee recommends that this bill be passed as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

April 21, 1911.

Committee.

Upon motion by Senator Judd, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 224 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Saturday, April 22, 1911.

Senator Judd presented a Report (No. 292) from the Judiciary Committee, recommending the passage of House Bill No. 264 with one amendment, as follows:

REPORT ON HOUSE BILL NO. 264.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 264, To protect purchasers from fraudulent conveyances of Personal property, begs leave to report as follows:

Upon investigation your Committee finds that this bill is taken from the Revised Statutes of Massachusetts, 1902, Chapter 208, Sections 68 to 73, both inclusive.

After careful consideration your Committee is of the opinion that this is a wise measure, that there is need of legislation of this character, and that the financial institutions advocate the passage of this bill.

Your Committee recommends that the words "In Jail" be stricken out of the last line of Section 4 of the bill, those words being considered unnecessary, and adding nothing to the section.

In view of the above your Committee recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

April 21, 1911.

Committee.

Upon motion by Senator C. Brown, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 264 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Saturday, April 22, 1911.

Senator Fairchild presented a Report (No. 293) from the Committee on Ways and Means, recommending the passage of House Bill No. 235, as follows:

SENATE CHAMBER.

Honolulu, April 21, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 235 entitled "An Act for the Relief of Captain A. N. Tripp," has had same under careful consideration and begs leave to report as follows:

The bill seeks to refund the moneys paid by Capt. Tripp for certain claims for damages resulting from accidents caused by moving and docking vessels in the harbor of Honolulu within one year last past. From investigations made, the Committee has found that Harbor Masters in Hawaii have always been compelled to pay damage claims resulting as above through lack of funds for that purpose. The custom prevailed here from the time when all wharfage and pilotage fees were perquisites of the Harbor Masters and Pilots. These perquisites amount to a very large sum. But for some time past, these fees have been made government realizations—the Pilots and Harbor Masters were paid from appropriations made, without any funds for payment of "accident claims" which are bound to occur.

Hawaii, it is said, is the only marine commercial section that falls in making a provision for repairs for accidental damages or other marine injury done through the acts of its officers.

The revenues received by the government from the service of Harbor Masters, Honolulu, for the past 9 years (1902 to 1910) amounted to \$331,182.98—against which there is no charge for "accident claims." The Harbor Masters themselves, in a large measure are to blame for permitting this state of affairs to exist so long.

The Superintendent of Public Works in a letter urges the granting of the relief sought by this Bill.

Your Committee therefore recommends the passage of the bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
Chairman.
WM. T. ROBINSON,
JOHN T. BROWN,
E. W. QUINN,
CECIL BROWN,

RESOLUTION.

RESOLVED: That, in the opinion of this meeting, the sanitary conditions now prevalling in the City of Honolulu render

it expedient and desirable that the Legislature, now in session, should enact into law the proposal now pending before said body, in the form of House Bill No. 269, to provide for the amendment of Section 1034A of the Revised Laws, in such manner as to place at the disposal of the TERRITORIAL BOARD OF HEALTH, the sum of \$250,000.00, for the rendering sanitary of lands and premises at present, or which may become, insanitary; and to enable the Government to reimburse said fund for withdrawals therefrom, made, or which shall be made for said purposes, through the medium of applying thereto such sums as shall be collected or realized by the Government, under Chapter 83, of the said Revised Laws, of which said Section 1034A forms a part.

Respectfully submitted,

WILL J. COOPER,

No. 193 passed Second Reading, and was placed on the Calendar for Third Reading on Monday, April 24, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Fairchild, the Bill passed Third Reading on the following division of Ayes and Noes:

Senator Judd presented a supplementary Report from the Judiciary Committee (No. 295), recommending the passage of House Bill No. 224 with certain amendments, as follows:

SUPPLEMENTAL REPORT ON HOUSE BILL NO. 224.

To the Honorable Eric A. Knudsen,
President of the Senate.

Upon further consideration your Judiciary Committee is of the opinion that further amendments should be made to House Bill No. 224, Relating to Sewers and Garbage, repealing Chapter 84 of the Revised Laws and Act 21 of the Laws of 1905, and establishing rates for the use of the Honolulu sewers,

in Section 1 thereof. Your Committee therefore recommends that Section 1 of House Bill No. 224 be amended by striking out the first four lines thereof, and inserting in lieu thereof the following:

"Every person before connecting any premises with the public sewers of Honolulu, or who now has his premises connected with such sewers shall make application."

This amendment is made for the purpose of making it certain that the Legislature by the enacting of this bill is not seeking to repeal, alter or amend any ordinance of the City and County or any regulation of the Board of Health, covering the same subject.

Your Committee further recommends that the words "disconnection for failure to pay rates" in line 3 of Section 3 be stricken out, for the reason that the clause to which these words relate was stricken out of the bill in the House, and there therefore is no reason for allowing these words to remain in the statute.

April 22, 1911.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

I have the honor to transmit herewith House Bill No. 198, which this day passed Third Reading in the House of Representatives of the Territory of Hawaii.

Very respectfully,

EDWARD WOODWARD,
Clerk, House of Representatives.

The Communication was received and placed on file.

First Reading of House Bill No. 198, entitled "An Act Granting a Franchise for the Construction, Maintenance and Operation of a Telephone System in the District of Puna, Island of Hawaii, Territory of Hawaii."

The Bill passed First Reading by Title and was referred to a Special Committee consisting of the Senators from Hawaii.

Senator Judd presented a Report (No. 296) from the Judiciary Committee, recommending that House Bill No. 66 be referred to the Committee of the Whole, as follows:

REPORT ON HOUSE BILL NO. 66.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House

Bill No. 66, To amend Section 12A of Act 39 of the Session Laws of 1905, entitled "An Act Creating Counties within the Territory of Hawaii, and Providing for the Government Thereof," begs leave to report as follows:

Your Committee finds that the various views concerning this bill are so conflicting, that your Committee finds it impossible in the short time remaining to conduct an independent investigation and secure the information necessary to be able to recommend either the passage or the tabling of the bill. Your Committee therefore recommends that this bill be referred to a Committee of the Whole, and reports the bill back for that purpose.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 22, 1911.

The Report of the Committee was adopted, and House Bill No. 66 was referred to the Committee of the Whole for consideration on Monday, April 24, 1911, at 2:00 o'clock P. M.

Senator Judd presented a Report (No. 297) from the Judiciary Committee, recommending the passage of House Bill No. 158, as follows:

REPORT ON HOUSE BILL NO. 158.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 158, to amend Section 2255 of the Revised Laws of Hawaii, Relating to Divorce, begs leave to report as follows:

This bill seeks to add to the provisions of our present statute a clause giving the court or judge granting a divorce the power to fix the time when the decree shall take effect, limiting his discretion in this regard so far as divorce from the bonds of matrimony are concerned to not more than one month from and after the date of the decree. Upon investigation

your Committee finds that there is considerable sentiment in the community in favor of this bill.

In view of the above your Committee recommends the passage of this bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

April 22, 1911.

Upon motion by Senator Pali, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 158 passed Second Reading, and was placed on the Calendar for Third Reading on Monday, April 24, 1911.

Senator Judd presented a Report (No. 298) from the Judiciary Committee, recommending the passage of House Bill No. 268, as follows:

REPORT ON HOUSE BILL NO. 268.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 268, to Authorize Advancements of moneys for certain public improvements out of General Revenues to be reimbursed out of loan funds, begs leave to report as follows:

In the judgment of this Committee the passage of this bill would probably force the Territorial administration to borrow the money authorized under Senate Bill No. 50, An Act to Provide for Public Improvements, because the bill is mandatory on the Territory to advance the money received from the general revenues to the amount of \$400,000.00, in two installments, on the 1st of July, 1911, and the balance before January 1, 1912. Under the provisions of this bill such moneys will have to be expended under Senate Bill No. 50 for the objects therein set forth. If this bill is not enacted into law it is optional with the administration whether the bonds shall be sold or not.

For the reasons above stated your Committee favors this bill, and therefore recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

April 22, 1911.

Committee.

Upon motion by Senator Pali, seconded by Senator Judd, the Report of the Committee was adopted; House Bill No. 268 passed Second Reading, and was placed on the Calendar for Third Reading on Monday, April 24, 1911.

Senator Judd presented a Report (No. 299) from the Judiciary Committee, recommending the passage of House Bill No. 266, as follows:

REPORT ON HOUSE BILL NO. 266.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Bill No. 266, to Prevent Deficiencies in Territorial General Revenues, by authorizing an additional general tax therefor, begs leave to report as follows:

The tax bill separates the sources of revenue, giving to the counties the property taxes, and leaving for the Territory the income taxes. If the income tax should fall down so low that for the appropriation bills, and other needs of the Government there is not sufficient money to carry on the Territorial form of Government, then and in such cases instead of registering warrants the government can estimate what the probable deficit will be, and by adding this additional amount to the tax on property get the money into the Treasury.

After very careful consideration your Committee is of the opinion that this is a wise provision, and therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

April 22, 1911.

Committee.

Upon motion by Senator Judd, seconded by Senator Pali, the Report of the Committee was adopted; House Bill No. 266 passed Second Reading, and was placed on the Calendar for Third Reading on Monday, April 24, 1911.

Senator Fairchild presented a Report (No. 300) from the Committee on Ways and Means, recommending the passage of House Bill No. 265 with one amendment, as follows:

SENATE CHAMBER.

Honolulu, T. H., April 22, 1911.

Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Ways and Means to whom was referred House Bill No. 265, entitled "An Act Making Additional Appropriations for the Biennial Period Ending June 30, 1911," has had the same under careful consideration and begs leave to report as follows:

The Bill seeks to make provision for the emergency now existing caused by the second outbreak of cholera in this City, and to further provide for the expenses of the First Circuit Court, as the appropriation for the expenses of said court is now exhausted.

The Committee however, recommends the striking out of all the words from line 9 to and including line 14, as they are superfluous and unnecessary. The prohibitory provision intended is already included in the item preceding.

With this amendment the Committee recommends the passage of the Bill.

Very respectfully yours,

GEO. H. FAIRCHILD,
Chairman.
WM. T. ROBINSON.
J. T. BROWN,
CECIL BROWN,

Upon motion by Senator Fairchild, seconded by Senator Chillingworth, the Report of the Committee was adopted; House Bill No. 265 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Monday, April 24, 1911.

Senator Chillingworth presented a Report (No. 301) from the Committee on Public Health, recommending the passage of House Bill No. 162, as follows:

REPORT ON HOUSE BILL NO. 162.

Honolulu, Oahu, April 22, 1911.

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

Your Committee on Public Health to whom was referred House Bill No. 162 entitled "An Act Appropriating Not to Exceed Nine Thousand Five Hundred Dollars and Thirty-One Cents to Reimburse the County of Maui for Expenditures Made in Assistance of the Board of Health" has had the same under careful consideration and begs leave to report as follows:

Your Committee finds that when the epidemics broke out on the Island of Maui, the Board of Health was without funds to meet the expenses, and it became necessary for the County of Maui to come to its assistance.

The amount asked for \$9,500.31 is for a little less than half of the amount expended by the County of Maui, and your Committee feels that the claim is a just one and recommends the passage of the Bill.

Respectfully submitted,

CHAS. F. CHILLINGWORTH,
Chairman.

PHILIP PALI,
ALBERT F. JUDD,

Upon motion by Senator Pali, seconded by Senator Baker, the Report of the Committee was adopted; House Bill No. 162 passed Second Reading, and was placed on the Calendar for Third Reading on Monday, April 24, 1911.

Senator Judd presented a Report (No. 302) from the Judiciary Committee, recommending the adoption of House Concurrent Resolution No. 26, as follows:

REPORT ON HOUSE CONCURRENT RESOLUTION NO. 26.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House

Concurrent Resolution No. 26, Requesting the Delegate to Congress to advocate in said Congress the Enactment of appropriate Legislation to acquire the private fisheries of Hawaii, begs leave to report as follows:

Upon investigation your Committee finds that the Organic Act deals with fisheries and fishing rights in Hawaii in three sections thereof. Section 94 provides for an examination into the subject of fisheries and fishing rights in Hawaii by the Commissioner of Fish and Fisheries of the United States; Section 95 repeals all laws of the Republic of Hawaii which confer exclusive fishing rights, and provides that no vested fishing rights shall be valid after 3 years from the taking effect of the Organic Act unless established as thereafter provided; Section 96 provides for the establishment of vested fishing rights in a certain manner, and within a certain time.

The time within which these rights may be established under the Organic Act has long since elapsed, but no attempt has been made either by the Territory or by the United States to condemn these rights for public purposes making just compensation therefor as provided in Section 96 of the Organic Act.

Your Committee is now of the opinion that there is no reason why the matter of the condemnation of these fishing rights should be longer delayed, and especially so since all vested fishing rights which can be established under the provisions of the Organic Act have long since been so established.

The matter of the condemnation of these fishing rights is something which concerns not alone the citizens of this Territory, but the other citizens of the United States. The Organic Act was not passed by the Legislature of the Territory of Hawaii representing the citizens of the Territory, but was passed by the Congress of the United States representing the citizens of the United States for whose benefit it is provided that these fishing rights should be condemned. It therefore seems only just and proper that the Congress of the United States now that these vested rights have all been established under the provisions of the Organic Act, should go ahead with further legislation on the subject, providing for the taking over of these rights, and providing for the payment of compensation therefor, all for the benefit of the citizens of the United States.

In view of the foregoing your Committee recommends the passage of this resolution.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.

CECIL BROWN,
R. H. MAKEKAU,

Committee.

At 10:55 o'clock A. M., Governor's Message (No. 10) vetoing Senate Bill No. 29, and Governor's Message (No. 11) vetoing House Bill No. 170 were received and read by the Clerk as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber.

Honolulu, April 24, 1911.

To the Legislature:

I return herewith, without my approval, Senate Bill No. 29, entitled "An Act for the Relief of John A. Cummins."

The object of this bill is to pay John A. Cummins the amount of a fine of \$5,000 which he paid sixteen years ago under a sentence based on a plea of guilty.

There is much in this case to appeal to sentiment and sympathy, and for that reason it is both difficult and unpleasant to consider the bill upon its merits. It is unfortunate that this matter, recalling, as it does, the circumstances out of which this case arose, should be reopened. Looking at the matter

from the standpoint of broad policy, the repayment of the fine in question would tend to serve as an embarrassing precedent in other cases that might appeal to sentiment, and especially in the other cases which arose out of the same circumstances. Mr. Cummins was the only one out of about one hundred and ninety who escaped imprisonment by paying a fine. A recognition of his claim might well be regarded as a recognition of the claims of the others, and there would be as much logic in compensating the others for their several periods of imprisonment as in compensating him for the fine which he paid.

Be that as it may, there seems to be an insuperable legal objection to this bill. The fine when paid became public money. That particular money was expended long ago by the Republic of Hawaii, but, whether it was or not and even if it had been paid to the Territory of Hawaii, its payment to a private individual, or the payment of a like sum out of other public moneys, would come within the constitutional inhibition against the use of public moneys for private purposes. A bill of this kind is not an exercise of the pardoning power, for that is vested solely in the executive, and even the executive could not exercise that power in such a way as to remit a fine already paid under a legal judgment. This case is not one of those in which a legislative body may authorize the repayment of moneys paid under a mistake of fact or even moneys paid under a mistake of law. In such cases the question is merely one of policy. The money is the peoples', for the peoples', that is, for public purposes and cannot lawfully be diverted to private purposes.

WALTER F. FREAR,
Governor of Hawaii.

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber,

Honolulu, April 24, 1911.

To the Legislature:

I return herewith, without my approval, House Bill No. 170, entitled "An Act Appropriating Twenty Thousand Dollars for the purpose of Repaying Moneys Wrongfully Collected as Merchandise License Tax under Sections 764 to 768 of the Penal Laws of 1907."

The general license Act of 1896 provided, among other

things, for licenses to sell imported goods, wares and merchandise. In January, 1901, the Supreme Court held that the provisions relating to such licenses were rendered nugatory by certain provisions of the Federal Constitution, which became applicable to Hawaii on June 14, 1900, when the Territorial Government was established. The object of the bill is, presumably, to repay the merchandise license fees that were paid after that date.

There are two principal objections to the bill. One is an objection of policy; the other, of law.

These fees were not paid under a mistake of fact, nor were they paid under protest. Moreover, those who paid them received certain benefits through increased sales or increased prices, by the elimination of competition from others who might, but for the necessity of paying similar license fees, have engaged in similar business. Bills for the same object have been rejected by several preceding legislatures. It is not always easy in cases of this kind to decide whether money should be refunded or not by legislative action, but I am inclined to think that, under the circumstances of this case, this should not be done, although I presume that it would be constitutional to repay the fees collected for the period subsequent to June 14, 1900.

The legal objection is more serious. The bill does not, in its recitals or in its body, as did the corresponding bill of the last Session, in both its title and its body, limit the repayments to license fees paid for the period after June 14, 1900. It is true that the title refers to moneys "wrongfully collected", although without furnishing a criterion for determining what moneys were wrongfully collected. But the body of the bill does not contain even a general qualification of this character. On the contrary, it provides in clear language for the repayment of all amounts collected under the law in question—at least after the publication of the compilation known as the Penal Laws of 1897. Hence, the bill would seem to be invalid for two reasons; first, because its body does not correspond with its title, assuming that the title could be construed as going so far as to limit the repayments to the period subsequent to June 14, 1900, and, secondly, because its body covers a period before June 14, 1900, and, therefore, provides for the payment for private uses of strictly public moneys, that is, moneys lawfully collected.

There are several minor objections to the bill, which, perhaps, taken alone would be insufficient to justify its rejection. For instance, in one section it allows three months in which to present claims, and in another section only a shorter period, that is, until June 30, 1911. Again, it in terms provides for the repayment only of license fees paid under certain sections of

the Penal Laws of 1897, whereas no license fees were paid under those sections, for they were all paid under the Act of 1896. The Penal Laws were merely a compilation without the force of law, and, although an Act of 1898 authorized references to be made to the Penal Laws with the same effect as if made to the original laws, that Act did not extend to cases of this kind. Moreover, the bill appropriates only \$20,000, and does not provide for an apportionment among claimants or priority among them, in case claims in excess of that amount should be presented.

WALTER F. FREAR,
Governor of Hawaii.

Upon motion by Senator Judd, seconded by Senator Baker, consideration of Governor's Message No. 10 was deferred until Tuesday, April 25, 1911.

Upon motion by Senator Chillingworth, seconded by Senator Judd, Governor's Message No. 11 was referred to the Judiciary Committee.

A Communication (No. 319) from the House of Representatives, transmitting House Bill No. 272, was read by the Clerk as follows:

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., April 24, 1911.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

I have the honor to transmit herewith House Bill No. 272, which this day passed Third Reading in the House of Representatives of the Territory of Hawaii.

Very respectfully yours,

EDWARD WOODWARD,
Clerk, House of Representatives.

The Communication was received and placed on file.

First Reading of House Bill No. 272, entitled "An Act to Authorize the Repayment to Henry K. Ogawa and Frank B. Craig of Sums by Them Paid Into the Territorial Treasury for Emigrant Agents Licenses."

The Bill passed First Reading by Title and was referred to the Judiciary Committee.

Senator Judd presented a Report (No. 303) from the Judiciary Committee, recommending the tabling of House Joint Resolution No. 8, as follows:

REPORT ON HOUSE JOINT RESOLUTION NO. 8.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Joint Resolution No. 8, Requesting the Board of Commission-

ers of Public Archives to deliver to the Hon. Jonah K. Kalanianaʻole the chest of silverware now in the Public Archives of the Territory, begs leave to report as follows:

Your Committee desires to call attention to a misstatement of fact which appears in this Resolution, in that KAMEHA-MEHA IV. to whom the chest of silverware was presented by the French Government, belonged to a family of Chiefs which is now extinct, and which was a different family of Chiefs from that to which the Hon. Jonah K. Kalanianaʻole belongs.

This chest of silverware, by the Joint Resolution of the Congress of the United States of July 7, 1898, became the property of the United States. Section 91 of the Organic Act provides that all the property ceded and transferred to the United States by this Joint Resolution "shall be and remain in the possession, use and control of the Government of the Territory of Hawaii." This alone would seem to prohibit the delivery of this chest of silverware to the Hon. Jonah K. Kalanianaʻole. Act of the Congress of the United States of May 26, 1906, Ch. 2561, 34 Stat. L. 204, provides for the disposition of certain personal and movable property in the Territory of Hawaii. This Act provides that such property may be sold, leased or otherwise disposed of. The words "otherwise disposed of" evidently referring to the turning over of certain personal property to the counties. The provision in the latter part of this Act that the moneys and revenues arising therefrom (from such sales) shall remain the property of the Territory of Hawaii certainly contemplates a sale or lease for the full value, and does not authorize a sale or lease of property at a fictitious value which bears no relation to the true value, or a gift of public property for private use as is contemplated by the Resolution.

Even in the absence of this statutory provision, your Committee believes that this Legislature could not lawfully order the transfer of the chest of silver in the manner indicated in the Resolution. The property is public and the use to which it is to be put is private.

"The Legislature is to make laws for the public good and not for the benefit of individuals"
says Cooley in his Constitutional Limitations, 7th Ed. p. 184.

The Supreme Court of Massachusetts has said in the case of *Lowell vs. The City of Boston*

"The power of the Government . . . to effect the individual in his private rights of property, whether by exacting contribution to the general means or by sequestration of specific property, is confined by obvious implication as well as by express terms, to purposes and objects alone which the government was established to pro-

mote, to wit, public uses and the public service. . . .

An appropriation of money raised by taxation or of property taken by right of eminent domain by way of gift to an individual for his own private use exclusively would hardly be an exercise of legislature power."

There is no difference in principle between property taken by eminent domain, and property which is already public.

If the Legislature chooses to declare that the record of the Delegate to Congress has been so eminent that some public recognition thereof should be made by this Legislature, this might make the Resolution lawful. Although this may not cure the defects above referred to, it has been suggested to the Committee that an amendment to this effect would not be agreeable to the Delegate, and the Committee therefore has drafted no amendment in this regard.

In view of the foregoing your Committee recommends that this Resolution be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,

Chairman.

CECIL BROWN,

R. H. MAKEKAU,

Committee.

Hon. E. A. Knudsen,

President of the Senate.

Sir:—

The Select Committee composed of the Senators representing the Third Senatorial District to whom was referred House Bill No. 221, otherwise known as Representative Towse's Primary Bill, report that they have had same under consideration.

The Bill is not as elaborate nor as full in its provisions as the one first introduced in the House of Representatives and passed by that body and killed in the Senate.

As one of the planks of the Republican Party contained and

promised the passage of a Primary Bill, and as Representative Towse has confidence that the Bill under consideration will fulfill the pledge in respect to a Primary Bill and claims it will prevent all improper proceedings and clarify as it were actions heretofore had and done at previous primaries that were not as proper as they should have been, and if possible, keep the game of politics above board and free from scandal.

We therefore recommend that the Senate take up consideration of the matter and pass the Act.

Respectfully submitted,

CECIL BROWN,
E. W. QUINN,
ALBERT F. JUDD,
A. S. KALEIOPU,
CHAS. F. CHILLINGWORTH.

Honolulu, April 25th, 1911.

Senator Makekau moved that the Bill be tabled; seconded by Senator J. T. Brown, and lost.

Upon motion by Senator Judd, seconded by Senator Fairchild, the Report of the Committee was adopted. House Bill No. 221 passed Second Reading, and was placed on the Calendar for Third Reading on Wednesday, April 26, 1911.

Senator Judd presented a Report (No. 304) from the Judiciary Committee, recommending the passage of House Bill No. 272 with certain amendments, as follows:

REPORT ON HOUSE BILL NO. 272.

To the Honorable Eric A. Knudsen,
President of the Senate.

Sir:—

Your Judiciary Committee, to whom was referred House Bill No. 272, to Authorize the repayment to Henry K. Ogawa and Frank B. Craig of sums by them paid into the Territorial Treasury for Emigrant Agent's Licenses, begs leave to report as follows:

Upon investigation your Committee finds that there is a slight mistake in the amounts of money mentioned in this bill, in that the sums stated at \$166.66 should be \$166.67, a difference of one cent in each instance. Your Committee there-

fore recommends that the words and figures "One Hundred Sixty-six Dollars and Sixty-six cents (\$166.66)" wherever they occur in this bill be amended to read "One Hundred Sixty-six Dollars and Sixty-seven cents (\$166.67)."

Your Committee also finds the bill defective in not appropriating the money for the repayments sought to be made by this bill, and therefore recommends that the words

"and the sum of Three Hundred Thirty-three Dollars and Thirty-four cents (\$333.34) is hereby appropriated out of the general revenues of the Territory for this purpose" be inserted after the words "Hawaii" in line 7 of Section 1 of this bill, ending the amendment with a period, strike out the word "and" in line 7 of said section, and begin a new sentence with the words "The Auditor."

With these amendments it is believed that the bill is in proper form.

Your Committee upon investigation finds that the money sought to be repaid by this bill was illegally collected by the Government. At the time the Treasurer of the Territory received this money he was not advised by the Attorney General that the emigrant agent licenses could not now legally be granted by the Territory. In the meantime the money had become a government realization, and the only way it can be taken out of the Treasury now is by this appropriation bill.

Both of these men, Craig and Ogawa paid this money under a mistake of fact and should therefore be reimbursed.

Your Committee therefore recommends the passage of this bill as amended.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 25, 1911.

Upon motion by Senator Judd, seconded by Senator Fairchild, the Report of the Committee was adopted; House Bill No. 272 passed Second Reading as amended, and was placed on the Calendar for Third Reading on Wednesday, April 26, 1911.

Senator Judd presented a Report (No. 305) from the Judiciary Committee, recommending that House Joint Resolution No. 8 be tabled, as follows:

REPORT ON HOUSE JOINT RESOLUTION NO. 8.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was re-referred House Joint Resolution No. 8, Requesting the Board of Commissioners of Public Archives to deliver to the Hon. Jonah K. Kalaniana'ole the chest of silverware now in the Public Archives of the Territory, begs leave to report as follows:

This Resolution has been reported on by this Committee on the theory that the title to the chest of silver was in the Territory of Hawaii. The resolution was re-referred to the Committee to investigate the facts, it having been intimated that the title to the chest of silver as a matter of fact was not in the Territory.

Your Committee has had two meetings and before it has come evidence, oral and written, on this question of title. The proponents of the resolution have made the point that the chest of silver was a gift from the President of the French Republic to King Kalakaua during the early part of his reign. Reference was made also to an affidavit of William Kauwai, now deceased, who used to be a steward in the Palace. This affidavit is somewhere in the Government offices, but could not be found. Reference also was made to a letter from Col. Wm. Allen to the Governor on this subject in which Col. Allen states that the chest was a gift to King Kalakaua, and it was also stated that Col. Allen was Collector of Customs at the time, and must have known about the gift. It was further argued that in the separation in the Palace of private from public property many gifts of heads of States to the King had been turned over to the heirs of Kalakaua, as for instance, his decorations, a large wardrobe the gift of the King of Siam, and a couple of Japanese vases from the Mikado, and therefore this chest could with propriety be given to the heirs of Kalakaua.

On the other hand oral testimony has been presented before your Committee by Col. Curtis P. Iaukea to the effect that during the reign of King Kalakaua he was in the Palace off and on, and was familiar with what went on, and that at no time during the reign of King Kalakaua to his knowledge was any such chest of silverware given to the King. That he was also in the Palace during the latter part of the reign of King Kamehameha V, being employed in the steward's department as a boy. Mr. Iaukea identifies the silver positively as having been in the Palace in use during the time of King Kamehameha V. From Mr. Iaukea we also learn that William Shaw, now of Kaanapali, on the Island of Maui, was in the

service of King Kalakaua, and undoubtedly can testify concerning this chest of silver.

In view of this conflicting evidence your Committee is unanimously of the opinion that the Legislature is not the forum to decide the question of who owns the chest of silver. Your Committee believes that the matter should be decided in the Courts or by arbitration.

For the reasons above stated your Committee again recommends that the resolution be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii.

Executive Chamber,

Honolulu, April 25, 1911.

To the Legislature:

I return herewith House Bill No. 145, entitled "An Act Making Special Appropriations for the Payment of Certain Claims Against the Territory of Hawaii," which I have approved with the exception of the following item, which I do not approve and hereby veto:

"Claim of James Quinn for loss of automobile \$2,000."

Under decisions of both the Supreme Court of the Territory and the Supreme Court of the United States, the Territory is not liable in cases of this kind, and this is in line with the policy generally adopted or recognized by the courts and legislatures of the several states and territories on the mainland.

Even if the Territory were liable to suit in cases of this kind, it would seem, from the facts in this particular case, that the claim could not be sustained in the courts.

If it should be deemed advisable to make an exception in this case—which might prove embarrassing in other cases—the better course would seem to be to do so by authorizing the claimant to sue the Territory and requiring him to establish his claim in the usual manner in the courts, which are the appropriate tribunals for determining such matters.

WALTER F. FREAR,
Governor of Hawaii.

Consideration of the Message was deferred until Wednesday, April 26, 1911.

A Communication (No. 328) from the House of Representatives, transmitting House Concurrent Resolution No. 28, relating to a State Constitution, was read by the Clerk as follows:

A Communication (No. 330) from the House of Representatives, notifying the Senate of the adoption of the Report of the Joint Conference Committee on Senate Bill No. 36, was read by the Clerk as follows:

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., April 25, 1911.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

I have the honor to inform your Honorable Body that the report of the Special Joint Conference Committee on Senate

Bill No. 36 was this day adopted in the House of Representatives of the Territory of Hawaii.

Very respectfully,

EDWARD WOODWARD,
Clerk, House of Representatives.

The Communication was received and placed on file.

Senator Judd presented a Report (No. 306) from the Judiciary Committee, recommending the adoption of House Concurrent Resolution No. 28, as follows:

REPORT ON HOUSE CONCURRENT RESOLUTION NO. 28.

To the Honorable Eric A. Knudsen,
President of the Senate.

Your Judiciary Committee, to whom was referred House Concurrent Resolution No. 28, introduced by the Judiciary Committee of the House, Requesting Congress to pass an Act enabling the citizens of this Territory to frame and adopt a State Constitution, begs leave to report as follows:

Your Judiciary Committee unanimously recommends the adoption of this Resolution. It is perhaps peculiarly fitting that this Resolution be adopted now, in view of the fact that so much is being said about the desire of the Departments of the Federal Government that Hawaii should come under Federal Control. The campaign for Statehood will take years, and the earlier we start, and the harder we work to that end the sooner will come the realization of our hopes. We cannot expect our request to be granted until the population of Hawaii is large enough to justify Congress in so doing. Hawaii's population today is 191,909, while the population of the smaller states in the Union is as follows:

Nevada 81,875

Wyoming 145,965

Delaware 202, 322

Arizona 204,354

From which it will be seen that Hawaii has a larger population than the two smallest States, and is very close in population to the next higher States in the Union.

If Hawaii keeps before her the goal of Statehood the standards of the public service will always be high, and if Hawaii keeps before the Congress of the United States the facts and figures upon which she bases her claim to Statehood the sooner will that goal be reached.

Your Committee therefore recommends the adoption of this Resolution.

Respectfully submitted,

JUDICIARY COMMITTEE,

ALBERT F. JUDD,
Chairman.
CECIL BROWN,
R. H. MAKEKAU,
Committee.

April 25, 1911.

The Report of the Committee was adopted, carrying with it the adoption of the Resolution.

Senator Chillingworth presented a Report (No. 49) from the Joint Conference Committee on House Concurrent Resolution No. 20, as follows:

Honolulu, T. H., April 25, 1911.

Hon. H. L. Holstein,
Speaker, House of Representatives, and

Hon. E. A. Knudsen,
President of the Senate.

Sirs:—

Your Joint Special Committee to which was referred House Concurrent Resolution No. 20, offered by Representative Wm. J. Sheldon, requesting that a Joint Committee be appointed to investigate the Boys' and Girls' Industrial Schools, begs leave to report as follows:

In pursuance thereof, this Committee visited the Boys' Industrial School at Waialeale, this island, on Sunday the 9th of this month and it was confronted with a very unsatisfactory state of affairs.

It found the boys underfed, scantily clothed, ragged, dirty and in a sullen and rebellious mood. A lack of cleanliness was apparent throughout.

For the scarcity of food and clothing, it is said the last Legislature is to be blamed, for not inserting a sufficient amount in their appropriation bill to cover the needs here, but had the Superintendent of Public Instruction made a

proper explanation at the time, of the conditions and needs here, a sufficient amount would have undoubtedly been inserted in the appropriation for them.

Again, that Legislature did set aside an emergency fund of \$50,000.00 to provide for just such a situation as this, and it is to be regretted that some of this fund was not used.

The bread was very poorly baked and soft in the middle. What was called stew consisted of some meat and vegetables with taro leaves thrown in, all stirred around with a stick until brought up to the consistency of pigs' swill.

In clothing the boys had one suit a piece and ragged at that, one sheet and an apology for a blanket.

However, there was a general air of uncleanness about the person of the boys, their clothes, the sheets, pillow cases and dormitories throughout. No soap for the boys to wash with, and clothes washed but once a week on Saturday mornings, which has to be hurried through in order that they may be dry by afternoon.

A matter that attracted this Committee's attention was, that there is not sufficient room to accomodate the number of boys there, two or three of them being huddled into one seat, they are also cramped up in the dormitories.

Another noticeable thing is, that there is practically no instruction at all for the larger boys. They are aroused at 5:30 o'clock each morning, except Saturdays and Sundays, and are taken to Kahuku to cultivate cane, returning about 4 in the afternoon. The smaller boys get about one and a half hours instruction a day.

We do not think that this is carrying out the intention of the Legislature when it changed this institution from a Reformatory School to an Industrial School.

It appears that the net proceeds from the cultivation of cane is applied in part towards the running expenses of that institution, the boys getting a few dollars out of it.

With reference to medicine and medical attendance, we understand that the Board of Health will furnish them with both free of charge. We think that the custom of deducting out of the little earnings of the boys, their Doctor bills whose charges are \$5.00 for a day visit and \$10.00 a night visit, scandalous.

Complaints are numerous against guard Kuoha who is also band-master. He is charged with harsh and inhuman treatment. Your Committee has investigated this and found that there is unquestionably good foundation for these charges. We find on inquiry that under the former Superintendent he had on several occasions been brought to task for cruel treat-

ment of the boys and was finally threatened with immediate discharge if repeated. This warning had the desired effect up to the retirement of that Superintendent, but since then Kuoha has resumed his old methods in which he now appears to be upheld by the present Superintendent.

We now understand that differences between the boys and guard Kuoha have been satisfactorily adjusted since the introduction of this resolution.

We strongly condemn the method employed here of compelling refractory boys to carry a ball and chain around for weeks at a time in order to maintain discipline. They have even been forced to work in the taro patches thus encumbered.

We therefore recommend that the Superintendent of Public Instruction be requested:

To immediately secure the means for properly feeding and clothing these boys, which are already provided for:

To make arrangements with the President of the Board of Health for free medicines and medical attendance for this institution.

To install a telephone, and

To abolish the ball and chain punishment.

GIRLS' INDUSTRIAL SCHOOL.

This was visited the Sunday following the 16th inst. and great contrast was noticeable all around.

The buildings though old and delapidated and beyond the stage of repair were scrupulously clean and neat in appearance throughout. Everything within was the picture of cleanliness; bedrooms, dining room and kitchen.

The matron in charge, Miss Sadie C. Sterritt impressed us with the fact that she is a woman of marked ability in her line of profession. All the girls here exhibit a marked affection for her and none could be induced to say a word of complaint against her. It was noticeable that the dark cells, are only used as storerooms now. There is no need for the dark cells in that school.

Your Committee took occasion to inquire of Miss Sterritt, the number of girls coming into the school from tenements and learned that of 41 girls in there, 25 came directly from tenements, the majority of the others having at some time lived in tenements and came to the school from small cottages in the tenement districts, showing that the crowding of many families in one building certainly has a demoralizing effect on

the young. This question is one that our civic religious bodies might well take in hand.

The most urgent needs here at present are new buildings to replace the old and a new location for the School with different surroundings.

Respectfully submitted,

WM. J. SHELDON,
Chairman, Joint Special Committee.

HOUSE CONCURRENT RESOLUTION NO. 13.

WHEREAS, a Bill has been introduced into the Congress of the United States to authorize the establishing of a National Park in the region of the active crater of Kilauea in the Island and County of Hawaii of this Territory, to the end that the scenic wonder and volcanic phenomena of that region may be henceforth maintained as a public reservation for the benefit of all people and the enabling of scientific research of volcanic phenomena; and

WHEREAS, in the Message of the Governor of the Territory to the present session of the Legislature, an expression

of opinion by the Legislature is suggested upon this important subject; and

WHEREAS, it is further considered by the property owners and leaseholders that will be affected by the creation of this proposed park, as well as by the public at large, laudable and praiseworthy purpose; and

WHEREAS, it appears that the only opposition to the project is due to the boundaries of the Park as in said Bill described which, it is claimed by the parties affected, are of greater magnitude than necessary for the object sought and unnecessarily take in large tracts of timber and grazing lands not essential to the creation of a "Volcano Park;" and

WHEREAS, in order to allay any and all opposition to the general plan for a National Park at Kilauea, it is desirable to modify the boundaries defined in the Bill introduced into the Congress of the United States for the creation of said Park on lines that will retain within the boundaries of the proposed National Park the whole of the Crater of Kilauea and of Kilauea-iki and other volcanic phenomena in the vicinity, together with a right of way from said park lines to the crater of Mokuaweoweo on the summit of Mauna Loa;

THEREFORE BE IT RESOLVED by the House of Representatives of the Territory of Hawaii, the Senate concurring, that the Congress of the United States be and is hereby petitioned and requested to create the said Park on the lines or boundaries indicated on the memorandum and on the map attached, modifying as shown thereon the excessive area provided for in the original plan, it being evident that all opposition to the project will be then dissipated, and that the interests of all concerned, both public and private, will be the better subserved; and

BE IT FURTHER RESOLVED that the Superintendent of Public Works be instructed to immediately provide a technical description of the boundaries referred to in this Resolution, as modifying the lines originally laid out, in order that the same may go forward with this Resolution to Congress for its consideration and action.

BE IT FURTHER RESOLVED that a copy of this Resolution with said technical description be transmitted to the President of the Senate and the Speaker of the House of Representatives of the United States Congress and also to the Delegate to Congress of this Territory.

Senator Fairchild presented a Report (No. 307) from the Committee on Ways and Means, recommending the passage of House Bill No. 267, as follows:

Hon. E. A. Knudsen,
President of the Senate.

Sir:—

The Committee on Ways and Means to whom was referred House Bill No. 267, report that they have had same under consideration. By this Act, it is sought to give the several County Treasurers and the Treasurer of the City and County of Honolulu, the right of depositing with the Banks doing business in the Territory, 75 per cent of the money in the hands of the several Treasurers not likely to be immediately used, and obtain interest thereon at a rate not to exceed 3 per cent per annum repayable on demand or as wanted.

As a large sum of money will be payable to the several Counties after June 30th of the present year by the Territory, the application of the provisions of Act 123 of the Session Laws of 1909 to the several Counties, is in the opinion of this Committee, a wise measure, and will prevent the hoarding and withdrawal of large sums of money from circulation and also relieve the several County Treasurers from carrying large sums of money and the consequent liability assumed thereby.

The Committee recommends the passage of the Bill.

Respectfully submitted,

GEO. H. FAIRCHILD,
E. W. QUINN,
J. T. BROWN,
WM. T. ROBINSON.
CECIL BROWN,

At 8:21 o'clock P. M., a Message (No. 14) from the Governor, vetoing certain items in Senate Bill No. 50, was received and read by the Clerk as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber,

Honolulu, April 26, 1911.

To the Legislature:

I return herewith Senate Bill No. 50, entitled "An Act to Provide for Public Improvements," which I have approved with the exception of the following items, which I do not approve and hereby veto:

"19f. Extension, Waimea River Embankment \$18,000.00."

"26. Approach to Honokaa Landing from Government Road 5,000.00."

It seems to me that these works are unnecessary and that

the expenditure of these amounts for them would be unwise, especially in view of other and greater needs.

An Additional objection to the item for the extension of the Waimea river embankment is that it is inserted among the Territorial public improvements, whereas it is a purely local matter, the expense of which, if it should not be borne by the private parties directly interested, should be borne by the county and not by the Territory.

WALTER F. FREAR,
Governor of Hawaii.

The item "19f. Extension—Waimea River Embankment \$18,000.00" passed, notwithstanding the veto of the Governor, on the following division of Ayes and Noes:

Ayes: Senators Baker, C. Brown, J. T. Brown, Chillingworth, Fairchild, Kaleiupu, Makekau, Pali, Quinn, Robinson, and President Knudsen. Total, 10.

The item "26. Approach to Honokaa landing from the Government Road \$5,000.00," passed, notwithstanding the veto of the Governor, on the following showing of Ayes and Noes:

Ayes: Senators Baker, C. Brown, J. T. Brown, Chillingworth, Fairchild, Hewitt, Judd, Kaleiupu, Makekau, Pali, Quinn, Robinson, and President Knudsen. Total, 13.

Noes: None.

Absent and not voting: Senator Kalama.

At 8:49 o'clock P. M., a Message (No. 15) from the Governor, nominating Mr. John M. Lidgate as a Member of the Panama-Pacific Exposition Commission was received and read by the Clerk as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber,

Honolulu, April 26, 1911.

To the Senate:

I hereby nominate for appointment with the advice and consent of the Senate, as a member of the Panama-Pacific Exposition Commission, John M. Lidgate.

WALTER F. FREAR,
Governor of Hawaii.

Upon motion by Senator Chillingworth, seconded by Senator Judd, the appointment was confirmed by the Senate.

At 8:49 o'clock P. M., a Message (No. 16) from the Governor relating to House Joint Resolution No. 8, was received and read by the Clerk as follows:

A MESSAGE FROM THE GOVERNOR.

Territory of Hawaii,
Executive Chamber,

Honolulu, April 26, 1911.

To the Legislature:

I have this day received House Joint Resolution No. 8, the object of which is to present, by way of gift, to Honorable Jonah K. Kalaniana'ole, not in his capacity as Delegate to Congress, but as one of the representatives in family and estate of King Kalakaua, a chest of silverware, which apparently was presented to King Kamehameha IV and used by him and his successors, King Kamehameha V, Lunalilo and Kalakaua and Queen Liliuokalani in turn.

Upon looking into this matter I find myself in a somewhat embarrassing position.

My first impulse naturally would be to sign the Resolution as a graceful act toward the intended recipient, although I realize that there are grave objections to such action in point of policy, under the facts in this case. I am confronted, however, with the legal objections that such a gift might be contrary to the provisions of Section 91 of the Organic Act, as amended by the Acts of May 26, 1906, and May 27, 1910, relating to public property ceded to the United States at the time of annexation, and also to the constitutional inhibition against disposing of public property to private individuals by way of gift, except under certain circumstances, which may not exist in this case.

I might, therefore, be expected to refrain from action on this, the last day of the session and so permit a result analogous to that which would follow a so-called pocket veto in the case of a bill. Rather than veto the resolution in this way, however, I would prefer in this instance to veto it, for legal objections, in the usual ways, as if it were a bill, so as to afford an opportunity to the Legislature to pass it over the veto, if it desired to do so, in which case its validity could be tested in a friendly submission to an appropriate court. And

yet here again I am confronted with the fact that I cannot veto a joint resolution; for, by the provisions of the Organic Act, bills alone may be vetoed, and, although I might treat a joint resolution, as distinguished from a concurrent resolution, as in the nature of a bill, so far as its passing three readings in each house is concerned, I cannot do so for other reasons, first, because a bill is required by the Organic Act to have an enacting clause of a particular form, which the joint resolution in question does not have, and secondly, because a bill must have a title expressing its subject, which also the joint resolution in question does not have.

I have concluded, therefore, out of deference to the views of the Legislature on the question of policy and against my own views on the question of law, to sign the resolution and allow its validity to be determined in a friendly submission to an appropriate court or otherwise, upon the following and perhaps other questions: first, whether property ceded to the United States by the Joint Resolution of Annexation may be thus disposed of by way of gift under the Act of Congress of May 26, 1906; secondly, whether it may be thus disposed of by joint resolution, notwithstanding that that Act permits a disposal of such property by the Territory of Hawaii only by law; and, thirdly, whether under the circumstances of this case such public property may thus be given to a private individual.

I transmit this message in order that I may not be placed in a false light by signing the Joint Resolution and then contesting its validity.

WALTER F. FREAR,
Governor of Hawaii.

The Message was received and placed on file.

At 9:02 o'clock P. M., a Message (No. 17) from the Governor, submitting the nomination of Mr. James L. Young as a member of the Sanitary Commission of Honolulu, was received and read by the Clerk as follows:

To the Senate:

I hereby nominate for appointment with the advice and

consent of the Senate, as a member of the Sanitary Commission of Honolulu, James L. Young.

WALTER F. FREAR,
Governor of Hawaii.

Upon motion by Senator Judd, seconded by Senator Baker, the appointment was confirmed by the Senate.

HOUSE OF REPRESENTATIVES.

Honolulu, T. H., April 26, 1911.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—

I have the honor to inform your Honorable Body that the report of the Joint Conference Committee on House Bill No.

165 was this day adopted in the House of Representatives of the Territory of Hawaii.

Very respectfully yours,

EDWARD WOODWARD,
Clerk, House of Representatives.

The Communication was received and placed on file.

Senator Makekau presented a Report (No. 53) from the Joint Conference Committee on House Bill No. 165, recommending the passage of the Bill with certain amendments, as follows:

Honolulu, T. H., April 26, 1911.

Honorable H. L. Holstein,
Speaker, House of Representatives.

Honorable E. A. Knudsen,
President of the Senate.

Sirs:—

Your Special Joint Conference Committee, to which was referred House Bill No. 165, entitled "An Act to Amend Section 115 of the Revised Laws of Hawaii Relating to Holidays," begs leave to report as follows:

The Senate amended the bill in question so that lines 5, 6 and 7 of Section 1 read: "Whenever any of said holidays shall fall upon Sunday, all government offices shall remain closed on the Monday next following such Sunday;" while, as the bill originally passed in the House, this clause read: "Whenever any of said days shall fall upon Sunday, the Monday next following such day shall be a legal holiday."

Your Joint Conference Committee, after a full and free discussion and understanding of the matter in dispute, has agreed as follows:

The Senate recedes from its position in regard to said amendment; the House recedes from its position in regard to the clause above quoted.

This Joint Conference Committee has amended Section 1 so as to read as follows:

"Section 1. Section 115 of the Revised Laws of Hawaii is hereby amended by adding thereto the following:

"And any day appointed or recommended by the President of the United States as a day of thanksgiving, fasting or re-

ligious observance, or appointed by the Governor of the Territory as a holiday, shall be a Territorial holiday."

And as amended, recommends that the bill pass.

Respectfully submitted,

G. F. AFFONSO,
Chairman.

S. P. CORREA,
HENRY L. KAWEWEHI,
House Conferees.

R. H. MAKEKAU,
Chairman.
